COMMUNICATION WITH MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE

YEAR ENDED DECEMBER 31, 2022

September 28, 2023

Board of Directors of Franziska Racker Centers, Inc.
and the Plan Administrative Committee of
the 403(b) Thrift Plan of Franziska Racker Centers, Inc.

To the Board of Directors and Plan Administrative Committee:

We have audited the financial statements of the 403(b) Thrift Plan of Franziska Racker Centers, Inc., an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit] for the year ended December 31, 2022, and we will issue our report thereon dated September 28, 2023. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by TIAA-CREF and Mutual of America Life Insurance Company, the insurance carriers, which are banks or similar institutions or insurance carriers that are regulated, supervised, and subject to periodic examination by a state or federal agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedules, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP. Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 31, 2023. Professional standards also require that we communicate to you the following information related to our audit.

This information is intended solely for the use of the Board of Directors of Franziska Racker Centers, Inc. and the Plan Administrative Committee of the 403(b) Thrift Plan of Franziska Racker Centers, Inc. and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

QUALITATIVE ASPECTS OF ACCOUNTING PRACTICES

ACCOUNTING POLICIES

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the 403(b) Thrift Plan of Franziska Racker Centers, Inc. are described in Note B to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended December 31, 2022. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

SIGNIFICANT ESTIMATES

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

- Management's estimate of the fair value of the level 3 investment, which is based on certified information from the insurance carrier. We evaluated the key factors and assumptions used to develop the estimate of the fair value of the level 3 investment in determining that it is reasonable in relation to the financial statements taken as a whole.

NOTE DISCLOSURES

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was:

- The disclosure of Fair Value Measurements in Note D to the financial statements, which includes additional required disclosures for the level 3 investment. Information in the disclosures is based on information provided by the insurance carrier (all investment values were certified). We evaluated key factors and assumptions used to develop the disclosures.

The financial statement disclosures are neutral, consistent, and clear.

CORRECTED AND UNCORRECTED MISSTATEMENTS

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

OTHER REQUIRED COMMUNICATIONS

FORM 5500 PROCEDURES

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

DIFFICULTIES ENCOUNTERED IN PERFORMING THE AUDIT

We encountered no significant difficulties in dealing with management in performing and completing our audit.

DISAGREEMENTS WITH MANAGEMENT

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

MANAGEMENT REPRESENTATIONS

We have requested certain representations from management that are included in the management representation letter dated September 28, 2023.

MANAGEMENT CONSULTATIONS WITH OTHER INDEPENDENT ACCOUNTANTS

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

OTHER MATTERS

With respect to the ERISA-required supplemental schedules accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the ERISA-required supplemental schedules to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

REPORTABLE FINDINGS

For purposes of this letter, a reportable finding is a matter that includes one or more of the following: (1) noncompliance or suspected noncompliance with laws and regulations, (2) a finding that in our professional judgment is significant and relevant to you regarding your responsibility to oversee the financial reporting process, and (3) an indication of internal control deficiencies identified during the audit that have not been previously communicated to management by other parties and that we determined are sufficiently important to merit management's attention. We identified the following reportable findings:

During our fieldwork, we noted the following:

1. Required Minimum Distributions (RMDs)

We noted four participants on TIAA's Minimum Distribution Monitoring Report for the period ending 12/31/2022 who were aged at least 72 (70.5 for those born before June 30, 1949), terminated, and had a vested account balance that did not take any distributions during the 2022 plan year when they qualified for RMDs.

Recommendation: We recommend reviewing the current policy on addressing required minimum distributions, and revise if appropriate.

2. Eligibility

We noted that there was no opt-out form available for one participant that was eligible during the plan year but not contributing.

Recommendation: We recommend confirming with the participant that they did not want to contribute and documenting their response.

4. Participant Data

One participant's personnel file had a Date of Termination that was different than what was listed by Mutual of America.

Recommendation: We recommend reviewing participants' personnel files to determine whether the Dates of Termination listed by Mutual of America are correct.

Note: Prior year recommendations have either been addressed or updated and included in the current year recommendations above.

NEW PRONOUNCEMENTS

SECURE ACT 2.0

On December 23, 2022, Congress passed the Consolidated Appropriations Act of 2023 which included SECURE Act 2.0. SECURE Act 2.0 contains over 90 new retirement provisions, with varying effective dates through 2027. Since SECURE Act 2.0 provisions include both required and optional elements, the

plan administrator should determine which optional provisions to elect and amend the Plan document accordingly.

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
the 403(b) Thrift Plan of Franziska Racker Centers, Inc.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the 403(b) Thrift Plan of Franziska Racker Centers, Inc., an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the 403(b) Thrift Plan of Franziska Racker Centers, Inc.'s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis for Disclaimer of Opinion

As described in Note B, the Plan administrator has elected to exclude certain annuity and custodial accounts, issued to current and former employees before January 1, 2009, from the accompanying financial statements, in accordance with the provisions of the Department of

Labor's Field Assistance Bulletin No. 2009-02. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the 403(b) Thrift Plan of Franziska Racker Centers, Inc.'s ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Aside from the matter described in the Basis for Disclaimer of Opinion section and except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the 403(b) Thrift Plan of Franziska Racker Centers, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the 403(b) Thrift Plan of Franziska Racker Centers, Inc.'s ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of Form 5500 Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

403(B) THRIFT PLAN OF FRANZISKA RACKER CENTERS, INC.

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2022 AND 2021

A. Description of the Plan:

The following description of the 403(b) Thrift Plan of Franziska Racker Centers, Inc. (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a 403(b) defined contribution plan covering substantially all employees of Franziska Racker Centers, Inc. (the Organization). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Organization's Board of Directors oversees governance of the Plan. The Organization's Finance Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board of Directors.

Contributions: An employee is eligible to participate in the elective deferral feature of the Plan immediately upon employment. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate set at 1% of eligible compensation. Contributions are automatically invested in a Qualified Default Investment Alternative (QDIA) until and unless changed by the participant. Participants may elect to contribute at least 1% but no more than 100% of annual compensation, as defined in the Plan and subject to limits determined by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants employed at least 15 years with the Organization are also eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants may direct the investment of their contributions into various insurance contract investment options offered by the Plan through Mutual of America Life Insurance Company.

The Organization has the option to make employer discretionary matching contributions, which participants are eligible for after two years of credited service, as defined in the Plan. For 2022 and 2021, the Organization elected to match 100% of employee elective deferrals, up to 3% of eligible compensation. Additional employer discretionary contributions may be contributed to all eligible participants at the option of the Board of Directors. There were no additional discretionary employer contributions made to the Plan for 2022 or 2021.

Contributions are subject to limitations determined by the Internal Revenue Service.

Participant Accounts: All funds held on behalf of a participant under the Plan are invested in one or more contracts in accordance with the terms of those contracts and the participant's directions. The issuer of each contract maintains individual accounts reflecting the funds allocated on behalf of each participant who has invested in that contract. Each individual account reflects (a) the total amount of contributions, transfers and other additions that are allocated to such account and the earnings thereon, (b) any payments or withdrawals on the participant's behalf from such accounts, and (c) any

expenses of such accounts attributable to the participant's interest therein. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all contributions plus actual earnings thereon.

Forfeited Accounts: There are no forfeited accounts, as participants are immediately 100% vested in all contributions and earnings.

Plan Loans:

TIAA accounts: Participants may borrow a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 45% of his or her TIAA Traditional annuity account balance subject to contract and Plan provisions. Loans from certain specific investments may be further limited per the annuity contracts. Loan terms range from one to five years in one-year increments (up to 10 years for the purchase of the participant's primary residence). The loan interest rate for these Plan loans may be fixed or variable and the initial rate is determined by the terms of the controlling contract, as are the rate adjustment details and frequency. Principal and interest is paid ratably by the participant to TIAA, and each payment reduces amounts collateralized by the participant's TIAA Traditional account balance.

Mutual of America accounts: Group Annuity Loans are available to participants. Participants may borrow a minimum of \$1,000, and up to a maximum equal to the lesser of (1) \$50,000 reduced by the excess (if any) of the highest outstanding balance of loans during the one year period ending on the day before the loan is made, over the outstanding balance of loans from the Plan on the date the loan is made, or (2) 50% of the present value of the nonforfeitable account of the participant. Loans must be authorized by the individual investment contracts. Loans are secured by a pledge of the borrower's accounts. Loan terms range from one to five years in one-year increments (up to 10 years for the purchase of the participant's primary residence). Loans must bear a reasonable interest rate, which is determined by Mutual of America Life Insurance Company quarterly. Principal and interest must be repaid in amortized, level payments not less frequently than quarterly.

Payment of Benefits:

TIAA accounts: Upon termination of service, death, disability, or attainment of age 59½, participants with an account balance exceeding \$1,000 may request that the vested portion of their account be paid to them in one or more of the following forms of payment, as specified in the adoption agreement and to the extent permitted by the participant's individual agreements: (1) lump-sum, (2) partial payments, (3) installment payments over a period not to exceed the life expectancy of the participant or the joint and last survivor life expectancy for the participant and their designated beneficiary, or (4) purchase of an annuity contract. Participants who experience a distribution event with account balances under \$1,000 will be paid a lump sum distribution. Hardship withdrawals are also permitted under the Plan.

Mutual of America accounts: Participants may withdraw funds from their accounts upon severance of employment, death, disability, or attainment of age 59½. Upon termination

of employment, participants with a vested balance exceeding \$1,000 may elect to withdraw all or part of their vested account in a single sum, or defer receipt of the benefit. Participants with a vested balance of \$1,000 or less will receive a single-sum payment upon termination of employment. Upon retirement, participants may elect to purchase a uniform monthly annuity, receive a lump sum payment, or receive payments in another form as permitted by their contracts. Hardship withdrawals are also permitted under the Plan.

B. Significant Accounting Policies:

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Organization's Investment Committee, Finance Committee, and Plan management determine the Plan's valuation policies, utilizing information provided by the insurance carriers. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Loans:

TIAA accounts: Plan loans are issued as separate contracts by TIAA as contemplated under IRC section 72(p)(5) and do not represent Plan assets. Loans are collateralized using a participant's TIAA Traditional account balance in an amount equal to 110% of the outstanding loan balance. Principal and interest are paid ratably by the participant to TIAA and each payment reduces amounts collateralized by the borrowing participant's TIAA Traditional account balance. If an employee stops making payments as required under the terms of the Plan loan agreement, the loan will go into default at the end of the quarter following the quarter that the loan payments stopped. The default generates a taxable event and is reported to the Internal Revenue Service. The collateral associated with defaulted Plan loans is reported in the Plan Loan Default Fund. Plan loans outstanding totaled \$70,539 and \$84,121 as of December 31, 2022 and 2021,

respectively. The amount of Plan assets pledged as collateral for outstanding Plan loans was \$77,593 and \$92,533 as of December 31, 2022 and 2021, respectively.

Mutual of America accounts: For Group Annuity Loans, the amount borrowed plus a loan reserve (20% of the loan amount) is secured against the Mutual of America Interest Accumulation Account (IAA), the general account investment. The funds are not deducted from the participant's account balance and, therefore do not appear as a separate Plan asset. Loan proceeds are distributed from Mutual of America Life Insurance Company's general assets. Principal repayments are applied to reduce the amount secured by assets held in the IAA and a portion of the interest paid by the participant is retained by Mutual of America Life Insurance Company as compensation. The interest rate is variable and subject to change at the beginning of each quarter. If a participant defaults on a Plan loan, the value of his accounts pledged as security for that loan shall be reduced by his outstanding loan balance plus interest. This reduction shall not occur before the earliest date that the borrower is entitled to a distribution from the Plan. If the loan is uncollectible and a deemed distribution occurs, the default generates a taxable event and is reported to the Internal Revenue Service. Plan loans outstanding totaled \$239,014 and \$178,754 as of December 31, 2022 and 2021, respectively. The amount of Plan assets pledged as collateral for outstanding Plan loans was \$286,849 and \$214,505 as of December 31, 2022 and 2021, respectively.

Payment of Benefits: Benefits are recorded when paid.

Expenses: Certain fees related to Plan administration, including a monthly participant charge, loan fees and other transaction fees, are charged directly to participant accounts and are included in the financial statements. Investment-related fees and expenses are included in net appreciation of the fair value of investments. Certain other expenses of maintaining the Plan are paid directly by the Organization and are excluded from these financial statements.

Pre-2009 Excluded Annuity Contracts: As permitted by the provisions of the Department of Labor's Field Assistance Bulletin No. 2009-02, the Plan administrator has elected to exclude certain contracts from Plan assets and they are not covered by the audit. These accounts were issued to current and former employees of the Organization before January 1, 2009. Prior to November 21, 2000, the Organization maintained accounts with several insurance carriers, but there have been no contributions to these accounts since November 21, 2000. The total value of these contracts was approximately \$872,620 and \$1,057,174 as of December 31, 2022 and 2021, respectively.

C. Certified Investments (Unaudited):

The December 31, 2022 and 2021 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the years then ended, the accompanying notes to the financial statements, and the supplementary schedule, Form 5500, Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) were prepared in part or entirely from information certified by the insurance carriers, TIAA, CREF, and Mutual of America Life Insurance Company, as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The information certified includes total investments of \$29,913,989 and \$34,221,008 as of

December 31, 2022 and 2021, respectively; and related investment (loss) income of \$(4,437,443) and \$3,945,359 for the years ended December 31, 2022 and 2021, respectively.

D. Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodologies are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Insurance Company General Accounts:

Mutual of America Interest Accumulation Fund:

The general account investment is carried at amortized cost, or contract value, which is deemed to approximate fair value. As such, the general account investment is reported at fair value. The interest is compounded daily based on the stated interest rate, and the investment is valued daily.

TIAA Traditional Annuity (Non-benefit responsive):

The TIAA Traditional Annuity, a fixed-rate annuity contract, is reported at contract value, which approximates fair value. As such, the TIAA Traditional Annuity investment is reported at fair value. The contract value of the TIAA

Traditional Annuity equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers in, if any, less any withdrawals and transfers out, if any. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with TIAA Traditional Annuity's historical crediting rates. The Organization's Investment Committee and Plan management set the valuation policies for Plan assets and are responsible for the determination of fair value. The Organization utilizes information from the insurance carriers and compares price changes between periods to current market conditions to ensure that fair value is reasonably estimated.

The TIAA Traditional Annuity is not available for sale or transfer on any securities exchange. Accordingly, transactions in similar investment instruments are not observable. While transactions involving the purchases/sales of individual TIAA Traditional contracts are not observable in a public marketplace, contract value may provide a good approximation of fair value as supported by the following:

- New contributions represent current transactions between willing buyers and sellers as prescribed in the relevant GAAP guidance. Participants have the option to allocate their contributions between the TIAA Traditional Annuity and a number of investment choices for which fair values are readily observable.
- Participants typically allocate contributions between several investment choices, and all transactions are executed at current market value with the assumption being that objective, unbiased transactions regularly occur and participants deem the value of the TIAA Traditional Annuity contract to be no less than the participant's accumulated balance and that each investment purchase is made at fair value since these purchases are not distressed and are conducted between willing buyers and sellers in open market conditions where a participant has a variety of investment choices.
- When participants change employers, they oftentimes enroll in a new plan with very similar investment options, including the TIAA Traditional Annuity. Because these transactions continue to occur with continued participant contributions at current stated contract values, the market-observable presumption is that the contract value of current funding represents a good approximation of fair values based on the willingness of the participant to continue to contribute. For each contribution, TIAA continues to record a contractual liability for the current contribution and does not consider such liability to have any embedded gain or loss.
- Upon a distributable event, the participant surrenders the future accumulation benefits in exchange for a cash payout based on the contract value, demonstrating the contract values can be monetized when a distributable event occurs.
- The crediting rate is supported by the investment performance of a large, diversified portfolio (TIAA's General Account), is correlated with the highest quality debt security yields, and is adjusted for

contract liquidity. A twenty-year analysis of crediting rates for TIAA Traditional Annuity contract suggests a rate of return that is representative of risk adjusted market rate for this product type; thus, application of observed rates would yield a discounted cash flow which approximates contract value.

Pooled Separate Accounts:

TIAA Real Estate Account:

The TIAA Real Estate Account (REA) is a pooled separate account. It is registered with the Securities and Exchange Commission (SEC) under the Securities Act of 1933 and the Securities Exchange Act of 1934. The TIAA Real Estate Account generally invests in real estate properties and real estate-related investments. The REA's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The REA sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. Unit values are calculated each day and posted on the TIAA website.

Mutual of America Separate Account:

Mutual of America's Separate Account No. 2 is a pooled separate account. The underlying subaccounts consist solely of investments in mutual funds registered with the Securities and Exchange Commission and are carried at the net asset value at which the mutual fund shares are actively traded.

Separate Accounts / Registered Investment Companies:

TIAA Access Annuity:

TIAA Access Annuity is a variable annuity product funded through a separate investment account of TIAA registered with the SEC under the Investment Company Act of 1940. The separate account invests in proprietary and nonproprietary mutual funds through various subaccounts. Subaccount unit values are calculated daily and are available on the TIAA website. The underlying investments are generally valued using market quotations obtained from independent pricing services.

CREF Accounts:

College Retirement Equities Fund (CREF) is registered with the SEC under the Investment Company Act of 1940. The CREF Accounts invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. CREF Account investments are primarily valued using market quotations or prices obtained from independent pricing sources which may employ various pricing methods to value the investments including matrix pricing. CREF Money Market Account holdings are generally valued at amortized cost. Each CREF account determines its unit value daily. Unit values are available on the TIAA website.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

<i>Assets at Fair Value as of December 31, 2022</i>

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following tables represent the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Asset	Fair Value December 31, 2022	Valuation Techniques	Unobservable Inputs	Range of Significant Input Values
TIAA Traditional Annuity (Non-Benefit Responsive)	\$ 2,883,370	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	GRA: 3.70% - 6.25%

Asset	Fair Value December 31, 2021	Valuation Techniques	Unobservable Inputs	Range of Significant Input Values
TIAA Traditional Annuity (Non-Benefit Responsive)	\$ 2,898,075	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	GRA: 3.00% - 3.80%

E. Fully Benefit-Responsive Investment Contract with Insurance Company:

The Plan has a fully benefit-responsive investment contract with Teachers Insurance and Annuity Association of America (TIAA), a New York domiciled non-profit legal reserve life insurance company. Holdings of the TIAA Traditional Annuity within liquid contracts (GSRA contract and Plan Loan Default Fund) are fully benefit-responsive, while holdings within illiquid contracts (GRA contract) have liquidity restrictions and are non-benefit responsive. TIAA maintains the contributions in a general account. The contract is included in the financial statements at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts in a defined contribution plan because contract value is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents accumulated contributions, plus earnings credited and transfers in, less participant withdrawals and transfers out.

The TIAA Traditional Annuity is an unallocated fixed annuity contract that is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest of 3% and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in

effect for the “declaration year,” which begins each March 1. Additional interest is not guaranteed for future years. Contributions to a participant’s account purchases a guaranteed amount of lifetime annuity income. When a participant’s account in the TIAA Traditional Annuity is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan administrator believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. TIAA may not terminate the contract at any amount less than contract value.

The following represents the disaggregation of contract value between types of investment contracts held by the Plan:

	2022	2021
TIAA Traditional Annuity Benefit Responsive (GSRA contract and Plan Loan Fund)	\$ 1,102,262	\$ 1,105,345
Total fully benefit-responsive investment contracts at contract value	<u>\$ 1,102,262</u>	<u>\$ 1,105,345</u>

F. Party-in-Interest Transactions:

Plan investments include annuity contracts managed by TIAA, CREF, and Mutual of America Life Insurance Company, the insurance carriers of the Plan. Direct fees paid to the insurance carriers are presented separately on the financial statements. Other indirect investment fees and compensation incurred by the Plan and paid insurance carriers and bundled service providers are included in the calculation of net appreciation (depreciation) of the fair value of investments.

The Organization pays certain expenses on behalf of the Plan, including the cost of ERISA fidelity bond coverage and annual audit fees. The Organization does not expect to be reimbursed for these costs.

All of these transactions qualify as exempt party-in-interest transactions.

G. Plan Termination:

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would be 100% vested in their accounts.

H. Tax Status:

The Plan obtained its latest opinion letter on March 31, 2017, in which the Internal Revenue Service stated that the form of the Plan was acceptable under the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and is being operated in

compliance with the applicable requirements of the Internal Revenue Code and therefore believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan has annual regulatory filing requirements to the Department of Labor (“DOL”) of the Form 5500.

I. Risks and Uncertainties:

The Plan invests in various investment options. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

J. Subsequent Events:

The Plan administrator has evaluated subsequent events through September 28, 2023, the date when the financial statements were available to be issued, and no events required disclosure.
