Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the financial statements of Pacific Lutheran University 403(b) Retirement Plan, an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2022 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2022, and for the year then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the "Auditor's Responsibilities for the Audit of the 2022 Financial Statements" section:

- The amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the “Auditor’s Responsibilities for the Audit of the 2022 Financial Statements” section of our report. We are required to be independent of Pacific Lutheran University 403(b) Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Pacific Lutheran University 403(b) Retirement Plan’s ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan’s transactions that are presented and disclosed in the financial statements are in conformity with the plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the “Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements” section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Pacific Lutheran University 403(b) Retirement Plan’s internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pacific Lutheran University 403(b) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2022 Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2021 Financial Statements

Predecessor auditors performed an audit of the 2021 financial statements of Pacific Lutheran University 403(b) Retirement Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated July 20, 2022 indicated that (a) the amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2021 supplemental schedules, other than the information in the 2021 supplemental schedules that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2021 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

Pacific Lutheran University 403(b) Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

Note 1: Description of the Plan

The following description of the Pacific Lutheran University 403(b) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

General

The Plan is a defined contribution plan sponsored by Pacific Lutheran University (University) for the benefit of its employees. All employees are eligible to make salary reduction contributions to the Plan, excluding students and clergy who elect out of University benefits. Employees who have completed at least one year of service with the University and are 18 or older are eligible to receive employer contributions. A year of service is a twelve-month period during which an employee completes 1,000 hours of service. If an employee is otherwise eligible to receive University contributions at the time they first become employed by the University, and they have participated in a qualified plan governed by Code Section 401(a) or a tax-sheltered annuity plan governed by Code Section 403(b) at any time during the twelve consecutive months preceding employment and under that Plan the employee was eligible for an receiving employer contributions, the one year of service requirement is waived. The employee will be eligible to receive University contributions (including employer matching contributions) as of the first date of the month following completion of the eligibility requirements. Upon enrollment in the Plan, a participant may direct contributions to any combination of available investment options.

The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Teachers Insurance and Annuity Association (TIAA) serves as the issuer of the TIAA Traditional Annuity Contract held by the Plan and is the recordkeeper of the Plan. College Retirement Equities Fund (CREF) serves as the issuer of the CREF variable annuities held by the Plan. TIAA, FSB serves as the directed custodian of non-annuity contracts.

Contributions

Total University and participant contributions in any year may not exceed the maximum contribution limit allowed by the Internal Revenue Code. Effective September 1, 2020, the University made a nonelective contribution of 3% of compensation for eligible employees. Effective September 1, 2021, the University may elect to make discretionary matching and nonelective contributions to the Plan. For the period September 1, 2021 through December 31, 2022, the University elected to match 50% of a participant's deferral contributions, up to 6% of the participant's compensation, and contributed 7.5% of compensation on behalf of eligible participants and a nonelective contribution. The maximum University matching contribution was 3% of compensation. Contributions are subject to regulatory limitations.

Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

Participant Investment Account Options

Investment account options available include various annuity accounts, a pooled separate account, and mutual funds. Each participant has the option of directing their contributions into any of the investment account options selected by the University and may change the allocation to the extent permitted by the individual agreements.

Participant Accounts

Each participant's account is credited with the participant's contribution, the University's contribution, and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and any University contributions, plus earnings thereon.

Notes Receivable From Participants

The Plan does not make loans to participants or beneficiaries.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon the following events: death, disability, termination of employment, or attaining age 59.5 as defined in the Plan. In addition, a participant may qualify for a hardship distribution as defined in the Plan. The payment of benefits under the Plan is governed by IRS Code Section 403(b) and the investment contract distribution restrictions. The Plan permits the recipient to elect distribution of benefits in the form of a lump sum, installments, various annuity forms, or a combination of lump sum and installments. The Plan will make a mandatory distribution following severance from employment in the participant's accumulated benefit does not exceed the mandatory distribution amount of \$5,000.

Plan Termination

Although it has not expressed an intention to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Revision

An immaterial revision has been made to the 2021 financial statements related to the presentation of certain investment vehicles within the fair value hierarchy. This revision did not have an impact on the statement of net assets available for benefits or statement of changes in net assets available for benefits.

Notes to Financial Statements

December 31, 2022 and 2021

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan is funded by individually controlled TIAA and CREF investments. Contributions are allocated to the TIAA Traditional Annuity Contract, CREF variable annuity accounts, various mutual funds, and the TIAA Real Estate pooled separate account.

TIAA Traditional Annuity

The TIAA Traditional Annuity is an unallocated fixed-dollar annuity and investment product offered by TIAA, an insurance company. The annuity is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Annuity is maintained in the TIAA general account. Contributions to the TIAA Traditional Annuity purchase a contractual or guaranteed amount of future benefits for the participants and are secured by the general assets of TIAA.

The TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest, and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1. Additional interest is not guaranteed for future years. Contributions to a participant's account purchases a guaranteed amount of lifetime annuity income. When a participant's account in the TIAA Traditional Annuity is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside the Plan and does not represent an obligation of the Plan.

The investment contract with TIAA contains liquidity restrictions that require withdrawals and transfers from the investment contract to other investment options available to the Plan to be spread over a period of ten annual installments or five annual installments for withdrawals after a participant's termination of employment. Therefore, a portion of this account is considered a fully benefit-responsive investment contract (FBRIC) and another portion is considered nonbenefit-responsive.

Pacific Lutheran University 403(b) Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

The fully benefit-responsive portion of the contract is recorded at contract value and the nonbenefit-responsive portion of the contract is recorded at fair value, which approximates contract value as estimated by TIAA. At December 31, 2022 and 2021, the fair value of the nonbenefit-responsive contracts at TIAA totaled \$52,045,588 and \$54,792,262, respectively, and the contract value of the fully benefit-responsive contracts totaled \$5,111,314 and \$5,278,214, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuers of the Guaranteed Common Trust Fund and TIAA Traditional Annuity. Such events include the following: (1) amendments to the Plan Documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

CREF Variable Annuity Accounts

Participants purchase accumulation units in the variable annuity contracts and their value is calculated daily. Variable annuity accounts are recorded at fair value, which is based upon the underlying value of the assets. The money market account is recorded at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and, thereafter, amortizing any discount or premium from its face value at a constant rate until maturity.

Mutual Funds

Mutual funds are valued at the market quoted net asset value (NAV) of the shares held by the Plan at year-end.

TIAA Real Estate Pooled Separate Account

The TIAA Real Estate pooled separate account is valued at the NAV per accumulation unit of the investment. The underlying real estate holdings or other real estate-related investments are valued principally utilizing external appraisals. Although the underlying assets of the account cannot be quickly sold and converted to liquid assets, the TIAA general account provides the Plan with a liquidity guarantee. Transfers out of the pooled separate account are limited to one per calendar quarter. There are no unfunded commitments or a redemption notice period.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Pacific Lutheran University 403(b) Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

Plan Tax Status

The Plan, together with the investment vehicles, is intended to be a tax-sheltered annuity plan under Section 403(b) of the Internal Revenue Code of 1986, as amended.

The Plan has not requested or obtained a determination letter, as the Internal Revenue Service does not generally provide a means of doing so for individual 403(b) Plans. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and not subject to tax.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses are paid by the Plan or University, at the University's discretion.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs), and Level 3 (significant unobservable inputs) are recognized on the period ending date.

Subsequent Events

Subsequent events have been evaluated through September 21, 2023, which is the date the financial statements were available to be issued.

Note 3: Certification by Plan Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF, as qualified institutions, have certified the following information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2022 and 2021

Pacific Lutheran University 403(b) Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

- Investment income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2022

The Plan's independent auditors did not perform procedures with respect to this certified investment information, except for comparing such information to the related information included in the financial statements and ERISA-required supplemental schedule.

Note 4: Reconciliation of Financial Statements to Form 5500

Differences between the Annual Return/Report of Employee Benefit Plan (Form 5500) filed with the Internal Revenue Service and the accompanying financial statements are primarily attributable to classification differences.

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invests in various funds of the Plans' recordkeeper and custodian and fees for recordkeeping services paid by the Plan to the recordkeeper and custodian were \$396,902 and \$102,259 for the years ended December 31, 2022 and 2021, respectively.

The University provides certain administrative services at no cost to the Plan.

Note 6: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following tables present the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2022 and 2021:

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits. The value is determined using the NAV as a practical expedient.

Pacific Lutheran University 403(b) Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2022 and 2021. The Plan had no liabilities measured at fair value on a recurring basis. Additionally, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See note 2 for definition of inputs utilized to determine fair value.

The TIAA Real Estate Pooled Separate Account (Account) seeks favorable long-term returns primarily through rental income and appreciation (depreciation) of real estate investments owned by the Account. The Account will also invest in publicly traded securities and short-term higher quality liquid investments that are easily converted to cash to enable the Account to meet participant redemption requests, purchase or improve properties or cover other expense needs.

Fair value determinations for Level 3 measurements of securities are the responsibility of the Plan Administrator. The Plan Administrator contracts with TIAA to generate fair value estimates on a quarterly basis. The Plan Administrator challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States of America.

Level 3 Activity

Activity of the Level 3 investment is as follows:

	<u>TIAA Traditional</u> <u>Annuity Contract</u>
2022	
Purchases	\$ 352,902
Sales	(6,717,965)
