INDEPENDENT AUDITORS' REPORT

To the Participants and Board of Trustees
University of Dayton Tax Deferred Annuity Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of University of Dayton Tax Deferred Annuity Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent University of Dayton Tax Deferred Annuity Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about University of Dayton Tax Deferred Annuity Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of University of Dayton Tax Deferred Annuity Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about University of Dayton Tax Deferred Annuity Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matters - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF THE PLAN:

The following description of the University of Dayton Tax Deferred Annuity Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, covering all employees of the University of Dayton (the "Sponsor" or "University") except students employed by the University. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions

Contributions made to the Plan are comprised of only employee contributions. Eligible participants may enter the Plan immediately and may elect to make contributions on a pre-tax or after-tax basis, subject to certain Internal Revenue Service ("IRS") limits. The Plan includes an auto-enrollment provision whereby new employees and current employees with less than 10 years of service as of January 1, 2012, but not including employees classified as adjunct, part-time or non-benefit eligible are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. In addition, participants that have been employed by the University for more than 15-years may make additional catch up contributions ("Special 403(b) Catch Up Contributions") equal to the lesser of the following: 1) \$3,000; 2) \$15,000 minus the amount of Special 403(b) Catch Up Contributions made in prior years; or 3) \$5,000 times the number of years worked for the University minus the total amount of salary deferrals made while employed by the University. Participants are also permitted to make rollover contributions to the Plan from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions and an allocation of the Plan's earnings and expenses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options

Plan contributions are invested, at the direction of the participant, in one or more funding vehicles available to participants under the Plan. The vendors available to participants are Teachers Insurance and Annuity Association of America and College Retirement Equities Fund (collectively, TIAA) and Lincoln National Life Insurance Company (Lincoln). Effective July 1, 2011, participants were no longer able to contribute to Lincoln, but were permitted to maintain account balances held at Lincoln.

Vesting

Participants are immediately vested in their contributions plus earnings thereon.

Notes receivable from participants

Participants may borrow a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of the vested balance of the account. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the administrator.

Loans are payable within five years except for those used to acquire a principal residence. Notes receivable from participants outstanding at December 31, 2022 and 2021 were \$1,690,472 and \$1,616,717, respectively.

Loans collateralized by participant accounts

Prior to May 1, 2018, participants with funds held by TIAA and Lincoln were permitted to obtain loans from the vendors for a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their account balance. Effective May 1, 2018, such loans are no longer permitted; however certain balances remained outstanding.

Loan proceeds were disbursed by the vendors who collateralized a portion of the participant's account balance. Upon the execution of a loan agreement, a portion of the participant's account balance equal to the unpaid loan was transferred into the unallocated insurance contract offered by the vendor. Loan repayments are made by participants directly to the vendors. As loan payments are received by the vendors, a portion of the funds held as collateral are released. Defaults are determined in accordance with the terms of the Plan loan agreements between the vendor and the participant. Upon default, the Plan loan becomes taxable to the participant; however, the collateral remains in the participant's account until the participant reaches a distributable event such as retirement or termination.

Plan loans outstanding at December 31, 2022 and 2021 were \$56,913 and \$134,172, respectively. As these loans are between the vendor and the participant, they do not appear on the statements of net assets available for benefits.

Payment of benefits

Upon termination of service due to death, disability, retirement or for other reasons, distribution shall be made to the participant or beneficiary in a single lump sum payment, partial payments, installment payments or a single life annuity payment.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the Plan:

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021.

Withdrawals and payment of benefits

Withdrawals and benefits are recorded upon distribution. Payments to purchase allocated insurance contracts are recognized as decreases in the statements of changes in net assets available for benefits as the insurance company has assumed the obligation to provide benefits under the terms of the applicable insurance contracts.

Administrative expenses

Certain administrative functions are performed by employees of the University; no such employee receives compensation from the Plan. The University has elected to pay certain costs associated with the administration of the Plan from its assets. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through October 9, 2023, the date the financial statements were available to be issued.

3. INVESTMENTS:

The Plan has investment contracts with the TIAA and Lincoln. Contributions may be deposited into the insurance companies' general accounts under unallocated investment contracts, variable annuity accounts, or into a pooled separate account. The insurance companies are contractually obligated to repay the principal and a specified interest rate for contributions deposited into their general accounts. A portion of the unallocated insurance contracts have surrender charges and other restrictions on withdrawals and are therefore, not considered to be fully benefit-responsive. The remaining portion of the unallocated insurance contracts do not have restrictions on withdrawals and are considered fully benefit-responsive. Unallocated insurance contracts considered to be fully benefit-responsive are presented at contract value, while unallocated insurance contracts that do not qualify as fully benefit responsive are presented at fair value. The variable annuity accounts and pooled separate account are credited with the actual earnings of the underlying investments and charged for plan withdrawals and administrative expenses. Participants may also invest their contributions in various registered investment companies offered by TIAA.

Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and Lincoln, the Plan's custodians, have certified the completeness and accuracy of all investments and participant loans reflected on the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021, and the supplemental schedule of assets (held at end of year) as of December 31, 2022; the related investment activity and interest income on participant loans reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2022.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Self-directed brokerage account: Account primarily consists of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

Registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Unallocated insurance contracts: The TIAA Traditional Annuity is an unallocated fixed-dollar annuity and investment product offered by TIAA, an insurance company that is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Annuity is maintained in the TIAA general account. Contributions to the TIAA Traditional Annuity purchase a contractual or guaranteed amount of future benefits for the participants and are secured by the general assets of TIAA. Due to certain withdrawal limitations, the annuity contracts are not considered to be fully benefit responsive. As such, the Plan records its investment in the TIAA Traditional Annuity at fair value. Fair value is determined using a discounted cashflow analysis using discounted rates that are expected to approximate future crediting rates.

Variable Annuity Accounts: Participants purchase accumulation units in the variable annuity contracts and their value is calculated and published daily.

Pooled separate account: The TIAA Real Estate Pooled Separate Account is valued at the net asset value per accumulation unit of the investment. The underlying real estate holdings or other real estate related investments are valued principally utilizing external appraisals. Although the underlying assets of the account cannot be quickly sold and converted to liquid assets, the TIAA general account provides the Plan with a liquidity guarantee. Transfers out of the pooled separate account are limited to one per calendar quarter. There are no unfunded commitments or redemption notice period.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

Assets at Fair Value at December 31, 2022

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to the total net assets available for benefits.

During 2022, the Plan purchased \$8,540,967 and sold \$11,420,516 of the unallocated insurance contracts.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

<u>December 31, 2022</u>	<u>Fair Value</u>	<u>Principal Valuation Technique</u>	<u>Unobservable Inputs</u>	<u>Range</u>
Unallocated insurance contracts	\$ 93,805,107	Discounted cash flow	Discount rate	3.70 - 6.25%
<u>December 31, 2021</u>	<u>Fair Value</u>	<u>Principal Valuation Technique</u>	<u>Unobservable Inputs</u>	<u>Range</u>
Unallocated insurance contracts	\$ 96,684,656	Discounted cash flow	Discount rate	3.00 - 3.80%

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2022 and 2021, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

<u>December 31, 2022</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
TIAA Real Estate Account	\$ 22,122,030	None	Limited to one per quarter	None
<u>December 31, 2021</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
TIAA Real Estate Account	\$ 20,084,720	None	Limited to one per quarter	None

The TIAA Real Estate Account, a pooled separate account, is a direct filing entity ("DFE"). The Plan is not required to disclose the investment strategies of DFEs that file a Form 5500 annual report directly with the U.S. Department of Labor.

5. FULLY BENEFIT- RESPONSIVE INVESTMENT CONTRACTS:

Funds invested in the TIAA Traditional Annuity under group supplemental retirement unit-annuities (GSRA) and supplemental retirement annuities (SRA) are considered fully benefit-responsive. Funds invested in the fixed account portion of the Lincoln Fixed Account Multi-Fund Group Variable Annuity are also considered fully benefit-responsive.

TIAA and Lincoln maintain the contributions in general accounts. The accounts are credited with discretionary earnings on the contributions and charged for participant withdrawals and administrative expenses. The contract issuers are contractually obligated to repay the principal and specified interest rates that are guaranteed to the Plan. The guaranteed investment contracts do not permit TIAA and Lincoln to terminate the agreements prior to the scheduled maturity dates.

The contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by TIAA and Lincoln, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuers' abilities to meet their financial obligations. The issuers' abilities to meet their contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuers. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with participants.

In addition, certain events allow the issuers to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without consent of the issuer.

6. RELATED-PARTY TRANSACTIONS:

Certain plan investments are managed by TIAA and Lincoln, the custodians as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the University has the right to terminate the Plan subject to the provisions of ERISA.

8. TAX STATUS:

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The terms of the Plan have been prepared to conform with the sample language provided by the IRS in Revenue Procedure 2007-71[or the draft Listing of Required Modifications issued April 4, 2009]. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b).

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
