Independent Auditors' Report

To the Plan Administrator
Salve Regina University 403(b) Retirement Plan
Newport, Rhode Island

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of the Salve Regina University 403(b) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

SALVE REGINA UNIVERSITY 403(b) RETIREMENT PLAN

Notes to Financial Statements

Note 1 - Description of Plan

The following description of the Salve Regina University 403(b) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. In the event that there is a conflict between information provided in this document and the benefit plan documents, the terms in the Plan document will prevail.

General

The Plan is a 403(b) defined contribution and tax deferred annuity plan, covering all employees of Salve Regina University (the "Employer") except individuals working less than 20 hours per week and student employees ("Participants"). The Plan was established on September 1, 1962 and was restated on January 1, 2009 and May 1, 2011. TIAA and CREF, TIAA as agent for TIAA, FSB, and the Variable Annuity Life Insurance Company ("VALIC") serve as custodians for the Plan. VALIC is a subsidiary of the American International Group ("AIG"). TIAA and CREF is the Plan's active custodian, with respect to the receipt of contributions; therefore, contributions to VALIC have ceased. The Employer is the Plan's administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Participants direct the investment of all contributions into various investment options offered by the Plan. All investments are participant directed.

Participants' Contributions

Participants are allowed to make voluntary pre-tax deferrals into the Plan, subject to dollar limits set by Federal law. Participants who have reached the age of 50 before the end of the Plan year are eligible to make catch-up contributions. In addition, Participants who have 15 years of service may make additional annual catch-up contributions of \$3,000 up to a life-time maximum of \$15,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans ("Participant Rollovers").

Employer Contributions

Discretionary Contributions

The Employer, at its discretion, may elect to contribute an amount as an employer contribution to eligible Participants (student employees are excluded). Eligible Participants must be at least 21 years old and have completed one year of service, defined as 1,000 hours of service in each year. Adjunct faculty members, student employees, and individuals working less than 20 hours per week are excluded from receiving an employer contribution. The Employer elected to make contributions equal to 7% of eligible compensation on a bi-weekly basis.

Notes to Financial Statements

Note 1 - Description of Plan (Continued)

Employer Contributions (Continued)

Matching Contributions

The Employer matches participant contributions in an amount equal to 100% of the amount contributed by a participant to the Plan, up to a maximum of 1% of the participant's eligible compensation, subject to limits imposed by Federal law. To be eligible for matching contributions, a participant must have completed one year of service.

Participants' Accounts

Each participant's account is credited with the participant's contributions, Employer contributions, Plan investment earnings and reduced by investment losses, distributions and applicable administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in all contributions and related earnings thereon.

Payment of Benefits

Participants are entitled to their total vested account balance upon death, disability, retirement, or termination of employment. A participant may elect to receive a lump-sum or installment payment, a life or joint and survivor annuity, and any other withdrawal or annuity option that is available under the applicable funding vehicle. In-service withdrawals from a participant's elective deferral account balance are permitted upon reaching age 59½ or due to disability. Hardship withdrawals are permitted from a participant's elective deferral contributions account in accordance with the provisions specified in the Plan.

Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 to a maximum amount equal to the lesser of \$50,000 or 50% of the vested balance of their accounts. Loans are subject to the terms of the funding vehicles. The loans are secured by the vested balance in the Participant's account and bear a reasonable rate of interest. Notes receivable from participants totaled \$123,241 and \$142,680 as of December 31, 2022 and 2021, respectively.

Notes to Financial Statements

Note 1 - Description of Plan (Continued)

Notes Receivable from Participants (Continued)

Additionally, participants are allowed to obtain loans directly from TIAA and CREF and VALIC (through May 1, 2011), secured by the participant's plan assets. These loans are not Plan assets and totaled \$66,765 and \$110,729 at December 31, 2022 and 2021, respectively. Amounts deemed to be in default within these loan balances consisted of \$56,792 and \$54,375 at December 31, 2022 and 2021, respectively. These loans bear interest at rates ranging from 4.00% to 7.00% at December 31, 2022 and 2021. Principal and interest are paid directly to TIAA and CREF and VALIC by the Participants.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments, Investment Valuation and Income Recognition

Investments other than fully benefit-responsive investment contracts are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan has benefit-responsive and non benefit-responsive investment contracts. The contracts are maintained in the general accounts of the holder. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan.

SALVE REGINA UNIVERSITY 403(b) RETIREMENT PLAN

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Unit Values

Individual participant accounts for the pooled separate investment account and variable rate annuities are maintained on a unit value basis. Participants do not have beneficial ownership in the underlying securities or other assets in the investments, but do have an interest therein represented by units which are valued daily. The investments earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each investment are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the Participants' accounts are charged or credited with the number of units properly attributable to each participant.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Administrative Expenses

Individual participant accounts are charged directly for any loan recordkeeping and benefit disbursement processing fees, if applicable. Certain administrative expenses may be paid from the assets of the Plan.

Subsequent Events

The Employer and Plan management have evaluated subsequent events through October 4, 2023, the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.

Note 3 - Information Certified by Custodians

Plan investments are held in mutual funds, a pooled separate investment account and fixed and variable rate annuities by the Plan's custodian and insurance companies, TIAA and CREF, TIAA as agent for TIAA, FSB, and VALIC. The fair and contract value of investments as of December 31, 2022 and 2021 and all investment transactions for the year ended December 31, 2022 are reported to the Plan and certified as complete and accurate by the custodians and insurance companies. Investment transactions include interest and dividends and net depreciation in fair value of investments. Information included in the supplemental schedule and notes receivable from participants has also been derived from information certified by the custodians. The Plan offers investment choices to allow Participants to create a diversified portfolio of assets based on a participant's risk tolerance. Participants in the Plan may direct contributions to a variety of investment options.

SALVE REGINA UNIVERSITY 403(b) RETIREMENT PLAN

Notes to Financial Statements

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

- Level 1* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2* Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3* Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual Funds

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

TIAA Real Estate Account - Pooled Separate Account

The account generally invests in real estate properties and real estate-related investments. The account's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally utilizing external appraisals, which are estimates of property values based on a professional's opinion. The account sometimes holds securities as well, and these securities are generally priced using values obtained from independent pricing sources.

SALVE REGINA UNIVERSITY 403(b) RETIREMENT PLAN

Notes to Financial Statements

Note 4 - Fair Value Measurements (Continued)

TIAA Real Estate Account - Pooled Separate Account (Continued)

The fair value of the Plan's interest in the TIAA Real Estate Account (a pooled separate account) is based on the fund's daily NAV, which is considered by Plan management to be the best approximation of fair value. The unit value of the fund is calculated daily and available to Plan administrators and client investors on TIAA and CREF's website. There are no unfunded commitments from Participants in the Plan who invest in this account. These investments may be redeemed quarterly with one day's notice.

TIAA Traditional - Fixed Rate Annuity

The TIAA Traditional Annuity is a fixed rate guaranteed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types, including Retirement Annuities ("RA"), which are reported at fair value. The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

Investments in certain TIAA Traditional Annuity contracts are reported at fair value (RA), which approximates contract value. As these investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract.

When Participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, are guaranteed by TIAA's claim-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years.

The RA contract does not allow lump-sum cash withdrawals, and transfers must be spread over 10 annual installments. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the Statement of Changes in Net Assets Available for Benefits.

VALIC Fixed Rate Annuities

The Plan has fixed rate annuity contracts with VALIC. VALIC maintains the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. VALIC is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The fixed rate annuity contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The fixed rate annuity contracts provide a guarantee of principal and a guaranteed minimum rate of interest. Investments in VALIC fixed rate annuity contracts are reported at fair value, which approximates contract value. Contract value equals the accumulated cash contributions and interest credited to the Plan's contracts, less any withdrawals.

CREF and VALIC Funds - Variable Rate Annuities

The accounts invest principally in equity securities, fixed income instruments and short-term investments in accordance with each portfolio's investment objectives. Account investments are primarily valued using market quotations or prices obtained from independent pricing sources who may employ various pricing methods to value the investments, including matrix pricing.

The fair values of accumulation units held by the Plan in CREF and VALIC Variable Annuity accounts are based on each account's daily NAV, which is considered by Plan management to be the best approximation of the fair value hierarchy. The NAV is based on the fair values of the underlying investments held by the fund less its liabilities. Data for NAVs are available daily to Plan administrators and client investors on VALIC's and TIAA and CREF's website and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. There are no unfunded commitments from Participants in the Plan who invest in these accounts. These investments may be redeemed daily with one day's notice.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

Note 5 - Fully Benefit-Responsive Investment Contracts

The following is a description of the investments and valuation methodologies for fully benefit-responsive investment contracts:

TIAA Traditional Annuity

The Plan has fully benefit-responsive investment contracts with TIAA and CREF. TIAA and CREF maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The Supplemental Retirement Annuities ("SRA") and Group Supplemental Retirement Annuities ("GSRA") contracts are also traditional annuity contracts as discussed in Note 4. SRA and GSRA contracts have no liquidity restrictions and are, therefore, fully benefit-responsive contracts reported at contract value. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the Statement of Changes in Net Assets Available for Benefits.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with Plan Participants are probable of occurring.

The following represents fully benefit-responsive investment contracts at December 31:

	2022	2021
Fully Benefit-Responsive Investment Contracts, at contract value:		
TIAA Traditional (SRA and GSRA fixed rate annuities)	\$ <u>11,110,320</u>	\$ <u>10,192,526</u>

For accumulating SRA and GSRA fixed rate annuity contracts, the crediting interest rate was 3.00% at December 31, 2022 and 2021.

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Market risks include global events such as international conflict, which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Employer may determine.

Note 8 - Tax Status

On January 1, 2019, the Plan was amended to adopt the TIAA ERISA 403(b) Volume Submitter Plan Document that received an IRS opinion letter dated August 7, 2017 which stated that the Plan is acceptable under Section 403(b) of the Internal Revenue Code (the "Code") for use by eligible Employers for the benefit of their employees. The Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of Section 403(b) of the Code, and therefore, believes that the Plan is qualified and the related accounts are tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Related-Party and Party-In-Interest Transactions

Certain Plan investments are held by VALIC, TIAA and CREF and TIAA as agent for TIAA, FSB, custodians of the Plan. Accordingly, these investments are considered exempt party-in-interest transactions. During the Plan year ended December 31, 2022, \$94,908 of administrative expenses were paid to TIAA and CREF and \$1,210 of administrative expenses were paid to VALIC. Notes receivable from participants also qualify for exempt party-in-interest transactions. During the Plan year ended December 31, 2022, the Plan received revenue credits of \$21,187 from the custodians which are used to pay Plan expenses.

Note 10 - Reconciliation of Financial Statements to Form 5500

The accompanying Statements of Net Assets Available for Benefits and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) have been prepared in accordance with accounting principles generally accepted in the United States of America. The assets listed on Schedule H of Form 5500 have been prepared in accordance with procedures established by the third-party administrator. Although the net assets agree in total, certain investment assets have been classified differently.
