Independent Auditor's Report

**To the Participants and Plan Administrator of the
Stanley Martin 401(k) Plan**
Reston, VA

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Stanley Martin 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year then ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Stanley Martin 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**To the Participants and Plan Administrator of the
Stanley Martin 401(k) Plan**
Reston, Virginia

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Stanley Martin 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Stanley Martin 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

**To the Participants and Plan Administrator of the
Stanley Martin 401(k) Plan**

Reston, Virginia

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Stanley Martin 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Stanley Martin 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

**To the Participants and Plan Administrator of the
Stanley Martin 401(k) Plan**

Reston, Virginia

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Stanley Martin 401(k) Plan

Notes to Financial Statements

December 31, 2022 and 2021

Note 1: Description of the plan:

The following description of the Stanley Martin 401(k) Plan (the Plan) provides general information about the Plan's provisions. Stanley Martin Homes, LLC (the Company) is the Plan Sponsor. Participants should refer to the Plan Document and Summary Plan Description for a more complete description of the Plan's provisions, copies of which may be obtained from the Plan Sponsor.

General - The Plan was established on January 1, 1996 and was restated on April 1, 2010 to reflect the change in custodians and adoption of a volume submitter profit sharing plan with CODA. The Plan was restated on February 1, 2016 to bring the Plan into compliance with the Pension Protection Act of 2006 and other legislative and regulatory changes. The Plan was restated again on March 1, 2019 to reflect another change in custodians and to adopt statutory regulations pursuant to the Disaster Tax Relief and Airport and Airway Extension Act of 2017, the Tax Cuts and Jobs Act of 2017, the Bipartisan Budget Act of 2018, and the 2019 Final Hardship Regulations. In March 2021, the Plan was amended to update the name of the Plan Sponsor. In May 2021, and again in July 2022, the Adoption Agreement was amended and restated. The Plan qualifies under Section 401(k) of the Internal Revenue Code (the Code) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan covers eligible employees of the following affiliated companies who have attained the age of 21 and have one month of service. Participants may begin participating on the first day of the next calendar quarter subsequent to meeting the eligibility requirements.

The participating employers (collectively, the Employer or Plan Sponsor) are as follows:

- a. Stanley Martin Homes, LLC (FKA Stanley Martin Companies, LLC)
- b. First Excel Title, LLC
- c. First Heritage Mortgage, LLC

Participant contributions - Participants may contribute a percentage of their eligible compensation, as defined in the Plan, on a pre-tax basis subject to statutory limitations of the Code. Newly eligible employees are automatically enrolled at a pre-tax deferral rate of 3% (for those eligible prior to July 1, 2022) or 5% (for those eligible after July 1, 2022) of eligible compensation, unless and until the employee opts out. Participants who elect to have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. These eligible employees may also elect to make Roth elective deferrals. Roth elective deferrals are made after taxes have been withheld. Participants may contribute a combination of pre-tax elective deferrals and Roth elective deferrals. In addition, participants 50 years of age or older may elect to make a catch-up deferral contribution of up to \$6,500 for the year ended December 31, 2022. Distributions from other qualified retirement plans can also be contributed to the Plan and retained as a rollover contribution.

See Independent Auditor's Report

Stanley Martin 401(k) Plan

Notes to Financial Statements

December 31, 2022 and 2021

Note 1: Description of the plan: (continued)

Employer contributions - The Company may make discretionary contributions up to a percentage of employees' deferrals. Employer contributions for the year ended December 31, 2022 were \$3,788,266. During 2021, the Company matched 100% of participant contributions up to \$2,000 and 50% of all additional participant contributions, with a maximum matching contribution of \$3,000 per participant. Effective January 1, 2022, this maximum matching contribution was increased for Stanley Martin Homes, LLC, and First Excel Title, LLC, to 100% of the first \$3,000 plus 50% of any additional participant deferrals with a maximum matching contribution of \$5,000 per participant. The employer contribution limit for First Heritage Mortgage, LLC, was unchanged as of December 31, 2022.

Participant accounts - Each participant's account is credited with the participant's contributions and the Company's matching contributions and allocations of plan earnings and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. Allocations of the Company's matching contributions are based on participant contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - All participants are immediately vested in their elective deferral contributions, qualified non-elective contributions and rollover contributions plus actual earnings thereon.

Employer contributions and related investment income vest ratably as follows:

Years of Service	Percent Vested
1	25%
2	50%
3	75%
4	100%

Forfeitures - Forfeited balances of terminated participants' non-vested accounts are used to pay administrative expenses and reduce future Company contributions to the Plan. Unallocated forfeited balances as of December 31, 2022 and 2021 were \$65,571 and \$93,481, respectively, and forfeitures used to reduce Company contributions for the year ended December 31, 2022 were \$296,403.

Stanley Martin 401(k) Plan
Notes to Financial Statements

December 31, 2022 and 2021

Note 1: Description of the plan: (continued)

Investment options - Participants may direct their contributions into 34 investment options offered by the Plan. In the event a participant fails to make an investment election with respect to all or any portion of his or her account subject to his or her investment direction, the custodian shall invest all or such portion of his or her account in the investment fund to be designated by the Plan Administrator. The Company's contributions are invested in the same manner as that of the participant's elective contributions.

Notes receivable from participants - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of (a) \$50,000 or (b) 50% of their vested account balance, reduced by any outstanding loan.

Loans must be repaid within five years unless the loan was for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. For the year ended December 31, 2022, the interest rates charged on notes were 4.25 - 8.00%. Principal and interest is paid ratably through payroll deductions.

Payment of benefits - Upon termination of employment, participants may elect to receive an amount equal to the value of the vested interest in their account. The Plan allows for distributions upon termination of service, death, disability, attainment of age 59½ or in certain hardship situations. A participant may elect to receive a lump-sum payment or may roll over the value of his or her account into another qualified plan. In the event a participant terminates or retires, and the participant's vested account balance is less than \$5,000, the balance will either be rolled into an Individual Retirement Account or paid out as a lump-sum distribution at the discretion of the Plan Sponsor.

Hardship withdrawals - The Plan allows, in certain hardship situations as defined by the Plan Document, participants to withdraw all or any part of their vested account resulting from elective deferral contributions (excluding the income earned on such contributions), and employer contributions subject to the provisions set forth in the Plan Document. These hardship withdrawals are subject to the Code's restrictions and penalties.

Administrative expenses - Certain investment management fees and other charges paid to the custodian are calculated as an asset fee based on the fair value of investments held in participant accounts. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. There is also an annual Plan-level fee to be deducted from participant accounts pro rata on a quarterly basis. For the year ended December 31, 2022, administrative expenses totaled \$191,320.

See Independent Auditor's Report

Stanley Martin 401(k) Plan
Notes to Financial Statements

December 31, 2022 and 2021

Note 1: Description of the plan: (continued)

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

Plan amendments - Effective July 1, 2022, the Plan amended and restated its Adoption Agreement.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was signed into law. The CARES Act includes a series of temporary provisions that plan sponsors may choose to adopt relating to participant loans and distributions. After the passing of the CARES Act, the Plan chose to adopt the following temporary provisions: (1) providing participants with the option to skip required minimum distributions due in 2020, (2) allowing for a one-year deferral of loan repayments due between March 27, 2020 and December 31, 2020, and (3) allowing for qualified individuals to take coronavirus-related distributions, as defined in the CARES Act, of up to \$100,000 during 2020. Plan management intends to formally amend the Plan in order to reflect these changes.

Note 2: Summary of significant accounting policies:

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Payment of benefits - Benefit payments to participants are recorded when paid.

Use of estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Notes receivable from participants - Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan Document. The Plan administrator believes all notes receivable from participants are collectible.

See Independent Auditor's Report

Stanley Martin 401(k) Plan
Notes to Financial Statements

December 31, 2022 and 2021

Note 2: Summary of significant accounting policies: (continued)

Investment valuation and income recognition - Investments of the Plan are held by Fidelity and are invested based solely upon instructions received from participants. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Shares of registered investment companies (mutual funds) are reported at fair value based on the quoted market prices, which represent the net asset value (NAV) of shares held by the fund at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Earnings from investments are recorded as earned using the accrual method of accounting. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Risks and uncertainties - The Plan provides for various investment options in mutual funds and collective investment trusts with varying investment objectives and underlying security instruments. These investments are exposed to various risks including interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in risks could materially affect participants' account balances and the amounts reported in the accompanying financial statements. Plan assets may have decreased in value since December 31, 2022 due to normal market fluctuations.

Note 3: Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

See Independent Auditor's Report

Stanley Martin 401(k) Plan
Notes to Financial Statements

December 31, 2022 and 2021

Note 3: Fair value measurements: (continued)

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2022 and 2021.

Collective investment trusts - valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The Plan's collective investment trusts seek to provide long-term investors with an asset allocation strategy designed to maximize assets for retirement consistent with the risk level and projected retirement date associated with each fund. They are designed to automatically adjust their risk over time, gradually shifting from a focus on capital appreciation to one of capital preservation. Investments in collective investment trusts are redeemable daily. Per the terms of ASU 2015-07, collective investment trusts have not been classified in the fair value hierarchy.

Mutual funds - valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4: Information certified by plan trustee:

The Plan Administrator has elected the method of compliance as permitted by 29 Code of Federal Regulations (CFR) 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the trustee, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule for each respective period.

See Independent Auditor's Report

Stanley Martin 401(k) Plan
Notes to Financial Statements

December 31, 2022 and 2021

Note 4: Information certified by plan trustee: (continued)

Fidelity, as of December 31, 2022 and 2021 and for the year ended December 31, 2022, certified the value of all investments and investment transactions (individually and in the aggregate). Information certified as complete and accurate by Fidelity include investments, notes receivable from participants, net appreciation (depreciation) in fair value of investments, dividends and interest.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. In addition, the information in the Form 5500 Supplemental Attachment to Schedule H has been certified by Fidelity as of December 31, 2022.

Note 5: Tax status:

The underlying volume submitter plan has received an advisory letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the form of the plan is qualified under Section 401 of the Code and therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2012-6 and 2011-49, the Plan Administrator has determined that it is eligible to and has chosen to rely on the current IRS volume submitter advisory letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Administrator and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6: Administration of plan assets:

The Plan's assets, which consist of shares of various collective investment trusts and mutual funds, are held by Fidelity.

Participant contributions are held and managed by Fidelity, who invests cash received, interest, and dividends as directed by participants.

See Independent Auditor's Report

Stanley Martin 401(k) Plan
Notes to Financial Statements

December 31, 2022 and 2021

Note 6: Administration of plan assets: (continued)

Certain officers and employees of the Plan Sponsor serve as the Plan Administrator and on its retirement and investment committees. The Plan's committees have full responsibility for interpreting and administering the Plan. No officer or employee of the Plan Sponsor receives compensation from the Plan. Administrative expenses for custodial fees are paid directly out of Plan assets.

Note 7: Related party transactions and party in-interest transactions:

Fidelity manages certain Plan investments and provides administrative, recordkeeping and advisory services. Fidelity qualifies as a party in-interest to the Plan in regard to transactions involving these Plan assets, and therefore the management and other fees earned by Fidelity are done so through transactions to which statutory exemptions apply under the Department of Labor Regulations. Additionally, the Plan issues loans to participants, which are secured by the participants' accounts. These transactions are considered party in-interest transactions.

Fees paid by the Plan and deducted from participant accounts for administrative and investment management expenses amounted to \$191,320 in 2022.

Note 8: Reconciliation of financial statements to Schedule H of Form 5500:

The differences between the information reported in the financial statements and the information reported in the Form 5500 arise from classification differences in investments and investment income.

Note 9: Subsequent events:

Subsequent events have been evaluated through September 5, 2023, which is the date the financial statements were available to be issued.

Stanley Martin 401(k) Plan**

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Stanley Martin 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year then ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Stanley Martin 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**To the Participants and Plan Administrator of the
Stanley Martin 401(k) Plan**
Reston, Virginia

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Stanley Martin 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Stanley Martin 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

**To the Participants and Plan Administrator of the
Stanley Martin 401(k) Plan**
Reston, Virginia

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Stanley Martin 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Stanley Martin 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

**To the Participants and Plan Administrator of the
Stanley Martin 401(k) Plan**

Reston, Virginia

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Stanley Martin 401(k) Plan

Notes to Financial Statements

December 31, 2022 and 2021

Note 1: Description of the plan:

The following description of the Stanley Martin 401(k) Plan (the Plan) provides general information about the Plan's provisions. Stanley Martin Homes, LLC (the Company) is the Plan Sponsor. Participants should refer to the Plan Document and Summary Plan Description for a more complete description of the Plan's provisions, copies of which may be obtained from the Plan Sponsor.

General - The Plan was established on January 1, 1996 and was restated on April 1, 2010 to reflect the change in custodians and adoption of a volume submitter profit sharing plan with CODA. The Plan was restated on February 1, 2016 to bring the Plan into compliance with the Pension Protection Act of 2006 and other legislative and regulatory changes. The Plan was restated again on March 1, 2019 to reflect another change in custodians and to adopt statutory regulations pursuant to the Disaster Tax Relief and Airport and Airway Extension Act of 2017, the Tax Cuts and Jobs Act of 2017, the Bipartisan Budget Act of 2018, and the 2019 Final Hardship Regulations. In March 2021, the Plan was amended to update the name of the Plan Sponsor. In May 2021, and again in July 2022, the Adoption Agreement was amended and restated. The Plan qualifies under Section 401(k) of the Internal Revenue Code (the Code) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan covers eligible employees of the following affiliated companies who have attained the age of 21 and have one month of service. Participants may begin participating on the first day of the next calendar quarter subsequent to meeting the eligibility requirements.

The participating employers (collectively, the Employer or Plan Sponsor) are as follows:

- a. Stanley Martin Homes, LLC (FKA Stanley Martin Companies, LLC)
- b. First Excel Title, LLC
- c. First Heritage Mortgage, LLC

Participant contributions - Participants may contribute a percentage of their eligible compensation, as defined in the Plan, on a pre-tax basis subject to statutory limitations of the Code. Newly eligible employees are automatically enrolled at a pre-tax deferral rate of 3% (for those eligible prior to July 1, 2022) or 5% (for those eligible after July 1, 2022) of eligible compensation, unless and until the employee opts out. Participants who elect to have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. These eligible employees may also elect to make Roth elective deferrals. Roth elective deferrals are made after taxes have been withheld. Participants may contribute a combination of pre-tax elective deferrals and Roth elective deferrals. In addition, participants 50 years of age or older may elect to make a catch-up deferral contribution of up to \$6,500 for the year ended December 31, 2022. Distributions from other qualified retirement plans can also be contributed to the Plan and retained as a rollover contribution.

See Independent Auditor's Report

Stanley Martin 401(k) Plan

Notes to Financial Statements

December 31, 2022 and 2021

Note 1: Description of the plan: (continued)

Employer contributions - The Company may make discretionary contributions up to a percentage of employees' deferrals. Employer contributions for the year ended December 31, 2022 were \$3,788,266. During 2021, the Company matched 100% of participant contributions up to \$2,000 and 50% of all additional participant contributions, with a maximum matching contribution of \$3,000 per participant. Effective January 1, 2022, this maximum matching contribution was increased for Stanley Martin Homes, LLC, and First Excel Title, LLC, to 100% of the first \$3,000 plus 50% of any additional participant deferrals with a maximum matching contribution of \$5,000 per participant. The employer contribution limit for First Heritage Mortgage, LLC, was unchanged as of December 31, 2022.

Participant accounts - Each participant's account is credited with the participant's contributions and the Company's matching contributions and allocations of plan earnings and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. Allocations of the Company's matching contributions are based on participant contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - All participants are immediately vested in their elective deferral contributions, qualified non-elective contributions and rollover contributions plus actual earnings thereon.

Employer contributions and related investment income vest ratably as follows:

Years of Service	Percent Vested
1	25%
2	50%
3	75%
4	100%

Forfeitures - Forfeited balances of terminated participants' non-vested accounts are used to pay administrative expenses and reduce future Company contributions to the Plan. Unallocated forfeited balances as of December 31, 2022 and 2021 were \$65,571 and \$93,481, respectively, and forfeitures used to reduce Company contributions for the year ended December 31, 2022 were \$296,403.

Stanley Martin 401(k) Plan
Notes to Financial Statements

December 31, 2022 and 2021

Note 1: Description of the plan: (continued)

Investment options - Participants may direct their contributions into 34 investment options offered by the Plan. In the event a participant fails to make an investment election with respect to all or any portion of his or her account subject to his or her investment direction, the custodian shall invest all or such portion of his or her account in the investment fund to be designated by the Plan Administrator. The Company's contributions are invested in the same manner as that of the participant's elective contributions.

Notes receivable from participants - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of (a) \$50,000 or (b) 50% of their vested account balance, reduced by any outstanding loan.

Loans must be repaid within five years unless the loan was for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. For the year ended December 31, 2022, the interest rates charged on notes were 4.25 - 8.00%. Principal and interest is paid ratably through payroll deductions.

Payment of benefits - Upon termination of employment, participants may elect to receive an amount equal to the value of the vested interest in their account. The Plan allows for distributions upon termination of service, death, disability, attainment of age 59½ or in certain hardship situations. A participant may elect to receive a lump-sum payment or may roll over the value of his or her account into another qualified plan. In the event a participant terminates or retires, and the participant's vested account balance is less than \$5,000, the balance will either be rolled into an Individual Retirement Account or paid out as a lump-sum distribution at the discretion of the Plan Sponsor.

Hardship withdrawals - The Plan allows, in certain hardship situations as defined by the Plan Document, participants to withdraw all or any part of their vested account resulting from elective deferral contributions (excluding the income earned on such contributions), and employer contributions subject to the provisions set forth in the Plan Document. These hardship withdrawals are subject to the Code's restrictions and penalties.

Administrative expenses - Certain investment management fees and other charges paid to the custodian are calculated as an asset fee based on the fair value of investments held in participant accounts. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. There is also an annual Plan-level fee to be deducted from participant accounts pro rata on a quarterly basis. For the year ended December 31, 2022, administrative expenses totaled \$191,320.

See Independent Auditor's Report

Stanley Martin 401(k) Plan
Notes to Financial Statements

December 31, 2022 and 2021

Note 1: Description of the plan: (continued)

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

Plan amendments - Effective July 1, 2022, the Plan amended and restated its Adoption Agreement.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was signed into law. The CARES Act includes a series of temporary provisions that plan sponsors may choose to adopt relating to participant loans and distributions. After the passing of the CARES Act, the Plan chose to adopt the following temporary provisions: (1) providing participants with the option to skip required minimum distributions due in 2020, (2) allowing for a one-year deferral of loan repayments due between March 27, 2020 and December 31, 2020, and (3) allowing for qualified individuals to take coronavirus-related distributions, as defined in the CARES Act, of up to \$100,000 during 2020. Plan management intends to formally amend the Plan in order to reflect these changes.

Note 2: Summary of significant accounting policies:

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Payment of benefits - Benefit payments to participants are recorded when paid.

Use of estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Notes receivable from participants - Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan Document. The Plan administrator believes all notes receivable from participants are collectible.

See Independent Auditor's Report

Stanley Martin 401(k) Plan
Notes to Financial Statements

December 31, 2022 and 2021

Note 2: Summary of significant accounting policies: (continued)

Investment valuation and income recognition - Investments of the Plan are held by Fidelity and are invested based solely upon instructions received from participants. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Shares of registered investment companies (mutual funds) are reported at fair value based on the quoted market prices, which represent the net asset value (NAV) of shares held by the fund at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Earnings from investments are recorded as earned using the accrual method of accounting. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Risks and uncertainties - The Plan provides for various investment options in mutual funds and collective investment trusts with varying investment objectives and underlying security instruments. These investments are exposed to various risks including interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in risks could materially affect participants' account balances and the amounts reported in the accompanying financial statements. Plan assets may have decreased in value since December 31, 2022 due to normal market fluctuations.

Note 3: Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

See Independent Auditor's Report

Stanley Martin 401(k) Plan
Notes to Financial Statements

December 31, 2022 and 2021

Note 3: Fair value measurements: (continued)

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2022 and 2021.

Collective investment trusts - valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The Plan's collective investment trusts seek to provide long-term investors with an asset allocation strategy designed to maximize assets for retirement consistent with the risk level and projected retirement date associated with each fund. They are designed to automatically adjust their risk over time, gradually shifting from a focus on capital appreciation to one of capital preservation. Investments in collective investment trusts are redeemable daily. Per the terms of ASU 2015-07, collective investment trusts have not been classified in the fair value hierarchy.

Mutual funds - valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4: Information certified by plan trustee:

The Plan Administrator has elected the method of compliance as permitted by 29 Code of Federal Regulations (CFR) 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the trustee, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule for each respective period.

See Independent Auditor's Report

Stanley Martin 401(k) Plan
Notes to Financial Statements

December 31, 2022 and 2021

Note 4: Information certified by plan trustee: (continued)

Fidelity, as of December 31, 2022 and 2021 and for the year ended December 31, 2022, certified the value of all investments and investment transactions (individually and in the aggregate). Information certified as complete and accurate by Fidelity include investments, notes receivable from participants, net appreciation (depreciation) in fair value of investments, dividends and interest.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. In addition, the information in the Form 5500 Supplemental Attachment to Schedule H has been certified by Fidelity as of December 31, 2022.

Note 5: Tax status:

The underlying volume submitter plan has received an advisory letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the form of the plan is qualified under Section 401 of the Code and therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2012-6 and 2011-49, the Plan Administrator has determined that it is eligible to and has chosen to rely on the current IRS volume submitter advisory letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Administrator and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6: Administration of plan assets:

The Plan's assets, which consist of shares of various collective investment trusts and mutual funds, are held by Fidelity.

Participant contributions are held and managed by Fidelity, who invests cash received, interest, and dividends as directed by participants.

See Independent Auditor's Report

Stanley Martin 401(k) Plan
Notes to Financial Statements

December 31, 2022 and 2021

Note 6: Administration of plan assets: (continued)

Certain officers and employees of the Plan Sponsor serve as the Plan Administrator and on its retirement and investment committees. The Plan's committees have full responsibility for interpreting and administering the Plan. No officer or employee of the Plan Sponsor receives compensation from the Plan. Administrative expenses for custodial fees are paid directly out of Plan assets.

Note 7: Related party transactions and party in-interest transactions:

Fidelity manages certain Plan investments and provides administrative, recordkeeping and advisory services. Fidelity qualifies as a party in-interest to the Plan in regard to transactions involving these Plan assets, and therefore the management and other fees earned by Fidelity are done so through transactions to which statutory exemptions apply under the Department of Labor Regulations. Additionally, the Plan issues loans to participants, which are secured by the participants' accounts. These transactions are considered party in-interest transactions.

Fees paid by the Plan and deducted from participant accounts for administrative and investment management expenses amounted to \$191,320 in 2022.

Note 8: Reconciliation of financial statements to Schedule H of Form 5500:

The differences between the information reported in the financial statements and the information reported in the Form 5500 arise from classification differences in investments and investment income.

Note 9: Subsequent events:

Subsequent events have been evaluated through September 5, 2023, which is the date the financial statements were available to be issued.
