Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a 401(k) profit sharing plan covering all employees of Physicians' Clinic of Iowa, P.C. (the Company) who are 21 years of age and have completed 90 days of service. The participants are eligible for employer contributions after completion of one year of service with 1,000 or more hours of service during the year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to the maximum amount of pretax annual compensation provided by law for this type of plan. The Company may contribute discretionary matching and nonelective contributions and will also make any required qualified nonelective contributions to the Plan. For the years ended December 31, 2022 and 2021, the Company elected to match 50% of participant contributions up to a maximum 6% contribution by the participant. The Company also made nonelective contributions of \$2,666,414 and \$2,732,971 for the years ended December 31, 2022 and 2021, respectively. Participants may also contribute amounts representing distributions from other qualified defined-benefit or contribution plans (rollover contributions).

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of: (a) the Company's contributions, and (b) Plan earnings by fund and is charged with an allocation of administrative expenses, if any. Allocations are based on participants' compensation or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investment options: Upon enrollment into the Plan, a participant may direct employee contributions in any of the investment options offered by the Plan. The Company contributions are allocated in the same manner that participants choose for pretax contributions.

Vesting: Participants are immediately vested in their contributions and the Company's contribution plus actual earnings thereon.

Payments of benefits: On termination of service due to death, disability or retirement, a participant may elect to receive benefits in the form of: (1) an annuity contract, (2) a lump-sum payment, or (3) equal installments over a period not to exceed the participant's life expectancy. If the participant's account balance is less than \$5,000 it is automatically paid out upon termination. In-service distributions are allowed for active participants age 59½ and older. Participants are also allowed to withdraw benefits in the event of financial hardship. Hardship withdrawals are limited to the participant's elective contributions and earnings thereon.

Notes receivable: Participants may borrow from their account up to a maximum of \$50,000, or 50% of their account balance. Terms range from one to five years, or up to 30 years for the purchase of a primary residence. The receivables are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, which ranged from 4.25% to 7.25%, as determined by the Plan Administrator. Principal and interest are paid ratably through biweekly payroll deductions.

Administrative expenses: The Plan paid administrative expenses of \$251,450 and \$372,387 during the years ended December 31, 2022 and 2021, respectively. All other expenses were paid by the Company.

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Valuation of investments and income recognition: Investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Subsequent events: Management has evaluated subsequent events through September 28, 2023, the date that the financial statements were available to be issued.

Note 3. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 4. Income Tax Status

The Plan adopted a nonstandardized form of a prototype plan sponsored by The Prudential Insurance Company of America. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for tax periods in progress.

Note 5. Information Certified or Provided by the Plan Trustees

The following is a summary of the Plan's asset information as of December 31, 2022 and 2021, and for the years then ended, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from information certified by Prudential Bank & Trust, FSB, the trustee as of December 31, 2022 and 2021, and U.S. Bank National Association, former trustee as of December 31, 2021, of the Plan. The Plan Administrator has obtained certifications from the trustees that information provided to the Plan Administrator by the trustees related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets:

	December 31	
	2022	2021
Investments at fair value:		
Mutual funds	\$ 52,543,423	\$ 78,711,868
Pooled separate account	1,869,071	1,364,772
Individually directed accounts	13,818,092	17,026,369
Collective investment trust	8,682,714	-
Investments, at contract value, guaranteed income fund	7,971,296	10,193,206
Total investments	<u>\$ 84,884,596</u>	<u>\$ 107,296,215</u>
Notes receivable from participants	<u>\$ 258,137</u>	<u>\$ 200,399</u>

Prudential Bank & Trust, FSB, the trustee for the years ended December 31 2022 and 2021, and U.S. Bank National Association, former trustee for the year ended December 31, 2021, also certified to the completeness and accuracy of net appreciation (depreciation) in fair value of investments, interest and dividends and interest on notes receivable from participants as follows:

	Years Ended December 31	
	2022	2021
Investment (loss) income:		
Net (depreciation) appreciation in fair value of investments	\$ (15,053,709)	\$ 13,928,577
Interest and dividends	1,287,224	1,731,794
Interest on notes receivable from participants	9,469	9,076
	<u>\$ (13,757,016)</u>	<u>\$ 15,669,447</u>

Note 6. Investments and Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 6. Investments and Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Mutual funds are valued based on quoted market prices in the active market in which they are traded.

Pooled separate account: Pooled separate accounts are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Collective investment trusts: Collective investment trusts are valued at the NAV of shares held by the Plan in the collective trust accounts at year-end as determined by the trustee based on the market value of its underlying investments.

Individually directed accounts: Accounts consist of mutual funds, collective investment trusts and the following investments:

Money market fund: This investment is a money market fund whose unit value is determined by dividing the fund's NAV by the total number of participating plans' units outstanding. The fund seeks to maintain a constant NAV of \$1 per unit.

Corporate bonds: Corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs such as current yields of similar instruments but includes adjustments for certain risks that may not be observable such as credit and liquidity risks.

Common stocks: Common stocks are valued at the closing price reported in the active market in which the stock is traded.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 6. Investments and Fair Value Measurements (Continued)

Foreign stocks: Foreign stocks are valued at the closing price reported in the active market in which the stock is traded.

Foreign bonds: Foreign bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs such as current yields of similar instruments but includes adjustments for certain risks that may not be observable such as credit and liquidity risks.

Cash value of life insurance: Cash value of life insurance is valued at the cash surrender value of the underlying policies, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

2022				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 52,543,423	\$ -	\$ -	\$ 52,543,423
Individually directed accounts	12,275,123	-	-	12,275,123
Total investments in the fair value hierarchy	<u>\$ 64,818,546</u>	<u>\$ -</u>	<u>\$ -</u>	<u>64,818,546</u>
Investments measured at NAV (A)				12,094,754
Total investments at fair value				<u>\$ 76,913,300</u>

2021				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 78,711,868	\$ -	\$ -	\$ 78,711,868
Individually directed accounts	15,395,203	15,665	263,602	15,674,470
Total investments in the fair value hierarchy	<u>\$ 94,107,071</u>	<u>\$ 15,665</u>	<u>\$ 263,602</u>	<u>94,386,338</u>
Investments measured at NAV (A)				2,716,671
Total investments at fair value				<u>\$ 97,103,009</u>

(A) In accordance with Accounting Standards Codification (ASC) Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 6. Investments and Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share practical expedient (or its equivalent) as of December 31, 2022 and 2021:

	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2022	2021			
Pooled separate account	\$ 1,869,071	\$ 1,364,772	\$ -	Daily	None
Collective investment trust	8,682,714	-	-	Daily	None
Individually directed accounts, money market funds	-	1,351,899	-	Daily	None
Individually directed accounts, collective investment trusts	1,542,969	-	-	Daily	None
	<u>\$ 12,094,754</u>	<u>\$ 2,716,671</u>			

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2022, there were no transfers in or out of Level 2 or 3.

Note 7. Investment Contract

The Plan has an investment in a Guaranteed Income Fund. The contract value of the Guaranteed Income Fund is \$7,971,296 and \$10,193,206 as of December 31, 2022 and 2021, respectively. The fund meets the fully benefit-responsive investment contract criteria and is, therefore, reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. The Plan's termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the Company or other Company events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 7. Investment Contracts (Continued)

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Note 8. Reconciliation of Financial Statements to Form 5500

Independent Auditor's Report

Plan Committee
Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a 401(k) profit sharing plan covering all employees of Physicians' Clinic of Iowa, P.C. (the Company) who are 21 years of age and have completed 90 days of service. The participants are eligible for employer contributions after completion of one year of service with 1,000 or more hours of service during the year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to the maximum amount of pretax annual compensation provided by law for this type of plan. The Company may contribute discretionary matching and nonelective contributions and will also make any required qualified nonelective contributions to the Plan. For the years ended December 31, 2022 and 2021, the Company elected to match 50% of participant contributions up to a maximum 6% contribution by the participant. The Company also made nonelective contributions of \$2,666,414 and \$2,732,971 for the years ended December 31, 2022 and 2021, respectively. Participants may also contribute amounts representing distributions from other qualified defined-benefit or contribution plans (rollover contributions).

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of: (a) the Company's contributions, and (b) Plan earnings by fund and is charged with an allocation of administrative expenses, if any. Allocations are based on participants' compensation or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investment options: Upon enrollment into the Plan, a participant may direct employee contributions in any of the investment options offered by the Plan. The Company contributions are allocated in the same manner that participants choose for pretax contributions.

Vesting: Participants are immediately vested in their contributions and the Company's contribution plus actual earnings thereon.

Payments of benefits: On termination of service due to death, disability or retirement, a participant may elect to receive benefits in the form of: (1) an annuity contract, (2) a lump-sum payment, or (3) equal installments over a period not to exceed the participant's life expectancy. If the participant's account balance is less than \$5,000 it is automatically paid out upon termination. In-service distributions are allowed for active participants age 59½ and older. Participants are also allowed to withdraw benefits in the event of financial hardship. Hardship withdrawals are limited to the participant's elective contributions and earnings thereon.

Notes receivable: Participants may borrow from their account up to a maximum of \$50,000, or 50% of their account balance. Terms range from one to five years, or up to 30 years for the purchase of a primary residence. The receivables are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, which ranged from 4.25% to 7.25%, as determined by the Plan Administrator. Principal and interest are paid ratably through biweekly payroll deductions.

Administrative expenses: The Plan paid administrative expenses of \$251,450 and \$372,387 during the years ended December 31, 2022 and 2021, respectively. All other expenses were paid by the Company.

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Valuation of investments and income recognition: Investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Subsequent events: Management has evaluated subsequent events through September 28, 2023, the date that the financial statements were available to be issued.

Note 3. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 4. Income Tax Status

The Plan adopted a nonstandardized form of a prototype plan sponsored by The Prudential Insurance Company of America. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for tax periods in progress.

Note 5. Information Certified or Provided by the Plan Trustees

The following is a summary of the Plan's asset information as of December 31, 2022 and 2021, and for the years then ended, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from information certified by Prudential Bank & Trust, FSB, the trustee as of December 31, 2022 and 2021, and U.S. Bank National Association, former trustee as of December 31, 2021, of the Plan. The Plan Administrator has obtained certifications from the trustees that information provided to the Plan Administrator by the trustees related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets:

	December 31	
	2022	2021
Investments at fair value:		
Mutual funds	\$ 52,543,423	\$ 78,711,868
Pooled separate account	1,869,071	1,364,772
Individually directed accounts	13,818,092	17,026,369
Collective investment trust	8,682,714	-
Investments, at contract value, guaranteed income fund	7,971,296	10,193,206
Total investments	<u>\$ 84,884,596</u>	<u>\$ 107,296,215</u>
Notes receivable from participants	<u>\$ 258,137</u>	<u>\$ 200,399</u>

Prudential Bank & Trust, FSB, the trustee for the years ended December 31 2022 and 2021, and U.S. Bank National Association, former trustee for the year ended December 31, 2021, also certified to the completeness and accuracy of net appreciation (depreciation) in fair value of investments, interest and dividends and interest on notes receivable from participants as follows:

	Years Ended December 31	
	2022	2021
Investment (loss) income:		
Net (depreciation) appreciation in fair value of investments	\$ (15,053,709)	\$ 13,928,577
Interest and dividends	1,287,224	1,731,794
Interest on notes receivable from participants	9,469	9,076
	<u>\$ (13,757,016)</u>	<u>\$ 15,669,447</u>

Note 6. Investments and Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 6. Investments and Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Mutual funds are valued based on quoted market prices in the active market in which they are traded.

Pooled separate account: Pooled separate accounts are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Collective investment trusts: Collective investment trusts are valued at the NAV of shares held by the Plan in the collective trust accounts at year-end as determined by the trustee based on the market value of its underlying investments.

Individually directed accounts: Accounts consist of mutual funds, collective investment trusts and the following investments:

Money market fund: This investment is a money market fund whose unit value is determined by dividing the fund's NAV by the total number of participating plans' units outstanding. The fund seeks to maintain a constant NAV of \$1 per unit.

Corporate bonds: Corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs such as current yields of similar instruments but includes adjustments for certain risks that may not be observable such as credit and liquidity risks.

Common stocks: Common stocks are valued at the closing price reported in the active market in which the stock is traded.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 6. Investments and Fair Value Measurements (Continued)

Foreign stocks: Foreign stocks are valued at the closing price reported in the active market in which the stock is traded.

Foreign bonds: Foreign bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs such as current yields of similar instruments but includes adjustments for certain risks that may not be observable such as credit and liquidity risks.

Cash value of life insurance: Cash value of life insurance is valued at the cash surrender value of the underlying policies, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

2022				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 52,543,423	\$ -	\$ -	\$ 52,543,423
Individually directed accounts	12,275,123	-	-	12,275,123
Total investments in the fair value hierarchy	<u>\$ 64,818,546</u>	<u>\$ -</u>	<u>\$ -</u>	<u>64,818,546</u>
Investments measured at NAV (A)				12,094,754
Total investments at fair value				<u>\$ 76,913,300</u>

2021				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 78,711,868	\$ -	\$ -	\$ 78,711,868
Individually directed accounts	15,395,203	15,665	263,602	15,674,470
Total investments in the fair value hierarchy	<u>\$ 94,107,071</u>	<u>\$ 15,665</u>	<u>\$ 263,602</u>	<u>94,386,338</u>
Investments measured at NAV (A)				2,716,671
Total investments at fair value				<u>\$ 97,103,009</u>

(A) In accordance with Accounting Standards Codification (ASC) Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 6. Investments and Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share practical expedient (or its equivalent) as of December 31, 2022 and 2021:

	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2022	2021			
Pooled separate account	\$ 1,869,071	\$ 1,364,772	\$ -	Daily	None
Collective investment trust	8,682,714	-	-	Daily	None
Individually directed accounts, money market funds	-	1,351,899	-	Daily	None
Individually directed accounts, collective investment trusts	1,542,969	-	-	Daily	None
	<u>\$ 12,094,754</u>	<u>\$ 2,716,671</u>			

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2022, there were no transfers in or out of Level 2 or 3.

Note 7. Investment Contract

The Plan has an investment in a Guaranteed Income Fund. The contract value of the Guaranteed Income Fund is \$7,971,296 and \$10,193,206 as of December 31, 2022 and 2021, respectively. The fund meets the fully benefit-responsive investment contract criteria and is, therefore reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. The Plan's termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the Company or other Company events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 7. Investment Contracts (Continued)

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Note 8. Reconciliation of Financial Statements to Form 5500

The following are reconciliations per the financial statements to the Form 5500:

	December 31	
	2022	2021

Independent Auditor's Report

Plan Committee
Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a 401(k) profit sharing plan covering all employees of Physicians' Clinic of Iowa, P.C. (the Company) who are 21 years of age and have completed 90 days of service. The participants are eligible for employer contributions after completion of one year of service with 1,000 or more hours of service during the year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to the maximum amount of pretax annual compensation provided by law for this type of plan. The Company may contribute discretionary matching and nonelective contributions and will also make any required qualified nonelective contributions to the Plan. For the years ended December 31, 2022 and 2021, the Company elected to match 50% of participant contributions up to a maximum 6% contribution by the participant. The Company also made nonelective contributions of \$2,666,414 and \$2,732,971 for the years ended December 31, 2022 and 2021, respectively. Participants may also contribute amounts representing distributions from other qualified defined-benefit or contribution plans (rollover contributions).

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of: (a) the Company's contributions, and (b) Plan earnings by fund and is charged with an allocation of administrative expenses, if any. Allocations are based on participants' compensation or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investment options: Upon enrollment into the Plan, a participant may direct employee contributions in any of the investment options offered by the Plan. The Company contributions are allocated in the same manner that participants choose for pretax contributions.

Vesting: Participants are immediately vested in their contributions and the Company's contribution plus actual earnings thereon.

Payments of benefits: On termination of service due to death, disability or retirement, a participant may elect to receive benefits in the form of: (1) an annuity contract, (2) a lump-sum payment, or (3) equal installments over a period not to exceed the participant's life expectancy. If the participant's account balance is less than \$5,000 it is automatically paid out upon termination. In-service distributions are allowed for active participants age 59½ and older. Participants are also allowed to withdraw benefits in the event of financial hardship. Hardship withdrawals are limited to the participant's elective contributions and earnings thereon.

Notes receivable: Participants may borrow from their account up to a maximum of \$50,000, or 50% of their account balance. Terms range from one to five years, or up to 30 years for the purchase of a primary residence. The receivables are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, which ranged from 4.25% to 7.25%, as determined by the Plan Administrator. Principal and interest are paid ratably through biweekly payroll deductions.

Administrative expenses: The Plan paid administrative expenses of \$251,450 and \$372,387 during the years ended December 31, 2022 and 2021, respectively. All other expenses were paid by the Company.

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Valuation of investments and income recognition: Investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Subsequent events: Management has evaluated subsequent events through September 28, 2023, the date that the financial statements were available to be issued.

Note 3. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 4. Income Tax Status

The Plan adopted a nonstandardized form of a prototype plan sponsored by The Prudential Insurance Company of America. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for tax periods in progress.

Note 5. Information Certified or Provided by the Plan Trustees

The following is a summary of the Plan's asset information as of December 31, 2022 and 2021, and for the years then ended, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from information certified by Prudential Bank & Trust, FSB, the trustee as of December 31, 2022 and 2021, and U.S. Bank National Association, former trustee as of December 31, 2021, of the Plan. The Plan Administrator has obtained certifications from the trustees that information provided to the Plan Administrator by the trustees related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets:

	December 31	
	2022	2021
Investments at fair value:		
Mutual funds	\$ 52,543,423	\$ 78,711,868
Pooled separate account	1,869,071	1,364,772

Notes receivable from participants	<u>\$ 258,137</u>	<u>\$ 200,399</u>

Prudential Bank & Trust, FSB, the trustee for the years ended December 31 2022 and 2021, and U.S. Bank National Association, former trustee for the year ended December 31, 2021, also certified to the completeness and accuracy of net appreciation (depreciation) in fair value of investments, interest and dividends and interest on notes receivable from participants as follows:

	Years Ended December 31	
	2022	2021
Investment (loss) income:		
Net (depreciation) appreciation in fair value of investments	\$ (15,053,709)	\$ 13,928,577
Interest and dividends	1,287,224	1,731,794
Interest on notes receivable from participants	9,469	9,076
	<u>\$ (13,757,016)</u>	<u>\$ 15,669,447</u>

Note 6. Investments and Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 6. Investments and Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Mutual funds are valued based on quoted market prices in the active market in which they are traded.

Pooled separate account: Pooled separate accounts are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Collective investment trusts: Collective investment trusts are valued at the NAV of shares held by the Plan in the collective trust accounts at year-end as determined by the trustee based on the market value of its underlying investments.

Individually directed accounts: Accounts consist of mutual funds, collective investment trusts and the following investments:

Money market fund: This investment is a money market fund whose unit value is determined by dividing the fund's NAV by the total number of participating plans' units outstanding. The fund seeks to maintain a constant NAV of \$1 per unit.

Corporate bonds: Corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs such as current yields of similar instruments but includes adjustments for certain risks that may not be observable such as credit and liquidity risks.

Common stocks: Common stocks are valued at the closing price reported in the active market in which the stock is traded.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 6. Investments and Fair Value Measurements (Continued)

Foreign stocks: Foreign stocks are valued at the closing price reported in the active market in which the stock is traded.

Foreign bonds: Foreign bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs such as current yields of similar instruments but includes adjustments for certain risks that may not be observable such as credit and liquidity risks.

Cash value of life insurance: Cash value of life insurance is valued at the cash surrender value of the underlying policies, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

2022				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 52,543,423	\$ -	\$ -	\$ 52,543,423
Individually directed accounts	12,275,123	-	-	12,275,123
Total investments in the fair value hierarchy	<u>\$ 64,818,546</u>	<u>\$ -</u>	<u>\$ -</u>	<u>64,818,546</u>
Investments measured at NAV (A)				12,094,754
Total investments at fair value				<u>\$ 76,913,300</u>

2021				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 78,711,868	\$ -	\$ -	\$ 78,711,868
Individually directed accounts	15,395,203	15,665	263,602	15,674,470
Total investments in the fair value hierarchy	<u>\$ 94,107,071</u>	<u>\$ 15,665</u>	<u>\$ 263,602</u>	<u>94,386,338</u>
Investments measured at NAV (A)				2,716,671
Total investments at fair value				<u>\$ 97,103,009</u>

(A) In accordance with Accounting Standards Codification (ASC) Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Physicians' Clinic of Iowa, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 6. Investments and Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share practical expedient (or its equivalent) as of December 31, 2022 and 2021:

	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2022	2021			
Pooled separate account	\$ 1,869,071	\$ 1,364,772	\$ -	Daily	None
Collective investment trust	8,682,714	-	-	Daily	None
Individually directed accounts, money market funds	-	1,351,899	-	Daily	None
Individually directed accounts, collective investment trusts	1,542,969	-	-	Daily	None
	<u>\$ 12,094,754</u>	<u>\$ 2,716,671</u>			

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2022, there were no transfers in or out of Level 2 or 3.

Note 7. Investment Contract

The Plan has an investment in a Guaranteed Income Fund. The contract value of the Guaranteed Income Fund is \$7,971,296 and \$10,193,206 as of December 31, 2022 and 2021, respectively. The fund meets the fully benefit-responsive investment contract criteria and is, therefore reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. The Plan's termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the Company or other Company events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

Notes to Financial Statements

Note 7. Investment Contracts (Continued)

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.
