INDEPENDENT AUDITOR'S REPORT

Board of Directors
Custom Interface, Inc. Employee Stock Ownership Plan and Trust
Bingen, Washington

Opinion

We have audited the financial statements of Custom Interface, Inc. Employee Stock Ownership Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Security Act of 1974 (ERISA). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the statements of changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

CUSTOM INTERFACE, INC.
EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Custom Interface, Inc. Employee Stock Ownership Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan's legal documents for a more complete description of the Plan's provisions.

General - Custom Interface, Inc. (the Company) established the Custom Interface, Inc. Employee Stock Ownership Plan and Trust effective as of January 1, 2009. The Plan has since been amended and operates, in relevant part, as an employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of ERISA. The Plan is administered by an Administrative Committee appointed by the Company's board of directors.

Plan Amendments and Freeze of Plan - In 2021, the Company elected to freeze the Plan to new participants and accrual of additional benefits, effective as of January 1, 2022 (the Freeze Date). This election freezes all future participation and prohibits future entry into the Plan for any additional participants. It ceases all employer contributions and benefit accruals under the Plan effective from the Freeze Date such that no future contribution allocations will be credited to participant accounts.

Eligibility - After an employee has attained age 18 and completed 1,000 hours of service, the employee becomes eligible to participate in the Plan. Entry is on the first day of the Plan year. Participants must have at least 1,000 hours of service during the year and be employed on the last day of the Plan year to share in an allocation of Company contributions for such year. Effective January 1, 2022, no new participants are eligible to participate in the Plan.

Contributions - The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted. The Company may make a discretionary contribution to be determined annually by the Board of Directors. There were no Company contributions during 2022. The Company contributed \$178,000 for the year ended December 31, 2021.

Participants' Accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of the Plan year with an allocation of the Company contributions, shares of the Company's common stock repurchased from participants who sold shares during the year and shares forfeited by non-vested terminated participants. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are generally based on participant's eligible compensation for the year relative to total eligible compensation of all participants. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Dividends - Cash dividends received on allocated shares of Company common stock are allocated to participants in proportion to each participant's Company stock account balances as of the beginning of the year.

Forfeitures - Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. There were no forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2022 and 2021.

Administrative Expenses - As provided in the Plan agreement, administrative expenses of the Plan may be paid either by the Plan or the Company. In 2022 and 2021, the Company paid all material Plan expenses. Certain expenses of Plan administration, including computer services, office supplies and payroll expenses of administration and clerical personnel are provided by the Company without charge to the Plan. Administrative expenses paid by the Plan are allocated pro-rata based on a participant's allocated cash balances.

Voting Rights - Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any unallocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Put Option - Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradeable on an established market, or is subject to trading regulations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Vesting - If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service commencing with their first year of service and are 100% vested after five years of service.

A year of vesting service is earned by working at least 1,000 hours in a year. Participants who attain normal retirement age, die or become disabled while still employed by the Company are vested 100%. In conjunction with the Freeze of the Plan all participants became 100% vested.

Payment of Benefits - No distributions from the Plan will be made until a participant retires, dies (in which case payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions shall be made entirely in cash. Any balance in the participant's account shall first be liquidated at fair market value within the Trust or by distribution in kind with immediate and simultaneous repurchase by the Plan.

The benefit payments of a participant, who terminates employment on account of death, disability, or attainment of normal retirement age, will commence no later than one year after the end of the Plan year in which the event occurred. If a participant terminates employment for reasons other than retirement, disability or death, the Company will commence payment no later than the end of the sixth Plan year following the year the participant terminates employment, provided the participant does not become re-employed within that time. For participants with vested balances not in excess of \$5,000, the benefit will be paid in one lump sum distribution. For participants with vested account balances greater than \$5,000, but less than \$935,000, the benefit distribution will be paid out in equal installments over a five-year period.

For vested account balances greater than \$935,000, one year will be added for each \$185,000, or a fraction thereof. Starting on January 1, 2018, those participants who have terminated employment due to death or die after termination are paid in a single lump sum.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The valuations of the Company's common stock held by the Plan as of December 31, 2022 and 2021 are significant estimates. These valuations are determined by independent appraisal, in the absence of a ready market for the Company's stock. Because of the inherent uncertainty of valuation, these independently appraised values may differ from the values that would be obtained from arms-length sales in a ready market, and those differences may be material.

Investment Valuation and Income Recognition - The Plan's investment in the Company's common stock is carried at fair value, as determined annually by independent appraisal. See Note 5 for a discussion of the fair value measurements. The appraised fair values were \$14.50 and \$12.20 per share as of December 31, 2022 and 2021, respectively. The change in value of this stock is recorded by the Plan as appreciation (depreciation) in fair value of investments. Unrealized appreciation (depreciation) of the investments is included in current operations and in net assets available for benefits. Purchases and sales of securities are recorded on a trade date basis.

Dividends are recorded when declared by the Company.

Payment of Benefits - Benefits are recorded when paid. Accordingly, benefits payable to participants who elected to withdraw from the Plan but are not yet paid at year-end have not been accrued. At December 31, 2022 and 2021, there were no amounts payable to participants.

Subsequent Events - The Plan's management has performed an evaluation of subsequent events through September 28, 2023, which is the date these financial statements were available to be issued.

NOTE 3 – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

On December 23, 2022, Congress passed the Consolidated Appropriations Act of 2023 which included SECURE Act 2.0. SECURE Act 2.0 contains 90 new retirement provisions, with varying effective dates through 2027. Since SECURE Act 2.0 provisions include both required and optional elements, the Plan administrator will determine the optional provisions to elect and amend the Plan document accordingly. Most of the significant provisions will become effective in 2024 and thereafter. Accordingly, there is no material impact to the Plan's 2022 financial statements.

NOTE 4 – INVESTMENTS

The Plan's investment in Custom Interface, Inc. common stock as of December 31 is as follows:

	2022	2021
Fair market value	\$ 524,924	\$ 597,800
Cost	\$ 1,203,636	\$ 1,629,141
Number of shares	36,202	49,000

NOTE 5 – FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Basis of Fair Value Measurement

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access at the measurement date.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Interest-bearing cash: Valued at cost, which approximates fair value.

Custom Interface, Inc. common stock: The Custom Interface, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Level 1	Level 2	Level 3	Total
December 31, 2022:				
Interest-bearing cash	\$ 8,013	\$ -	\$ -	\$ 8,013
Custom Interface, Inc. common stock	-	-	524,924	524,924
Total investments at fair value	<u>\$ 8,013</u>	<u>\$ -</u>	<u>\$ 524,924</u>	<u>\$ 532,937</u>
December 31, 2021:				
Interest-bearing cash	\$ 56,361	\$ -	\$ -	\$ 56,361
Custom Interface, Inc. common stock	-	-	597,800	597,800
Total investments at fair value	<u>\$ 56,361</u>	<u>\$ -</u>	<u>\$ 597,800</u>	<u>\$ 654,161</u>

Changes in Fair Value of Level 3 Assets

The Plan distributed 12,798 shares of Custom Interface, Inc. common stock valued at \$156,140 of the Plan's level 3 assets for the year ended December 31, 2022. There were no sales of Custom Interface, Inc. common stock by the Plan during the year ended December 31, 2021. There were no purchases of Custom Interface, Inc. common stock by the Plan during the years ended December 31, 2022 and 2021. The changes in the fair value of the Custom Interface Inc. common stock for the years ended December 31, 2022 and 2021, is attributable to gains of \$83,263 and losses of (\$29,400), respectively, for the years then ended that are included in changes in net assets attributable to the change in unrealized gain (loss) related to assets still held at the reporting date.

The Custom Interface, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the income, market and asset valuation techniques consistent with prior years as illustrated in the following table.

Investment	Fair Value – December 31, 2022	Fair Value – December 31, 2021	Principal Valuation Technique	Unobservable Inputs
Custom Interface, Inc. common stock	\$ 524,924	\$ 597,800	Income Market Asset	Weighted average cost of capital Long-term growth rate Minority, non-marketable value Public comparables EBITDA multiples Revenue multiples Book value of invested capital Book value of Custom Interface, Inc. equity Discount for lack of control

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan investments include shares of common stock of Custom Interface, Inc., the Plan sponsor, which are held by the Trustee. This is a related party and party-in-interest transaction. As described in Note 1, the Company pays substantially all the Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

NOTE 7 – CONCENTRATIONS, RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Market risks include global events which could impact the value of investment securities, such as pandemic or international conflict. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits. One investment represents significantly all of the investments as of December 31, 2022 and 2021. See the supplemental schedule of Assets (Held at End of Year) for the complete listing of investments held as of that date.

NOTE 8 – TAX STATUS

The Plan obtained its latest determination letter on February 16, 2017, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset), or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 – PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Employee Benefits Administration Committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent that it determines such a sale to be necessary in order to repay any outstanding loans. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRS. In the event of Plan termination, participants would become 100% vested in their accounts.
