Independent Auditor's Report

To the Plan Administrator of Woodward HRT Employees' Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Woodward HRT Employees' Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the statements of accumulated plan benefits as of January 1, 2022 and 2021, and the related statements of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Woodward HRT Employees' Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 10 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Woodward HRT Employees' Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Woodward HRT Employees' Pension Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Woodward HRT Employees' Pension Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Woodward HRT Employees' Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Woodward HRT Employees' Pension Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Woodward HRT Employees' Pension Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined benefit plan established effective February 27, 2009, as restated January 1, 2021. Woodward, Inc. (the Company) entered into an agreement with Textron, Inc. for the purchase, among other things, of the stock of HR Textron Inc. In the agreement, the Company agreed to establish a tax-qualified defined benefit plan to provide benefits for, and assume the liabilities and assets attributable to salaried and non-bargained hourly employees and those hourly employees covered by a collective bargaining agreement with the Union who were employed by HR Textron Inc. (HRT) on April 3, 2009 and were participating in the Textron Master Retirement Plan as of such date. The HRT Pension Plan consists of the Master Provisions and Addendum A and B. Each addendum reflects a separate benefit structure applicable to participants covered by the addendum.

Addendum A reflects the portion of the Plan that contains provisions specific to the salaried and non-bargained hourly employees. Participants under the benefit structure of Addendum A are also automatically participants of the Woodward HRT Retirement Account Plan (RAP), a defined contribution plan in which the Company made a contribution of 2% of eligible compensation on behalf of the participants each payroll period beginning on or after April 3, 2009. The RAP and the Pension Plan together are the Woodward HRT Retirement Program, which is designed to be a "floor-offset" arrangement. The Pension Plan formula that guarantees a minimum pension is called the "floor benefit". If the participant's RAP account balance, converted to a monthly single-life annuity, is more valuable than the floor benefit, participants receive their RAP account balance. If the participant's RAP account balance, converted to a monthly single-life annuity, is less valuable than the floor benefit, participants receive the floor benefit. The benefit from the RAP and the Pension Plan together will always be the greater of (a) the floor benefit or (b) the value in the participant's account in the RAP.

Addendum B reflects the portion of the Plan that contains provisions specific to the employees who are for purposes of collective bargaining, represented by the Union. These employees are not participants in the RAP identified above.

Woodward HRT Employees' Pension Plan

Notes to Financial Statements

Effective as of December 31, 2014, the Plan was amended to freeze future accruals for eligible participants under Addendum A.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Administrative Committee is responsible for oversight of the Plan. The Plan's investment committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Administrative Committee.

Funding Policy. The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were exceeded in 2022 and 2021.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Pension Benefits

Addendum A

The monthly normal retirement pension available to a participant covered under Addendum A is the greater of the "floor benefit", which is (a) 1 1/3% of the participant's final average compensation multiplied by their credited service earned after December 31, 2006, (b) a minimum monthly benefit based on \$50 times the credited service earned after December 31, 2006 (but no more than five years of service), or (c) the value of their account balance in the RAP. Participants receiving an early or vested retirement pension before age 65 will have a portion of their benefit for service after December 31, 2006 that is paid from the Pension Plan (if any) reduced by 5/12% for each month or part thereof (5% per year) by which the participant's Annuity Start Date precedes his 65th birthday. The benefit payment from the RAP will be converted to an actuarially equivalent single-life annuity. Although the RAP is converted to a single-life annuity, participants can still choose to receive their RAP in a lump sum or certain other annuity forms. A grandfathered employee shall be entitled to the greater of the monthly benefit, as described above, or the benefit they would have earned over their entire career if the formula that applied to them under the Textron Pension Plan had remained in effect. A participant is a grandfathered employee if, as of January 1, 2007 the participant was a covered employee of the Textron

Woodward HRT Employees' Pension Plan

Notes to Financial Statements

Pension Plan, had completed at least 5 years of vesting service (or reached age 60), and the sum of (a) age in completed years and (b) full years of vesting service under the Textron Pension Plan equaled 55 or more. On November 18, 2009, the Plan was amended to prohibit any new participants from receiving benefits under Addendum A on or after January 1, 2010.

Addendum B

Employees who have attained age 65 are entitled to a retirement benefit equal to the employee's credited service multiplied by \$44 if employment ended prior to April 19, 2010 and \$52 if employment ends after April 19, 2010. Early retirement benefits are reduced by 0.5% for each complete calendar month by which the employee is under age 62. Deferred vested retirement benefits are reduced by 0.5% for each complete calendar month by which the employee is under age 65. Disability retirement benefits are reduced by the employee's other disability benefits, if any.

Effective April 19, 2010 the Plan was amended to conform the benefits under Addendum B to the terms of the collective bargaining agreement with District Lodge 727-N, International Association of Machinists and Aerospace Workers for and on behalf of Local Lodge 758. For purposes of Addendum B, no person who was not an employee, as defined in the Plan agreement, on or before April 19, 2010 shall become an employee.

The Plan was amended in 2014 to increase the service multiplier to \$58 if employment ends on or after April 21, 2014.

Effective January 1, 2017, Section 1.18B of Addendum B was amended to define 'Union' as District Lodge 725 (successor to District Lodge 727), International Association of Machinists and Aerospace Workers, for and on behalf of its Local Lodge 727-N (successor to Local Lodge 758).

The Plan has been amended to increase the multiplier up to \$65, if employment ends on or after April 1, 2023 as detailed in the Plan document as restated January 1, 2021.

Upon termination of employment, pension payments are normally paid in the form of a monthly annuity payable for their lifetime or, if married, in the form of a qualified joint or survivor annuity.

Woodward HRT Employees' Pension Plan

Notes to Financial Statements

Death and Disability Benefits

Addendum A – Death benefit under RAP

The RAP account balance of a participant that dies (a) while actively working for the Company or (b) after they stop working for the Company but before receiving their benefits, will be payable to a beneficiary designated by the participant. If the beneficiary is anyone other than a surviving spouse, the RAP account balance will be paid in a lump sum. If the beneficiary is a surviving spouse, the surviving spouse may elect a single-life annuity or a lump sum.

Addendum A – Death benefit under the Pension Plan

If the participant is unmarried and has satisfied the requirements to receive a normal or early retirement pension, they may elect a pre-pension survivor annuity. If a married participant dies while they are actively working, has a vested benefit under the Pension Plan, and dies before the Pension payment has begun, the surviving spouse will receive a pre-pension surviving spouse annuity.

If a participant dies after they stop working for the Company but before receiving their pension benefit and is (a) married, the surviving spouse will receive a pre-pension surviving spouse annuity or (b) unmarried, but were eligible to receive a normal or early retirement pension, the beneficiary will receive the pre-pension survivor annuity.

Addendum B

As soon as an employee is vested in retirement benefits under the Plan, the employee's surviving spouse will automatically be eligible to receive a pre-pension surviving spouse annuity if an employee dies before their benefits should begin to be paid. A surviving spouse annuity shall be paid monthly during the life of a surviving spouse beginning on the first day of the month (a) which next follows the date of the employee's death or (b) in which the earliest retirement date would have occurred but for his death, whichever is later.

An employee whose employment ends as a result of permanent and total disability after completing 10 years of vesting service shall be entitled to a disability retirement benefit until they attain age 65, at which time they shall be entitled to a normal retirement benefit.

Woodward HRT Employees' Pension Plan

Notes to Financial Statements

Vesting

Addendum A

Participants are fully vested in their RAP benefits after the completion of 3 years of vesting service, or attain age 60 prior to termination. Participants are eligible for benefits under the Pension Plan when they meet the following criteria. Participants who have attained age 65 are fully vested on attainment of age 65. A participant whose termination of employment occurs before their 65th birthday, but after their 55th birthday and after completion of at least 5 years of vesting service shall be entitled to an early retirement pension. A participant who was an HRT employee of the Textron Plan before January 1, 2007 and whose termination of employment occurs after they earn 20 years of vesting service, but before their 65th birthday, is also eligible for an early retirement pension regardless of their age. A participant who continues employment with the Company beyond the attainment of age 65 and who later retires is entitled to a delayed retirement pension. A participant whose termination from employment before they have become eligible for an early retirement pension but after completing at least 5 years of vesting service, is entitled to a fully vested retirement pension.

Addendum B

Employees who have attained age 65 are fully vested in their retirement benefits. An employee whose termination of employment occurs before their 65th birthday, but after their 55th birthday and after completion of at least 10 years of vesting service shall be entitled to an early retirement benefit. An employee whose employment ends after completion of 5 years of vesting service but before the participant becomes eligible for normal or early retirement benefits is entitled to a deferred vested retirement benefit.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Woodward HRT Employees' Pension Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

Woodward HRT Employees' Pension Plan

Notes to Financial Statements

Subsequent Events

Subsequent events were evaluated through October 4, 2023, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability, and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2022. Had the valuation been performed as of December 31, there would be no material differences. The significant actuarial assumptions used in the valuation were:

Woodward HRT Employees' Pension Plan

Notes to Financial Statements

Assumption	January 1, 2022	January 1, 2021
Discount rate	5.00%	7.25%
Mortality	Separate rates for non-annuitants based on Pri-2012 "Employees" table and annuitants based on Pri-2012 "Nondisabled annuitants" table with generational projection starting with MP-2019, grading over 5 years to a long-term rate of 0.75% for ages up to 85, declining to 0.00% at age 95.	Separate rates for non-annuitants based on Pri-2012 "Employees" table and annuitants based on Pri-2012 "Nondisabled annuitants" table with generational projection starting with MP-2019, grading over 5 years to a long-term rate of 0.75% for ages up to 85, declining to 0.00% at age 95.
Retirement age	65	65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Woodward HRT Employees' Pension Plan

Notes to Financial Statements

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2022 and 2021.

Interest-bearing cash: These investments are stated at cost, which approximates fair value.

Money market funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

Woodward HRT Employees' Pension Plan

Notes to Financial Statements

Total investments at fair value	\$196,639,912	\$ -	\$ -	\$196,639,912

5. Concentrations

Vanguard Long-Term Investment Grade Fund is approximately 70% and 86% of total net assets as of December 31, 2022 and 2021, respectively, which represents a significant concentration as a percentage of net assets available for benefits.

6. Related-Party and Party In Interest Transactions

The Plan's investments are administered under a contract with Vanguard Fiduciary Trust Company, the Trustee of the Plan. Contributions are held and managed by Vanguard Fiduciary Trust Company, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

Woodward HRT Employees' Pension Plan

Notes to Financial Statements

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Woodward HRT Employees' Pension Plan

Notes to Financial Statements

8. Tax Status

The IRS has determined and informed the Company by a letter dated May 10, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

10. Information Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2022 and 2021. Accordingly, Vanguard Fiduciary Trust Company, the Trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55
- Deferred vested benefit The later of age 65 or termination of employment
- Retirement benefit Upon termination of employment

Form of payment

Participants are assumed to elect a single life annuity. The normal form of payment for married participants is an actuarially equivalent 50% Joint and Survivor Annuity.

Percent married

80% of males; 80% of females. Used to value pre-retirement surviving spouse benefits.

Spouse age

Male spouses three years older than female spouses

Covered pay

Not applicable due to frozen status of Salaried plan

SCHEDULE SB ATTACHMENTS

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date First day of plan year.

Funding target Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Decrement timing The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2021 plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Woodward, Inc. regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with Woodward, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits with a present value up to \$5,000 in a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor, through its third-party administrator Milliman, furnished participant data as of January 1, 2022. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. No data adjustments were made and we are unaware of any adjustments made by the data provider.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over periods certain of time.

Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumed return for asset smoothing

The assumed return used for asset smoothing is the third segment rate. Although we have not explicitly determined an expected return on assets, based on an analysis of the plan sponsor's investment policy, we believe the rate to be above the third segment rate.

Assumptions Rationale – Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2017, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2017, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Statement of Actuarial Assumptions/Methods, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation	<ul style="list-style-type: none">■ The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.■ The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.■ The assumed plan-related expenses added to the target normal cost were changed from \$690,000 for the prior valuation to \$688,000 for the current valuation to account for lower expected expenses to be paid from the trust.■ The actuarial equivalence basis for the RAP account was updated to reflect the current 417(e) applicable interest rates and mortality table.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was originally effective April 3, 2009, and restated January 1, 2016. The plan was most recently amended to increase the multiplier in the normal retirement benefit for hourly participants. The plan was previously amended effective December 31, 2014 to freeze all benefit accruals for non-bargained employees.

Plan name Woodward HRT Pension Plan

Covered employees Bargained and non-bargained employees must be hired before April 19, 2010 and January 1, 2010, respectively, to be eligible for participation.

Participation date An employee becomes eligible to participate on the day he is hired if he is expected to work at least 1,000 hours in the first twelve (12) months of employment. Otherwise, an employee becomes eligible to participate at the end of the first twelve (12) month period or calendar year he completes 1,000 hours.

Definitions

Vesting service

- Salaried The sum of:
 1. Years and fractions of a year in completed months under the prior plan through April 3, 2009; and
 2. Years and fractions of a year in completed months after April 3, 2009 under this plan.
- Hourly The sum of:
 1. Vesting service through December 31, 2008 under the prior plan; and
 2. For each calendar year after December 31, 2008 one year if at least 1,000 hours are worked.

Credited service

■ Salaried

The sum of:

1. Credited Service as of April 3, 2009 under the prior plan; and
2. Years and fractions of a year in completed months after April 3, 2009 under this plan.

Credited service for salaried employees was frozen effective December 31, 2014.

■ Hourly

The sum of:

1. Credited Service through December 31, 2008 under the prior plan;
2. For each calendar year after December 31, 2008 one year if at least 1,800 hours are worked; and
3. For each calendar year (including 2009) in which less than 1,800 hours are worked, a fraction equal to the actual hours worked divided by 1,800 rounded to nearest tenth.

Grandfathered Status

Certain salaried participants are deemed to be Grandfathered if as of January 1, 2007 (i) he has attained age 60 or completed 5 years of Vesting Service and (ii) the sum of the Member's attained age as of January 1, 2007 and completed whole years of Vesting Service as of January 1, 2007 equals or exceeds 55.

Compensation Base

For a salaried participant, this is the average annual Compensation for the five consecutive calendar years during which his average annual Compensation was the highest. Compensation is defined as wages by Section 3401(a) of the Code. Certain exclusions and inclusions apply as described in the document. Compensation used in the calculation of benefits for salaried participants was frozen effective December 31, 2014.

Covered Compensation

82.5% of the amount determined by averaging the contribution and benefit bases in effect under Section 230 of the Social Security Act for each year in the 35-year period ending with the earlier of (A) in the calendar year in which the participant terminates or (B) the calendar year ending December 31, 2014.

■ Salaried	Reduction factors depend on benefit formula and service period: <ul style="list-style-type: none">i) Grandfathered and other pre-2007 benefits are multiplied by the appropriate factor as set forth in Table A or Table B of the plan document, whichever is appropriate;ii) Non-Grandfathered Post-2007 benefits are reduced by 5/12 of 1% for each month or part of month by which the participant's Annuity Starting Date precedes the participant's 65th birthday
■ Hourly	Reduced by one-half of one percent for each complete calendar month by which the participant is under age 62
Postponed retirement	The monthly pension benefit determined as of the actual retirement date
Deferred vested termination	The monthly pension benefit determined as of the termination date, payable at the participant's NRD
Disablement	The monthly pension benefit determined as of the date of the disablement, payable immediately without reduction for early commencement, but reduced by the participant's other disability benefits, if any
Preretirement death	The monthly preretirement death benefit payable on behalf of an active employee is reduced as in early retirement.

Other Plan Provisions

Forms of payment	Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of a 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 100%, 75%, or 50% joint and survivor annuity, or (for married participants) a life annuity. Actuarial equivalence is based on the tables found in the plan document (underlying basis of G94U Mortality and 7% interest).
Pension increases	None
Plan participants' contributions	They are not required or permitted.

Maximum limits on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes take effect. Increases in the dollar limits are not assumed for funding or AFTAP purposes.

Future Plan Changes

No future plan changes were recognized in determining funding requirements. Willis Towers Watson is not aware of any future plan changes which are required to be reflected other than scheduled pension increases contained in the Collective Bargaining Agreement.

Changes in Benefits Valued Since Prior Year

The multiplier in the normal retirement benefit for hourly participants increased from \$64.00 to \$64.50.
