Committee
Commercial Vehicle Group Inc Mayflower Legacy Pension Plan
New Albany, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Commercial Vehicle Group Inc Mayflower Legacy Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 (in liquidation) and 2021 (ongoing), and the related statements of changes in net assets available for benefits for the years ended December 31, 2022 (in liquidation) and 2021 (ongoing), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Commercial Vehicle Group Inc Mayflower Legacy Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 (in liquidation) and 2021, and for the years ended December 31, 2022 (in liquidation) and 2021 (ongoing), stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of Commercial Vehicle Group Inc Mayflower Legacy Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Basis of Accounting

As discussed in Note 1 to the financial statements, the governing body of Commercial Vehicle Group Inc Mayflower Legacy Pension Plan approved a plan of liquidation during 2022, and management determined liquidation is imminent. As a result, the Plan has changed its basis of accounting from the going concern basis used in presenting the 2021 financial statements to the liquidation basis used in presenting the 2022 financial statements. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Commercial Vehicle Group Inc Mayflower Legacy Pension Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Commercial Vehicle Group Inc Mayflower Legacy Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Commercial Vehicle Group Inc Mayflower Legacy Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2022 and reportable transactions for the year then ended (collectively, "supplemental schedules") are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements
December 31, 2022 and 2021

1. DESCRIPTION OF THE PLAN

The following description of the Commercial Vehicle Group, Inc. Mayflower Legacy Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan established to provide for the payment of pension benefits and disability benefits for all eligible employees of the Shadyside Plant of Commercial Vehicle Group, Inc. (the "Company") who are members of the United Steelworkers of America AFL-CIO-CLC Local 9419 and have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective March 1, 2008, no newly hired or rehired employee shall be eligible to participate in the Plan. The amendment provided further, that any participant who was employed as of March 1, 2008 and made an irrevocable election prior to April 30, 2008 to opt out of the Plan as of May 31, 2008 shall cease to be eligible to participate in the Plan and shall not earn further accruals after May 31, 2008.

Effective December 31, 2018, the Commercial Vehicle Group, Inc. Pension Plan for Mayflower Vehicle Systems Salaried Employees ("Mayflower Pension Plan") and the Commercial Vehicle Group, Inc. Union Plan for Norwalk Assembly Plan Union Employees ("Norwalk Pension Plan") were merged into the Plan. Subsequent to the merger, the Plan's name changed to the Commercial Vehicle Group, Inc Mayflower Legacy Pension Plan.

During the year ending December 31, 2022, the Company has elected to terminate the Plan. All amounts within the Plan will be distributed and the Plan will be terminated as described further in Note 6 - Plan Termination. The termination process will provide for lump sum payments to be distributed to participants. Participants also have the option to have their benefits rolled into annuity contracts to be paid by an insurance company. The final distribution of benefits and the purchase of annuity insurance contracts occurred in April of 2023.

Funding

The Company contributes amounts that it considers necessary to provide assets sufficient to meet the benefits to be paid. The Company's contributions for 2022 and 2021 met the minimum funding requirements of ERISA.

1. DESCRIPTION OF THE PLAN (continued)

Plan benefits

The Plan provides for retirement and disability benefits. Under the legacy Shadyside Pension Plan, employees with five or more years of credited service are entitled to monthly pension benefits beginning at normal retirement age (65), equal to the number of years of credited service multiplied by the monthly unit of benefit (\$14 up to a maximum of 30 years of credited service). The monthly unit of benefit was increased to \$20 as of January 1, 2008. Effective January 1, 2012, the monthly unit of benefit was amended to \$22 for all years of service earned after 2011. Effective January 1, 2015, the monthly unit of benefit was amended to \$25 for all years of service earned after 2014. Employees' benefits under the Plan vest after the completion of five years of service. The Plan permits early retirement at age 60 with minimum service of 10 years. Participants whose employment continues after reaching normal retirement age are eligible to receive benefits at the late retirement date. Employees may elect to receive the value of their accumulated Plan benefits as a single life annuity or as a joint and survivor annuity payable monthly from the date of retirement.

If an active employee becomes totally and permanently disabled after accumulating 10 years of credited service, the disability benefit is equal to the amount calculated under normal retirement. If an employee dies prior to the distribution of any accumulated Plan benefits, a portion of the employee's accumulated benefits are payable to the designated beneficiary over the life of such beneficiary.

Under the legacy Mayflower Pension Plan, employees, other than hourly-paid employees at the Kings Mountain facility, with five or more years of credited service are entitled to monthly pension benefits beginning at normal retirement age (65), equal to the sum of (1) the accrued benefit equal to 1.25% of average monthly compensation, up to \$833.33, multiplied by the participant's total number of periods of service, not to exceed 30 years, plus (2) 1.75% of average monthly compensation in excess of \$833.33, multiplied by the participants' total number of periods of service, not to exceed 30 years. The pension benefit for those hourly-paid employees at the Kings Mountain facility is equal to \$20 for each year of service, plus \$1.67 for each additional month of service comprising a fraction of a year through October 15, 1997. Effective March 31, 2006, benefit accruals under the Plan ceased. Employees' benefits under the Plan vest after the completion of five years of service. Effective March 31, 2006, the accrued benefits of active participants were 100% vested. The Plan permits early retirement at age 55 with minimum service of 15 years. Employees may elect to receive the value of their accumulated plan benefits as a single life annuity, life annuity with guaranteed payments, or as a joint and survivor annuity, payable monthly from the date of retirement.

1. DESCRIPTION OF THE PLAN (continued)

Plan benefits (continued)

If an active employee, other than hourly-paid employees at the Kings Mountain facility, becomes totally and permanently disabled after accumulating 15 years of credited service, the disability benefit is equal to the amount calculated under normal retirement. The disability benefit for a participant who was an hourly-paid employee of the Kings Mountain facility is equal to a monthly annuity of \$20 for each year of credited service, through October 15, 1997. If an employee dies prior to the distribution of any accumulated Plan benefits, a portion of the employee's accumulated benefits are payable to the designated beneficiary over the life of such beneficiary.

Under the legacy Norwalk Pension Plan, employees with five or more years of credited service are entitled to monthly pension benefits beginning at normal retirement age (65), equal to the number of years of credited service multiplied by the monthly unit of benefit (\$20.02 effective May 1, 2001 and thereafter). Employees' benefits under the Plan vest after the completion of five years of service. The Plan permits early retirement at age 60 with minimum service of 10 years. Participants whose employment continues after reaching normal retirement age are eligible to receive benefits at the late retirement date. Employees may elect to receive the value of their accumulated Plan benefits as a single life annuity or as a joint and survivor annuity, payable monthly from the date of retirement. On June 14, 2007, the Plan was amended to provide limited early retirement opportunities to participants with at least 26 years of seniority and who have attained age 62 as of the end of the early retirement period(s). Participants who retire under the early retirement window shall receive benefits without consideration of the reduction in benefits described in the Plan document.

If an active employee becomes totally and permanently disabled after accumulating 10 years of credited service, the disability benefit is equal to the amount calculated under normal retirement. If an employee dies prior to the distribution of any accumulated Plan benefits, a portion of the employee's accumulated benefits are payable to the designated beneficiary over the life of such beneficiary.

Administration

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses were paid through the Plan during 2022 and 2021. Investment management fees and operating expenses charged to the Plan are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimate of the actuarial present value of accumulated plan benefits.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits (see Note 5) are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the employees prior to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or actuarial assumptions used in the valuation as of January 1, 2021). The significant assumptions are further described in Note 5. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered prior to the valuation date.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Employees' Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Subsequent events

Plan management has evaluated subsequent events for recognition and disclosure through October 6, 2023, which is the date the financial statements were available to be issued.

3. CERTIFICATION

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained a certification from Comerica Bank and Trust, N.A. (the "Trustee") that all of the investment information provided by the Trustee and included in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions is complete and accurate. Information as to the investments in the accounts of the Trustee, investment income, interest and all information appearing in the accompanying statements and the supplemental schedules are presented in reliance solely upon these certifications.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. FAIR VALUE MEASUREMENTS (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Common stocks – Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate account – Valued at the NAV of units of an insurance company pooled separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While Plan management believes its valuation, methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>
Mutual funds	<u>\$ 3,980,600</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,980,600</u>

5. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Due to the liquidation of the Plan, the January 1, 2021 valuation report was the final valuation completed for the Plan.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations were (a) life expectancy of participants (Prior-2012 total dataset amount weighted mortality tables, projected generationally with Scale MP-2020), (b) retirement age assumptions (rates vary by age with 100% retirement at age 65), (c) a withdrawal rate for employees who will leave before retirement and (d) long term rate of return of 5.34% per annum. The foregoing actuarial assumptions are based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated benefits as of December 31, 2020 is as follows:

Vested benefits	
Retired participants and beneficiaries currently receiving payments	\$ 24,290,368
Other benefits	5,173,646
	<u>29,464,014</u>
Nonvested benefits	22,211
	<u>\$ 29,486,225</u>

The change in actuarial present value of accumulated benefits for the year ended December 31, 2020 consists of the following:

Balance, beginning of year	\$ 30,743,428
Increase (decrease) during the year attributable to:	
Benefits paid	(2,324,697)
Interest due to decrease in discount period	1,572,871
Benefits accumulated net of actuarial experience	(327,499)
Assumption changes	(177,878)
	<u>(1,257,203)</u>
Balance, end of year	<u>\$ 29,486,225</u>

6. PLAN TERMINATION

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pension. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated February 20, 2014, that the Plan is qualified and exempt from income tax under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to federal income tax examinations for years prior to 2019.

8. RISKS AND UNCERTAINTIES

The Plan's investments are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and may impact the funded position of the Plan. As a result, the Plan may require additional funding in subsequent years.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits is reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

9. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor ("DOL") regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others.

The Company pays certain administrative expenses on behalf of the Plan. Also, the Company provides certain administrative services at no cost to the Plan.
