Amphenol Thermometrics, Inc. Employee Savings/401k Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Amphenol Thermometrics, Inc. Employee Savings/401k Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Amphenol Thermometrics, Inc. Employee Savings/401k Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Amphenol Thermometrics, Inc. Employee Savings/401k Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Amphenol Thermometrics, Inc. Employee Savings/401k Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Amphenol Thermometrics, Inc. Employee Savings/401k Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Amphenol Thermometrics, Inc. Employee Savings/401k Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 1 DESCRIPTION OF PLAN

The following description of the Amphenol Thermometrics, Inc. Employee Savings/401k Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Plan Amendments and Restatement

The Plan was amended effective January 1, 2022 to increase the Company matching contribution for Class I participants. As part of a new collective bargaining agreement, the Company will not make a matching contribution equal to 50% of the first 8% of compensation contributed by each participant. The Plan was completely amended and restated effective April 18, 2022 in order to comply with the Internal Revenue Service (IRS) Cycle 3 restatement. All significant Plan provisions remained substantially unchanged.

General

The Plan was established on April 1, 2014 as a defined contribution plan covering substantially all eligible employees of Amphenol Thermometrics, Inc. (the Company). The Company is a subsidiary/division of Amphenol Corporation. The Company was established subsequent to Amphenol Corporation's acquisition of GE Thermometrics Inc. in December 2013. The Pension Committee of the Board of Directors of Amphenol Corporation controls and manages the operation and administration of the Plan. Fidelity Management Trust Company (Fidelity) serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute between 1% and 75% of compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may direct all or a portion of their contributions as Roth contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollovers). Newly eligible participants are automatically enrolled into the Plan with a default pre-tax contribution rate equal to 3% of compensation, unless the employee elects otherwise. Automatically enrolled participants have their contributions invested in a designated fund until changed by the participant.

Participants fall into one of four classes of employees, as defined by the Plan. For Class I participants, the Company makes a matching contribution equal to 50% of the first 7% of compensation contributed by each participant. For Class II, III, or IV participants, the Company makes a matching contribution equal to 100% of the first 3% of compensation contributed by each participant. The Company also makes a profit sharing contribution equal to 3% of eligible compensation for Class II and III participants and 2% of eligible compensation for Class IV employees. Class I employees are not eligible for profit sharing contributions. Class III participants also receive an additional profit sharing contribution between 1% and 4% of eligible compensation based on these participants' combined age and credited service as of December 18, 2013. In addition, the Company may make additional matching and profit sharing contributions at the discretion of the Board of Directors. There were no additional matching or profit sharing contributions for the year ended December 31, 2022. All contributions are subject to certain limitations imposed by the Plan and the Internal Revenue Code (IRC).

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contributions and Company contributions, and allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations of Company contributions, investment income, and administrative expenses are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

Investment Options

Participants may direct their contributions into any of the funds offered by the Plan, which are held at Fidelity. These funds include a variety of investment options with various objectives and degrees of financial risk.

Vesting

Participants are immediately vested in their deferral and rollover contributions, including the earnings on those amounts. Participants are also immediately vested in Company profit sharing contributions. Vesting in the Company matching contributions portion of their accounts is based on years of continuous service. Participants are fully vested in employer contributions upon the completion of three years of service. Certain participants who were employed by GE Thermometrics Inc. or any of its related employers on December 18, 2013 received vesting credit for all predecessor employer service. Participants are also fully vested upon reaching normal retirement age, death, or total disability.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one-half of their vested account balance. Loan terms range from one to five years, except for loans to purchase a primary residence, which may be offered over a term of up to 10 years. The loans are secured by the balance in the participants' accounts and bear interest at a rate that professional lenders would charge, as determined by the Plan administrator. The notes currently bear interest at rates ranging from 4.25% to 7.25%. Participants may only have one loan outstanding at any given time. Generally, principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon retirement, disability, death, or termination of employment, the participant shall become entitled to the total value of his or her vested account. Distributions will be paid in a lump sum or in partial payments, based upon election of the participant as defined in the Plan or the IRC. If a participant terminates employment for any reason and his or her vested account balance does not exceed \$1,000, the Plan administrator may distribute such amount in a lump-sum payment to the participant without consent of the participant. If the participant's balance is between \$1,000 and \$5,000, the Plan administrator may roll the amount into an individual retirement account on behalf of the participant without the consent of the participant.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits (Continued)

The Plan also provides for in-service withdrawals by participants who have attained the age of 59½. Upon financial hardship, a participant is entitled to the value of his or her deferral accounts, but not the earnings thereon, which is payable immediately in a lump-sum distribution.

Forfeitures

Forfeitures of discretionary matching and profit sharing contributions can be used to reduce the Company's future matching contributions. Forfeited nonvested discretionary matching accounts totaled \$246,396 and \$216,191 at December 31, 2022 and 2021, respectively. During 2022, the Company did not use forfeitures to reduce Company contributions.

Revenue Sharing

The Plan holds assets in a Plan expense account which receives deposits as a result of a revenue sharing arrangement with Fidelity. During 2022, deposits to the account totaled \$60,136, which are included in other income on the statement of changes in net assets available for benefits. Funds in the account are used to pay qualified Plan expenses or are reallocated back to participants. For the year ended December 31, 2022, Plan management used \$10,800 of revenue sharing credits to pay Plan expenses and reallocated \$46,959 of revenue sharing credits back to participants. The revenue sharing account totaled \$19,791 and \$17,149 as of December 31, 2022 and 2021, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Other income represents income received from revenue sharing arrangements with Fidelity.

AMPHENOL THERMOMETRICS, INC. EMPLOYEE SAVINGS/401K PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded on the accrual basis. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefits to participants are recorded when paid.

Plan Expenses

Certain expenses of maintaining the Plan are paid directly by the Company. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Risks and Uncertainties

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and those changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Subsequent events were evaluated through September 25, 2023, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION BY THE INVESTMENT TRUSTEE

Information presented in the accompanying statements and supplemental schedule as of December 31, 2022 and 2021, and for the year ended December 31, 2022 for investments, notes receivable from participants, investment income, and interest income on notes receivable from participants was derived from information certified to be complete and accurate by Fidelity, the trustee, as permitted by the election made by the Plan administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 4 FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Assets valued using the net asset value practical expedient are not required to be reported within the hierarchy.

The following is a description of the valuation methodology used for assets measured at fair value:

Money Market and Mutual Funds – Money market and mutual funds are valued at the quoted price of shares held by the Plan at year-end.

Common and Collective Trust – The common and collective trust is composed primarily of fully benefit-responsive investment contracts and is valued at the net asset value of the units held of the collective trust. The net asset value is used as a practical expedient to estimate fair value.

There have been no changes in the methodologies used at December 31, 2022 and 2021.

AMPHENOL THERMOMETRICS, INC. EMPLOYEE SAVINGS/401K PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

2022					
	Level 1	Level 2	Level 3	Investments Measured at Net Asset Value (a)	Total
Money Market and Mutual Funds	\$ 38,950,784	\$ -	\$ -	\$ -	\$ 38,950,784
Common and Collective Trust	-	-	-	1,533,827	1,533,827
Investments at Fair Value	<u>\$ 38,950,784</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,533,827</u>	<u>\$ 40,484,611</u>
2021					
	Level 1	Level 2	Level 3	Investments Measured at Net Asset Value (a)	Total
Money Market and Mutual Funds	\$ 47,160,210	\$ -	\$ -	\$ -	\$ 47,160,210
Common and Collective Trust	-	-	-	1,315,398	1,315,398
Investments at Fair Value	<u>\$ 47,160,210</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,315,398</u>	<u>\$ 48,475,608</u>

- a) Certain investments that are measured using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

There were no transfers between levels of investments during the year ended December 31, 2022.

Investments in the common and collective trust provide for daily liquidity and have no redemption features or other restrictions.

AMPHENOL THERMOMETRICS, INC. EMPLOYEE SAVINGS/401K PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 5 PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of money market and mutual funds and units of a common and collective trust managed by affiliates of Fidelity. Fidelity is a trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Certain employees of the Company who participate in the Plan perform administrative services to the Plan at no cost to the Plan. Notes receivable from participants are also party-in-interest transactions.

NOTE 6 INCOME TAX STATUS

The Plan received a favorable determination on May 8, 2017 from the Internal Revenue Service (IRS) that it was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes the Plan was qualified and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE 8 SUBSEQUENT EVENTS

The Plan was amended effective January 1, 2023 to reflect statutory changes pursuant to the Coronavirus Aid, Relief, and Economic Security Act (CARES Act).

The Plan was amended effective April 1, 2023 to eliminate the distinction between Class II and Class IV employees. Previously, Class II represented nonunion and non-grandfathered pension employees who were active as of December 18, 2013 and Class IV represented nonunion and non-grandfathered pension employees hired after December 18, 2013. Under this amendment, all nonunion and non-grandfathered pension employees are now considered Class II, eliminating Class IV. All Class II employees continue to receive a 3% profit sharing contribution.
