Independent Auditor's Report

To the Plan Sponsor of the
Holloman Corporation Employee Stock Ownership Plan
Houston, Texas

Opinion

We have audited the financial statements of Holloman Corporation Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued (or when applicable, one year after the date that the financial statements are available to be issued).

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the table of contents as of December 31, 2022 is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

The Plan Sponsor of the
Holloman Corporation Employee Stock Ownership Plan

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Holloman Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following brief description of the Holloman Corporation Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

The Plan was established as of January 1, 2002. The Plan is designed to qualify as both a Stock Bonus Plan under Section 401(a) and an Employee Stock Ownership Plan (ESOP) as defined in Section 4975(e)(7) of the Internal Revenue Code of 1986 (the Code), as amended. The Plan is subject to the regulations of the Code and the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by a Plan Committee of at least two persons appointed by Holloman Holdings Corporation (the Company) Board of Directors. The Plan's Trustee, an attorney and independent trustee to ESOPs, receives direction from the Plan Committee and is also appointed by the Company's Board of Directors.

Stock Bonus Plan

Initially, the Stock Bonus Plan purchased common shares of the Company using the proceeds of borrowing from the Company and held the stock in a trust established under the Plan. The borrowings were to be repaid by fully tax deductible Company contributions to the trust fund. As the Plan made each payment of principal, an appropriated percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowings were collateralized by the unallocated shares of stock. The lenders had no rights against shares once they are allocated to participants in accordance with the terms of the ESOP. When borrowings exist, the assets and liabilities and changes in net assets are presented separately as follows:

(a) The accounts of employees with vested rights in allocated stock (Allocated) and

(b) Stock not yet allocated to employees (Unallocated).

The borrowings were fully repaid as of December 31, 2022 and 2021 and all stock is allocated. The Stock Bonus Plan also provides for discretionary contributions by the Company.

Eligibility

Each employee employed during the Plan year beginning with the effective date shall be eligible to participate in the Plan. Otherwise, each employee becomes an "Eligible Employee," and thereby eligible to participate in the Plan, upon completion of one thousand hours of service and attainment of age seventeen as provided in the Plan.

At each valuation date, participant's accounts are allocated: (a) employer contributions, if any, (b) withdrawals and payments, and (c) Plan earnings or losses. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Employer Contributions

Contributions are to be allocated to participants pro-rata based upon the compensation of employees who are actively employed on the last day of the Plan year and have been credited with a year of service during the current year. Contributions made in excess of maximum allowed additions to the participants' accounts will be held in a suspense account and allocated to the participants in the following year. During 2022 and 2021, the Company contributed 2,000 and 1,800 shares, respectively to the Plan.

Distributions

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. Shares of the stock are maintained in the Trust until repurchased by the Company. Distributions are generally paid by the Company in substantially equal annual installments over a five year period or in a single lump-sum payment. During 2022 and 2021, the Company repurchased 2,687 and 2,780 shares, respectively, at prices determined from the independent appraisal.

Valuations are done at least annually by the independent appraiser. Additionally, interim valuation dates can be utilized where appropriate at the recommendation of the Plan Committee and Trustee. At December 31, 2022 and 2021, a year-end valuation was also performed as required by the Plan.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Voting Rights

All Company stock held by the Trust is voted by the Trustee in accordance with instructions from the Committee. Notwithstanding the foregoing, participants and/or beneficiaries are entitled to direct the voting of any voting shares of Company stock allocated to their accounts with respect to certain

Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated non-vested shares allocated to remaining participants for the years ended December 31, 2022 and 2021 totaled 448 and 0 shares, respectively. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants with less than three years of service are zero percent vested after which they become 100 percent vested at three years of service.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Plan considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company stock are reported at fair value. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Management's Review of Subsequent Events

The Plan has evaluated subsequent events through October 06, 2023, the date the financial statements were available to be issued.

Note 3. Investments

Assets of the Plan are primarily invested in the Company common stock. The Plan's investments, at December 31, are presented in the following tables:

2022	Number of Shares	Cost	Fair Value
Holloman Holdings Corporation common stock			
Allocated	33,112	$ 2,699,796	$ 57,615,937
Cash and cash equivalents	-	2,632	2,632
Total	33,112	$ 2,702,428	$ 57,618,569

2021	Number of Shares	Cost	Fair Value
Holloman Holdings Corporation common stock			
Allocated	33,799	$ 2,755,811	$ 64,759,868
Cash and cash equivalents	-	2,800	2,800
Total	33,799	$ 2,758,611	$ 64,762,668

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Prices or valuations that require unobservable inputs that are both significant to the fair measurement and unobservable. Valuation under Level 3 generally involves a significant degree of judgement from Plan management. Due to the inherent uncertainty of these estimates, these values may differ materially from the values that would have been used had a ready market for the investments existed.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Cash and cash equivalents: Held primarily in short-term money market funds, which are valued at cost plus accrued interest.

Company common stock: Valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparable and estimated fair value of Company assets and liabilities.

The following table presents the classification of the securities by level. The carrying values of accounts receivable, accounts payable and acquisition indebtedness included in the accompanying statements of net assets available for benefits approximated fair value at December 31, 2022 and 2021 and are thus not included in the following tables:

December 31, 2022	Level 1	Level 2	Level 3	Total
Plan assets				
Holloman Holdings Corporation common stock	$ -	$ -	$ 57,615,937	$ 57,615,937
Cash and cash equivalent	2,632	-	-	2,632
Total assets at fair value	$ 2,632	$ -	$ 57,615,937	$ 57,618,569

December 31, 2021	Level 1	Level 2	Level 3	Total
Plan assets				
Holloman Holdings Corporation common stock	$ -	$ -	$ 64,759,868	$ 64,759,868
Cash and cash equivalent	2,800	-	-	2,800
Total assets at fair value	$ 2,800	$ -	$ 64,759,868	$ 64,762,668

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31:

	Investment in Holloman Holdings Corporation Common Stock	
	2022	2021
Balance, beginning of year	$ 64,759,868	$ 87,052,596
Shares contributed to participants	3,480,000	3,448,800
Unrealized losses	(5,475,820)	(18,783,714)
Shares distributed to participants	(5,148,530)	(6,957,813)
Balance, end of year	$ 57,615,518	$ 64,759,869
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ (5,475,820)	$ (18,783,714)

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net depreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs at December 31, 2022.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
Holloman Holdings Corporation Common Stock	$57,615,937	Combination of guideline company method and discounted cash flow method	Market pricing multiples Lack of marketability of common stock Discount rate Revenue growth assumption

There have been no changes in the methodologies used at December 31, 2022 and 2021.

The valuation process involves the trustee's selection of an independent appraiser. Plan management accumulates the data for the appraiser from audited financial statements of the Company, as well as provides projected revenues, expenses, and cash flows of the Company for the four years 2023 through 2026. The appraiser prepares a preliminary report with Plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of the process are documented in the minutes of the Plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Administration of Plan Assets

The Plan's assets, which consist principally of Holloman Holdings Corporation common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests any cash received, records interest and dividend income, and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, if the Plan is leveraged, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Participant's account balances and allocations are maintained by a third party administrator whose fees are paid by the Company. Appraisal and audit fees are also paid by the Company.

Note 6. Performance Unit Plan

Performance units, also known as phantom stock, are available for grant under this plan. The purpose of this plan is to advance the interest of Holloman Corporation by providing an additional incentive in the form of performance units to attract and retain qualified and competent employees upon whose efforts and judgment its success is largely dependent, by allowing them to share in the economic benefits of ownership in Holloman Corporation. The performance units granted under this plan shall be issued in such amounts and to such persons as shall be selected by the Board in its sole discretion. During 2022 and 2021, there were 100 and 800 performance units issued, respectively. These performance units were included in the calculation of the fair market value of the Company's capital stock per share price of $1,740 and $1,916 as of December 31, 2022 and 2021, respectively. The performance units are redeemable in five equal installments starting one year after separation of service. The final share value is based upon the plan year in which the separation event occurred.

Note 7. Related Party Transactions and Party in Interest Transactions

The Plan invests in Company common stock which is a related party and party-in-interest transaction. As described in Note 1 and Note 5, the Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

Note 8. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rates, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Market risks include global events, which could impact the value of investment securities, such as a pandemic or international conflict. The Company provides engineering, installation, and construction services to customers primarily in the oil and gas industry. The value of the Plan's investments and their future earnings are dependent on the Company's ability to remain profitable. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Upon termination of the Plan, the Company directs the Trustee to pay all liabilities and expenses of the ESOP. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Note 10. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated March 21, 2017, stating that the Plan qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; there is currently an ongoing IRS examination of the Plan for the 2021 and 2020 tax period.
