Report of Independent Auditors

The Plan Administrator
ISMIE Mutual Insurance Company 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ISMIE Mutual Insurance Company 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in assets available for benefits for the years then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a

material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedule(s) Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2022 (referred to as the “supplemental schedule”) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ISMIE Mutual Insurance Company
401(k) Plan

Notes to Financial Statements

December 31, 2022

1. Description of the Plan

General

The ISMIE Mutual Insurance Company 401(k) Plan (the Plan) was established by Illinois State Medical Insurance Services, Inc. The Plan is a defined contribution plan that covers substantially all employees of ISMIE Mutual Insurance Company (ISMIE or the Employer) and provides for retirement benefits. All employees are eligible to participate in the Plan at the start of employment; however, employees are not eligible to receive employer non elective contributions until the first day of the month following completion of one year of service and attainment of age 21. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor. The plan administrator is responsible for the general administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Prudential Retirement Insurance and Annuity Company (Prudential Retirement) is the trustee and record-keeper and provides certain administrative services for the Plan. Certain transaction and commission fees are paid by the Plan. All remaining administrative expenses are paid directly by ISMIE.

Contributions

ISMIE may make discretionary contributions to the Plan. All employer contributions are allocated to participants based on the ratio of each participant's compensation to total compensation, as defined. In 2022 and 2021, ISMIE made discretionary contributions equal to 6% of participants' compensation. ISMIE does not make matching contributions. Participants are not required to make contributions in order to participate in the Plan; however, they may contribute up to 50% of their annual compensation, as defined by the plan document, to the Plan. All contributions are limited to amounts allowed under the Internal Revenue Code (the Code). Participant contributions and actual earnings thereon are fully vested and non forfeitable at all times, while employer contributions vest after three full years of employment, as defined by the Plan.

ISMIE Mutual Insurance Company
401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Employer and participant contributions are allocated to investment accounts as elected by the participant, which include mutual funds, separate accounts, a fully benefit-responsive investment contract, and self-directed brokerage accounts. Net earnings of a participant's account balance are based upon net earnings of the investments, including appreciation or depreciation in the fair value of the investments selected by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Rollover contributions from other qualified plans are allowed by the Plan.

Forfeitures

The Plan provides that the non-vested portion of a terminated participant's account will be forfeited and used to reduce future employer contributions. In 2022 and 2021, \$78,126 and \$8,780, respectively, of the forfeitures were used to reduce employer contributions. Included in the Prudential Guaranteed Income Fund at December 31, 2022 and 2021, was \$37,729 and \$78,340, respectively, in forfeitures that are available to offset future employer contributions.

Notes Receivable From Participants

Participants may obtain loans secured by their interest in their participant accounts. The amount borrowed cannot exceed the lesser of \$50,000 or 50% of the vested balance of the participant's account. Loan principal and interest must be repaid through payroll deductions within a five-year period unless the loan is for a home purchase. Only two loans may be outstanding at any time. The loans are secured by the balance in the participant's account and bear interest commensurate with local prevailing rates at the date of issuance as determined by the plan administrator.

Benefits

Upon separation of service with ISMIE due to death, disability, retirement, or termination, payment of benefits to participants, at the election of each participant, may be made by the purchase of an annuity, lump-sum distribution, or installment payments.

ISMIE Mutual Insurance Company
401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS), and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Termination of the Plan

Although it has not expressed any intent to do so, ISMIE has the right to amend or terminate the Plan, subject to the provisions of ERISA; however, no amendment or termination can cause any of the Plan's assets to be returned to ISMIE. In the event of a complete discontinuance of contributions to the Plan, participants will become 100% vested in their accounts.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or ISMIE as provided by the Plan's provisions. Administrative expenses paid by the Plan include recordkeeping and trustee fees. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses of the Plan are paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements.

Other

A summary plan description, which contains information about the Plan, including vesting and benefit provisions, is provided to all participants in the Plan and is available from ISMIE's human resources department.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

The Plan's investments (except for the investment contract) are stated at fair value. Refer to Note 4 for additional discussion on mutual funds and participation units owned by the Plan in pooled separate accounts.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses was deemed necessary as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Notes to Financial Statements (continued)

3. Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements, notes to the financial statements, and supplemental schedule, including investments held and notes receivable from participants at December 31, 2022 and 2021, and net appreciation (depreciation) in fair value of investments, interest, dividends, and interest income on notes receivable from participants for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Prudential Retirement, the custodian, and Prudential Bank & Trust, F.S.B., the trustee.

4. Fair Value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- *Level 1* – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical financial instruments.
- *Level 2* – Inputs other than quoted prices in active markets for identical financial instruments that are observable, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar financial instruments in active markets.
 - Quoted prices for identical or similar financial instruments in markets that are not active.
 - Observable inputs other than quoted prices that are used in the valuation of the financial instrument.
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

ISMIE Mutual Insurance Company
401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value (continued)

- *Level 3* – Unobservable inputs for the financial instrument (i.e., supported by little or no market activity). Level 3 inputs include management’s own assumptions about the assumptions that market participants would use in pricing the financial instrument (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety.

The following tables set forth by level, within the fair value hierarchy, the Plan’s general type of assets carried at fair value:

	Level 1	Level 2	Level 3	Fair Value
At December 31, 2022				
Mutual funds ^(a)	\$ 43,880,751	\$ –	\$ –	\$ 43,880,751

ISMIE Mutual Insurance Company
401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value (continued)

- ^(a) This category includes mutual funds with investments in a mix of growth, appreciation, income, and index equity funds. The fair values of the investments in this category have been estimated using the net asset value (NAV) per share. According to the contractual terms of these mutual funds, any transfer, distribution, or disbursement may be delayed for a period of up to 30 days if there is a negative cash flow into the account from all holders on the date of the request.
- ^(b) This category includes pooled separate accounts with investments in diversified funds designed to achieve long-term capital growth consistent with preservation of capital and balanced by current income. These investments contain a mix of equities, fixed-income securities, and cash. The fair values of the investments in this category have been estimated using the NAV per share. According to the contractual terms of these pooled separate accounts, any transfer, distribution, or disbursement may be delayed for a period of up to 30 days if there is a negative cash flow into the account from all holders on the date of the request.

The Plan's investments in self-directed brokerage accounts are reported at fair value. The Plan's mutual funds and insurance company separate accounts are valued at NAV. The Plan's Level 1 securities consist of mutual funds and assets in the self-directed brokerage account, which are valued at quoted prices in active markets on the last day of the plan year. The Plan's Level 2 securities consist of insurance company separate accounts, which are valued based on the NAV of units held on a daily basis as reported by the investment manager. Management reviews the valuation methodologies used by the pricing services on an ongoing basis and ensures that any valuation methodologies are justified. There have been no changes to the valuation methodologies in the current year.

When a determination is made to classify an asset or a liability within Level 3 of the fair value hierarchy, the determination is based upon the significance of the unobservable inputs to the overall fair value measurement. Certain securities trade in less liquid markets with limited or no pricing information, and the determination of fair value for these securities is inherently more difficult. The Plan does not have any Level 3 investments at December 31, 2022 or 2021.

There were no transfers between levels in 2022 or 2021.

ISMIE Mutual Insurance Company
401(k) Plan

Notes to Financial Statements (continued)

5. Fully Benefit-Responsive Investment Contract

The Prudential Retirement Guaranteed Income Fund (Contract # GA-36552), which is the investment contract on the statements of assets available for benefits, is a fully benefit-responsive investment contract with Prudential Retirement considered to be an evergreen (no maturity date) group annuity contract. The investment contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. In addition, the investment contract is supported by the general assets of Prudential Retirement and does not have pre defined cash flows, maturity dates, or a singular interest crediting rate from inception through discontinuance.

Contract value is the relevant measurement attribute for that portion of assets available for benefits attributable to the contract because this is the amount receivable by participants if they were to initiate permitted transfers under the terms of the Plan. Contract value, as reported to the Plan by Prudential Retirement, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are allowances for loss deemed necessary against contract value for credit risk of the contract issuer or otherwise.

The investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. Prudential Retirement declares interest crediting rates in advance of each contract's specified guarantee period and guarantees that crediting rate for the guarantee period. Interest crediting rates are not formula-based, but rather determined based on multiple factors. The contract includes a provision that the crediting rate will not fall below 0%. There are no events that allow the issuer to terminate the contract or that require the plan sponsor to settle at an amount different from contract value paid, either within 90 days or over time.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuers' ability to meet their financial obligations. The issuers' ability to meet their contractual obligations may be affected by future economic and regulatory developments.

ISMIE Mutual Insurance Company
401(k) Plan

Notes to Financial Statements (continued)

5. Fully Benefit-Responsive Investment Contract (continued)

Certain events might limit the ability of the Plan to transact at contract value with the contract issuers. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Code or the failure of the trust to be tax-exempt under Section 501(a) of the Code
- Premature termination of the contracts
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuers to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer

No events are probable of occurring that would allow issuers to terminate or settle the fully benefit-responsive investment contract.

ISMIE Mutual Insurance Company
401(k) Plan

Notes to Financial Statements (continued)

6. Income Tax Status

The underlying pre approved plan has received an opinion letter from the IRS dated July 13, 2021, stating that the form of the plan is qualified under Section 401 of the Code, and, therefore, the related trust is tax-exempt. The plan administrator has determined that it is eligible to, and has chosen to, rely on the current IRS volume submitter advisory letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of assets available for benefits.

8. Related-Party and Party-in-Interest Transactions

The Plan holds an investment contract and units of pooled separate accounts managed by Prudential Retirement, the custodian of the Plan. The Plan pays management and investment advisory fees to an affiliate of the custodian for services related to the investment contract and the separate accounts. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

ISMIE Mutual Insurance Company
401(k) Plan

Notes to Financial Statements (continued)

9. Subsequent Events

Plan management has evaluated all events occurring after December 31, 2022 through September 29, 2023, the date the accompanying financial statements were available to be issued, to determine whether any event required either recognition or disclosure in the financial statements. No material subsequent events were noted.

EY | Building a better working world

EY exists to build a better working world, helping to create long-term value for clients, people and society and build trust in the capital markets.

Enabled by data and technology, diverse EY teams in over 150 countries provide trust through assurance and help clients grow, transform and operate.

Working across assurance, consulting, law, strategy, tax and transactions, EY teams ask better questions to find new answers for the complex issues facing our world today.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. Information about how EY collects and uses personal data and a description of the rights individuals have under data protection legislation are available via ey.com/privacy. EY member firms do not practice law where prohibited by local laws. For more information about our organization, please visit ey.com.
