INDEPENDENT AUDITORS' REPORT

The Board of Trustees of
Village Community School
as Plan Administrator for the
Village Community School 403(b) Defined Contribution Plan
and Plan Participants

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Village Community School 403(b) Defined Contribution Plan (formerly known as Village Community School 403(b) Tax Deferred Annuity Plan) (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("U.S. GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

VILLAGE COMMUNITY SCHOOL 403(b) DEFINED CONTRIBUTION PLAN

(Formerly known as Village Community School 403(b) Tax Deferred Annuity Plan)

Notes to Financial Statements December 31, 2022 and 2021

NOTE A - DESCRIPTION OF THE PLAN

The following description of Village Community School 403(b) Defined Contribution Plan (formerly known as Village Community School 403(b) Tax Deferred Annuity Plan) (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was last restated effective January 1, 2022.

[1] General:

The Plan is a defined contribution plan designed to meet the requirements of Section 403(b) of the Internal Revenue Code (the "Code") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan covers all eligible employees of the School. TIAA and CREF are the insurance companies for the Plan's non-mutual fund investments and TIAA, FSB is the custodian for the remaining portion of the Plan's investments (mutual funds). TIAA is the Plan's record-keeper. The Plan administrator controls and manages the operation and administration of the Plan.

[2] Eligibility for participation:

Elective deferrals: Employees are eligible to participate in the Plan immediately following their date of hire. However, certain employees may be excluded from participation if they fall within the specific categories listed in the Plan agreement.

Employer contributions: Effective January 1, 2022, the Plan was amended to allow for an employer discretionary contribution to the Plan after completion of two required years of service. Effective July 1, 2022, the Plan was amended to allow for an employer discretionary contribution to the Plan after completion of one require year of service.

[3] Contributions:

Elective deferrals: Participants may elect to contribute, as a pre-tax or a Roth deferral, a certain percentage of their annual eligible compensation, subject to limitations as provided in the Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover contribution amounts representing distributions from other qualified defined-benefit or defined-contribution plans.

Employer contributions: Effective January 1, 2022, the Plan was amended to allow for an employer discretionary contribution to the Plan after completion of two required years of service. Effective July 1, 2022, the Plan was amended to allow for an employer discretionary contribution to the Plan after completion of one require year of service. During 2022, the employer contributed 4.5% of a participant's eligible compensation for participants who had one year of required service and contributed 9% of a participant's eligible compensation who had two years of required service.

[4] Participant accounts:

The activity in each participant's account includes the participant's contributions, benefit payments or withdrawals, allocations of the earnings or losses on Plan assets and may be charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

[5] Vesting:

Participants are vested in all contributions, plus actual earnings thereon, immediately when made. Effective January 1, 2022, employer contributions are vested immediately when made.

VILLAGE COMMUNITY SCHOOL 403(b) DEFINED CONTRIBUTION PLAN

(Formerly known as Village Community School 403(b) Tax Deferred Annuity Plan)

Notes to Financial Statements

December 31, 2022 and 2021

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[6] Payment of benefits:

Upon termination of service due to retirement, disability, or death, a participant (or a beneficiary) is entitled to receive either (i) a lump-sum payment, (ii) a partial payment, (iii) a series of installment payments, or (iv) an annuity contract in an amount equal to the total value of his or her account as of the most recent valuation date. For termination of service where the value of the participant's account is \$5,000 or less, a participant receives the value of his or her account as a lump-sum distribution, as of the most recent valuation date. In-service distributions may also be made to a participant who has not separated from service provided the participant either meets the age condition or satisfies the disability requirement. The Plan also allows for hardship withdrawals providing the participant meets certain criteria as defined by the Plan.

[7] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of Wall Street Journal's published prime plus 1%. Interest rates on outstanding loan balances range from 4.25% to 6.5% at December 31, 2022. There were no notes receivable from participants for such loans as of December 31, 2021. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred.

[8] Plan loans:

Effective October 15, 2019, participants may no longer borrow from TIAA and use a portion of their Plan account balance (invested in the TIAA Traditional Annuity) as collateral for the loan. Effective January 1, 2022, the Plan provides for participant loans.

Participants may borrow from TIAA, the insurance company, and use a portion of their Plan account balance as collateral for the loan. The collateral is held in the participant's TIAA Traditional Annuity account. The collateral must be 110% of the loan, and payments on the loan are made outside of the Plan. As of December 31, 2022 and 2021, approximately \$3,000 and \$5,000, respectively, of Plan assets were pledged as collateral for such loans made by the insurance company. Participants may borrow up to a maximum equal to the lesser of \$50,000 or 45% of his or her vested account balance, subject to annuity contract and Plan provisions. Loan terms range from one to five years in one-year increments; however, terms may exceed five years for the purchase of the participant's primary residence, as defined. Interest rates on outstanding loan amounts ranged from 4.00%-4.67% during 2022 and was 4% during 2021.

In the event of default by a Plan participant, TIAA will collect any unpaid loan balance directly from Plan assets, and this collection will be treated as a distribution of assets to the participant. During the years ended December 31, 2022 and 2021, no Plan assets were distributed to TIAA due to loan defaults.

[9] Plan termination:

Although it has not expressed any intent to do so, the School has the right under the Plan agreement to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

VILLAGE COMMUNITY SCHOOL 403(b) DEFINED CONTRIBUTION PLAN

(Formerly known as Village Community School 403(b) Tax Deferred Annuity Plan)

Notes to Financial Statements

December 31, 2022 and 2021

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements are prepared using the accrual method of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of the defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

[2] Investment valuation and income recognition:

The Plan's investments are reported at fair-value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements. Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in value of investments includes the Plan's gains and losses on investments bought and sold, as well as those held during the year.

Participants may direct their contributions into any of four investment alternatives: (i) a fixed annuity contract, (ii) a pooled separate account, (iii) variable annuity contracts, and (iv) mutual funds (see Notes D and E for further discussions concerning each of these investment alternatives).

[3] Payment of benefits:

Benefits are recorded when paid.

[4] Plan expenses:

Substantially all expenses, with the exception of fees related to notes receivable from participants and distribution fees which are net with the distribution amount, incurred in connection with the administration of the Plan were paid by the School. Expenses that were paid by the School are excluded from these financial statements.

[5] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

[6] Tax status:

The Plan operates under an ERISA 403(b) Volume Submitter Plan sponsored by TIAA and is a tax-deferred annuity plan subject to the provisions of ERISA. TIAA received an advisory opinion from the Internal Revenue Service ("IRS") dated August 7, 2018, stating that the form of the Plan is acceptable under Section 403(b) of the Code. The Plan has been amended and restated since receiving the letter. However, the Plan administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b), and therefore believes that the related custodial accounts and tax-deferred annuities are tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

VILLAGE COMMUNITY SCHOOL 403(b) DEFINED CONTRIBUTION PLAN

(Formerly known as Village Community School 403(b) Tax Deferred Annuity Plan)

Notes to Financial Statements December 31, 2022 and 2021

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[6] Tax status: (continued)

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by a government authority. The School, as Plan administrator, has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2022 and 2021, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

[7] Subsequent events:

The Plan has evaluated subsequent events through September 13, 2023, the date at which the financial statements were available to be issued.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, TIAA, CREF and TIAA and CREF on behalf of TIAA, FSB with respect only to the Plan's investments held by TIAA, FSB as directed trustee or custodian and record-keeper by TIAA, FSB have certified the completeness and accuracy of all investments and related investment activity in the statements of net assets available for benefits as of December 31, 2022 and 2021, the statement of changes in net assets available for the year ended December 31, 2022, and the supplemental schedule of assets (held at end of year) as of December 31, 2022.

NOTE D - INVESTMENTS AND FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements*, provides the framework for measuring fair value. The framework provides a fair-value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair-value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

December 31, 2022 and 2021

NOTE D - INVESTMENTS AND FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during Plan years 2022 and 2021.

TIAA Real Estate Account – The TIAA Real Estate Account is a pooled separate account/insurance company separate account. This is a variable annuity product valued at net asset value (“NAV”) per accumulation unit, as a practical expedient to measure fair value, based on the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally utilizing external appraisals, which are estimates of property values based on the assessment of specialists and reported by TIAA. The TIAA Real Estate Account sometimes holds securities as well, and these are generally priced using values obtained from independent pricing sources. Transactions out are limited to one per calendar quarter. There are no unfunded commitments or plan level redemption restrictions. The TIAA General Account provides the Real Estate Account with a liquidity guarantee.

CREF Accounts – CREF Accounts are variable annuity accounts. Each CREF Account is a separate portfolio with its own investment objective and strategies. Investments in a CREF Account enable a unit holder to acquire units whose accumulation unit value, or NAV used as a practical expedient to measure fair value, is calculated each business day. The value of a unit holder’s investment rises and falls with the returns on the underlying assets. The Accounts invest principally in equity securities, fixed income instruments and short-term investments in accordance with each portfolio’s investment objectives.

Account investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing. There are no restrictions on transactions out. Participants will be locked out of a CREF Account for 90 days if a purchase, sale, and repurchase within that account is made within a 60-day period. There are no unfunded commitments or plan level redemption restrictions.

CREF Money Market Account – The CREF Money Market Account’s portfolio securities are valued using their amortized cost. This valuation method does not factor in unrealized gains or losses on the account’s portfolio securities. Amortized cost valuation involves first valuing a security at its cost, and thereafter assuming a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the security’s market value.

Accumulation units in CREF accounts are transacted at the accumulation unit value. There are no restrictions on transactions out. Participants will be locked out of a CREF Account for 90 days if a purchase, sale, and repurchase within that account is made within a 60-day period, other than for the CREF Money Market Account. There are no unfunded commitments or plan level redemption restrictions.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission (“SEC”). These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair-value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair-value measurement at the reporting date.

	<u>\$ 3,247,544</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 7,147,195</u>

- (A) Certain investments that are measured at fair value using the NAV per share (or its equivalent unit) as a practical expedient have not been classified in the fair-value hierarchy. The fair-value amounts presented in these tables are intended to permit reconciliation of the fair-value hierarchy to the amounts presented in the statements of net assets available for benefits.
- (B) The strategy for each of these investments is described below and generally embedded in the name of the particular account as shown on the supplemental schedule of assets (held at end of year).

The CREF Stock Account seeks a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks. Under normal circumstances, the account invests at least 80% of its assets in equity securities of foreign and domestic companies.

The CREF Social Choice Account seeks a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria. The account is balanced, with assets divided between domestic and foreign stocks and other equities (about 60%) and bonds and other fixed-income securities, including money market instruments (about 40%). The account invests only in companies that are suitable from a financial perspective and whose activities are consistent with certain environmental, social and governance criteria.

The CREF Bond Market Account seeks a favorable long-term rate of return, primarily through high current income consistent with preserving capital. Under normal circumstances, the account invests at least 80% of its assets in a broad range of fixed-income securities. The majority of the accounts assets are invested in U.S. treasury and other governmental agency securities, corporate bonds and mortgage-backed or other asset-backed securities.

VILLAGE COMMUNITY SCHOOL 403(b) DEFINED CONTRIBUTION PLAN

(Formerly known as Village Community School 403(b) Tax Deferred Annuity Plan)

Notes to Financial Statements

December 31, 2022 and 2021

NOTE D - INVESTMENTS AND FAIR VALUE MEASUREMENTS (CONTINUED)

The CREF Global Equities Account seeks a favorable long-term rate of return through capital appreciation and income from a broadly diversified portfolio that consists primarily of foreign and domestic common stocks. Under normal circumstances, the account invests at least 80% of its assets in equity securities of foreign and domestic companies.

The CREF Growth Account seeks a favorable long-term rate of return, mainly through capital appreciation, primarily from a diversified portfolio of common stocks that present the opportunity for exceptional growth. Under normal circumstances, the account invests at least 80% of its assets in common stocks and other equity securities. The account invests primarily in large, well-known, established companies, particularly those with new or innovative products, services or processes that may enhance future earnings prospects.

The CREF Equity Index Account seeks a favorable long-term rate of return from a diversified portfolio selected to track the overall market for common stocks publicly traded in the United States, as represented by a broad stock market index. The account buys most, but not necessarily all, of the securities in its benchmark, the Russell 3000® Index, and will attempt to create a portfolio that closely matches the overall investment characteristics of this index.

The CREF Inflation-Linked Bond Account seeks a long-term rate of return that outpaces inflation, primarily through investments in inflation-indexed bonds, fixed-income securities whose returns are designed to track a specified inflation index over the life of the bond. Under normal circumstances, the account invests at least 80% of its assets in U.S. Treasury inflation-indexed securities.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair-value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

NOTE E - INVESTMENTS AT CONTRACT VALUE

TIAA Traditional Annuity – The TIAA Traditional Annuity is a fixed-rate annuity contract that is fully and unconditionally guaranteed by TIAA. The guarantees and returns of the TIAA Traditional Annuity are backed by TIAA's claims-paying ability. Liquidity restrictions apply to the TIAA Traditional Annuity under certain types of annuity contracts. The TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest (generally 3%, or for Retirement Choice Plus ("RCP"), between 1% and 3%), and the potential for additional interest if declared by TIAA.

Additional interest, when declared, remains in effect for the "declaration year," which begins each March 1st. Additional interest is not guaranteed for future years. Contributions to a participant's account purchase a guaranteed amount of lifetime annuity income. When a participant's account in the TIAA Traditional is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan. The TIAA Traditional Annuity is fully benefit-responsive and is reported at contract value. The contract value equals the accumulated cash contributions, interest credited to the contracts, and transfers, if any, less any withdrawals and transfers. The TIAA Traditional Annuity is not available for sale or transfer on any securities exchange.

The TIAA Traditional Annuity within the Supplemental Retirement Annuity ("SRA"), Group Supplemental Retirement Annuity ("GSRA"), and RCP contracts have no liquidity restrictions.

The NOTE E - INVESTMENTS AT CONTRACT VALUE (CONTINUED)

Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory development.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Code or the failure of the trust to be tax-exempt under Section 501(a) of the Code.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

NOTE F - RISKS AND UNCERTAINTIES

The Plan's investments are included in various investment alternatives made available by TIAA, CREF and TIAA, FSB. The investments are exposed to various risks, such as interest-rate, market, credit, liquidity and market-perception risks, as well as risks related to the financial strength of the insurance companies. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of the investments at December 31, 2022 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE G - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Substantial portions of the Plan's investments are fixed and variable annuity contracts and a pooled separate account, which are sponsored by TIAA and CREF, and mutual funds with TIAA, FSB. TIAA is the Plan's record-keeper, TIAA and CREF are the Plan's insurance companies, and TIAA, FSB is the Plan's custodian of mutual fund investments. Therefore, transactions related to these investments qualify as party-in-interest transactions. As service providers to the Plan, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to these service providers were \$3,725 for the year ended December 31, 2022.

NOTE H - MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or Section 12b-1 fees, which are ongoing fees allowable under the Investment Company Act of 1940, and are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and they are therefore not separately identifiable as expenses.
