INDEPENDENT AUDITORS' REPORT

Plan Administrator
Astria Health 401(k) Plan
Sunnyside, Washington

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Astria Health 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section —

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion —

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Astria Health 401(k) Plan
Notes to Financial Statements
Years Ended December 31, 2022 and 2021

1. Description of Plan:

The following description of Astria Health 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan was previously known as the Sunnyside Community Hospital 401(k) Plan. Regional Health was formed in 2016 as the parent company of Sunnyside Community Hospital, the former plan sponsor. Regional Health became the plan sponsor in 2017, and the Plan's name was changed to the Regional Health 401(k) Plan. Regional Health changed its name to Astria Health in 2017, and the Plan's name was changed to the Astria Health 401(k) Plan. The Plan was amended on September 1, 2017, to add the employees of all Astria Health subsidiary companies to the Plan, which includes Astria Sunnyside Hospital, Astria Regional Medical Center, Astria Toppenish Hospital, and Astria Home Health.

Astria Health filed for bankruptcy in May 2019. During bankruptcy proceedings, Astria Health decided to close Astria Regional Medical Center. This closure occurred in January 2020. In January 2021, Astria Health secured a loan that allowed it to exit bankruptcy.

General – The Plan is a defined contribution plan originally effective January 1, 2013. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility – Employees who have completed and been paid for three months of service are eligible to participate in the Plan. Plan entry occurs on the first day of the month coincident or next following the date on which eligibility requirements are met.

Contributions – Astria Health (the Organization) contributes every two weeks a matching contribution equal to 100 percent of employee deferral contributions up to 3 percent of compensation plus 50 percent of employee deferral contributions in excess of 3 percent that do not exceed 5 percent of compensation. Employee deferral contributions are permitted up to 100 percent of W-2 wages. For employees who do not contribute to the Plan for the entire plan year, employees can elect to contribute at higher percentages so a catch-up employer contribution can be calculated at the end of the year based on the employee contributions to the Plan as a percent of compensation for the full year. Contributions are subject to Internal Revenue Code (IRC) annual limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan allows participants to designate contributions as Roth contributions. The Plan also allows participants to roll over amounts from other qualified plans. Upon enrollment in the Plan, a participant may direct contributions to any of the investment options available from Matrix Trust Company. Participants may change their investment options daily.

Participant accounts – Each participant's account is credited with the participant's contributions, the Organization's matching contributions, and plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Income is allocated daily based on the shares in the participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting – All contributions and earnings thereon are 100 percent vested.

Astria Health 401(k) Plan
Notes to Financial Statements (Continued)
Years Ended December 31, 2022 and 2021

1. Description of Plan (continued):

Notes receivable from participants – Participants may borrow from their account upon approval of the plan administrator. The amount of the note cannot be less than \$1,000 and is limited to one-half the total value of the participant's vested account balance up to \$50,000. Generally, the term of the note is not less than 12 months, but may not exceed five years, unless the note is to purchase a personal residence. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with the prevailing commercial rates as determined by the plan administrator. The interest rate is 1 percent above the current prime interest rate. The note must provide at least quarterly payments under a level amortization schedule. The interest rates on outstanding notes are between 4.25 and 8.00 percent. Principal and interest are paid ratably through payroll deductions.

Benefit payments – Participants are eligible to receive 100 percent of their account balance at normal retirement (age 65), disability, or at death. Participants who terminate employment may receive a distribution of their account balance before reaching retirement age. Benefits are paid under various options as defined in the Plan. If a participant terminates employment and the participant's account balance does not exceed \$5,000, the plan administrator will authorize the benefit payment without the participant's consent. The benefits payable to terminated and withdrawn participants were \$37,004 and \$236,368 for the years ended December 31, 2022 and 2021, respectively.

Plan termination – The Organization has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the participants would remain 100 percent vested in their accounts.

2. Summary of Significant Accounting Policies:

Basis of accounting – The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition – The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. See Note 4 for discussion of fair value measurements.

Astria Health 401(k) Plan
Notes to Financial Statements (Continued)
Years Ended December 31, 2022 and 2021

2. Summary of Significant Accounting Policies (continued):

Investment valuation and income recognition (continued) – Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Administrative expenses – The Organization pays certain administrative expenses on behalf of the Plan.

Benefit payments – Benefits are recorded when paid.

Contribution overpayment refunds payable – As of December 31, 2022 and 2021, the Plan had amounts allocated to accounts of persons who had elected to withdraw from the Plan but had not yet been paid. These amounts are recorded as a liability on the statements of net assets available for benefits.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the plan document.

Subsequent events – In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through September 28, 2023, the date the financial statements were available to be issued.

3. Information Certified by the Plan Custodian:

Matrix Trust Company, the custodian of the Plan, supplied the plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021, the statement of changes in net assets available for benefits for the year ended December 31, 2022, the related notes to the financial statements, and the supplemental schedule of assets (held at end of year) as of December 31, 2022.

4. Fair Value Measurements:

Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

4. Fair Value Measurements (continued):

The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2022.

Mutual funds are valued at the unadjusted quoted prices for identical assets in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

2022				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 40,935,899	\$ -	\$ -	\$ 40,935,899
Total investments at fair value	\$ 40,935,899	\$ -	\$ -	\$ 40,935,899

2021				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 43,848,043	\$ -	\$ -	\$ 43,848,043
Total investments at fair value	\$ 43,848,043	\$ -	\$ -	\$ 43,848,043

4. Fair Value Measurements (continued):

Changes in fair value levels – The availability of observable market data is monitored to assess the appropriate classifications of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2022 and 2021, there were no significant transfers in or out of Levels 1, 2, or 3.

5. Investments:

During the year ended December 31, 2022, net depreciation in value (including gains and losses on investments bought and sold, as well as held during the year) was related to mutual fund investments.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

6. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

7. Plan Tax Status:

The Plan is placing reliance on an opinion letter dated March 16, 2010, received from the Internal Revenue Service (IRS) on the prototype plan indicating that the Plan is qualified under Section 401 of the IRC and is therefore not subject to tax under current income tax law. Accordingly, no provisions for income taxes have been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

8. Party-in-interest Transactions:

The following transactions are considered party-in-interest transactions under ERISA regulations, but are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA:

- The plan sponsor provides to the Plan certain accounting and administrative services for which no fees are charged to the Plan. The employees that provide these services also are participants in the Plan.
- Plan investments are managed by Matrix Trust Company, the plan custodian.
- The Plan relies on a third-party service provider, Randall and Hurley, Inc., to process the Plan's investment transactions, prepare the Plan's Form 5500, and manage the individual participant accounts of the Plan.
- The plan auditor performs the required annual audit of the Plan.
