Kansas City, Missouri

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Kansas City University Retirement Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Kansas City University Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in *Note 3* to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the “Auditor’s Responsibilities for the Audit of the Financial Statements” section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Kansas City University Retirement Plan’s ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the “Scope and Nature of the ERISA Section 103(a)(3)(C) Audit” section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Kansas City University Retirement Plan

Notes to Financial Statements December 31, 2022 and 2021

Note 1: Description of the Plan

General

The following description of Kansas City University Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan’s provisions.

The Plan is a defined contribution plan sponsored by Kansas City University (the “University”) for the benefit of its employees. Employees are eligible to contribute elective deferrals into the Plan immediately upon hire. Students and employees that work less than 20 hours per week are generally excluded from participation in the Plan.

The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). TIAA serves as the issuer of the TIAA Traditional Annuity contract held by the Plan and is recordkeeper and custodian of the Plan. TIAA and CREF are custodians of certain plan assets, including annuity accounts and a pooled separate account. The trustee and custodian of mutual funds is Empower Trust Company, LLC, formerly Great-West Trust Company, LLC. Investments will remain in TIAA and CREF as the custodians relating to the annuity contracts and pooled separate account, however, all contributions are remitted to Empower Trust Company, LLC.

Effective August 1, 2022, Great-West Trust Company, LLC was renamed Empower Trust Company, LLC as a name change under the Empower brand.

Contributions

The Plan permits eligible employees, through a salary deferral election, to have the University make annual contributions of up to 100 percent of eligible compensation. Employee rollover contributions are also permitted. The University makes non-elective contributions of 4 percent of each employees’ eligible compensation. In addition to the 4 percent base contribution, the University also makes a discretionary contribution which matches employee contributions according to the following table:

<u>Contribution Percentages</u>	
<u>Employee</u>	<u>Employer Match</u>
1%	2%
2%	3%
3%	4%
4%	5%
5%	6%

Contributions are subject to certain limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

Kansas City University Retirement Plan

Notes to Financial Statements December 31, 2022 and 2021

Effective January 1, 2021, employees who are classified by the plan sponsor as regularly scheduled to work fewer than 20 hours per week are required to accumulate 1,000 hours of service to be eligible to receive employer contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution, the University's contribution and plan earnings, and is charged with any transaction-based administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Investment Account Options

Investment account options available include various annuity accounts, a pooled separate account and mutual funds. Each participant has the option of directing contributions into any of the separate investment accounts selected by the University and may change the allocation to the extent permitted by the individual agreements.

The Plan includes an automatic deferral feature whereby a participant is treated as electing to defer 1 percent of eligible compensation unless the participant made an affirmative election otherwise. Effective August 1, 2021, the automatic deferral will not apply to any employee who is classified by the plan sponsor as scheduled to work fewer than 20 hours per week.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon.

Vesting in the University's contribution portion of their accounts plus earnings thereon is based on continuous service. An employee must work 1,000 hours of service during the vesting computation period to receive credit for a year of service. Participants are vested as follows:

<u>Years of Service</u>	<u>Percentage</u>
Less than 1	0%
1	25%
2	50%
3	75%
4	100%

Forfeited Accounts

Participants enrolled in the Plan prior to January 1, 2018 are fully vested upon entrance into the Plan; therefore, no portion of their account balances may be forfeited upon exit from the Plan. Participants entering the Plan on or after January 1, 2018 are subject to the vesting schedule above and will forfeit employer contributions upon termination prior to completing four years of service.

Kansas City University Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

At December 31, 2022 and 2021, forfeited nonvested accounts totaled \$0 and \$3,545, respectively. Any forfeitures will be used to reduce employer contributions. Forfeitures for 2022 and 2021 were \$51,553 and \$39,620, respectively. Also, in 2022, employer contributions were reduced by \$51,588 from forfeited nonvested accounts.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at 2 percent above the prime rate, as defined. If a participant has an outstanding loan through another qualified plan maintained by the same employer, the maximum loan amount available must be reduced by the highest outstanding loan balance during the past 12 months. If a participant has an outstanding loan through the Plan but maintained by another recordkeeper, the outstanding loan(s) must be paid in full prior to taking another loan.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the vested value of his or her account, an annuity contract (if assets are held in a custodial account at TIAA and CREF) or converted to an income option (if assets are invested in an annuity contract at TIAA and CREF). A participant may elect to receive a distribution of his or her rollover contributions at any time. Withdrawals other than for termination are permitted under certain circumstances provided by the Plan. Participants may elect to receive the distribution in the following methods:

- Single lump-sum payment
- Monthly, quarterly or annual installment over a period of not more than their assumed life expectancy
- Partial distribution

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Kansas City University Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are reported at fair value except for fully benefit-responsive investment contracts, which are reported at contract value. Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end.

The TIAA Traditional Annuity contract is a fixed-dollar annuity and investment product offered by TIAA, an insurance company. The TIAA Traditional Annuity is maintained in the TIAA general account. Contributions to the TIAA Traditional Annuity purchase a contractual or guaranteed amount of future benefits for the participants and are secured by the general assets of TIAA. Crediting interest rates on the TIAA Traditional Annuity are determined quarterly by the issuer with a minimum rate of approximately 3.00 percent, subject to limitations relating to plan termination, early retirements, etc. There are no reserves against the contract value for credit risk or the contract issuer or otherwise.

The TIAA Real Estate Pooled Separate account is valued at the NAV per accumulation unit of the investment. The underlying real estate holdings or other real estate-related investments are valued principally utilizing external appraisals. Although the underlying assets of the account cannot be quickly sold and converted to liquid assets, the TIAA general account provides the Plan with a liquidity guarantee. Transfers out of the pooled separate account are limited to one per calendar quarter. There are no unfunded commitments or redemption notice periods.

Fully benefit-responsive investment contracts are valued at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income (loss) is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Kansas City University Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

Plan Loans

Prior to 2018, TIAA issued loans to plan participants outside the scope of the Plan. Participants pledged as security a portion of their balance in the TIAA Traditional Annuity, which represented 110 percent of the outstanding loan balance. The amount pledged as collateral at December 31, 2022 and 2021 was approximately \$24,000 and \$42,000, respectively. Interest is a variable rate, indexed to the Moody's rate and increased or decreased by one half of one percent or more. Outstanding plan loan interest rates range from 4.07 percent to 4.88 percent at December 31, 2022.

The Employee Benefits Security Administration (EBSA) has expressed concern that the pledging of collateral of a participant's balance could be considered a prohibited transaction; however, no formal guidance has yet been issued by the EBSA.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the University or the Plan, at the University's discretion.

Note 3: Certification of Plan Custodians

The Sponsor has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Empower Trust Company, LLC, formerly Great-West Trust Company, LLC, and TIAA and CREF, qualified institutions, have certified the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2022 and 2021.
- Investment income (loss) and interest income on notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021.
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2022.

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related information included in the financial statements and ERISA-required supplemental schedule.

Note 4: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association or relatives of such persons.

Certain plan investments are units of variable annuity accounts or a pooled separate account that are managed by TIAA and CREF, which are the custodians of the Plan. The Plan's Traditional Annuity contract is maintained in TIAA and CREF's general account.

The Plan invests in certain funds of the plan custodians. The Plan paid \$93,735 and \$110,741 of recordkeeping fees to the custodians during the years ended December 31, 2022 and 2021, respectively. The University provides certain administrative services at no cost to the Plan.

Note 5: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2022 and 2021:

		Fair Value Measurements Using

- (A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Kansas City University Retirement Plan

Notes to Financial Statements December 31, 2022 and 2021

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2022 and 2021. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 securities.

Level 3 Activity

Activity, transfers into and out of Level 3 and the reason for those transfers are as follows:

	Significant Inputs (Level 3)	Reason for Transfer
<u>2022</u>		
Purchases	\$ 690,498	
Sales	(1,127,616)	
Transfers to Level 3	632,095	Interfund transfer
Transfers from Level 3	(682,093)	Interfund transfer
<u>2021</u>		
Purchases	\$ 594,884	
Sales	(985,461)

Unobservable (Level 3) Inputs

The following table presents quantitative information about unobservable inputs used in recurring Level 3 fair value measurements at December 31, 2022 and 2021:

	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range (Weighted Average)

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2022 and 2021. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

		December 31, 2022		
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate account - real estate (A)	\$ 1,626,020	\$ -	3 months	None

		December 31, 2021		
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate account - real estate (A)	\$ 1,634,220	\$ -	3 months	None

- (A) The TIAA Real Estate Pooled Separate account is valued at the NAV per accumulation unit of the investment. The underlying real estate holdings or other real estate-related investments are valued principally utilizing external appraisals. Although the underlying assets of the account cannot be quickly sold and converted to liquid assets, the TIAA general account provides the Plan with a liquidity guarantee. Transfers out of the pooled separate account are limited to one per calendar quarter. There are no unfunded commitments or redemption notice periods.

Note 6: Investment Contract with Insurance Company

The TIAA Traditional Annuity account invested in SRA and GSRA contracts and the TIAA Stable Value Fund, are fully benefit-responsive; therefore, contract value is the relevant measure. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus interest at the contract rate, less funds to pay withdrawal benefits and administrative expenses. The investment contract with TIAA Traditional Annuities contains liquidity restrictions that require withdrawals and transfers from the investment contract to other investment options available to the Plan to be spread over a period of 10 annual installments. The TIAA Stable Value Fund contains liquidity restrictions that require withdrawals and transfers from the investment contract to other investment options have a 90 day waiting period.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from

Notes to Financial Statements

December 31, 2022 and 2021

federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Participants purchase accumulation units in the variable annuity contracts and their value is calculated daily. Variable annuity accounts, except for the money market account, are recorded at their estimated fair value, which is based upon the underlying value of the assets. The money market account is recorded at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and, thereafter, amortizing any discount or premium from its face value at a constant rate until maturity.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

Note 9: Tax Status

The Plan, together with the investment vehicles, is intended to be a tax-sheltered annuity plan under Section 403(b) of the Internal Revenue Code of 1986, as amended. The Plan has not requested or obtained a determination letter, as the Internal Revenue Service does not currently provide that service for 403(b) plans. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and not subject to tax.
