Independent Auditor's Report

To the Trustee Committee for the
National Association of Mutual Insurance
Companies Defined Benefit Plan
Indianapolis, Indiana

Opinion

We have audited the accompanying financial statements of the National Association of Mutual Insurance Companies Defined Benefit Plan (Plan), an Indiana employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 (in liquidation) and December 31, 2021 (ongoing), the related statements of changes in net assets available for benefits for the years ended December 31, 2022 (in liquidation) and December 31, 2021 (ongoing), the statement of accumulated plan benefits as of January 1, 2022 (in liquidation), the related statement of changes in accumulated plan benefits for the year ended January 1, 2022 (in liquidation), and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the information regarding the National Association of Mutual Insurance Companies Defined Benefit Plan's net assets available for benefits as of December 31, 2022 (in liquidation) and December 31, 2021 (ongoing), and the changes therein for the years then ended and its financial status as of January 1, 2022 (in liquidation), and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America, applied on the bases described in the Basis of Accounting paragraph.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of National Association of Mutual Insurance Companies Defined Benefit Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about National Association of Mutual Insurance Companies Defined Benefit Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibility for the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of National Association of Mutual Insurance Companies Defined Benefit Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about National Association of Mutual Insurance Companies Defined Benefit Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Basis of Accounting

As further discussed in Note 5 to the financial statements, the National Association of Mutual Insurance Companies Defined Benefit Plan document was amended to terminate the Plan effective December 31, 2022. In accordance with accounting principles generally accepted in the United States of America, the Plan changed its basis of accounting from the ongoing basis to the liquidation basis for the year ended December 31, 2022, as it was determined that liquidation was imminent. Our opinion is not modified with respect to this matter.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules as listed in the accompanying index of the National Association of Mutual Insurance Companies Defined Benefit Plan, together referred to as "supplementary information," are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information

directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

National Association of Mutual Insurance Companies Defined Benefit Plan

Notes to Financial Statements

December 31, 2022 (in Liquidation) and December 31, 2021 (Ongoing)

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies followed by the National Association of Mutual Insurance Companies Defined Benefit Plan (Plan) are as follows:

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting as of December 31, 2021 and on the liquidation basis of accounting as of December 31, 2022. The liquidation basis of accounting requires reporting an estimate of fair value for all Plan assets, as if the Plan were liquidating its assets as of the reporting date.

Valuation of Investment and Income Recognition

Investments of the Plan are stated at fair value at quoted market price. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In accordance with the policy of stating investments at fair value, net unrealized appreciation or depreciation for the year is reflected in the statements of changes in net assets available for benefits.

Contributions

Contributions receivable represents the total of employer contributions received by the Plan after year end, which were applicable to the prior Plan year. Employee contributions are not permitted under the Plan. There were no contributions receivable, employer contributions, or employee contributions for the years ended December 31, 2022 or December 31, 2021.

Investment Transactions and Investment Income

Purchases and sales of securities are recorded on a trade-date basis. Gains or losses on security transactions are recorded as the difference between proceeds received and cost. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned.

Expenses

A substantial portion of expenses incurred in the administration of the Plan are charged to and paid by the Plan sponsor.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated Plan benefits for active employees are based on total contributions made on the participants' behalf on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances: retirement, death, disability, and termination of employment are included to the extent they are deemed attributable to employee service rendered prior to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by an actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Concentrations of Credit Risk

The Plan maintains cash balances with financial institutions which may exceed the Federal Deposit Insurance Corporation limit of \$250,000.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Presentation

Certain 2021 items have been reclassified to conform to 2022 presentation.

Subsequent Events

Management has evaluated subsequent events through September 28, 2023, the date the financial statements were available to be issued.

Termination Benefit

Eligibility

If the participant elects to receive the accrued benefit prior to the normal retirement date, the participant will receive a benefit equal to the actuarial equivalent of the accrued benefit that would have been payable at the normal retirement date.

Note 4: FUNDING POLICY

The Plan sponsor contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan members. The minimum funding requirements of ERISA are currently being met. The yield (interest, dividends, and net realized and unrealized gains and (losses)) on investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan.

Note 5: PLAN TERMINATION

The National Association of Mutual Insurance Companies Defined Benefit Plan reserves the right to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan or partial termination with respect to a group of participants, the rights of all participants to any accrued benefits to the date of such termination, to the extent then funded, shall be nonforfeitable. Upon such termination, such accrued benefits of participants (or beneficiaries) shall be deemed to have been funded in accordance with Section 4044 of ERISA. Whether a particular participant's accumulated Plan benefits will be paid depends on the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

On July 12, 2022, the Board of Directors of the National Association of Mutual Insurance Companies authorized its Audit/Finance/Risk Committee to select a date for the termination of the Plan, and further authorized the Committee and management officers of the National Association of Mutual Insurance Companies to perform all acts necessary or expedient to carry out the termination, including the execution of all relevant documents and agreements. On September 14, 2022, the National Association of Mutual Insurance Companies' Audit/Finance/Risk Committee voted on and approved the date of the termination of the Plan to be December 31, 2022, with an expected final distribution of assets during the year ended December 31, 2023. The Plan document was formally amended to terminate the Plan effective December 31, 2022 and fully vested all benefits to the extent funded.

Note 6: INVESTMENTS

The following table presents the cost and fair values of investments for the Plan's investment account as of December 31, 2022 and December 31, 2021:

	<u>December 31, 2022</u>		<u>December 31, 2021</u>	
	<u>Cost</u>	<u>Fair Value</u>	<u>Cost</u>	<u>Fair Value</u>

Total investments	<u>\$ 11,714,953</u>	<u>\$ 10,743,466</u>	<u>\$ 13,518,124</u>	<u>\$ 15,212,497</u>

During the years ended December 31, 2022 and December 31, 2021, the Plan's investments, including investments bought, sold, and held during the year appreciated (depreciated) in their value by \$(2,621,831) and \$745,732, respectively.

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation of other means.

If the assets or liabilities have a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2022 and December 31, 2021.

National Association of Mutual Insurance Companies Defined Benefit Plan

Notes to Financial Statements

December 31, 2022 (in Liquidation) and December 31, 2021 (Ongoing)

Note 6: INVESTMENTS (continued)

The investment pool consists of mutual funds, ETFs, and cash and cash equivalents with an active market, which reflects the amount expected to be received in cash upon sale. These types of assets are classified within Level 1 of the valuation hierarchy.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

	Fair Value Measurements at Reporting Date Using

Total assets at fair value	<u>\$ 15,212,497</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 15,212,497</u>

Note 7: PARTY-IN-INTEREST TRANSACTIONS

There were no loans nor fixed income obligations in default or uncollectible, nor were there leases in default or classified as uncollectible. There were no non-exempt prohibited transactions with parties-in-interest for the years ended December 31, 2022 and December 31, 2021.

Fees paid for investment, actuarial and other services rendered by parties-in-interest were based on reasonable and customary rates for such services.

There were no amounts due to party-in-interest at December 31, 2022 and December 31, 2021.

Note 8: TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 18, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. The Plan was last restated January 1, 2020 and amended effective December 31, 2022.

National Association of Mutual Insurance Companies Defined Benefit Plan

Notes to Financial Statements

December 31, 2022 (in Liquidation) and December 31, 2021 (Ongoing)

Note 8: TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and December 31, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

Note 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Note 10: PLAN AMENDMENTS

During the year ended December 31, 2022, the Plan document was amended as follows:

- Terminated the Plan effective December 31, 2022 and fully vested all benefits to the extent funded.
- Offered immediate lump sum distributions to all participants, effective December 31, 2022.
- Allowed in-service distributions at age 59 ½ effective November 30, 2022.
- Updated the Plan for legislative changes recently enacted by Congress under the Further Consolidated Appropriations Act 2020, including the SECURE Act provisions, and the Coronavirus, Aid, Relief and Economic Security (CARES) Act.

Note 11: SUBSEQUENT EVENTS

Subsequent to December 31, 2022 and in accordance with the amendment to terminate the Plan effective December 31, 2022, Plan management provided notices of benefits to all eligible Plan participants, which allowed the participants to select the payout method for their benefits. As of July 10, 2023, all benefit payments to participants were made from the Plan's assets. A final transfer out of the remaining balance of funds in the Plan, after liquidating all investments and paying expenses relating to the wind down of the Plan, is expected to be made on or before December 31, 2023.

Additionally, the Plan was amended on September 20, 2023 to allow for a reversion of plan assets to be used for funding discretionary 401k contributions for pension plan participants who remain active employees of NAMIC or NAMICo.

Except where otherwise indicated, the following assumptions were selected by the plan sponsor with the concurrence of the actuary. Prescribed assumptions are based on the requirements of the relevant law, the Internal Revenue Code and applicable regulation. The actuary was not able to evaluate the prescribed assumptions for reasonableness for the purpose of the measurement.

Valuation Date

January 1, 2022

Participant and Asset Information Collected as of

January 1, 2022

Retirement Rates (FE)

<u>Age</u>	<u>Rate</u>
62	25%
63	10%
64	10%
65	100%

As the plan is not large enough to have credible experience, retirement rates are based on professional judgment and expectation for the general population adjusted as necessary for the specific provisions of the plan.

Mortality Rates

Healthy & Disabled (FE)

IRS 2022 Small Plan Combined Static Mortality - sex distinct RP-2006 base mortality table combined for annuitants and non-annuitants as provided in IRC 430(h)(3). Mortality projections are based on SOA improvement scale MP-2020 and the projection methodology described in IRS regulations 1.430 (h)(3)-1(c).

The mortality table is prescribed by federal regulation.

Lump Sum (FE)

2022 Applicable Mortality as prescribed by IRC 417 (e)

The mortality table is prescribed by federal regulation.

ASC 960 (FE)

Pri-2012 mortality table with generational improvements from 2012 based on scale MP-2021

As the plan is not large enough to have credible experience, mortality assumptions are set to reflect general population trends.

Annual Pay Increases (CO)

Not applicable

Disability Rates (FE)

None

Due to the size of the plan and lack of subsidies, in our professional judgment explicitly valuing a disability decrement does not improve the accuracy of the valuation sufficiently to justify the added complexity.

Withdrawal Rates (FE)

Rates in accordance with Sarason T-1

<u>Age</u>	<u>Rate</u>
20	5.4%
30	3.7%
40	1.1%
50	0.0%

As the plan is not large enough to have credible experience, withdrawal assumptions reflect the Sarason-Crocker withdrawal assumption that, in our professional judgment, best reflects the anticipated experience of the plan.

Interest Rates

	1st Segment (0-5 years)	2nd Segment (5-20 years)	3rd Segment (20+ years)
Minimum Funding and Benefit Restrictions - Prescribed (CO)	4.75%	5.18%	5.92%
Maximum Funding - Prescribed (CO)	0.88%	2.61%	3.27%
PBGC	1.16%	2.72%	3.10%
ASC 960 (CO)	6.20%	6.20%	6.20%

Interest rates for Minimum and Maximum Funding are prescribed by IRS regulation. The ASC 960 interest rate is the expected long term rate of return on assets. This assumption was set by the plan sponsor in conjunction with their asset advisors and the selected rate does not significantly conflict with what we believe to be reasonable.

All segment rates are based on the sponsor's election to use a 0 month lookback. The PBGC interest rates are based on the sponsor's election to use the Standard calculation method. The Standard calculation method must be used through 2023.

Payment Form Election (FE)

Upon retirement for active participants	
Lump Sum	90%
Annuity	10%
For terminated vested participants or upon severance for active participants	
Annuity at NRD	100%

Expense and/or Contingency Loading (FE)

The Target Normal Cost is increased by \$38,000 to cover anticipated administrative expenses paid from the trust for the plan year.

Marital Status and Ages (FE)

80% of Participants assumed to be married with wives assumed to be two years younger than their husbands

Market Value of Assets

Equal to the fair value of assets as of the valuation date, plus the discounted value of contributions (if applicable) made following the valuation date and before the date of this report for the purpose of satisfying the prior year's funding requirements.

Plan Asset Valuation Method

PPA Smoothed Value of Assets. Gains or losses on the Market Value of Assets are recognized over three years, subject to a 10% corridor around the Market Value of Assets

Expected Rate of Return on Assets (CO)

For determination of the Plan Asset value, the expected return on assets is equal to 6.20%. The expected return on assets is capped at the third segment rate.

Cost Method

PPA requires the use of the Unit Credit cost method for determining the minimum required contribution and PBGC premiums. The maximum tax deductible contribution calculation includes limited Projected Unit Credit calculations as required under IRC 404.

ASC 960 requires the use of the Unit Credit cost method.

FE indicates an assumption representing an estimate of future experience

MD indicates an assumption representing observations of estimates inherent in market data

CO indicates an assumption representing a combination of an estimate of future experience and observations of market data
