INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Van Maanen Electric, Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the financial statements of Van Maanen Electric, Inc. 401(k) Plan ("the plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2022 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor ("DOL")'s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section,

- the amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- the information in the accompanying 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control related matters that we identified during the audit.

Other Matter - 2022 Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and is derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion,

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Report on the 2021 Financial Statement

Plan management is responsible for the preparation and fair presentation of the accompanying 2021 financial statement of the plan, which comprise the statement of net assets available for benefits as of December 31, 2021 and the related notes to the financial statement, in accordance with GAAP. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the 2021 financial statement nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, or provide any form of assurance on the 2021 financial statement.

Notes to Financial Statements
December 31, 2022 and 2021
(2021 compiled - see independent auditors' report)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of accounting - Van Maanen Electric, Inc. 401(k) Plan ("the plan") follows the accrual method of accounting wherein additions and deductions are reflected in the period earned or incurred.

Accounting estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Subsequent events - The financial statements include management's evaluation of the events and transactions occurring subsequent to December 31, 2022 through September 27, 2023, which is the date the financial statements were available to be issued.

Risks and uncertainties - The plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Key parties of the plan - Van Maanen Electric, Inc. is the plan sponsor/employer and the plan administrator. PPG Retirement Plan Services Ltd. is the third party administrator and performs various compliance tests as tax counsel. Voya Retirement Insurance and Annuity Company ("Voya") is the investment agent that maintains investment and participant records and holds custody of plan assets. Primerica is the plan's investment advisor. An officer of the plan sponsor is the plan trustee.

Investments - The plan sponsor/employer determines the investments available to plan participants. The participants allocate their contributions and transfer existing balances among the available investment options. Participants should refer to the investment account summaries and prospectuses for more information.

At the end of each business day, Voya determines the value of the investments and allocates the value to the participants. The net appreciation (depreciation) in the values of the investments, including investments bought, sold or held during the year, is reflected in the accompanying statement of changes in net assets available for benefits.

Fair value measurements - GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical investments (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 - Valuation is based upon quoted prices in active markets for identical investments.
- Level 2 - Valuation is based upon other significant observable inputs (including quoted prices for similar investments).
- Level 3 - Valuation is based upon significant unobservable inputs (including the plan's assumptions in determining the fair value of investments).

Following is a description of the valuation methodology used for investments measured at fair value.

Pooled separate accounts - The pooled separate accounts are valued at the net asset value ("NAV") as provided by Voya. The NAV is generally based on the fair value of the underlying investments held by the separate account less its liabilities. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the separate account would sell the investment for an amount different than the reported NAV.

The plan administrator determines by level, within the fair value hierarchy, the plan's investments at fair value as set forth below.

	Investments at fair value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Investments in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV (a)				2,379,016
Total investments at fair value				\$2,379,016

	Investments at fair value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Investments in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV (a)				2,694,815
Total investments at fair value				\$2,694,815

- (a) In accordance with GAAP, certain investments that are measured at NAV have not been classified in the fair value hierarchy. The fair value amounts presented in the above table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV as a practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period, if any, is applicable only to the plan.

- (a) The objective of these funds is to provide for capital appreciation and/or income consistent with the risk and return of the fund type summarized above.
- (b) The objective of these funds is to seek capital appreciation and current income through portfolios of various types of bonds.
- (c) The objective of these funds is to seek capital appreciation and current income using a risk profile that is consistent with the target date of the funds.

Investments at contract value - The plan has a fully benefit-responsive guaranteed investment contract through an annuity contract issued by Voya. Voya maintains the contributions in a general account. The guaranteed investment contract issuer is contractually obligated to repay the principal and a guaranteed minimum interest rate ("GMIR") for the life of the contract. The contract also provides two declared interest rates; a current rate, determined at least monthly, and a guaranteed minimum floor rate, determined at least annually. The guaranteed minimum floor rate may change after a defined period, but it will never be lower than the GMIR that applies for the life of the contract. The average yield earned by the fund was 1.00% in 2022.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the plan. Contract value, as reported to the plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal of all or a portion of the investment at contract value at any time. However, Voya may limit participant transfers, which are made at contract value, from this investment to other investments within the plan. The transfer limit, if imposed, varies but will never be less than 10% of the balance in the investment as of the date of the transfer, reduced by any transfers made during the same year.

The contract does not have a maturity date and there are no contract provisions that require a distribution at contract value at any specified time. The plan sponsor can request a lump sum distribution with a market value adjustment or an installment payout, at contract value, over a period of years. The contract will continue in full force until all assets have been distributed or no further payments are due.

The plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. Certain events might limit the ability of the plan to transact at contract value with the issuer. As of the date the financial statements are available to be issued, the plan administrator is not aware of any events that may limit the ability of the plan to transact at contract value with the contract issuer or limit the ability of the plan to transact at contract value with the participants.

2. DESCRIPTION OF PLAN

The following description of the plan provides only general information. Participants should refer to the plan documents for a more complete description of the plan's provisions.

General - The plan was adopted effective January 1, 2014 as a defined contribution plan with a 401(k) salary deferral arrangement. It is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments.

Eligibility - Employees are eligible once they have completed one year of service and have reached age eighteen. An employee will be deemed a participant and allowed to enter the plan immediately following the date the plan's eligibility requirements are met. Upon meeting these eligibility requirements, employees are also eligible to participate in employer matching contributions.

Notes to Financial Statements
December 31, 2022 and 2021
(2021 compiled - see independent auditors' report)

Contributions - Contributions to the plan can be made in the following ways:

- a. Participants may contribute a percentage of their compensation subject to certain limitations (elective deferral contributions). The plan also permits Roth elective deferrals. Newly eligible employees are automatically enrolled in the plan and have 3% of compensation withheld as deferral contributions. Such participants have the option to increase, decrease or stop the deferral by completing the necessary documentation.
- b. Rollover contributions are accepted by the plan from other qualified plans. There were no such contributions in 2022.
- c. Employer discretionary matching contributions are made in conjunction with each pay period. The employer match is equal to 100% of the first 3% of employee compensation contributed to the plan as elective deferral contributions in 2022.

Participant accounts - Earnings, including the fair value appreciation (depreciation), are allocated to participant accounts on a daily basis based upon the performance of the investment options selected. Each participant's account is credited with the participant's elective deferral and rollover contributions and an allocation of the employer's contributions. Participants are allowed to change their investment options on a daily basis and change their deferral percentage quarterly.

Vesting - Participants are always 100% vested in their elective deferral contributions, rollover contributions, and related earnings. Participants begin vesting in employer contributions and related earnings upon two full years of service, at which time they are 20% vested. The participant then vests at a rate of 20% for each year thereafter. Upon death, disability or attainment of normal retirement age, participants become 100% vested.

Payment of benefits - Benefit payments may commence upon termination of employment, death, disability or retirement. Distributions are generally in the form of a single lump sum payment. In-service withdrawals can commence upon attaining the age of 59 1/2. Hardship withdrawals are also permitted under certain circumstances as defined in the plan documents.

Administrative expenses - Certain administrative expenses of the plan are paid by the employer. Certain other fees are paid using plan assets and recorded as administrative expenses in the accompanying financial statements. Administrative expenses paid by the plan consist of participant directed charges for distribution fees.

Forfeitures - Forfeited nonvested accounts are used to reduce employer contributions or pay plan expenses. There were \$8,000 of forfeitures used to reduce employer contributions in 2022. Unapplied forfeitures as of December 31, 2022 were insignificant. There were unapplied forfeitures of \$2,000 as of December 31, 2021.

Notes receivable from participants - Participant loans are not permitted under the plan.

3. PARTY-IN-INTEREST TRANSACTIONS

The plan's investments are managed by Voya. Voya also provides certain administrative services to the plan pursuant to a service agreement between the plan sponsor and Voya. Voya receives indirect compensation from mutual fund service providers for services Voya provides to the funds. This indirect compensation is used to offset certain amounts that would otherwise be owed by the plan to Voya for its administrative services to the plan. Voya is the investment agent as defined by the plan and, therefore, transactions between the plan and Voya qualify as party-in-interest transactions. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

4. TERMINATION OF PLAN

Although it has not expressed any intent to do so, the plan sponsor has the right to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants' employer contributions and related earnings would become 100% vested.

5. INCOME TAX STATUS

The plan adopted an PPG Retirement Plan Services pre-approved profit sharing plan. The pre-approved plan received its most recent favorable opinion on June 30, 2020, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator has not obtained a separate Internal Revenue Service opinion or determination letter for the plan. However, the plan administrator and tax counsel believe the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize tax liabilities (or assets) for any uncertain tax positions taken by the plan that more likely than not would not be sustained upon examination by the applicable authorities. Plan management analyzed the requirements for accounting for such uncertain tax positions taken and determined the plan was not required to recognize any tax liabilities (or assets) related to uncertain tax positions taken as of December 31, 2022 and 2021. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress.

6. INFORMATION CERTIFIED BY VOYA

Management has obtained certifications from Voya, a qualified institution under the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, that state the following information with respect to assets held for investment of the plan is complete and accurate.

- a. Pooled separate accounts held and the fair values of such as of December 31, 2022 and 2021;
- b. Guaranteed investment contract held and the contract value of such as of December 31, 2022 and 2021;
- c. Interest income from investments and net appreciation (depreciation) in fair value of investments during 2022; and
- d. Contributions to, withdrawals from, purchases, sales and inter-fund transfers between accounts during 2022.
