Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Orange Regional Medical Center Employees' Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the report date.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters — Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 and schedule of reportable transactions for the year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by from qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ORANGE REGIONAL MEDICAL CENTER EMPLOYEES' RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

1. Plan Description:

The following description of the Orange Regional Medical Center Employees' Retirement Plan (the "Plan") is provided for general information only. Participants should refer to the Plan agreement for a more complete description.

General

The Plan, is a non-contributory defined benefit pension plan effective as of January 1, 1975 and subsequently amended to conform with the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and for benefit changes initiated by the Plan Sponsor.

The following brief description of the Plan is provided for general information purposes only.

Effective July 1, 1988, all Horton Medical Center registered nurses covered under the Local 1199 RN collective bargaining plan were no longer active participants under the Plan. In addition, effective July 1, 2002, all Arden Hill Hospital registered nurses covered under a collective bargaining plan were no longer active participants under the Plan. Accrued benefits for these former participants were frozen on July 1, 1988 and July 1, 2002, respectively.

Effective April 1, 2004, all technical and service employees covered under the Local 1199 Technical and Service Unit collective bargaining plan were no longer active participants under the Plan. Accrued benefits for these former participants were frozen on April 1, 2004.

During December 2004, the Board of Trustees of Orange Regional Medical Center (the "Plan Sponsor" and "Plan Administrator") approved a resolution to merge the Retirement Plan for Employees of Horton Medical Center ("the "Horton Plan") into the Arden Hill Hospital Employees' Retirement Plan (the "Arden Hill Plan") and rename the Arden Hill Plan the Orange Regional Medical Center Employees Retirement Plan (the "Plan") effective December 31, 2004. Effective December 31, 2004, the net assets available for benefits and the benefit obligations of the Horton Plan were transferred into the Plan.

Effective April 1, 2005, all clerical and professional employees covered under the Local 1199 Clerical and Professional Unit collective bargaining plan were no longer active participants under the Plan. Accrued benefits for these former participants were frozen on April 1, 2005.

Effective January 1, 2006, the Plan was frozen to new entrants.

Effective July 1, 2006, the Plan's provisions were amended to provide a uniform formula for Plan participants. The amendment provides uniform benefits for all retirees regardless of which pension plan the employee entered originally.

Effective January 1, 2008, Orange Regional Medical Center (the "Hospital") froze its defined benefit Plan. This freeze impacts the remaining active participants in the Plan by stopping the accrual of credited service and compensation under the Plan after December 31, 2007.

Effective June 18, 2020, the Hospital changed its name to "Garnet Health" and the Plan name remained unchanged.

Effective August 1, 2021, all plan assets were transferred from Wilmington Trust to Principal.

Eligibility

Prior to the Plan being frozen, employees were eligible for participation upon attainment of age 21 and completion of 1,000 hours of service in one calendar year. Employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65). The normal amount of the pension is computed by taking 1.20% or 1.25% of final average monthly compensation up to covered compensation plus 0.60% or 0.65% of the excess, if any, multiplied by years of service, not to exceed 30 plan years of service or 35 plan years of service after July 1, 2006 and for the Horton group prior to July 1, 2006.

Funding Policy

The Hospital has agreed to voluntarily contribute amounts determined to be actuarially necessary to prevent a funding deficiency as defined by ERISA. For the Plan years ended December 31, 2022 and 2021, the Plan was in compliance with the minimum funding requirements of ERISA.

ORANGE REGIONAL MEDICAL CENTER EMPLOYEES' RETIREMENT PLAN

1. Plan Description (continued):

Pension Benefits

The Plan permits early retirement at ages 55-64 with ten years of continuous service. If the participant elects to receive early retirement benefits, the amount of the benefits is reduced based on a formula. Employees may elect to receive their pension benefits, which are paid monthly from the retirement date, in the form of a single-life annuity, a joint and survivor annuity, or another form of payment.

Effective August 1, 2017, the Plan was amended to require lump-sum payouts for participants that have less than a \$5,000 balance and to offer lump-sum payouts to any participants with a balance of \$60,000 or less.

Death Benefits

If an active employee dies prior to attaining normal retirement age and before benefits have commenced, a death benefit equal to the amount the beneficiary would receive under a qualified 50% joint and survivor annuity is calculated based on the benefit that the active employee would have been entitled to at the date of death.

Plan Termination

In the event of Plan termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or the participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would have been payable under the Plan provisions in effect at any time during the five years preceding Plan termination;
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. Government agency, up to the applicable limitations as discussed below;
- c) All other vested benefits not insured by the PBGC;
- d) All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is guaranteed at the level in effect on the date of a plan's termination. In addition, there is a statutory ceiling, which is adjusted periodically, on the amount of the individual monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or those who elect to receive their benefits in some form more valuable than single-life annuity, the corresponding ceilings are actuarially adjusted downward.

The provisions of the Plan provide that, if the Plan is terminated, Plan members will be fully vested in their rights under the Plan to the extent then funded, in the order of priority specified in the Plan.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

2. Summary of Significant Accounting Policies:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting which recognizes income when it is earned and expenses as they are incurred.

Pervasiveness of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for pension benefits at the date of the financial statements and the actuarial present value of accumulated plan benefits as of the valuation date, and the changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

ORANGE REGIONAL MEDICAL CENTER EMPLOYEES' RETIREMENT PLAN

2. Summary of Significant Accounting Policies (continued):

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present covered employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' average monthly compensation (based on the five highest years of compensation) and years of service.

The accumulated plan benefits for covered active employees are based on their average compensation during the five years preceding the valuation date. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included to the extent that they are deemed attributable to employee service rendered to the valuation date.

The significant actuarial assumptions used in the valuation as of December 31, 2022 and 2021 were:

- i. For 2022, mortality based on Pri-2012 total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2017-10). For 2021, mortality based on Pri-2012 Total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2016-10)
- ii. Asset return of 4.75% and 4.75% per annum for 2022 and 2021
- iii. Normal retirement age of 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Investment Valuation and Income Recognition

Investments are recorded at fair value. See Note 4 for a discussion on fair value measurements. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Plan allows for payment of Plan expenses from Plan assets. During 2022 and 2021, substantially all expenses were paid by the Plan. The balance of such costs was paid by the Plan Sponsor.

Income Taxes

Effective March 30, 2018, the Plan adopted a Volume Submitter Defined Benefit Plan sponsored by Principal Life Insurance Company. The Plan has received an opinion letter from the Internal Revenue Service as to the Plan's qualified status. The defined benefit plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan and concluded that, as of December 31, 2022, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2019.

Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

ORANGE REGIONAL MEDICAL CENTER EMPLOYEES' RETIREMENT PLAN

2. Summary of Significant Accounting Policies (continued):

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent Events

The date to which events occurring after December 31, 2022, the date of the most recent statement of net assets available for benefits, have been evaluated for possible adjustment to the financial statements or disclosure is October 2, 2023, which is the date on which the financial statements were available to be issued.

3. Information Certified by Custodian and Trustee:

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.1038 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this information certified by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company ("Principal"), the custodian of the Plan, and Wilmington Trust ("Wilmington"), the former trustee, except for comparing such information certified by the custodian and former trustee to information included in the Plan's financial statements and supplemental schedules as of December 31, 2022 and 2021 and for the years then ended. The following table presents the fair value or net asset value of the assets in the Plan certified by the custodian.

As of December 31	2022	2021
Mutual Funds	\$ 34,832,656	\$ 45,003,495
Commingled/Common Trust Funds	45,784,307	63,480,079
Limited Partnerships	5,399,435	6,829,137
Short-Term Fixed Income	2,522,957	3,231,164
Total Certified Plan Assets	\$ 88,539,355	\$ 118,543,875

Principal and Wilmington also certified to the completeness and accuracy of \$(23,892,736) and \$5,508,430 of net appreciation/(depreciation) in fair value of investments and \$3,027,169 and \$1,322,599 of interest and dividends related to the aforementioned investments for the years ended December 31, 2022 and 2021, respectively.

4. Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements). The three levels of the hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

ORANGE REGIONAL MEDICAL CENTER EMPLOYEES' RETIREMENT PLAN

4. Fair Value Measurements (continued):

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual Funds and Short-Term Fixed Income: Valued at the closing price reported on the active market in which the individual securities or funds are traded.

Limited Partnerships and Commingled/Common Trust Funds: Value is based on daily net asset value ("NAV") of a separate account that is not traded in an active market or exchange. The investment is valued at a daily calculated unit value.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of the future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

December 31, 2022				
	Total	Level 1	Level 2	Level 3
Mutual Funds	\$ 34,832,656	\$ 34,832,656	-	\$ -
Short-Term Fixed Income	2,522,957	2,522,957	-	-
Total Investments at Fair Value Hierarchy	37,355,613	37,355,613	-	-
Investments Measured at Net Asset Value (a)	51,183,742			
Investments at Fair Value	\$ 88,539,355			

December 30, 2021				
	Total	Level 1	Level 2	Level 3
Mutual Funds	\$ 45,003,495	\$ 45,003,495	-	\$ -
Short-Term Fixed Income	3,231,164	3,231,164	-	-
Total Investments at Fair Value Hierarchy	48,234,659	48,234,659	-	-
Investments Measured at Net Asset Value (a)	70,309,216			
Investments at Fair Value	\$ 118,543,875			

(a) In accordance with ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statements of net assets available for benefits.

Investments measured at NAV consist of shares or units in commingled/ common trust funds, funds of funds and limited partnerships as opposed to direct interest in the funds' underlying holdings, which may be marketable. The NAV reported by each fund is used as a practical expedient to estimate the fair value of the Plan's interest therein as the Plan is able to redeem its interest at or near the date of the net assets available.

The Plan has two investments in private equity funds at December 31, 2022 and 2021, respectively. The total funding commitment for these investments is \$9,017,000 of which \$8,133,000 has been invested as of December 31, 2022. The Plan receives ten business days' notice of funding requests. Investment in these funds is expected to last the life of the fund without redemption. The classification of investments in the fair value hierarchy is not necessarily an indication of the risks, liquidity or degree of difficulty in estimating the fair value of each investment's underlying assets and liabilities.

There were no Plan assets measured at fair value based on level 3 inputs as of December 31, 2022 and 2021.

Management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to the total net assets available for benefits. For the year ended December 31, 2022, there were no significant transfers in or out of Level 3.

Total Vested Benefits	114,087,175
Non-Vested Benefits	19,409
Total Accumulated Benefits	\$ 114,106,584

Change in Present Value of Accumulated Benefits

The changes in accumulated benefits are as follows:

For the Year Ended January 1	2022
Actuarial Present Value of Accumulated Benefits - Beginning of Year	\$ 119,941,400
Increase/(Decrease) During the Year Attributable to:	
Increase for Interest due to Decrease in Discount Period	4,924,306
Benefits Accumulated and Actuarial Gains/Losses	327,293
Benefits Paid During the Year	(8,236,434)
Change in Actuarial Assumptions	(2,849,981)
Net Increase/(Decrease)	(5,834,816)
Actuarial Present Value of Accumulated Benefits - End of Year	\$ 114,106,584

6. Related Party Transactions:

Certain Plan investments are investment funds managed by Principal. Principal is the custodian of the Plan and qualifies as a party in interest. Fees paid by the Plan for the custodial and recordkeeping services amounted to \$274,588 and \$335,657 for the years ended December 31, 2022 and 2021, respectively.

Assumptions prescribed by law

Mortality	<u>During benefit payment period</u> IRS Prescribed Mortality - Static Annuitant, male and female.
	<u>Before benefit payment period</u> IRS Prescribed Mortality - Static Non-annuitant, male and female.

Assumptions selected by actuary

Inflation	2.25% increase per year.					
	Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.					
Asset return	4.75% for the current plan year.					
	The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.					
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.					
Retirement	Active and inactive participants					
	<table><tr><th>Age</th><th>Probability of retirement</th></tr><tr><td>62</td><td>25%</td></tr><tr><td>65</td><td>100%</td></tr></table>	Age	Probability of retirement	62	25%	65
Age	Probability of retirement					
62	25%					
65	100%					
Disability	This assumption is based on the results of recent experience analysis and anticipated future experience.					
	1987 Commissioner's Group Disability Table, six month elimination period, male and female. We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.					
Marriage	75% married; husbands are 3 years older than wives.					
	This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.					

Withdrawal 2003 Society of Actuaries Small Plan Age Table, multiplied by 1.00.

We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.00 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.

Form of benefit Active and inactive participants are assumed to receive benefits based on the following optional payment forms at the assumed retirement age:

Type	Percentage
Straight life	75%
100% Joint and Survivor	25%

This assumption is based on the results of recent experience analysis and anticipated future experience.

Methods prescribed by law

Liability measure Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 6.00%.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

HCE benefit payment restrictions A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by:

- any retiree benefit index or floor
- amounts for HCEs who were previously restricted
- an amount for the retiring HCE

The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.

Methods selected by plan sponsor

Asset method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment rates	24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC premium basis	Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.
Methods elected by actuary	
Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality

Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2017-10).

Base rates

Before benefit payment period

Employee amount-weighted, male and female

During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 2" is reasonable for this plan.

Mortality improvement (MI)

Principal 2017-10 MI scale: this scale is based on MP-2021 study and model issued by SOA with the exception of the following user-selected assumptions:

- 10-year convergence period on age and cohort
- Long-term rates (LTR) assumptions using sex-distinct and age-based rates developed from Social Security Trustees Reports.

See Mortality Documentation for rationale and additional information.

Interest rate used to value liabilities 4.50%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
Orange Regional Medical Center Employees' Retirement Plan
EIN 84-4567449 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

Schedule SB, Part V - Summary of Plan Provisions
Orange Regional Medical Center Employees' Retirement Plan
EIN 84-4567449 Plan No. 001

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed October 30, 2020 and amendments through SECURE Act amendment signed November 5, 2021.

Plan eligibility

Age	Attained age 21.
Service	One year of service.
Class	All non-union employees of Orange Regional Medical Center. Plan frozen to new participants as of January 1, 2006.

Normal retirement benefit

Age	The later of attained age 65 or 5 years after plan entry.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	1.25% of final average compensation plus 0.65% of final average compensation in excess of the participant's covered compensation, multiplied by years of service up to a maximum of 35 years. Benefit accruals were frozen as of December 31, 2007.

Schedule SB, Part V - Summary of Plan Provisions
Orange Regional Medical Center Employees' Retirement Plan
EIN 84-4567449 Plan No. 001

Early retirement benefit

Age	Attained age 55.
Service	N/A
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date multiplied by the following reduction factor:

Age	Reduction	Age	Reduction
55	60%	60	78%
56	64%	61	81%
57	67%	62	85%
58	71%	63	90%
59	74%	64	95%

For Former Alden Hill participants who terminated prior to 7/1/2006:
Accrued benefit on early retirement date shall be Actuarial equivalent
reduction based on 7% interest and UP 84 with 2 year setback mortality.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on late retirement date if normal retirement date (NRD) prior to 01/01/2017. If NRD after 01/01/2017, participant is required to begin benefit on NRD.

Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit

Eligibility	Attained age 50; 10 years of service.
Form	Same as normal retirement benefit with income payable immediately upon disability.
Amount	Unreduced normal retirement benefit.

Death benefit

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions

Average compensation	The monthly average of total pay received for the 5 years out of the 10 latest years before retirement date which gives the highest average.
Covered compensation	The monthly average of the social security taxable wage bases in effect under section 230 of the Social Security Act for each year in the 35 year period ending with the year in which the employee attains social security retirement age.
Optional forms of benefit payments	The optional forms of benefit payments are: • Monthly annuity payable for life, or 5, 10, or 15 years certain and life. • Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75, or 100. • Single sum payment equal to the present value of the retirement benefit if the present value is less than \$60,000. The optional form conversion basis is 6.0% interest and GAR-1994 mortality with 1 year setback for participants and 1 year set forward for beneficiaries for payments other than lump sums. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the first calendar month preceding the first day of the stability period which is the plan year.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 24 – Change in Actuarial Assumptions
Orange Regional Medical Center Employees' Retirement Plan
EIN 84-4567449 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The form of benefit has changed from 100% life annuity to 75% life annuity and 25% 100% Joint and survivor annuity at retirement.
