Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To the Trustees and Participants

L3Harris Integrated Systems Pension Plan for Greenville Hourly Employees

Opinion

We have audited the accompanying financial statements of L3Harris Integrated Systems Pension Plan for Greenville Hourly Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for pension benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for pension benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for pension benefits of L3Harris Integrated Systems Pension Plan for Greenville Hourly Employees as of December 31, 2022 and 2021, and the changes in its net assets available for pension benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of L3Harris Integrated Systems Pension Plan for Greenville Hourly Employees and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about L3Harris Integrated Systems Pension Plan for Greenville Hourly Employees' ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of L3Harris Integrated Systems Pension Plan for Greenville Hourly Employees' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about L3Harris Integrated Systems Pension Plan for Greenville Hourly Employees' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

L3HARRIS INTEGRATED SYSTEMS PENSION PLAN FOR GREENVILLE HOURLY EMPLOYEES

Notes to the Financial Statements

December 31, 2022 and 2021

(In Thousands)

Note 1 - Description of Plan

The following description of the L3Harris Integrated Systems Pension Plan for Greenville Hourly Employees (formerly L-3 Integrated Systems Retirement Plan for Greenville Hourly Employees) (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan was established effective March 8, 2002, in connection with the acquisition of the Aircraft Integration Systems ("AIS") business of Raytheon Company ("Raytheon") by L3 Technologies, Inc. Effective March 8, 2002, former participants in the Retirement Plan for the Hourly Employees of the Greenville Division (the "Prior Plan") of Raytheon became participants in the Plan. Following the acquisition, AIS was renamed L-3 Communications Integrated Systems, L.P. The Plan is a non-contributory defined benefit plan covering employees who are members of Local 967, UAW, of L-3 Communications Integrated Systems L.P., a subsidiary of the Company. On June 29, 2019, L3 Technologies, Inc. ("L3") completed its merger with Harris Corporation ("Harris") to create L3Harris Technologies, Inc. (the "Company") (the "Plan Sponsor"). The Plan funds are held in the L3Harris Pension Master Trust. See note 3 for further information regarding the Master Trust. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Master Trust

The Northern Trust Company (the "Trustee" or "Northern Trust") serves as Trustee of the Plan and administers the Plan's investment assets. The Plan's assets consist of an undivided interest in an investment account of the L3Harris Pension Master Trust, EIN 36-6668234, a master trust established by the Company and administered by the Trustee. The Master Trust includes the combined assets of the Plan, as well as several other employee benefit plans of the Company. Although assets of the Plan are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain of the investment account to the participating plans. The net investment income of the investment assets is allocated by the Trustee to each participating Plan based on the relationship of the interest of each Plan to the total of the interests of the participating plans. A schedule of the Master Trust assets has been filed with the U.S. Department of Labor and includes the Plan's proportionate share of such assets at December 31, 2022 and 2021.

Eligibility

Participation in the Plan commences on the date of hire. The Plan is frozen with respect to new participants hired after December 31, 2007. As such, any employees hired on or after January 1, 2008, are not eligible to participate in the Plan.

Note 1 - Description of Plan (Continued)

Pension Benefits

The Plan provides a monthly benefit calculated by multiplying a rate which varies depending on the participant's retirement date, by years of benefit service, reduced by the amount of the benefit that will be paid to the participant under the Prior Plan. The plan was amended in September 2016, such that the pension multiplier (multiplier not in thousands) changed from \$69 to \$73 on January 1, 2017, to \$76 on January 1, 2018, and \$78 on January 1, 2019. The Plan was amended in June 2019, such that the multiplier changed from \$78 to \$84, effective January 1, 2020. The Plan was amended in November 2022, such that the multiplier changed from \$84 to \$86, effective January 1, 2023, adjusted to \$89 effective January 1, 2024, and adjusted to \$93 effective January 1, 2025.

The Plan permits early retirement for participants at age 55 with at least ten years of service. The benefit may begin at the date of early retirement, with the benefit reduced by a percentage of up to 25% if the commencement of benefits precedes the participant's 60th birthday. Retirees may elect to receive their pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement. Under the joint and survivor annuity, the surviving spouse would receive benefits equal to a percentage of the amount of the deceased participant's benefit in accordance with their joint and survivor annuity option. Under the life annuity, there are no continuing payments after the death of the retiree. If participants are terminated before completing five years of service, they forfeit the right to receive their accumulated benefits.

Death and Disability Benefits

Upon the death of an active employee or an employee on disability retirement, prior to normal retirement date, a surviving spouse is eligible for a death benefit. The monthly benefit (benefit not in thousands) commencing immediately is \$100 per month for 24 months or until the death of all eligible survivors, if earlier. Upon the death of an active employee with 5 years of service, a benefit is payable for life to the surviving spouse. The amount is calculated as if the participant had retired on the date of death and commenced payments at earliest retirement age and then died under 55% joint and survivor form (50% if less than 10 years of service). Upon the death of a participant, bridge survivor income is payable to the spouse if the following conditions were met: (a) the spouse was between age 45 and 60 at the date of the employee's death, (b) the spouse has received 24 transition survivor income benefit payments, and (c) the spouse continues to qualify as an eligible spouse. The monthly benefit (benefit not in thousands) of \$300, is payable until the remarriage or death of the spouse, or until age 62 or commencement of full widow(er)'s social security benefits, whichever is earliest.

Death and Disability Benefits (Continued)

The Plan offers a disability retirement benefit. To qualify for this benefit, a participant must terminate employment due to total disability that occurred while employed and prior to normal retirement age. In addition, the participant must have at least 10 years of vesting service and must not be receiving any other retirement benefit under the Plan.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The Plan, through the Master Trust, utilizes various investment instruments, including common and preferred stocks, U.S. government securities, corporate debt instruments, partnerships/joint ventures, common collective trusts, hedge funds, cash and cash equivalents, registered investment companies, and other investments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Cash

The Plan's cash consists of cash on deposit with Northern Trust Company.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses of the Plan are paid by the Master Trust on behalf of the Plan, as provided in the plan document and the Master Trust agreement. Administrative expenses consist of consulting fees, auditing fees, recordkeeping fees, and insurance expenses.

Subsequent Events

The Plan has evaluated its December 31, 2022 financial statements for subsequent events for recognition or disclosure through October 5, 2023, the date the financial statements were available to be issued.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within its hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Notes to the Financial Statements (Continued)
December 31, 2022 and 2021
(In Thousands)

Note 4 - Fair Value Measurements (Continued)

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

Asset Valuation Techniques

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Domestic and international equity:

Domestic and international equity includes common and preferred stocks, domestic listed and foreign listed equity securities, unit trust equities, stapled securities, open-ended and closed-ended mutual funds, exchange-traded funds (registered investment companies), and these are generally valued at the closing price reported on the major market on which the individual securities are traded at the measurement date.

REITs:

Real Estate Investment Trusts (REITs) consist of securities that trade on the major exchanges and invest directly in real estate, either through properties or mortgages.

Fixed income investments:

Fixed income investments include U.S. Government securities, corporate bonds, corporate convertible bonds, asset-backed securities, bank loans, government mortgage-backed securities, non-government backed collateralized mortgage obligations and municipal obligations, which are generally valued using pricing models that use verifiable, observable market data such as interest rates, benchmark yield, and bids provided by brokers or dealers, or quoted prices of securities with similar characteristics.

The fair value of the Level 3 investments is determined using the discounted cash flow method. The unobservable inputs used in this valuation to determine the pricing yield for each security include the 30-year treasury base yield, ranging between 3.84% and 4.71% as of December 31, 2022, and 0.39% and 1.82% as of December 31, 2021. Additional unobservable inputs used include a broker spread, ranging between 0.89% and 4.10% as of December 31, 2022, and 0.71% and 3.25% as of December 31, 2021.

Notes to the Financial Statements (Continued)
December 31, 2022 and 2021
(In Thousands)

Note 4 - Fair Value Measurements (Continued)

Short-term investments:

Short-term investments are primarily comprised of short-term money market funds, which invest primarily in short-term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit which are valued at cost, which approximate fair value, or valued at quoted market prices of identical instruments.

Limited partnerships:

Limited partnership funds include buy-out (developing companies), mezzanine (funds providing mezzanine loans to companies), venture capital (start-up companies), distressed asset (distressed companies undergoing bankruptcies, etc.), commodities (businesses in commodity related sectors), real estate (residential, commercial, and industrial real estate), international equity and venture capital, and are typically limited partnership investment structures and/or joint ventures. Limited partnership valuations are based on the valuation of the underlying investments, which include inputs such as cost, operating results, discounted future cash flows and market-based comparable data. Net asset value (NAV) is used as a practical expedient to estimate fair value.

Hedge funds:

Hedge funds include equity long/short, event driven, multi-strategy, real estate and fund of funds, and are typically limited partnership investment structures. Limited partnership interests in hedge funds are primarily valued using a market approach based on net asset value (NAV) calculated by the funds and are not publicly available. NAV is used as a practical expedient to estimate fair value.

Common collective trusts:

Common collective trusts (CCTs) are valued at NAV and are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income, or other investment objectives. CCTs are reported at NAV, as of the measurement date. NAV is used as a practical expedient to estimate fair value.

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (Continued)

- (a) Limited partnership interests in private equity funds are not redeemable from the general partner. Private equity interests can be sold through a secondary sale to a third party. Distributions are generally received through the liquidation of the underlying assets of the funds. Other partnerships include distressed asset investments, venture capital funds, mezzanine funds. These partnerships (except for commodities, real estate, and international equity) are expected to be liquidated in approximately the next three to ten years.
- (b) Redemption restrictions vary, within 30 to 91 days, by investment management agreement but are based on the initial investment date and take into account liquidity terms, notice periods, redemption schedules, withdrawal with or without penalties and lock-ups, if any. In certain cases, full redemption may be extended over a period of time.
- (c) Fund of funds hedges invest in a variety of investments, mainly other hedge funds, of different styles with the goal of generating diversified returns in all types of market environments. Real estate hedge funds commonly invest in real estate investment trusts. However, as the name states, they may also invest in real estate properties such as residential and commercial properties and land. Other hedge funds include multi-strategy and event driven funds. Multi-strategy funds have an objective to add value from mispriced securities. These funds have entered into full redemption requests and are expected to be liquidated over the next year. Event driven funds are single direct funds attempting to generate returns in all types of market environments with appropriate amounts of risk.

Note 5 - Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2022 and 2021.

Note 6 - Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Note 6 - Accumulated Plan Benefits (Continued)

The actuarial present value of the accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2022 and 2021, respectively, were:

Mortality Basis: The assumed mortality rates are the Pri-2012 Blue Collar Mortality Table for hourly plans and the Pri-2012 White Collar Mortality Table for salaried plans. In 2021, mortality rates were increased by 10% for hourly plans and decreased by 10% for salaried plans, with this adjustment tapering linearly to 0% starting at age 85 and ending at age 95. These assumed rates are projected generationally with the 2021 Buck Projection Scale for year 2022 and with the 2020 Buck Projection Scale for year 2021.

Retirement: Retirement starting at 55 through 70, at varying rates, with 100% by age 70. The retirement assumption at age 65 was 25%.

Discount Rate: The assumed interest rate is 7.5%.

The actuarial present value of accumulated plan benefits as of January 1, 2022 is as follows:

Vested accumulated plan benefits:	
Retired participants and/or beneficiaries currently receiving benefits	\$ 57,810
Other participants	51,718
	<hr/>
Total vested accumulated plan benefits	109,528
Nonvested accumulated plan benefits	5,796

Note 7 - Exempt Party-in-Interest Transactions

Certain Master Trust investments are shares of common collective trusts managed by the Trustee. These assets and related transactions qualify as exempt party-in-interest transactions.

Certain accounting and other administrative functions are performed by officers and employees of the Company (who may also be participants in the Plan) at no cost to the Plan or Master Trust. These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the IRC and ERISA's rules on prohibited transactions.

Note 8 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated October 18, 2017, that the Plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

L3HARRIS INTEGRATED SYSTEMS PENSION PLAN FOR GREENVILLE HOURLY EMPLOYEES
Notes to the Financial Statements (Continued)

(In Thousands)

Note 8 - Tax Status (Continued)

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

Note 9 - Plan Termination

While the Company has not expressed any intent to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to collective bargaining and the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and receive pension benefits at least three years before, but who did not elect to retire at that time.
- c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.
- d. All vested and non-vested benefits

Whether participants receive all benefits to which they are entitled under the terms of the Plan should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation, up to specified limits.

Note 10 - Purchase of Annuity Contracts

In 2022, the Plan purchased a group annuity contract from Nationwide Life and Annuity Insurance Company ("NLAIC") for \$501. Under the terms of the contracts, as of December 13, 2022, NLAIC is responsible for the annuity payments of those annuitants identified in the contract.

Early Retirement

- *Age Requirement:* 55
- *Service Requirement:* 10 years of service
- *Amount:* Accrued benefit determined as for Normal Retirement reduced as follows:

Age	Percent of Benefit Payable
55	75%
56	84%
57	91%
58	96%
59	99%
60	100%

Disability

- If an employee terminates due to total and permanent disability with at least 10 years of vesting service, he is eligible for a disability pension. The monthly annuity will commence one year after the disability occurred and will be payable for life or until disability ceases. If the employee qualifies for disability Social Security benefits, his monthly pension will be computed as for normal retirement, considering service to disablement.
 - For any month in which the employee does not qualify for disability or unreduced old age Social Security benefits, his benefit will be two times the amount computed above. For valuation purposes, we assume that all disabled employees are eligible for Social Security benefits.

Vesting

- *Age Requirement:* None
- *Service Requirement:* 5 years of service
- *Amount:* Accrued pension payable at age 65. An actuarially reduced benefit is also payable as early as age 55 for participants with at least 10 years of vesting service.

Actuarial Assumptions and Methodologies

Certain assumptions are prescribed as noted below. The other assumptions are estimates derived from historical and recent experience as well as market observations, combined with professional judgment about future expectations. Segal's report as of December 2017 shows a recent analysis upon which these assumptions are based.

Interest:	<p>The interest rates used for the 2022 plan year are the 24-month average corporate bond segment rates for September 2021 (a 4-month lookback) subject to funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average corporate bond rates) but are then constrained to be within a corridor around a 25-year average of those same bond rates. For 2022, the stabilization corridor is 5%. It will remain at 5% through 2030 and then increase by 5% per year beginning in 2031 until it reaches 30% for 2035. The interest rate description above reflects that the plan sponsor elected to defer the ARPA provisions to the 2022 plan year. The rates are as follows:</p> <table><tr><td></td><td>Payments in the First 5 Years</td><td>Payments in Years 6 – 20</td><td>Payments Thereafter</td><td>Effective Interest Rate</td></tr><tr><td>Current Year, reflecting stabilization (post-ARPA)</td><td>4.75%</td><td>5.18%</td><td>5.92%</td><td>5.51%</td></tr><tr><td>Current Year, without stabilization</td><td>1.07%</td><td>2.68%</td><td>3.36%</td><td>3.03%</td></tr><tr><td>Prior Year, reflecting stabilization (pre-ARPA)</td><td>3.32%</td><td>4.79%</td><td>5.47%</td><td>5.08%</td></tr><tr><td>Prior Year, without stabilization</td><td>2.22%</td><td>3.38%</td><td>3.92%</td><td>3.66%</td></tr></table> <p>The interest rates used to determine the PBGC variable-rate premium are the same as those used for funding, without reflecting funding stabilization. These interest rates are based on the plan sponsor’s election (an election that can currently be changed) and are subject to the constraints established by law.</p>		Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter	Effective Interest Rate	Current Year, reflecting stabilization (post-ARPA)	4.75%	5.18%	5.92%	5.51%	Current Year, without stabilization	1.07%	2.68%	3.36%	3.03%	Prior Year, reflecting stabilization (pre-ARPA)	3.32%	4.79%	5.47%	5.08%	Prior Year, without stabilization	2.22%	3.38%	3.92%	3.66%

Mortality Rates For Healthy Participants	RP-2006 separate employee and annuitant healthy mortality tables, projected through the valuation date plus a number of years that varies by age using scale MP-2020. This assumption is one of the choices allowed by the regulations. This reflects an update to the mandated mortality projection assumption.																									
Benefit Election	Life annuity for unmarried participants. 55% joint and survivor for married participants. This assumption is based on historical and current data, adjusted to reflect estimated future experience and professional judgment.

	60 – 64	15.00
	65	25.00
	66 – 69	20.00
	70	100.00
Based on a review of the assumed rates compared to historical experience, in light of the plan provisions and professional judgment, these assumed rates reflect a reasonable expectation for the future.		
Description of Weighted Average Retirement Age	Age 63.4, determined as follows: The weighted average retirement age is calculated as the sum of the product of each potential current or future retirement age times the probability of surviving to that age and then retiring at that age, assuming no other decrements.	
Retirement From Inactive Status	100% at Age 65 Based on a review of the assumed rates compared to historical experience, in light of the plan provisions and professional judgment, these assumed rates reflect a reasonable expectation for the future.	
Percent Married	70% for males, 55% for female participants. Spouse is assumed to be the opposite gender.	
Age Difference	Male spouses are assumed to be three years older than female spouses.	
Administrative Expenses	An expense assumption is required under the funding rules. Plan-related expenses of \$360,000 are expected to be paid by the plan during the year. (Previously, \$380,000 was assumed) This assumption is based on recent historical data, adjusted to reflect PBGC premium changes, input from the plan sponsor, and estimated future experience and professional judgment.	
Asset Method	As selected by the plan sponsor, assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of and 7.75% for 2020 and 7.5% for 2021, not to exceed the applicable third segment rates of 5.94% for 2020 and 5.47% in 2021.	
Funding Method	Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to-date basis using mandated mortality tables and interest rates. If all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the plan at the minimum required contribution level is generally designed to achieve a 100% funded status within fifteen-years. Once that is achieved, or for overfunded plans, the required contribution will generally equal the target normal cost reduced by any overfunding.

The actuarial valuation models generate a comprehensive set of liability and cost calculations that are presented to meet regulatory, legislative and client requirements. Our Actuarial Technology and Systems unit, comprising both actuaries and programmers, is responsible for the initial development and maintenance of these models. The models have a modular structure that allows for a high degree of accuracy, flexibility and user control. The client team programs the assumptions and the plan provisions, validates the models, and reviews test lives and results, under the supervision of the responsible actuary.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
