INDEPENDENT AUDITOR'S REPORT

Plan Participants and Plan Trustees
Darvin Holding Company Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of Darvin Holding Company Employee Stock Ownership Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

PKF Mueller is a member firm of the PKF International Limited family of legally independent firms and does not accept any responsibility or liability for the actions or inactions of any individual member or correspondent firm or firms.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2022, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

DARVIN HOLDING COMPANY EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Darvin Holding Company (Company) Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Company established the Plan effective as of January 1, 2019. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC), and is subject to the applicable provisions of Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Chief Financial Officer of the Company and the ESOP Committee comprising individuals appointed by the Company's Board of Directors. The trust department of an independent third-party bank is the Plan's Trustee.

On September 5, 2019, the Plan purchased 100,000 shares of the Company's common stock using the proceeds of a note payable (see Note 5) and holds the common stock in a trust established under the Plan. The stock was purchased at a price of $20 per share, for an aggregate purchase price of $2,000,000.

The borrowing is collateralized by the unallocated shares of the Company's common stock. The lender (the Company) has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP.

Eligibility

An employee of the Company who has attained age 21 and has completed one year of employment of at least 1,000 hours of service, is eligible to participate in the Plan, except for independent contractors, nonresident aliens, and leased or union employees. Initial enrollment is available on the first day of the calendar quarter following the satisfaction of eligibility requirements. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

Employer contributions to the Plan are at the discretion of the Company and are accrued upon approval of the Company's Board of Directors. Employer contributions may be paid in cash or in shares of Company stock, or both, as determined by the Company's Board of Directors. Employer contributions may also be paid in cash in such amounts and at such times, as may be required to provide the ESOP with funds sufficient to pay when due any principal and interest required by the note payable, except to the extent such payments have been satisfied by the Plan's Trustee from dividends. Employee contributions are not permitted.

NOTE 1 - DESCRIPTION OF PLAN, CONTINUED

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a lump sum as soon as practicable after termination of employment. Distributions for other separations from service commence in the fifth Plan year following the separation from service and are made in five annual installments. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Administrative Expenses

All administrative expenses of the Plan have been paid directly by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. If a corporate matter requires voting of shares of Company stock for the approval or disapproval of any corporate merger or consolidation, recapitalization, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction as the Secretary of the Treasury may prescribe in regulations, then the participants may direct the Trustee on how to vote the shares allocated to their accounts. If such instructions are not received by the Trustee at least ten business days prior to the meeting in which such vote shall occur, the Trustee shall vote for such allocated shares as directed by the ESOP Committee. The Trustee is also required to vote any unallocated shares as directed by the ESOP Committee.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% percent per year of service and are 100% vested after 5 years of service.

NOTE 1 - DESCRIPTION OF PLAN, CONTINUED

Put Option

Under federal income tax regulations, the Company common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during the year ended December 31, 2022 approximated $113,500. As of December 31, 2022 and 2021, there were no forfeited nonvested accounts to be allocated to participant accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Allocations

The financial statements of the Plan as of December 31, 2022 and 2021, and for the year ended December 31, 2022, present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated common stock (allocated) and (b) common stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value. See Note 4 for discussion of fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Net depreciation in fair value of investment includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Going Concern Evaluation

In accordance with U.S. GAAP, management performed an evaluation to determine if adverse conditions or events, considered in the aggregate, raise substantial doubt about the Plan’s ability to continue as a going concern for the one-year period from the date the financial statements were available to be issued. Management’s assessment did not identify any conditions or events raising substantial doubt about the Plan’s ability to continue as a going concern for the period from September 29, 2023 to September 29, 2024.

Subsequent Events

Subsequent events have been evaluated through September 29, 2023, the date that the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The Plan's investments, at December 31, 2022 and 2021, are presented in the following table:

	2022		2021	
	Allocated	Unallocated	Allocated	Unallocated
Darvin Holding Company common stock:				
Number of shares	14,836	85,164	10,936	89,064
Cost	$ 296,720	1,703,280	218,720	1,781,280
Estimated fair value	$ 6,603,887	37,910,113	5,930,616	48,300,384

NOTE 4 - FAIR VALUE MEASUREMENTS

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4 - FAIR VALUE MEASUREMENTS, CONTINUED

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at December 31, 2022 and 2021.

Company common stock: The fair value of the Company common stock held by the Plan is valued utilizing an appraisal, prepared by an independent professional appraiser. This appraisal was based upon a combination of market and income valuation techniques consistent with prior years.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

	Assets at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Assets in the fair value hierarchy:				
Company common stock	$ -	-	44,514,000	44,514,000

	Assets at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Assets in the fair value hierarchy:				
Company common stock	$ -	-	54,231,000	54,231,000

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and the size of the transfer relative to total net assets available for benefits.

The following table sets forth a summary of certain changes in the fair value of the Plan's level 3 asset for the year ended December 31, 2022.

Unrealized depreciation in estimated fair value	$ (9,717,000)

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs.

NOTE 4 - FAIR VALUE MEASUREMENTS, CONTINUED

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
December 31, 2022:			
Company common stock	$ 44,514,000	Income Approach - Discounted future cash flow method	EBITDA Net income Weighted average cost of capital Discount for lack of marketability
		Market Approach - Guideline public company method	Public company comparables EBITDA multiple Discount for lack of marketability

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
December 31, 2021:			
Company common stock	$ 54,231,000	Income Approach - Discounted future cash flow method	EBITDA Net income Weighted average cost of capital Discount for lack of marketability
		Market Approach - Guideline public company method	Public company comparables EBITDA multiple Discount for lack of marketability

The valuation process involves the selection of an appraiser under contract for a one-year engagement. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a preliminary report which Plan management, along with the Plan Trustee, reviews in detail, discusses, and approves.

NOTE 5 - NOTE PAYABLE

In 2019, the Plan entered into a $2,000,000 term loan agreement with the Company. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any Plan year shall equal the number of shares of Company stock held as collateral immediately before the release of any shares for the Plan year multiplied by a fraction with a numerator equal to all principal and interest payments made on the loan for such Plan year and a denominator equal to the numerator plus the total principal and interest payable under the loan for all subsequent Plan years. This resulted in 3,900 and 3,682 shares being released and allocated for the plan year ended December 31, 2022 and 2021, respectively.

NOTE 5 - NOTE PAYABLE, CONTINUED

The agreement provides for the loan to be repaid over 30 years. The loan bears interest at 2.21%. The fair value of the note payable as of December 31, 2022 and 2021 was $1,741,935 and $1,806,451, respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates, and nonperformance risk.

The scheduled amortization of the loan for the next 5 years is as follows:

Year	Estimated Amortization
2023	$ 64,516
2024	64,516
2025	64,516
2026	64,516
2027	64,516

NOTE 6 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness to the Company. These are related party and party-in-interest transactions. As described in Note 1, the Company pays all plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan investment consists of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with common stock and to uncertainties inherent in the estimations and assumptions process, it is reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect the amount reported in the statement of net assets available for benefits.

NOTE 8 - PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the ESOP Committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

NOTE 9 - TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated June 25, 2020, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable provisions of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator has no reason to believe Form 5500 is subject to examination for years prior to 2019.
