Independent Auditors' Report

To the Plan Administrator of
Texas Heart Institute Section 403(b) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Texas Heart Institute Section 403(b) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Texas Heart Institute Section 403(b) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Texas Heart Institute Section 403(b) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Texas Heart Institute Section 403(b) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Texas Heart Institute Section 403(b) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Texas Heart Institute Section 403(b) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of delinquent participant contributions for the year ended December 31, 2022 and the supplemental schedule of assets (held at end of year) as of December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Texas Heart Institute Section 403(b) Plan

Notes to Financial Statements for the year ended December 31, 2022

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of Texas Heart Institute Section 403(b) Plan (the Plan) is provided for general informational purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established August 1, 1962, covering substantially all employees of Texas Heart Institute (THI), other than leased employees. Covered employees are immediately eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – The Plan provides for both participant contributions and employer contributions as follows:

- *Participant contributions* – Participants may elect to contribute from 1% to 97% of their compensation, as defined by the Plan, subject to certain limitations under the Internal Revenue Code (the Code). Each participant, other than a Fellow, Resident, or ICU Physician, will automatically have 3% of their compensation each pay period contributed to the Plan unless they elect otherwise. A participant who is a Fellow, Resident or ICU Physician must affirmatively elect to make elective deferrals to the Plan. Participants age 50 and older and participants who attain 15 years of service may elect to make additional catch-up contributions, as defined by the Plan.
- *Employer contributions* – For all eligible employees other than Fellows, Residents, ICU Physicians or former employees who are receiving severance pay, THI makes an employer matching contribution equal to 50% of the participant's contribution (excluding catch-up contributions) that do not exceed 6% of the participant's compensation, as defined by the Plan.

Vesting – Participants are immediately 100% vested in their contributions, rollovers, and actual earnings thereon. For all employer matching contributions and related earnings, participants are vested 100% after three years of credited service. Participants are automatically fully vested in all of their accounts upon reaching normal retirement age (65 with three years of active service) or early retirement age (55 with three years of active service), or if employment is terminated by reason of disability or death.

Participant accounts – Each participant's account is credited with the participant's contributions, employer contributions, and an allocation of the investment earnings and expenses for each fund in which their account is invested. Plan expenses not paid by the employer are allocated to each participant's account. The only benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes receivable from participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, reduced by the highest outstanding loan balance in the preceding one-year period or 50% of their vested account balance. Each loan is secured by the balance in the participant's account. Loan terms range from one to five years, unless for the purchase of a principal residence, for which loan terms may range up to 10 years. Participants are limited to two loans per year.

Forfeitures – The Plan uses any amounts forfeited to reduce future employer contributions. During 2022, \$1,350 was used to reduce employer contributions. Unused forfeitures at December 31, 2022 and 2021 were \$10,431 and \$2,756, respectively.

Distribution of benefits – The Plan provides for benefit distributions to plan participants, or their beneficiaries, equal to the vested balance of their accounts upon death, disability, retirement, or other termination of employment. Participants may withdraw a portion or all of their elective participant contributions, while still employed, upon reaching the age of 59½. Additionally, participants may qualify for a hardship withdrawal of their elective participant contributions, while still employed, for the purpose of immediate and heavy financial needs, as defined in the Plan document.

Plan termination – Although it has not expressed any intent to do so, THI has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their employer contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The Plan's financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation – Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment adviser and insurance company. See Note 6 for discussion of fair value measurements.

The Plan invests in a fully benefit-responsive investment contract, the VALIC Fixed Interest Option (VALIC FIO), and reports this investment at contract value. Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses from the fixed interest account investment.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefit payments – Benefit payments to participants are recorded upon distribution.

Expenses – Certain expenses of maintaining the Plan are paid directly by THI and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net depreciation in fair value of investments.

Estimates – Management must make estimates and assumptions to prepare financial statements in accordance with generally accepted accounting principles. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of additions and deductions. Actual results could vary from the estimates that were used.

NOTE 3 – TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the Code. The terms of the Plan have been prepared to conform to the listing of 403(b) plans that have been pre-approved by the Internal Revenue Service. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b). Plan management has indicated it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

NOTE 4 – INVESTMENTS

At December 31, 2022, certain assets of the Plan were invested in funds managed by The Variable Annuity Life Insurance Company (VALIC), as an insurance company of the Plan. These transactions qualify as party-in-interest transactions. These transactions are exempt from the prohibited transaction rules of ERISA.

Balances in the VALIC FIO of \$2,632,393 and \$2,433,732 represent approximately 14% and 11% of the Plan's net assets at December 31, 2022 and 2021, respectively.

Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

NOTE 5 – INFORMATION CERTIFIED BY CUSTODIAN

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments and notes receivable from participants held at December 31, 2022 and 2021, and net depreciation in fair value of investments and interest and dividends for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by AIG Federal Savings Bank, the custodian of the Plan.

NOTE 6 – FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establish a hierarchy that prioritizes inputs used to measure fair value. The three levels of the fair value hierarchy are as follows:

- *Level 1* – Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the reporting date.
- *Level 2* – Inputs are other than quoted prices included in Level 1, which are either directly observable or can be derived from or corroborated by observable market data at the reporting date.
- *Level 3* – Inputs are not observable and are based on the reporting entity's assumptions about the inputs market participants would use in pricing the asset or liability.

Assets measured at fair value at December 31, 2022 are as follows:

	<u>LEVEL 1</u>	<u>LEVEL 2</u>	<u>LEVEL 3</u>	<u>TOTAL</u>
Mutual funds	\$ 16,309,681			\$ 16,309,681
Self-directed brokerage accounts	<u>11,410</u>			<u>11,410</u>
Total assets measured at fair value	<u>\$ 16,321,091</u>	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ 16,321,091</u>

Assets measured at fair value at December 31, 2021 are as follows:

	<u>LEVEL 1</u>	<u>LEVEL 2</u>	<u>LEVEL 3</u>	<u>TOTAL</u>
Mutual funds	\$ 19,151,395			\$ 19,151,395
Self-directed brokerage accounts	<u>14,591</u>			<u>14,591</u>
Total assets measured at fair value	<u>\$ 19,165,986</u>	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ 19,165,986</u>

Following is a description of the valuation methods used for assets measured at fair value. There have been no changes in the methods used at December 31, 2022 and 2021.

- *Mutual funds* are valued at the net asset value (NAV) of the shares held by the Plan at year end.
- *Self-directed brokerage accounts* include mutual funds which are valued at the NAV of shares held by the account at year end.

These valuation methods may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate, the use of different methods or assumptions could result in a different fair value measurement at the reporting date.

NOTE 7 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

In June 2001, the Plan entered into a benefit-responsive investment contract with VALIC. Contributions to the VALIC FIO are maintained by VALIC in a general account, and the assets in this account are commingled with other assets of the insurance company. The general account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. VALIC is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 1%. VALIC declares a current interest rate periodically, but not less than annually. Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value; however, percent limitations do apply each year.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its contractual obligations. This issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

NOTE 8 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 26, 2023, which is the date that the financial statements were available for issuance. As a result of this evaluation, no events were identified that are required to be disclosed or would have a material impact on reported net assets available for benefits or changes in net assets available for benefits.
