Plan Administrator
Fontbonne University
Defined Contribution Retirement Plan
St. Louis, Missouri

Scope And Nature Of The ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Fontbonne University Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities For The Audit Of The Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis For Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities For The Audit Of The Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities Of Management For The Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities For The Audit Of The Financial Statements

Except as described in the Scope And Nature Of The ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters - Supplemental Schedules Required By ERISA

The supplemental schedules of assets held at end of year as of December 31, 2022 and delinquent participant contributions for the year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

FONTBONNE UNIVERSITY DEFINED CONTRIBUTION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2022 And 2021

1. Description Of The Plan

The following description of the Fontbonne University Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a 403(b) defined contribution plan established by Fontbonne University (the University) under the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Employees are eligible to participate in the Plan upon hire and receive nonelective University contributions. Participation is voluntary. Employees are eligible to receive matching contributions from the University upon reaching age 21 and completing two years of eligible service with the University. A new employee, who has completed two years of service with an eligible employer, as defined by the Plan, is eligible to receive matching contributions from the University.

Contributions

Participants may defer any percentage or dollar amount of their annual compensation, subject to certain limitations. Additionally, participants age 50 and over may make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan also allows participants to make Roth contributions.

The match was 0% until October 1, 2021. As of October 1, 2021, "Dollar-for-Dollar" matching contributions of up to 2% were implemented. Commencing on October 1, 2022, "Dollar-for-Dollar" matching contributions of up to 3.5% were implemented.

In June of 2021 a non-elective contribution of \$100,000 was allocated based on eligible compensation from January 1, 2021 to June 30, 2021 on a pro rata basis to participants actively employed as of June 30, 2021. No such non-elective contribution was made in the 2022 Plan year.

FONTBONNE UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

Participant Accounts

Each participant's account is credited with the participant's contributions, University's matching contributions, non-elective contributions, and an allocation of the Plan's earnings (losses). The allocation of earnings (losses) is determined by the participant's investment selection based on each participant's account balance, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes Receivable From Participants

A participant is allowed to borrow from his or her account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are secured by the participant's vested account balance and bear interest at a reasonable rate of interest. Loans are for a period not to exceed five years, or not to exceed ten years for the purchase of a primary residence.

Plan Loans

Participants are also allowed to take loans directly from TIAA and CREF. These loans require collateral of 110% of the outstanding loan balance in case of default. Participant account balances held as collateral for loans at December 31, 2022 and 2021 amounted to \$9,884 and \$23,144 respectively, and are included in the TIAA Traditional Annuity balance on the statement of net assets available for benefits. Loans considered in default at December 31, 2022 and 2021 amounted to \$2,291 and \$2,195, respectively.

Vesting

Employee and matching contributions and earnings thereon are fully vested and nonforfeitable at all times. Nonelective contributions are 100% vested after two years of service.

Investment Options

Upon enrollment in the Plan, a participant may direct their contributions and University contributions in a variety of investment options. The investment options consist of a fully benefit-responsive guaranteed investment contract, a guaranteed investment account, a pooled separate account, registered investment companies and variable annuity contracts.

FONTBONNE UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

Payment Of Benefits

Upon retirement, death, disability or other termination of employment, a participant may take a distribution in the form of a lump-sum payment or a series of equal payments over a period of time until fully distributed.

Active participants who experience a qualifying financial hardship may withdraw all or part of their vested account. Hardship withdrawals are approved only if they conform to Plan provisions and established IRC safe harbors.

Active participants are also allowed to take a withdrawal from their rollover account.

Administrative Expenses

Each participant will pay administrative expenses based on the percentage of assets held in his or her investment accounts. The expenses are netted against earnings and are included in investment income (loss) on the statement of changes in net assets available for benefits. Investment management fees and certain other expenses are paid by the Plan. The University pays certain administrative expenses of the Plan.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Investment Income Recognition

The Plan's investments, other than fully-benefit-responsive investment contracts, are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

FONTBONNE UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

Interest income is recorded as earned on the accrual basis. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

The net change in fair value of investments in the accompanying statement of changes in net assets available for benefits includes realized gains and unrealized net change in fair value.

Investment contracts held by a defined contribution plan that are fully benefit-responsive are reported at contract value, rather than fair value, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's investments in the TIAA Traditional Annuity Retirement Choice Plus Account (RCP), Group Supplemental Retirement Account (GSRA), and Supplemental Retirement Account (SRA) are fully benefit-responsive investment contracts and are reported at contract value in the statement of net assets available for benefits.

Investment contracts held by a defined contribution plan are generally reported at contract value except those contracts that are non-fully benefit-responsive. In that instance, these contracts are required to be reported at fair value. The Plan's investments in the TIAA Traditional Annuity Retirement Choice Account (RC) and Retirement Account (RA) are not fully benefit-responsive investment contracts and are reported at fair value in the statement of net assets available for benefits.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment Of Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates subsequent events through the date the financial statements are available for issue, which is the date of the Independent Auditors' Report.

3. Certified Investment Information

The following is a summary of the Plan's asset information as of December 31, 2022 and 2021, and for the years then ended, included throughout the Plan's financial statements and supplemental schedule of assets held at end of year, that was prepared by or derived from information certified by TIAA and CREF, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from TIAA and CREF that the information provided to the Plan Administrator related to the following information is complete and accurate.

Accordingly, as permitted by CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule of assets held at end of year related to the following assets as of December 31:

	<u>2022</u>	<u>2021</u>
Guaranteed investment account	\$ 8,383,807	\$ 8,320,361
Pooled separate account	2,062,952	2,034,549
Variable annuity contracts	17,709,079	22,692,857
Registered investment companies	8,496,173	9,962,688
Fully benefit-responsive investment contract at contract value	2,748,098	2,812,353
Notes receivable from participants	106,937	203,369

TIAA and CREF also certified to the completeness and accuracy related the following investment income (loss) and interest income on notes receivable from participants for the years ended December 31:

	<u>2022</u>	<u>2021</u>
Net change in fair value of investments	\$ (6,182,075)	\$ 4,470,414
Interest and dividend income	694,906	735,716
Interest on notes receivable from participants	6,673	6,223

Guaranteed Investment Contracts

The Plan offers as investment options the TIAA Traditional Annuity. The TIAA Traditional Annuity is offered through a variety of contract types, including: the Retirement Annuity (RA); Retirement Choice Annuity (RC); Retirement Choice Plus Annuity (RCP); Group Supplemental Retirement Annuity (GSRA); and the Supplemental Retirement Annuity (SRA).

FONTBONNE UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

The TIAA Traditional Annuity (the Annuity) is a fixed-dollar annuity and investment product offered by TIAA, an insurance company. The Annuity is maintained in the TIAA general account. Contributions to one of the Annuities purchases a contractual or guaranteed amount of future benefits for the participants and are secured by the general assets of TIAA.

Retirement Annuity And Retirement Choice Annuity

The RA and RC are not fully benefit-responsive and reported at fair value, which approximates contract value as estimated by TIAA. The RA and RC contain liquidity restrictions where lump-sum withdrawals are permitted within 120 days following termination of employment, are subject to a 2.5% surrender charge, and contain certain limitations on the number of periodic installment payments.

Group Supplemental Retirement Annuity, Supplemental Retirement Annuity And Retirement Choice Plus Annuity

The GSRA, SRA, and RCP are fully benefit-responsive and are reported at contract value. The contract value equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals and transfers, if any.

The GSRA and SRA provide a guarantee of principal, a guaranteed minimum rate of interest of 3% and the potential for additional interest, if declared by TIAA. The RCP provides a guarantee of principal, a guaranteed minimum rate of interest between 1% to 3% predetermined annually each March 1, and the potential for additional interest, if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year," which begins each March 1. Additional interest is not guaranteed for future years. The crediting rate is supported by the investment performance of a large, diversified portfolio, is correlated with the highest quality debt security yields, and is adjusted for contract liquidity.

4. Fair Value Measurements

The Plan utilizes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

FONTBONNE UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Guaranteed Investment Account

Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

FONTBONNE UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

Registered Investment Companies

Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable Annuity Contracts

Certain variable annuity contracts are valued at the daily closing price as reported by the investment. These variable annuity contracts held by the Plan are open-end registered investment companies that are registered with the Securities and Exchange Commission. These investments are required to publish their daily NAV and to transact at that price. These variable annuity contracts held by the Plan are deemed to be actively traded.

The remainder of the variable annuity contracts are valued at the NAV of units held by the Plan at year end. NAV is used as a practical expedient to estimate fair value. The individual variable annuity contracts are comprised, primarily, of shares of registered investment companies held through subaccounts of a separate account of an insurance company at December 31, 2022 and 2021, respectively. The Plan has concluded that the NAV as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company approximates fair value of the investments. The investments are redeemable daily at the adjusted NAV under agreements with the insurance company. However, it is possible that the redemption rights may be restricted or eliminated in the future. Due to the nature of the investments, changes in the market conditions, liquidity requirements, and the economic environment may significantly affect the NAV of the variable annuity accounts and, consequently, the fair value of the Plan's investments.

Pooled Separate Account

Valued at the NAV of units held by the Plan at year end. The NAV, as provided by TIAA and CREF, is used as a practical expedient to estimate fair value. The account is primarily invested in real estate properties that are valued based on third-party appraisals. Due to the nature of the investment, changes in the market conditions, liquidity requirements, and the economic environment may significantly affect the NAV of the pooled separate account and, consequently, the fair value of the Plan's investments. Participant initiated transfers out of the pooled separate account can be made at any time, but are generally limited to one per calendar quarter. The pooled separate account held by the Plan files an annual report on Form 5500 as a direct filing entity.

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2022 and 2021:

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs	Range Of Significant Input Values

There have been no changes in the valuation methodologies used at December 31, 2022 or 2021.

5. Income Tax Status

The Plan has been designed to qualify under section 403(b) of the Code. 403(b) plans currently are not required to submit information relating to these plans to the Internal Revenue Service (IRS) for determination. However, the Plan Administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

6. Plan Termination

Although it has not expressed any intent to do so, the University has the right to terminate the Plan at any time subject to the provisions of ERISA. Participants will become 100% vested in their accounts.

7. Party In Interest Transactions

The Plan's investments in guaranteed investment contracts, pooled separate account, variable annuity contracts and certain registered investment companies are managed by TIAA and CREF, the Plan's investment issuer, and TIAA, FSB. The related transactions with TIAA and CREF and its related entities qualify as allowable party in interest transactions.

8. Risks And Uncertainties

The Plan invests in various investment securities, which in general are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
