Independent Auditor's Report

To the Trustees
Performance Radiator Pacific, LLC 401(k) Plan
Tacoma, Washington

Opinion

We have audited the financial statements of Performance Radiator Pacific, LLC 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

PERFORMANCE RADIATOR PACIFIC, LLC 401(k) PLAN

Notes to Financial Statements For the Year Ended December 31, 2022

Note 1 - Plan Description

The following description of the Performance Radiator Pacific, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document and related adoption agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established by Performance Radiator Pacific, LLC (the Company) under the provisions of Section 401(a) of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's trustees oversee governance of the Plan.

Eligibility - Employees are eligible to participate in the Plan upon reaching age 21 and completing one year of service which consists of a minimum of 1,000 hours. Participation commences on January 1 or July 1, after meeting eligibility requirements. The Plan does not include employees covered by a collective bargaining agreement or nonresident aliens with no U.S. source income.

Contributions - Participants may elect to contribute up to certain Internal Revenue Service (IRS) statutory limits each year. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

The Company may elect to make discretionary matching and profit-sharing contributions for each year. For the year ended December 31, 2022, employee contributions were matched at a rate of 100% of deferrals up to the first 3% of eligible compensation from January 1, 2022 through April 30, 2022 and at 100% of deferrals up to the first 4% of eligible compensation for the remainder of the plan year.

Profit-sharing contributions will be integrated with the Social Security taxable wage base and calculated using a permitted disparity allocation method using 80% of the taxable wages base. To be eligible to receive an allocation of profit-sharing contributions, a participant must complete at least 1,000 hours of service during the plan year and be employed as of the last day of the plan year. A participant will also be eligible to share in a profit-sharing contribution for the plan year in cases of death, disability or retirement at normal retirement age, regardless of the number of hours of service credited for such an individual during that year. For the year ended December 31, 2022, no discretionary profit-sharing contributions were made by the Company.

Participant Accounts - Each participant's account is credited with an allocation of (a) Company contributions, if any; (b) deferral contributions; and (c) plan earnings and losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All Plan contributions are non-participant directed. The Plan's investments are managed by the Plan's trustees, with the assistance of their investment advisors.

Vesting - Participants are immediately vested in their elective contributions, plus actual earnings thereon. Vesting in the Company's matching and profit-sharing contribution portions of their accounts plus actual earnings thereon is based on credited years of service with the Company. A participant begins to vest after two years of credited service and is then ratably 100% vested after six years of credited service.

Forfeitures - Forfeitures from terminated participants' nonvested accounts may be used to pay Plan expenses, reduce Company contributions, or be allocated to Plan participants. The Plan used \$643 in forfeitures to pay Plan expenses for the year ended December 31, 2022. At December 31, 2022 and 2021, there were no unallocated forfeitures.

PERFORMANCE RADIATOR PACIFIC, LLC 401(k) PLAN

Notes to Financial Statements For the Year Ended December 31, 2022

Note 1 - Continued

Payment of Benefits - Upon termination of service due to death, disability, retirement or termination of employment, a participant, or their beneficiary in the case of death, will receive a benefit equal to the value of the participant's vested interest in his or her account in the form of lump-sum payment or a direct rollover to an eligible retirement plan. If the account balance is less than \$1,000, the balance may be automatically distributed to the participant or an individual retirement account. Participants may also elect to receive a distribution of all or any portion of their account balance prior to termination of employment (in-service withdrawals) upon attainment of age 59 ½. The Plan allows for hardship withdrawals in accordance with provisions specified in the plan document.

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates - The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments represents the change in fair value of assets from one period to the next and realized gains and losses on investments.

Payment of Benefits - Benefits are recorded when paid. As of December 31, 2022 and 2021, participants had elected to withdraw \$0 and \$57,584, but were not paid until 2023 and 2022, respectively.

Investment Management and Administrative Expenses - The plan document provides that certain expenses of the Plan may be paid by the Plan or by the Company. Expenses paid directly by the Company are excluded from these financial statements. Investment-related expenses are included within net appreciation or depreciation of fair value of investments. Expenses to administer participant distributions are charged to specific participants' accounts.

Subsequent Events - The Plan's management has evaluated subsequent events through October 6, 2023, the date on which the Plan's financial statements were available to be issued.

Note 3 - Fair Value Measurements

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

PERFORMANCE RADIATOR PACIFIC, LLC 401(k) PLAN

Notes to Financial Statements For the Year Ended December 31, 2022

Note 3 - Continued

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than the quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for the Plan's assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Corporate Stocks (Common and Preferred) - Valued at the closing price reported on the active market on which the security is traded.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Exchange Traded Funds - Valued at the daily closing price as reported by the custodian, which is based upon the exchange upon which the fund is traded. These open-ended funds are registered with the Securities and Exchange Commission. The funds held by the Plan are considered to be actively traded on major exchanges.

Limited Partnerships - Consist of publicly traded limited partnerships registered with the Securities and Exchange Commission. Valued at the daily closing price as reported by the custodian. These investments are actively traded on major exchanges.

Certificate of Deposit - Valued at amortized cost, which approximates fair value.

Interest-Bearing Cash - Valued at cost plus accrued interest, which approximates fair value.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Party-in-Interest Transactions

Certain Plan investments are held and managed by Wells Fargo and its affiliates. Transactions with such investments and fees charged by Wells Fargo and its affiliates for managing the investments, qualify as party-in-interest transactions, which are exempt from prohibited transaction rules. The Plan also pays for third party recordkeeping and audit fees. Transactions with these entities qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

PERFORMANCE RADIATOR PACIFIC, LLC 401(k) PLAN

Notes to Financial Statements For the Year Ended December 31, 2022

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 6 - Income Tax Status

The Company adopted an Ascensus pre-approved plan document. Ascensus received an approval letter from the IRS dated June 30, 2020, which states that the form of the plan document satisfies the applicable provisions of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS; however, the Plan's management believes that the Plan is designed and currently being operated, in compliance with the applicable requirements of the IRC. The Plan is subject to audits by the IRS; however, there are currently no audits for any tax periods in progress.

Note 7 - Risks and Uncertainties

The Plan provides for various investment fund options, which in turn invest in a combination of investment securities such as stocks, bonds, and others. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
