INDEPENDENT AUDITOR'S REPORT

To the Trustees and Participants
L3Harris Pension Plan for Employees
at the Pacific Missile Range Facility

Opinion

We have audited the accompanying financial statements of L3Harris Pension Plan for Employees at the Pacific Missile Range Facility (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for pension benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for pension benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for pension benefits of L3Harris Pension Plan for Employees at the Pacific Missile Range Facility as of December 31, 2022 and 2021, and the changes in its net assets available for pension benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of L3Harris Pension Plan for Employees at the Pacific Missile Range Facility and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about L3Harris Pension Plan for Employees at the Pacific Missile Range Facility's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of L3Harris Pension Plan for Employees at the Pacific Missile Range Facility's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about L3Harris Pension Plan for Employees at the Pacific Missile Range Facility's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Note 1 - Description of Plan

The following description of the L3Harris Pension Plan for Employees at the Pacific Missile Range Facility (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit plan covering substantially all hourly employees of L3Harris Technologies, Inc. Critical Networks, Pacific Missile Range Facility, a division of L3Harris Technologies, Inc., who are represented by the International Brotherhood of Electrical Workers, Local 1260 or the Inland Boatmen Union of the Pacific Hawaii Region. On June 29, 2019, L3 Technologies, Inc. (“L3”) completed its merger with Harris Corporation (“Harris”) to create L3Harris Technologies, Inc. (the “Company”) (the “Plan Sponsor”). The Plan funds are held in the L3Harris Pension Master Trust. See note 3 for further information regarding the Master Trust. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. During 2021, the contract covering the participants in the Plan ended and was not renewed by the Company. As a result, all active participants were terminated as of March 31, 2021.

Master Trust

The Northern Trust Company (the “Trustee” or “Northern Trust”) serves as trustee of the Plan and administers the Plan’s investment assets. The Plan’s assets consist of an undivided interest in an investment account of the L3Harris Pension Master Trust, EIN 36-6668234, a master trust established by the Company and administered by the Trustee. The Master Trust includes the combined assets of the Plan, as well as several other employee benefit plans of the Company. Although assets of the Plan are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain of the investment account to the participating plans. The net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. A schedule of the Master Trust assets has been filed with the U.S. Department of Labor and includes the Plan’s proportionate share of such assets at December 31, 2022 and 2021.

Eligibility

All L3Harris Technologies, Inc. Critical Networks, Pacific Missile Range Facility locations are eligible to participate upon the later of (i) the attainment of age 21 or the completion of one year of service, or (ii) upon the attainment of age 40. In addition, to enroll in the Plan and become a participant, an eligible active employee must agree to make participant contributions equal to 3% of earnings during the plan year.

Note 1 - Description of Plan (Continued)

Pension Benefits

Participants are eligible for monthly benefit payments upon reaching age 65. The normal monthly benefit payment is equal to 2.25% of the participant's earnings during each year of participation, divided by 12. A participant is immediately vested in their contributions into the Plan and is entitled to their pension benefit after five years of service. Prior to that time, the participant is not vested, but will, upon termination of employment, receive a return of his or her accumulated contributions, plus interest.

Participants are eligible to receive early retirement benefits between the ages of 55 and 65 upon the completion of five years of continuous service. Early retirement benefits are computed in a manner similar to normal retirement at age 65, except that benefits are reduced by certain factors, as outlined in the Plan document, for each month that the early retirement date precedes the normal retirement date.

Death Benefits

A married employee who is a vested participant is automatically covered by the preretirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement, unless coverage is waived. The benefit would be equal to the benefit the spouse would have received had the employee retired on the date of death, computed under the normal form of payment and subject to certain limitations.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The Plan, through the Master Trust, utilizes various investment instruments, including common and preferred stocks, U.S. government securities, corporate debt instruments, partnerships/joint ventures, common collective trusts, hedge funds, cash and cash equivalents, registered investment companies, and other investments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Cash

The Plan's cash consists of cash on deposit with Northern Trust Company.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses of the Plan are paid by the Master Trust on behalf of the Plan, as provided in the plan document and the Master Trust agreement. Administrative expenses generally consist of consulting fees, auditing fees, recordkeeping fees, and insurance expense.

Subsequent Events

The Plan has evaluated its December 31, 2022 financial statements for subsequent events for recognition or disclosure through October 5, 2023, the date the financial statements were available to be issued.

Note 3 - Interest in Master Trust

The fair value of the assets and liabilities of the Master Trust at December 31, 2022 and 2021 is presented in the table below. The Plan's percentage interest in the Master Trust was approximately 0.55% at December 31, 2022 and 2021.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within its hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

MISSILE RANGE FACILITY
Notes to the Financial Statements (Continued)
December 31, 2022 and 2021
(In Thousands)**

Note 4 - Fair Value Measurements (Continued)

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

Asset Valuation Techniques

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Domestic and international equity:

Domestic and international equity includes common and preferred stocks, domestic listed and foreign listed equity securities, unit trust equities, stapled securities, open-ended and closed-ended mutual funds, exchange-traded funds (registered investment companies), and these are generally valued at the closing price reported on the major market on which the individual securities are traded at the measurement date.

REITs:

Real Estate Investment Trusts (REITs) consist of securities that trade on the major exchanges and invest directly in real estate, either through properties or mortgages.

Fixed income investments:

Fixed income investments include U.S. Government securities, corporate bonds, corporate convertible bonds, asset-backed securities, bank loans, government mortgage-backed securities, non-government backed collateralized mortgage obligations and municipal obligations, which are generally valued using pricing models that use verifiable, observable market data such as interest rates, benchmark yield and bids provided by brokers or dealers, or quoted prices of securities with similar characteristics.

The fair value of the Level 3 investments is determined using the discounted cash flow method. The unobservable inputs used in this valuation to determine the pricing yield for each security include the 30-year treasury base yield, ranging between 3.84% and 4.71% as of December 31, 2022, and 0.39% and 1.82% as of December 31, 2021. Additional unobservable inputs used include a broker spread, ranging between 0.89% and 4.10% as of December 31, 2022, and 0.71% and 3.25% as of December 31, 2021.

**L3HARRIS PENSION PLAN FOR EMPLOYEES AT THE PACIFIC
MISSILE RANGE FACILITY
Notes to the Financial Statements (Continued)
December 31, 2022 and 2021
(In Thousands)**

Note 4 - Fair Value Measurements (Continued)

Short-term investments:

Short-term investments are primarily comprised of short-term money market funds, which invest primarily in short-term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit which are valued at cost, which approximate fair value, or valued at quoted market prices of identical instruments.

Limited partnerships:

Limited partnership funds include buy-out (developing companies), mezzanine (funds providing mezzanine loans to companies), venture capital (start-up companies), distressed asset (distressed companies undergoing bankruptcies, etc.), commodities (businesses in commodity related sectors), real estate (residential, commercial, and industrial real estate), international equity and venture capital, and are typically limited partnership investment structures and/or joint ventures. Limited partnership valuations are based on the valuation of the underlying investments, which include inputs such as cost, operating results, discounted future cash flows and market-based comparable data. Net asset value (NAV) is used as a practical expedient to estimate fair value.

Hedge funds:

Hedge funds include equity long/short, event driven, multi-strategy, real estate and fund of funds, and are typically limited partnership investment structures. Limited partnership interests in hedge funds are primarily valued using a market approach based on net asset value (NAV) calculated by the funds and are not publicly available. NAV is used as a practical expedient to estimate fair value.

Common collective trusts:

Common collective trusts (CCTs) are valued at NAV and are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income, or other investment objectives. CCTs are reported at NAV, as of the measurement date. NAV is used as a practical expedient to estimate fair value.

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (Continued)

- (a) Limited partnership interests in private equity funds are not redeemable from the general partner. Private equity interests can be sold through a secondary sale to a third party. Distributions are generally received through the liquidation of the underlying assets of the funds. Other partnerships include distressed asset investments, venture capital funds, and mezzanine funds. These partnerships (except for commodities, real estate, and international equity) are expected to be liquidated in approximately the next three to ten years.
- (b) Redemption restrictions vary, within 30 to 91 days, by investment management agreement but are based on the initial investment date and take into account liquidity terms, notice periods, redemption schedules, withdrawal with or without penalties and lock-ups, if any. In certain cases, full redemption may be extended over a period of time.
- (c) Fund of funds hedges invest in a variety of investments, mainly other hedge funds, of different styles with the goal of generating diversified returns in all types of market environments. Real estate hedge funds commonly invest in real estate investment trusts. However, as the name states, they may also invest in real estate properties such as residential and commercial properties and land. Other hedge funds include multi-strategy and event driven funds. Multi-strategy funds have an objective to add value from mispriced securities. These funds have entered into full redemption requests and are expected to be liquidated over the next year. Event driven funds are single direct funds attempting to generate returns in all types of market environments with appropriate amounts of risk.

Note 5 - Funding Policy

Contributions to provide benefits under the Plan are made by the Company and eligible employees. Effective March 31, 2021, there are no eligible employees. Employees' accumulated contributions on January 1, 2022 and 2021 were \$4,512 and \$5,386, respectively, including interest credit using an interest rate determined by Section 411(c)(2)(c) of the Internal Revenue Code compounded annually. Employee contributions were credited interest at a rate of 1.57% and 0.62% as of January 1, 2022 and 2021, respectively. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2022 and 2021.

Note 6 - Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The following amounts were calculated as of the latest actuarial valuation date, which was January 1, 2022. Actuarial assumptions for the period before normal retirement include factors for mortality, termination of employment, early retirement, and disability.

The actuarial cost method used to measure the present value of accumulated plan benefits is the accrued benefit method. The significant actuarial assumptions used in the valuations as of January 1, 2022 and 2021, respectively, were:

Mortality Basis: For 2022, the mortality assumption used is based on the Pri-2012 Mortality Tables projected with the Buck Modified 2021 Improvement Scale. The Buck Modified Projection Scale is a modified version of MP-2021 Improvement Scale using a long-term improvement rate of 0.75%. For 2021, the mortality assumption used is based on the Pri-2012 Mortality Tables projected with the Buck Modified 2020 Improvement Scale. The Buck Modified Projection Scale is a modified version of MP-2020 Improvement Scale using a long-term improvement rate of 0.75%.

Terminations: The decrement assumption assumes 100% termination during 2021 due to the facility shut down.

Retirement: For 2022, assumed 100% retirement for terminated vested participants who were eligible for early retirement at the time of the facility shutdown in 2021. All other terminated vested participants are assumed to retire at age 65, or at current age if older than 65. For 2021, assumed retirement starting at 55 through 70, at varying rates, with 100% by age 70. The retirement assumption at age 65 was 50%.

Investment Return: 7.50% per annum.

Discount Rate: The assumed interest rate is 7.5%.

Note 6 - Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated plan benefits as of January 1, 2022 is as follows:

Vested accumulated plan benefits:	
Retired participants and/or beneficiaries currently receiving benefits	\$ 20,146
Other participants	14,304
	<hr/>
Total vested accumulated plan benefits	34,450
Nonvested accumulated plan benefits	-
	<hr/>
Total actuarial present value of accumulated plan benefits	<u>\$ 34,450</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended January 1, 2022, are as follows:

Actuarial present value of accumulated plan benefits at January 1, 2021	\$ 34,958
Increase (decrease) during the year attributable to:	
Benefits accumulated and other	(434)
Benefits paid	(2,681)
Assumption changes	85
Interest	2,522
	<hr/>
Actuarial present value of accumulated plan benefits at January 1, 2022	<u>\$ 34,450</u>

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuarial present value and the actuarial value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change which may have an impact on the Plan contributions. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

Note 7 - Exempt Party-in-Interest Transactions

Certain Master Trust investments are shares of common collective trusts managed by the Trustee. These assets and related transactions qualify as exempt party-in-interest transactions.

Certain accounting and other administrative functions are performed by officers and employees of the Company (who may also be participants in the Plan) at no cost to the Plan or Master Trust. These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the IRC and ERISA's rules on prohibited transactions.

Note 8 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 6, 2018, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2019. The Plan is subject to routine audits by taxing jurisdictions of which, currently the year ended December 31, 2019, has been selected for examination.

Note 9 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of the Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Note 9 - Plan Termination (Continued)

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Note 10 - Purchase of Annuity Contract

In 2022, the Plan purchased a group annuity contract from Nationwide Life and Annuity Insurance Company ("NLAIC") for \$103. Under the terms of the contract, as of December 13, 2022, NLAIC is responsible for the annuity payments of those annuitants identified in the contract.

Schedule SB, Part V – Summary of Plan Provisions

Effective Date

October 1, 1993.

Eligibility for Participation

Earlier of:

- (a) age 40, or
- (b) age 21 with one year of service.

Normal Retirement Pension

Eligibility

Age 65.

Basic Monthly Benefit

2.25% of the participant's annual earnings during each year of participation in the Plan, divided by 12.

Early Retirement Pension

Eligibility

Age 55 and 5 years of service.

Benefit

Accrued pension deferred to 65, or immediate pension equal to accrued pension reduced by 6% per year for each year by which commencement date precedes Normal Retirement Date.

Deferred Vested Pension

Eligibility

5 years of service.

Benefit

Accrued pension deferred to age 65, or reduced pension after early retirement age if eligible with reduction equal to 6% per year for each year by which commencement date precedes Normal Retirement Date.

Withdrawal of Participant Contributions

- (a) Non-vested participants (less than 5 years of service) will receive a return of their contributions plus interest.
- (b) Vested participants may withdraw their contributions plus interest any time before annual payments commence. Withdrawal of participant contributions will reduce the annual benefit payable to the participant.

Spouse's Benefit

Eligibility

Death after becoming eligible for a vested benefit. Benefit commences no earlier than earliest retirement date which could have been elected by deceased participant.

Benefit

Accrued benefit at time of death, adjusted as if participant had retired on date payments to spouse commence under joint and 50% survivorship option, and then died.

L3Harris Pension Plan for Employees at the Pacific Missile Range Facility

EIN/PN: 34-0276860 / 235

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Prescribed Funding/PBGC Assumptions and Methods

The following assumptions and methods are prescribed by ERISA, as currently amended.

Interest rates

	2022 Plan Year	2021 Plan Year
Funding Rates – Constrained *		
First Segment Rate	4.75%	3.32%
Second Segment Rate	5.18%	4.79%
Third Segment Rate	5.92%	5.47%
Effective Interest Rate	5.44%	5.00%
Funding Rates – Unconstrained **		
First Segment Rate	1.07%	2.22%
Second Segment Rate	2.68%	3.38%
Third Segment Rate	3.36%	3.92%
Effective Interest Rate	2.94%	3.59%

* Used for minimum funding and benefit restriction purposes.

** Used for maximum tax-deduction, PBGC premium and ERISA Section 4010 reporting purposes.

The interest rates used for funding purposes are the Segment Rates with 4-month lookback, constrained in accordance with relevant legislation.

Mortality

Mortality tables mandated by applicable law and regulation as specified in IRS Regulation 1.430(h)(3)-1, as amended by IRS Notice 2020-85, applied on a static basis, using the blended annuitant/non-annuitant table applicable to small plans.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan related expenses to be paid from plan assets during the year.

L3Harris Pension Plan for Employees at the Pacific Missile Range Facility

EIN/PN: 34-0276860 / 235

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under the applicable provisions of the Internal Revenue Code and associated regulations.

The economic assumption that has a significant effect on the measurement is the expected rate of return on plan assets. The expected asset return assumption was based on an analysis of long term expected returns for the asset classes in which the plan's assets were invested as of the measurement date. Other non-prescribed assumptions having a significant impact on the measurement of the Funding Target are retirement rates, withdrawal rates and the frequency of optional forms of payment. These assumptions are based on the plan sponsor's anticipated experience and are reasonable given historic gain and loss experience of the plan. Actual experience is reviewed each year and compared to the assumption. Changes are then made, as appropriate, based on this review.

Expenses

Expected plan related expenses equal to prior year plan related expenses, excluding the prior year PBGC premiums plus current year PBGC premium were added to the Target Normal Cost. This amount is equal to \$387,913.

Frequency of optional payment forms

70% of future retirees are assumed to take a life annuity. Those future retirees who are assumed not to take a life annuity are assumed to take a Joint and Survivor 50% or 75% Option with equal probability.

Marital percentage

85% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Retirement rates

The decrement assumptions assumed 100% termination/retirement during 2021 due to the facility shut down. For 2022, terminated vested participants that were eligible for early retirement at the time of the facility shut down in 2021 are assumed to commence receiving benefits immediately. Other terminated vested participants are assumed to retire at age 65, or at current age with actuarial increases if older than 65.

Disability rates

None assumed.

Withdrawal rates for active participants not eligible for retirement

The decrement assumptions assumed 100% termination/retirement during 2021 due to the facility shut down. For 2022, N/A.

Employee contribution

Interest rates used to accumulate employee contributions with interest:

Current Year:	1.57%
Prior Year:	0.62%

L3Harris Pension Plan for Employees at the Pacific Missile Range Facility

EIN/PN: 34-0276860 / 235

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including the discounted value of accrued contributions, reduced by 2/3 of the gain/(loss) for the immediately preceding plan year and reduced by 1/3 of the gain/(loss) for the plan year before that. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by current law and regulation to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting Limit
2022 Expected Return	7.50%	5.92%	5.92%
2021 Expected Return	7.50%	5.47%	5.47%
2020 Expected Return	7.75%	5.94%	5.94%

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the actuarial assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Use of Models

Actuarial Standard of Practice No. 56 ("ASOP 56") provides guidance to actuaries when performing actuarial services that involve designing, developing, selecting, modifying, using, reviewing, or evaluating models. Buck used third-party software to perform the calculations that underlie the actuarial information contained in this report. The model in the third party software calculated the actuarial information provided in this report using plan provisions, data, and assumptions as of a measurement date under rules applicable to the calculations. Buck has an extensive review process whereby the results of the calculations are checked using detailed sample output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other outputs are similarly reviewed in detail and at a high level for accuracy, reasonability, and consistency with prior results. Buck also reviews the model when software changes occur. The review is performed by experts who are familiar with applicable rules and the way the model generates its output.

Summary of Changes from the January 1, 2021 Valuation

- The interest rate basis was updated to the current rates as specified in IRS Regulation 1.430(h)(2)-1. These rates are constrained in accordance with relevant legislation.
- The mortality assumption was updated according to the projection as specified in IRS Regulation 1.430(h)(3)-1, as amended by IRS Notice 2020-85, applied on a static basis, using the blended annuitant/non-annuitant table applicable to small plans.
- Contribution projection interest rate used to accumulate employee contributions changed from 0.62% to 1.57%.
- Terminated vested participants that were eligible for early retirement at the time of the facility shut down in 2021 are assumed to commence receiving benefits immediately.
- These changes decreased the plan's Funding Target by approximately \$1.2 million.
