Material 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following description of Material 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering eligible employees of Material Holdings, LLC (the “Company”) and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company is the Plan’s sponsor and serves as plan administrator.

Eligibility – Employees of the Company are eligible to participate in the Plan upon reaching age 21 and after completing one month of service with no minimum hours of service, as defined. An eligible employee shall enter the Plan as an active participant on the first day of the next month entry date.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan after 30 days unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions are invested in a designated fund until elected otherwise by the participant.

Contributions

Participant contributions – Participants may elect to contribute up to 90% of eligible compensation to the Plan each year. Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and profit-sharing contributions – The Company may elect to make discretionary matching and profit-sharing contributions to the Plan. The Company contributed a matching contribution on 50% of 6% of the eligible deferral contributions elected by any active participants. Employer matching contributions for the year ended December 31, 2021, amounted to \$3,565,816. There were no profit-sharing contributions for the year ended December 31, 2022.

Contributions are subject to regulatory limitations.

Participant accounts – Each participant’s account is credited with (a) the participant’s contributions; (b) the employer’s matching contribution; and (c) participant account earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. Participants direct the investment of their account into various investment options offered by the Plan.

Vesting – Participants are immediately fully vested in their salary deferral and rollover contributions plus actual earnings thereon. Prior to September 30, 2020, participants became fully vested in the Company’s matching contributions after three years of continued service. Prior to September 30, 2020, participants became fully vested in the Company’s matching contributions after three years of continued service. Effective October 1, 2020, participants are immediately fully vested in their salary deferral, rollover contributions, employer match and profit-sharing contributions, plus actual earnings thereon.

Material 401(k) Profit Sharing Plan

Notes to Financial Statements

Loans to participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are secured by the balance of the participant's account and bear fixed, reasonable rates of interest, as determined by the plan administrator. Generally, the term of a loan may not exceed five years. However, if the loan is for the purchase of a principal residence, the plan administrator may permit a longer repayment term. Principal and interest are paid ratably through payroll deductions. As of December 31, 2022, the rates of interest on outstanding loans ranged from 4.25% to 8.00%, with various maturities through April 2042.

Payment of benefits – Upon retirement, a participant may elect to receive benefits in a lump-sum amount equal to the vested account balance, installments over a period of not more than one's life expectancy or a partial withdrawal. Additionally, a participant may elect to withdraw any portion of their vested account balance in the event of a documented hardship or after attaining 59½ years of age.

Upon termination of service prior to attaining retirement age, participants may maintain their account within the Plan if their vested balance exceeds \$5,000 or may request a lump-sum distribution or rollover to another qualified plan. If the vested account balance does not exceed \$5,000, the vested account balance will automatically be distributed to the participant.

Benefits are recorded when paid.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that are lost upon termination of employment. Forfeitures will first be used to pay plan administrative expenses, with any remaining amount used to reduce future Company contributions.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that may affect certain reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation – Investments are stated at fair value as certified by the Plan's custodian.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Material 401(k) Profit Sharing Plan

Notes to Financial Statements

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement. No allowance for credit losses has been recorded as of December 31, 2022 or 2021.

Payment of benefits – Benefits are recorded when paid.

Expenses – The Plan's administrative expenses may be paid out of the forfeiture account or paid by the Company. Investment management, distribution, and loan transaction fees are paid by the Plan participants.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through **DATE**, which is the date the financial statements were issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Level 1 – Inputs to the valuation techniques are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation techniques include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation techniques are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

- a) *Registered investment companies (mutual funds)*: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.
- b) *Collective trusts*: Units held in collective trusts (CTs) are valued using the net asset value practical expedient (NAV practical expedient) of the CTs as reported by the CT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CTs, minus its liabilities, and then divided by the number of units outstanding. The CTs can be redeemed daily, and there are no redemption restrictions or notice requirements.
- c) *Self-directed brokerage accounts*: Consist of common stock and interest-bearing cash. Common stock is valued at the closing price reported on the active market on which the individual securities are traded. Interest-bearing cash is valued at cost plus accrued interest, which approximates fair value. These investments are considered Level 1 investments within the fair value hierarchy.

The following table discloses, by level, the fair value hierarchy of the Plan's assets at fair value as of December 31, 2022 and 2021:

Investment Assets at Fair Value as of December 31, 2022

Notes to Financial Statements

Note 4 – Tax Status

The Plan Document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on June 30, 2020, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), the plan administrator evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the statement of net assets available for benefits.

Note 6 – Information Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian of the Plan, Fidelity Management Trust Company as of December 31, 2022, certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021;
- Net depreciation in fair value of investments, dividends and interest, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2022; and
- Investments as presented in the supplemental schedule of assets (held at end of year) as of December 31, 2022.

Notes to Financial Statements

Note 7 – Party-in-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain plan investments include shares of mutual funds and money market accounts managed by Fidelity Management Trust Company (“Fidelity”). Fidelity is the trustee and recordkeeper of the Plan as of December 31, 2022, and therefore, transactions with this entity qualify as exempt party-in-interest transactions. The Plan paid \$145,901 in contract administration fees to Fidelity during 2022. The Plan issues loans to participants, which are secured by the balances in the participants’ accounts. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.

Note 8 – Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time subject to provisions of ERISA. In the event the Plan is terminated, participants will become fully vested in their employer contributions.

Note 9 – Delinquent Participant Contributions

As disclosed in the accompanying supplemental schedule, certain employee deferrals in the amount of \$21,984 were not remitted to the Plan within the timeframe required by the Department of Labor for the year ended December 31, 2022. The Company is in the process of determining the amount related to lost earnings and will remit these amounts to participants’ accounts as soon as administratively feasible.
