Independent Auditor's Report

To the Trustees and Participants
Libby Perszyk Kathman Holdings, Inc. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Libby Perszyk Kathman Holdings, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of Libby Perszyk Kathman Holdings, Inc. Employee Stock Ownership Plan as of December 31, 2022 and 2021, and the changes in net assets (deficit) available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from

error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

1. Plan description

The following description of the Libby Perszyk Kathman Holdings, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

Libby Perszyk Kathman Holdings, Inc. (the Company) established the Plan effective January 1, 1994. The Plan operates as an employee stock ownership plan (ESOP), and is designed to comply with Internal Revenue Code (IRC) Section 4975(e)(7) and the regulations thereunder, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by an Administration Committee comprising up to three persons appointed by the Company's Board of Directors. An individual of the Company serves as the Plan's trustee.

At inception, the Plan purchased Company common stock using bank borrowings (which the Plan has repaid) and holds the common stock in a trust established under the Plan. In 2007, the Plan purchased additional Company common stock under a loan payable to the Company (see Note 8). As the Plan makes payments on the loan, an appropriate percentage of stock is allocated to eligible participants' accounts in accordance with applicable regulations under the IRC.

The Company has no rights against shares of common stock once they are allocated to participants under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2022 and 2021, and for the year ended December 31, 2022, present separately the assets and liabilities and changes therein pertaining to:

- The accounts of employees with vested rights in allocated common stock (allocated), and
- Common stock not yet allocated to employees (unallocated)

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service, provided that they have worked at least 1,000 hours during such plan year and are at least 21 years of age. Participants who do not have at least 1,000 hours of service during such plan year, or are not employed on the last working day of a plan year, are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company has elected to make contributions in cash to the Plan, which at a minimum, equals the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Payment of benefits

On termination of service due to death, disability or retirement, a participant's balance will be distributed in a single lump sum, substantially equal installments over a 5-year period, or a combination of the foregoing. If a participant's account balance exceeds \$1,230,000, the 5-year period will be extended by an additional year (up to an additional five years) for each \$245,000 that the participant's account balance exceeds \$1,230,000. Distributions due to termination prior to normal retirement age commence no later than during the sixth plan year following the separation of service. If the vested amount does not exceed \$5,000, the administrator will cash-out the participant without their consent in the year following termination.

Any participant who has reached age 40 and has been a participant in the Plan for 15 or more years while still employed may make a one-time election to receive a lump sum distribution. Effective August 9, 2022, any participant who remains employed beyond age 65 may elect to receive a lump sum distribution of their vested balance at any time.

Administrative expenses

As provided in the plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid a portion of the operating expenses of the Plan. The amount included in the financial statements represents investment management fees incurred by the Plan. The Company provides other administrative services at no cost to the Plan, which are excluded from these financial statements.

Voting rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant.

Plan termination

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon termination of the Plan, the Administration Committee shall direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the IRC.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account, forfeitures of terminated participants' non-vested accounts, and shares purchased as a result of distributions to participants. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year, beginning in year two if hired after December 31, 2000. If hired before January 1, 2001, participants vest 100% in year three. If a participant's employment with the Company ends due to retirement, which is age 65, permanent disability or death, he or she will become 100% vested.

Put option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. However, it may be extended to a date no later than the earlier of 10 years from the date the put option is exercised or from the date the proceeds of the loan used by the Plan to acquire the Company stock subject to the put option are entirely repaid. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash for their stock.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the Company shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who are at least age 60 with at least 15 years of participation in the Plan may also diversify 25% of their investment in Company common stock each year for a total of 10 years beginning with the year in which the participant is first eligible to make the election. Participants who elect to diversify may either transfer the balance to their account in the Libby Perszyk Kathman Holdings, Inc. Profit Sharing 401(k) Plan or to an individual retirement account.

Forfeitures

Plan forfeitures may first be used to pay plan expenses. The remaining balance is allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. At December 31, 2022 and 2021, there were no forfeited non-vested accounts. During 2022, there were no forfeited non-vested accounts used to pay plan expenses or allocated to plan participants.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment valuation and income recognition

Investments are reported at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administration Committee determines the Plan's valuation policies utilizing information provided by the investment advisor and independent valuation firm. See Note 6 for discussion of fair value measurements.

The common stock of the Company is valued annually by an independent appraiser. The fair value at December 31, 2022 and 2021 was \$80.10 and \$83.47 per share, respectively.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

All investments are non-participant directed.

Risks and uncertainties

The Plan utilizes various investment instruments, including sponsor company common stock, a money market fund, and interest bearing cash. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks as well as valuation assumptions based on earnings, cash flow, and other such techniques. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Benefits

Benefit payments are recorded when paid.

3. Transactions with related parties

The Plan invests in Company common stock and has indebtedness to the Company. These are related party and party-in-interest transactions. The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. However, certain administrative expenses of the Plan are paid by the Company, as described in Note 1. Expenses relating to a specific participant transaction (i.e., distribution request) are charged directly against the appropriate participant's account.

4. Tax status

The IRS has determined and informed the Company by a letter dated December 11, 2014, that the Plan and related trust were designed in accordance with the applicable requirements of the IRC. Although the Plan has been amended since that date, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

5. Investments

The Plan's investment in sponsor company common stock, at December 31, is presented in the following table:

	2022		2021	
	Allocated	Unallocated	Allocated	Unallocated
Libby Perszyk Kathman Holdings, Inc. Company common stock:				
Number of shares	181,051	167	179,046	2,167
Cost	\$ 3,324,509	\$ 3,060	\$ 3,287,783	\$ 39,786
Estimated fair value	\$ 14,502,194	\$ 13,350	\$ 14,944,961	\$ 180,852

6. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2022 and 2021.

Sponsor company common stock: Valued at the fair value based upon an independent appraisal. This appraisal is based upon the capitalization of cash flow income valuation technique. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of the Company's assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. The valuation process of the sponsor company common stock involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which plan management, along with the ESOP trustees, reviews in detail, discusses and approves.

Money market fund: Valued at the net asset value (NAV) of shares held by the Plan at year end, a quoted price in an active market. Accordingly, the fair value is established using the Level 1 input.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021.

Assets at Fair Value as of December 31, 2022				
	Level 1	Level 2	Level 3	Total
Sponsor company common stock	\$ -	\$ -	\$ 14,515,544	\$ 14,515,544
Money market fund	350,483	-	-	350,483
Investments, at fair value	<u>\$ 350,483</u>	<u>\$ -</u>	<u>\$ 14,515,544</u>	<u>\$ 14,866,027</u>

Assets at Fair Value as of December 31, 2021				
	Level 1	Level 2	Level 3	Total
Sponsor company common stock	\$ -	\$ -	\$ 15,125,813	\$ 15,125,813
Money market fund	500,011	-	-	500,011
Investments, at fair value	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 15,125,813</u>	<u>\$ 15,625,824</u>

7. Reportable transactions

No reportable transactions were noted in 2022 and 2021.

8. Loan payable

As described in Note 1, in 2007, the Plan entered into a \$1,620,000 term loan agreement with the Company. The proceeds of this loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments plus all future years' principal and interest payments. This resulted in 2,000 shares being released and allocated for the year ended December 31, 2022.

The agreement provides for the loan to be repaid over 15 years. The loan bears interest at 7%. The loan payable as of December 31, 2022 and 2021 was \$14,476 and \$181,783, respectively. The final payment of \$14,476 is due in 2023.

9. Fidelity bonding requirements

The Plan was covered by a \$1,000,000 fidelity bond during 2022 and 2021.

10. Reconciliation of financial statements to 5500

The following is a reconciliation of additions and deductions per the financial statements to the Form 5500:

	<u>2022</u>
Additions to net assets per financial statements	\$ 599,708
Allocation of shares of common stock of sponsor company	<u>(160,200)</u>
Income per Form 5500	<u>\$ 439,508</u>
Deductions per financial statements	\$ 1,307,198
Allocation of shares of common stock of sponsor company	<u>(160,200)</u>
Deductions per Form 5500	<u>\$ 1,146,998</u>

11. Subsequent events

The plan administrator has evaluated subsequent events through October 3, 2023, the date the financial statements were available to be issued. The plan administrator is not aware of any subsequent events that would require recognition or disclosure in the Plan's financial statements.
