Report of Independent Auditors

The Plan Administrative Committee of
The Salk Institute Retirement Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Salk Institute Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of The Salk Institute Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Salk Institute Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Salk Institute Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Salk Institute Retirement Plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Salk Institute Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

Note 1 – Description of Plan

The following description of The Salk Institute Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a 403(b) plan covering substantially all employees of The Salk Institute for Biological Studies (the “Institute”) and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Institute is the Plan’s sponsor and serves as plan administrator.

Eligibility – Substantially all employees of the Institute are eligible to participate in the Plan through employee contributions on the date of hire. Employees are eligible to participate in Institute contributions upon reaching the age of 18 and completing two years of service in which at least 1,000 hours are worked each year.

Employer contributions – The Institute contributes an amount equal to 10 percent of each eligible participant’s compensation, generally regular pay and overtime, earned while an active participant. The maximum compensation used to compute the Institute’s contribution is established by the Internal Revenue Code (IRC) (\$305,000 in 2022).

Employee contributions – Participants may elect to contribute to the Plan each year through a salary reduction agreement in an amount up to the limit established in the IRC (\$20,500 in elective deferrals and \$6,500 in catch-up contributions in 2022). Contributions are subject to additional regulatory limits.

Participant accounts – Each participant’s account is credited with the Institute’s contribution on behalf of the participant, the participant’s contribution, and an allocation of Plan earnings, and charged with an allocation of administrative expenses, if applicable. Allocations are based on participant account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account balance.

Vesting – Participants are fully vested in their account balances at all times.

Loans receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50 percent of the participant’s account balance attributable to employee contributions and related earnings. Participants may have up to three loans outstanding up to the total maximum amount allowable. Loans are secured by the balance of the participant’s account and bear interest at rates established in accordance with the Plan Agreement. The maximum loan term is five years unless the loan qualifies as a home loan, in which case the term of the loan is not to exceed 15 years. Principal and interest are paid ratably by check or electronic payment services.

Notes to Financial Statements

Note 1 – Description of Plan (continued)

As of December 31, 2022, the rates of interest on outstanding participant loans held in participant accounts at Teachers Insurance and Annuity Association of America (TIAA) and Fidelity Management Trust Company (“Fidelity”) ranged from 4.25 percent to 6.50 percent with various maturities through November 2034.

Payment of benefits – On termination of service due to death, disability, retirement, or obtaining age 59½, a participant may elect to receive either a lump-sum amount equal to the value of the participant’s account balance, or a monthly annuity under various options provided by the Plan and its custodians, TIAA and Fidelity (the “Custodians”). For termination of service for other reasons, a participant may receive the value of his or her account as a lump-sum distribution.

Revenue sharing – The Plan has an agreement with TIAA to fund a revenue credit account in the Plan for revenues generated by the Plan. The amounts funded to the Plan’s revenue credit account are based on the reconciliation of the actual revenue credited for the Plan versus TIAA’s revenue requirement as stated in the agreement and evaluated on a quarterly basis. The amount so determined to be in excess of TIAA’s revenue requirement is deposited to the Plan’s revenue credit account on a quarterly basis.

The Plan also has an agreement with Fidelity to fund a revenue credit account in the Plan to the extent that the revenues generated by the Plan exceed annual recordkeeping fees owed to Fidelity. Any revenue credits are funded to the Plan’s revenue credit account on a quarterly basis.

The revenue credit accounts may only be used either to (1) pay direct, reasonable, and necessary expenses which the Plan is allowed to pay, or (2) allocate to Plan participants. Such revenue credits can be allocated to participants’ accounts based on the terms of the agreements and at the election of the Institute.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies (continued)

Investment valuation – Investments are reported at fair value and contract value. The Plan's custodians certify the contract value of the guaranteed investment contract and the fully benefit-responsive fixed-annuity contracts, as well as the fair value of all other investments. Fair value represents the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement for assets invested in guaranteed investment contracts and fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 3 for discussion of fair value and contract value measurements.

Loans receivable from participants – Loans receivable from participants are measured at the unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event based on terms of the Plan Agreement. No allowance for credit losses has been recorded as of December 31, 2022 or 2021.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Other income – Other income represents custodian credits from revenue sharing agreements which can be used to pay certain qualified plan administrative expenses or allocated to participants.

Payment of benefits – Benefits are recorded when paid.

Expenses – Certain administrative plan expenses are paid from the Plan's revenue sharing accounts. All other administrative expenses are paid by the Institute. Certain investment and transaction fees are paid by the Plan participants.

Subsequent events – Subsequent events are events or transactions that occur after the statements of assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statements of assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statements of assets available for benefits but arose after the statements of assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 5, 2023, which is the date the financial statements were available to be issued.

Note 3 – Fair Value and Contract Value Measurements

In accordance with authoritative guidance, the Plan classifies its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology that are unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Inputs to the valuation methodology that include quoted prices for similar assets or liabilities in active markets; quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2022 and 2021.

Publicly-traded registered investment company (RIC) funds are valued at the closing price reported on the active market on which they are traded.

Participants may invest their contributions in self-directed brokerage accounts through TIAA and Fidelity, which offer participants the ability to invest in a variety of mutual funds outside of the core funds offered by the Plan. Plan investments held in the self-directed brokerage accounts, which consist primarily of units of participation in RICs (mutual funds), are stated at fair value and classified as Level 1 based on the valuation methodology used for mutual funds described above.

Units held in pooled separate accounts are valued at closing price as reported by the fund. These funds are required to publish their net asset value per accumulation unit as reported by the account managers. The funds held by the Plan are deemed to be actively traded.

The Salk Institute Retirement Plan

Notes to Financial Statements

Note 3 – Fair Value and Contract Value Measurements (continued)

The Plan's investment in the TIAA Traditional Annuity is comprised of fully benefit-responsive and non-fully benefit-responsive guaranteed fixed-annuity contracts. The non-benefit responsive guaranteed fixed-annuity contracts are recorded at contract value, which approximates fair value. Fully benefit-responsive investment contracts are reported at contract value, which is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions and reinvested interest, less withdrawals and expenses, plus or minus net transfer activity with the Plan's other investment funds.

The guaranteed fixed-annuity and investment contracts are effected directly between the Plan and the issuers, and the repayment of principal and interest credited to participants is a financial obligation of the issuers. There are no specific securities in the issuers' general accounts that back the liabilities of these annuity and investment contracts, and market value adjustments do not apply upon discontinuance. The Plan owns a promise to pay interest at crediting interest rates which are announced in advance and guaranteed for a specified period of time as outlined in the guaranteed fixed-annuity and investment contracts.

The guaranteed fixed-annuity contracts guarantee principal and pay a guaranteed minimum interest rate, which generally has been 3.00 percent, during the accumulation phase. Additional interest may be declared at the discretion of the TIAA Board of Trustees on an annual basis and remains in effect for the declaration year that begins annually on March 1st, but is not guaranteed for future years. The guaranteed minimum and additional amounts make up the crediting rate. The average earnings yield and average crediting-rate yield for this account was 4.24 percent for the year ended December 31, 2022.

The guaranteed investment contract guarantees principal and pays a guaranteed minimum interest rate, which was 3.00 percent in 2022. Each plan year, a guaranteed interest balance rate is established to reflect current investment conditions and to accept the Plan's expected contributions for the year. The rate is guaranteed for five years. The average earnings yield and average crediting-rate yield for this account was 1.35 percent for the year ended December 31, 2022.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements:

Name	Fair Value 12/31/2022	Fair Value 12/31/2021	Valuation Technique	Significant Unobservable Inputs	Range of Input Values (Weighted Avg)
TIAA					
Traditional Annuity (non-fully benefit-responsive)	\$ 45,037,415	\$ 45,879,830	Discounted cash flow	Risk-adjusted discount rate	3.70% - 6.25%

The significant unobservable input used in the fair value measurement of the TIAA Traditional Annuity is the risk-adjusted market discount rate. Significant increases (decreases) in this input in isolation would result in a significantly lower (higher) fair value measurement.

The Salk Institute Retirement Plan

Notes to Financial Statements

Note 3 – Fair Value and Contract Value Measurements (continued)

The valuation methods used by the Plan may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose by level the fair value hierarchy of investments as of December 31, 2022 and 2021:

Investment Assets at Fair Value as of December 31, 2022				
	Level 1	Level 2	Level 3	Total

Notes to Financial Statements

Note 3 – Fair Value and Contract Value Measurements (continued)

The following table discloses the summary of changes in the fair value of the Plan's Level 3 investment assets as of December 31, 2022:

	<u>Fixed-Annuity Contracts – non-fully benefit-responsive</u>
Balance, December 31, 2021	\$ 45,879,830
Realized gains	1,588,639
Unrealized gains related to assets still held at the reporting date	341,069
Purchases	235,585
Sales	<u>(3,007,708)</u>
Balance, December 31, 2022	<u>\$ 45,037,415</u>

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

The Plan administrator evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total assets available for benefits.

The Salk Institute Retirement Plan

Notes to Financial Statements

Note 4 – Information Certified by the Custodians

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodians, TIAA and Fidelity, as of December 31, 2022 and 2021, and for the year ended December 31, 2022:

	2022	2021
TIAA		
Investments at fair value	\$ 138,305,722	\$ 163,644,124
Investments at contract value	11,029,929	10,211,732
Loans receivable from participants	95,161	122,474
Net depreciation in fair value of investments	(20,318,618)	N/A
Interest and dividends	1,512,649	N/A
Fidelity		
Investments at fair value	107,996,936	139,498,758
Investments at contract value	5,910,129	6,397,072
Loans receivable from participants	245,326	89,057
Net depreciation in fair value of investments	(33,984,344)	N/A
Interest and dividends	3,010,043	N/A

Note 5 – Tax Status

The Plan administrator believes the Plan meets the qualification requirements under Section 403(b) and is tax exempt under provisions of the IRC. There is currently no program with the Internal Revenue Service to obtain a determination letter for 403(b) plans. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect a participant's account balance and the amounts reported in the financial statements.

The Salk Institute Retirement Plan

Notes to Financial Statements

Note 7 – Party-In-Interest Transactions

Plan investments include shares of registered investment company funds managed by TIAA and Fidelity Investments, an affiliate of Fidelity. TIAA and Fidelity are custodians of the Plan and, therefore, transactions with these entities qualify as party-in-interest transactions.

Note 8 – Plan Termination

Although it has not expressed any intention to do so, the Institute has the right to terminate the Plan and discontinue its contributions at any time subject to the provisions of ERISA.
