Shannon & Wilson, Inc. Profit Sharing Retirement and 401(k) Plan and Trust

Scope and Nature of ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Shannon & Wilson, Inc. Profit Sharing Retirement and 401(k) Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Shannon & Wilson, Inc. Profit Sharing Retirement and 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Shannon & Wilson, Inc. (the Employer) who are 21 years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Employer is the Plan's sponsor and its Benefits Committee is the Plan Administrator. The Benefits Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Board of Directors of the Employer has appointed certain directors to act as the Plan's trustees. The Plan's assets, excluding the life insurance contract, are held by Matrix Trust Company (Matrix), the custodian. The participant account records are maintained by Northwest Plan Services, Inc.

Employee Participation and Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan. Participants may elect to categorize a portion or all of their contribution under the Plan's Roth deferral feature. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan at 3% of pretax annual compensation, unless the eligible employee affirmatively elects otherwise. If automatically enrolled, the participant's deferral election will increase by 1% beginning with the first full plan year after one year of enrollment and continue each plan year until the participant is deferring 10%. Elective contributions to the Plan are funded to the Plan following each pay date. Contributions are subject to certain Internal Revenue Service (IRS) limitations. Participants may also contribute amounts representing distributions from other qualified defined contribution plans (rollovers).

Employer Contributions

The Employer may elect, at its discretion, to make profit sharing contributions to the Plan. Participants must complete 1,000 hours of service and be employed on the last day of the plan year to be eligible to receive the profit sharing contribution unless a participant reaches the Plan's normal retirement age (65), becomes disabled or deceased while employed by the Employer. During 2022, the Employer elected not to contribute a profit sharing contribution. The Employer, in order to satisfy the safe harbor rules of the Internal Revenue Code (the Code), notified its employees that each eligible employee would receive a safe harbor contribution from the Employer equal to 3% of the employee's eligible compensation for any plan year. The safe harbor contribution has been funded to the Plan by the Employer in 2023.

1. Description of Plan, continued

Participant Accounts

Each participant's account is credited with the participant's contributions, as well as an allocation of the Employer contributions, if any and plan earnings. Participants direct the investment of their account balances into various investment options offered by the Plan. Fees related to the administration of notes receivable, self-directed brokerage account (SDBA) fees, and certain withdrawal fees are charged directly to the participants' accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, the Employer's safe harbor contributions, and actual earnings thereon. Vesting in the Employer's profit sharing contribution portion of their accounts is based on years of continuous service. Participants are not vested in profit sharing contributions until completing three years of credited service, at which time they become 100% vested. The profit sharing account balance of a participant who reaches the Plan's normal retirement age (65), becomes disabled or deceased while employed by the Employer will become 100% vested.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at 1% above the prime rate. Principal and interest is paid ratably through payroll deductions.

Investments

Participants direct the investment of their account balances into the Plan's investment options. Investments consist of shares in registered investment companies (mutual funds), a collective trust fund managed by Matrix, and a life insurance contract. Participants who are fully vested may elect to transfer their account balances to SDBAs where they may invest in common stocks, mutual funds, bonds or other investment options.

Payment of Benefits

On termination of service, a participant or their beneficiary may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installment payments. Distributions may also be made in installments to comply with minimum distribution rules required by the Code. The Plan permits in-service withdrawals to participants meeting certain requirements, including distributions for financial hardship. Furthermore, a participant may withdraw the portion of their vested account resulting from rollover contributions at any time (limited to one rollover distribution per year).

1. Description of Plan, continued

Forfeited Accounts

Forfeitures of the nonvested portions of terminated participants' accounts are maintained in a separate account and are used to reduce the Employer's contribution or pay the Plan's administrative expenses. At December 31, 2022 and 2021, forfeited accounts totaled \$3,317 and \$4,383, respectively. The December 31, 2022 account balance was used to offset the 2022 employer safe harbor contribution that was funded subsequent to year end.

Transfers and Due from Other Qualified Plan Sponsored by the Employer

The Employer sponsors another qualified plan; the Shannon & Wilson, Inc. Eligible Individual Account Plan (the EIAP), the investments of which are comprised entirely of the Employer's common stock. The Plan allows participants to transfer all or part of their fully vested account balance to the EIAP once each year, subject to limitations as defined by the Shannon & Wilson, Inc. Shareholder Agreement. For those participants who have authorized the transfer, the Employer issues shares of common stock to each participant's account in the EIAP. The transfer is recorded and the shares are issued prior to year end. As a result, at year end an amount may be due to the EIAP for the value of the amount transferred and common stock issued. Furthermore, the EIAP receives cash contributions and dividends. Cash contributions and dividends received by the EIAP are immediately transferred to the Plan and invested in the affected participants' accounts, as the EIAP does not hold cash on behalf of participants. As a result, at year end an amount may be due from the EIAP for the value of the amount transferred and cash received. In addition, eligible participants in the EIAP, at times, may divest their holdings in the Employer's common stock, at which time their account balances in the EIAP may be transferred to the Plan and invested in the affected participants' accounts, and if so chosen, distributed out of the Plan.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Shannon & Wilson, Inc.
Profit Sharing Retirement and 401(k) Plan and Trust
Notes to Financial Statements

2. Significant Accounting Policies, continued

Cash

Cash consists of monies held by the custodian that due to timing have yet to be invested or disbursed. The cash balance, at times, may exceed federally insured limits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses and Revenue Sharing

Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and certain withdrawal fees are charged directly to the participants' accounts and are included in administrative expenses. Fees associated with SDBAs are deducted from the related participants' accounts and are included in administrative expenses. Certain other fees are paid by the Plan through revenue sharing that the Plan receives from certain of its investment options and are included in administrative expenses. During 2022, the Plan received revenue sharing amounts totaling \$70,607, of which \$60,000 was used to pay certain administrative expenses. In addition, certain asset-based fees are deducted directly from each participant's investment returns.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 2, 2023, the date the financial statements were available to be issued.

3. Certified Information

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including mutual funds, SDBA, and the collective trust fund held at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends, was obtained by management and agreed to or derived from information certified as complete and accurate by Matrix.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under the Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements, continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2022 and 2021.

- Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- SDBA: Accounts primarily consist of mutual funds, common and preferred stocks, certificates of deposit and corporate bonds. These accounts are valued at the closing price reported on the active market on which the respective security is traded, or at amortized cost, which approximates fair value, as applicable.
- Collective trust fund: Valued at the fund's per unit NAV provided by the fund's trustee. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participants may initiate redemptions in the collective trust fund on a daily basis. Were the Plan to initiate a full redemption of the collective trust fund, written notice would be required and the transfer would be within 60 days following the written notice. There are no unfunded commitments in this fund.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

Assets at Fair Value as of December 31, 2022				
	Level 1	Level 2	Level 3	Total

				<u>\$ 116,382,624</u>

5. Related-Party and Party-in-Interest Transactions

The Plan's assets include a collective trust fund managed by an affiliate of Matrix. Matrix is the custodian for the Plan and therefore, transactions with Matrix qualify as party-in-interest transactions. Notes receivable from participants are also party-in-interest transactions under ERISA. In addition, expenses paid by the Plan are to parties-in-interest as defined by ERISA.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

7. Tax Status

The Employer has adopted a defined contribution pre-approved plan that received an opinion letter dated June 30, 2020 in which the IRS stated that the Plan, as designed, complied with the applicable requirements of the Code. The Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Shannon & Wilson, Inc.
Profit Sharing Retirement and 401(k) Plan and Trust
Notes to Financial Statements

7. Tax Status, continued

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts as reported in the financial statements.
