INDEPENDENT AUDITORS' REPORT

To the Fiduciary Committee for the Companies of Ahold Delhaize USA, Inc.
Food Lion, LLC Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Food Lion, LLC Retirement Savings Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The following description of the Food Lion, LLC Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is sponsored by Food Lion, LLC (the Company). The Company is a subsidiary of Ahold Delhaize USA, Inc. (the Parent Company). The Plan is a defined contribution plan. The Fiduciary Committee for the Companies of Ahold Delhaize USA, Inc. (the Fiduciary Committee) controls and manages the operation and administration of the Plan. The Fiduciary Committee was approved by the Board of Directors of the Company. The members of the Fiduciary Committee include representatives for each Plan sponsor (who are designated by the sponsors). Fidelity Management Trust Company (the Trustee) is the trustee of the Plan. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

Eligibility

All officers and employees of the Company and its subsidiaries who have been an employee for a continuous period of sixty days and who have reached age twenty-one are eligible to participate in the Plan.

The Plan provides an annual automatic enrollment feature for employees hired after January 1, 2018 with an initial deferral rate of 1% for eligible employees having completed 2 years of credited service (defined as 1,000 hours or more in a calendar year) with no current or previous deferral election on file. The participants' deferral rate shall automatically be increased by 1% annually in each Plan Year following the Plan Year in which such participants' automatic deferral election becomes effective, up to a maximum of 5% (6% for any participant who was automatically enrolled under the Ahold USA, Inc. 401(k) Retirement Savings Plan (an affiliated plan) prior to 2018).

Contributions

Each year, participants may contribute up to 75% of their pretax or post tax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code limitations. The Company contributes 100% of the first 5% of base compensation that a participant contributes to the Plan. Participants are 100% vested in the Company contributions at the time of deposit. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may also request an in-plan Roth rollover of all or a portion of their vested account balance. Participants are also eligible for a true-up match after the plan year has ended. Because participants are able to change their contribution at any time throughout the year, there may be times when the Company match a participant receives is less than what they would have received on an annualized basis. The Company will make an annual contribution to make up the difference. The amount of the true-up contribution for Plan years ended December 31, 2022 and 2021 was $846,108 and $774,752, respectively, and is included as employer contributions receivable on the statements of net assets available for benefits.

1. Description of the Plan (Continued)

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution and allocation of Plan earnings and charged with benefit payments and allocations of plan losses and other expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, common trust funds and a stable value fund as investment options for participants, as well as self-directed brokerage accounts.

Vesting

Participants are vested immediately in the Employee and Employer Safe Harbor match contributions plus actual earnings thereon. Prior to 2018, participants may have received a Company Annual Contribution or a Discretionary Contribution, which become 100% vested after three years of credited service. Participants may have been eligible for other contributions which may have different vesting schedules. Forfeited balances of terminated participants totaled $30,830 and $22,093 as of December 31, 2022 and 2021, respectively, and are used to reduce future employer contributions. During the year ended December 31, 2022, $47,017 of forfeited balances were used to reduce employer contributions.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balances, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. Participants may have one outstanding loan balance at any one time. Loans transferred that were outstanding at January 1, 2015 are grandfathered and may remain outstanding subject to other Plan provisions. Prior to January 1, 2015, participants could have up to two outstanding loan balances at one time. Principal and interest are paid ratably through payroll deductions. As of December 31, 2022, the interest rates on outstanding notes receivable range from 4.25% to 9.25% with various maturities through 2037.

Payment of Benefits

Upon termination of service, death or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. The vested portion of each participant's account shall be distributed in a lump sum unless the participant elects installment payments in monthly, quarterly, semi-annual or annual installments over a fixed period of time, not to exceed ten years. In addition, terminated participants may elect to defer payment of their vested balance until April 1st following the year they reach age 72 if their balance exceeds $5,000. Participants are permitted to take in-service distributions upon attaining age 59 ½. Participants are permitted to take hardship withdrawals from their account provided they meet certain criteria.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on an accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the amounts reported in the Plan's financial statements and the related disclosures. Actual results could differ from those estimates.

Risks and Uncertainties

The Retail Business Services and Affiliates Defined Contribution Plans Master Trust (the Master Trust) invests in various investment instruments, including mutual funds, Ahold Delhaize Company stock fund, common stock, preferred stock, corporate bonds, rights and warrants, unit investment trusts, certificates of deposit, U.S. government securities and customized separate accounts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, liquidity and overall market volatility. Market risk includes global events which could impact the value of investment securities, such as pandemics or international conflicts. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is stated at fair value, which has been determined based on the fair value of the underlying investments in the Master Trust, except for investments in the Stable Value Fund. Shares of mutual funds and money market funds held by the Master Trust are valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Master Trust at year end. Fair value of investments held by the Master Trust that do not have readily ascertainable market values (such as customized separate accounts) have been estimated by the Trustee based on the NAV of the portfolio. The Parent Company's common stock is publicly traded on Euronext, a European stock exchange based in Amsterdam, and is valued at the closing price reported on that exchange. All other common stock, preferred stock and embedded rights and warrants are valued at the closing price reported on the active market on which the individual securities are traded on the last business day of the Plan year. Common trust funds are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. Debt securities are valued based on prices received from third-party vendors or from brokers who make markets in such securities. For corporate bonds and U.S. government securities, pricing vendors utilize matrix pricing which considers yield or price of bonds, credit quality, coupon, maturity and type as well as broker-supplied prices. Certificates of Deposit (CDs) are stated at amortized cost that approximates fair value. For unit investments, a third-party pricing group identifies securities requiring fair valuation in accordance with fair value policies and procedures approved by the Plan when market quotations are not readily available or reliable, and updates prices based on instructions received from third-party pricing services. Participants can transact daily in these funds with no redemption restrictions. The investment in the Stable Value Fund is determined based on contract value, which is the more relevant measure for fully benefit-responsive investment contracts, because that is the amount participants receive if they conduct transactions.

2. Summary of Significant Accounting Policies (Continued)

The Plan has an option for self-directed brokerage accounts, called BrokerageLink. There are a variety of options for investments within BrokerageLink. The investments include items such as those described above that are valued in the same manner.

The net change in value from participation in the Master Trust is reported as one line item in the accompanying statement of changes in net assets available for benefits and the Plan's interest in the Master Trust is reported as a single line item in the accompanying statements of net assets available for benefits. The net change includes the gains and losses on investments bought and sold, as well as held, during the year.

Within the Master Trust, purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Management fees and operating expenses charged to the Plan for investments in the Master Trust are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of interest in Master Trust investment earnings for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Notes receivable from participants are deemed delinquent as of the end of the calendar quarter following the calendar quarter in which the loan repayment is due and unpaid. Notes receivable from participants that are deemed delinquent are recorded as benefits paid to participants.

Contributions

Participant deferrals are recorded when amounts are withheld from employee payroll. Matching contributions are accrued when the related employee deferrals are recorded.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Investment fund management fees are charged to the Plan and reduce participant investment returns. Recordkeeping and communication fees are paid by participants on a "per capita" basis (as each participant pays the same amount once their balance has exceeded $5,000). Balances less than $5,000 are exempt from fees. Generally, all other costs of administering the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2023, which is the date the financial statements were available to be issued.

2. Summary of Significant Accounting Policies (Continued)

The Plan was amended effective January 1, 2023 to, among other things, change the name of the Plan to the Food Lion 401(k) Plan, remove the eligibility requirement of sixty days of service for employees hired on or after January 1, 2023 and increase the automatic enrollment annual increase to a maximum of 10% for all eligible Plan participants.

3. Information Certified by the Trustee

The Plan Administrator has elected the method of compliance as permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by Fidelity Management Trust Company as trustee of the Plan as of December 31, 2022 and 2021, and for the year ended December 31, 2022, except for comparing such information with the related information included in the accompanying financial statements and supplemental schedule.

The Plan's investments, investment-related transactions, and investment income, as well as the Plan's notes receivable and related interest income and transactions, were certified by the trustee as complete and accurate as of December 31, 2022 and 2021 and for the year ended December 31, 2022.

4. Master Trust

The Master Trust was established effective January 1, 2018 to serve as the funding mechanism for plans sponsored by Ahold Delhaize USA, Inc. The Trustee was appointed by the Company to hold, administer and invest the assets of the Master Trust. The Master Trust is the funding mechanism for the Plan. Each of the plans in the Master Trust maintains a segregated customized asset portfolio within the Master Trust. Investment income, realized gains (losses) on sales of investments, unrealized appreciation (depreciation) of investments, other receipts, other disbursements and administrative expenses are allocated proportionately to the customized asset portfolio within the Master Trust. Employee and employer contributions, benefit payments and plan-specific expenses are allocated directly to each plan in the Master Trust.

Because the Plan's portfolio is segregated from the other plans that participate in the Master Trust, the Plan does not have an undivided interest in each investment in the Master Trust. Rather, the Plan has a specific percentage interest in each investment that differs from the overall percentage interest in the Master Trust.

4. Master Trust (Continued)

The Plan's interest in Master Trust investment earnings consists of the following in 2022:

Net depreciation in the fair value of investments in the Master Trust	$(169,579,432)
Interest and dividend income	15,346,137
	$(154,233,295)

There were no significant other assets or liabilities held by the Master Trust as of December 31, 2022 and 2021.

5. Stable Value Fund

Objectives of the Stable Value Fund

The Stable Value Fund (the Fund) is a fund designed exclusively for the Plan. The Fund's key objectives are to provide preservation of principal, maintain a stable interest rate and provide daily liquidity at contract value for participant withdrawals and transfers in accordance with the provisions of the Plan.

Nature of Investments

To accomplish the objectives outlined above, the Fund invests in common/collective trusts, which in turn invest primarily in short to intermediate term fixed income securities and wrapper contracts. Plan participants make deposits into the Fund which then purchases investments that are held in the Fund. The Fund is contractually obligated to pay a specified rate of interest guaranteed to the participants.

The Fund has been determined to be fully benefit-responsive. Because the Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Events That Limit the Ability of the Fund to Transact at Contract Value

In certain circumstances, the amount withdrawn from the contract would be payable at fair value rather than at contract value. These events include termination of the Plan, a material adverse change to the provisions of the Plan, if the employer elects to withdraw from a contract in order to switch to a different investment provider or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the contract issuer's underwriting criteria for issuance of a clone contract.

Issuer-Initiated Contract Termination

Examples of events that would permit a contract issuer to terminate a contract upon short notice include the Plan's loss of its qualified status, un-cured material breaches of responsibilities or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the contract issuer could terminate the contract at the market value of the underlying investments.

6. Related Party and Party-in-Interest Transactions

All administrative expenses are paid to Fidelity Management Trust Company, the trustee of the Plan. These fees, totaling $1,218,130, include recordkeeping fees, investment fund management fees and other transaction fees (such as origination fees). These transactions qualify as party-in-interest transactions. Notes receivable from participants' transactions, the Plan's interest in the Master Trust and transactions with the Master Trust also qualify as party-in-interest transactions. Transactions within the Master Trust relating to Ahold Delhaize company stock, Fidelity-sponsored mutual funds, BrokerageLink accounts and participant loans are also party-in-interest transactions.

Additionally, certain fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

8. Federal Income Tax Status

The Plan is based upon the Hunton Andrews Kurth Nonstandardized Preapproved Defined Contribution Plan, for which the Internal Revenue Service (IRS) issued an opinion letter dated August 31, 2022, that determined the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code. The Company and the Plan Administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification Topic 820, *Fair Value Measurements* (ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The methods used may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The three levels of fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2022 or 2021.

9. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

	Level 1	Level 2	Level 3	Total
2022				
Money market funds	$ 2,401,497	$ –	$ –	$ 2,401,497

Investments measured at net asset value:				
Common trust funds				692,112,938
Total investments in Master Trust measured at fair value				$ 941,650,801

The Plan's investments in common trust funds, whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2022 and 2021, are all redeemable daily with no other restrictions or unfunded commitments.

10. Reconciliation of Financial Statements to Form 5500

Notes receivable from participants are reflected as a receivable on the financial statements which is different from the Form 5500 presentation. On Form 5500, notes receivable are classified as investments under the caption participant loans.

11. Plan Transfers

Ahold Delhaize USA, Inc. also sponsors several other 401(k) plans. If participants transfer to another affiliated sponsor during the year, their account balances are transferred into the corresponding plans. Participants are notified of the transfer prior to their account balance transferring and have the option to opt out of the transfer. For the year ended December 31, 2022, transfers into the Plan were $704,952 and transfers out of the Plan were $3,196,429.

INDEPENDENT AUDITORS' REPORT

To the Fiduciary Committee for the Companies of Ahold Delhaize USA, Inc.
Food Lion, LLC Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Food Lion, LLC Retirement Savings Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The following description of the Food Lion, LLC Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is sponsored by Food Lion, LLC (the Company). The Company is a subsidiary of Ahold Delhaize USA, Inc. (the Parent Company). The Plan is a defined contribution plan. The Fiduciary Committee for the Companies of Ahold Delhaize USA, Inc. (the Fiduciary Committee) controls and manages the operation and administration of the Plan. The Fiduciary Committee was approved by the Board of Directors of the Company. The members of the Fiduciary Committee include representatives for each Plan sponsor (who are designated by the sponsors). Fidelity Management Trust Company (the Trustee) is the trustee of the Plan. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

Eligibility

All officers and employees of the Company and its subsidiaries who have been an employee for a continuous period of sixty days and who have reached age twenty-one are eligible to participate in the Plan.

The Plan provides an annual automatic enrollment feature for employees hired after January 1, 2018 with an initial deferral rate of 1% for eligible employees having completed 2 years of credited service (defined as 1,000 hours or more in a calendar year) with no current or previous deferral election on file. The participants' deferral rate shall automatically be increased by 1% annually in each Plan Year following the Plan Year in which such participants' automatic deferral election becomes effective, up to a maximum of 5% (6% for any participant who was automatically enrolled under the Ahold USA, Inc. 401(k) Retirement Savings Plan (an affiliated plan) prior to 2018).

Contributions

Each year, participants may contribute up to 75% of their pretax or post tax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code limitations. The Company contributes 100% of the first 5% of base compensation that a participant contributes to the Plan. Participants are 100% vested in the Company contributions at the time of deposit. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may also request an in-plan Roth rollover of all or a portion of their vested account balance. Participants are also eligible for a true-up match after the plan year has ended. Because participants are able to change their contribution at any time throughout the year, there may be times when the Company match a participant receives is less than what they would have received on an annualized basis. The Company will make an annual contribution to make up the difference. The amount of the true-up contribution for Plan years ended December 31, 2022 and 2021 was $846,108 and $774,752, respectively, and is included as employer contributions receivable on the statements of net assets available for benefits.

1. Description of the Plan (Continued)

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution and allocation of Plan earnings and charged with benefit payments and allocations of plan losses and other expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, common trust funds and a stable value fund as investment options for participants, as well as self-directed brokerage accounts.

Vesting

Participants are vested immediately in the Employee and Employer Safe Harbor match contributions plus actual earnings thereon. Prior to 2018, participants may have received a Company Annual Contribution or a Discretionary Contribution, which become 100% vested after three years of credited service. Participants may have been eligible for other contributions which may have different vesting schedules. Forfeited balances of terminated participants totaled $30,830 and $22,093 as of December 31, 2022 and 2021, respectively, and are used to reduce future employer contributions. During the year ended December 31, 2022, $47,017 of forfeited balances were used to reduce employer contributions.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balances, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. Participants may have one outstanding loan balance at any one time. Loans transferred that were outstanding at January 1, 2015 are grandfathered and may remain outstanding subject to other Plan provisions. Prior to January 1, 2015, participants could have up to two outstanding loan balances at one time. Principal and interest are paid ratably through payroll deductions. As of December 31, 2022, the interest rates on outstanding notes receivable range from 4.25% to 9.25% with various maturities through 2037.

Payment of Benefits

Upon termination of service, death or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. The vested portion of each participant's account shall be distributed in a lump sum unless the participant elects installment payments in monthly, quarterly, semi-annual or annual installments over a fixed period of time, not to exceed ten years. In addition, terminated participants may elect to defer payment of their vested balance until April 1st following the year they reach age 72 if their balance exceeds $5,000. Participants are permitted to take in-service distributions upon attaining age 59 ½. Participants are permitted to take hardship withdrawals from their account provided they meet certain criteria.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on an accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the amounts reported in the Plan's financial statements and the related disclosures. Actual results could differ from those estimates.

Risks and Uncertainties

The Retail Business Services and Affiliates Defined Contribution Plans Master Trust (the Master Trust) invests in various investment instruments, including mutual funds, Ahold Delhaize Company stock fund, common stock, preferred stock, corporate bonds, rights and warrants, unit investment trusts, certificates of deposit, U.S. government securities and customized separate accounts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, liquidity and overall market volatility. Market risk includes global events which could impact the value of investment securities, such as pandemics or international conflicts. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is stated at fair value, which has been determined based on the fair value of the underlying investments in the Master Trust, except for investments in the Stable Value Fund. Shares of mutual funds and money market funds held by the Master Trust are valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Master Trust at year end. Fair value of investments held by the Master Trust that do not have readily ascertainable market values (such as customized separate accounts) have been estimated by the Trustee based on the NAV of the portfolio. The Parent Company's common stock is publicly traded on Euronext, a European stock exchange based in Amsterdam, and is valued at the closing price reported on that exchange. All other common stock, preferred stock and embedded rights and warrants are valued at the closing price reported on the active market on which the individual securities are traded on the last business day of the Plan year. Common trust funds are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. Debt securities are valued based on prices received from third-party vendors or from brokers who make markets in such securities. For corporate bonds and U.S. government securities, pricing vendors utilize matrix pricing which considers yield or price of bonds, credit quality, coupon, maturity and type as well as broker-supplied prices. Certificates of Deposit (CDs) are stated at amortized cost that approximates fair value. For unit investments, a third-party pricing group identifies securities requiring fair valuation in accordance with fair value policies and procedures approved by the Plan when market quotations are not readily available or reliable, and updates prices based on instructions received from third-party pricing services. Participants can transact daily in these funds with no redemption restrictions. The investment in the Stable Value Fund is determined based on contract value, which is the more relevant measure for fully benefit-responsive investment contracts, because that is the amount participants receive if they conduct transactions.

2. Summary of Significant Accounting Policies (Continued)

The Plan has an option for self-directed brokerage accounts, called BrokerageLink. There are a variety of options for investments within BrokerageLink. The investments include items such as those described above that are valued in the same manner.

The net change in value from participation in the Master Trust is reported as one line item in the accompanying statement of changes in net assets available for benefits and the Plan's interest in the Master Trust is reported as a single line item in the accompanying statements of net assets available for benefits. The net change includes the gains and losses on investments bought and sold, as well as held, during the year.

Within the Master Trust, purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Management fees and operating expenses charged to the Plan for investments in the Master Trust are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of interest in Master Trust investment earnings for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Notes receivable from participants are deemed delinquent as of the end of the calendar quarter following the calendar quarter in which the loan repayment is due and unpaid. Notes receivable from participants that are deemed delinquent are recorded as benefits paid to participants.

Contributions

Participant deferrals are recorded when amounts are withheld from employee payroll. Matching contributions are accrued when the related employee deferrals are recorded.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Investment fund management fees are charged to the Plan and reduce participant investment returns. Recordkeeping and communication fees are paid by participants on a "per capita" basis (as each participant pays the same amount once their balance has exceeded $5,000). Balances less than $5,000 are exempt from fees. Generally, all other costs of administering the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2023, which is the date the financial statements were available to be issued.

2. Summary of Significant Accounting Policies (Continued)

The Plan was amended effective January 1, 2023 to, among other things, change the name of the Plan to the Food Lion 401(k) Plan, remove the eligibility requirement of sixty days of service for employees hired on or after January 1, 2023 and increase the automatic enrollment annual increase to a maximum of 10% for all eligible Plan participants.

3. Information Certified by the Trustee

The Plan Administrator has elected the method of compliance as permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by Fidelity Management Trust Company as trustee of the Plan as of December 31, 2022 and 2021, and for the year ended December 31, 2022, except for comparing such information with the related information included in the accompanying financial statements and supplemental schedule.

The Plan's investments, investment-related transactions, and investment income, as well as the Plan's notes receivable and related interest income and transactions, were certified by the trustee as complete and accurate as of December 31, 2022 and 2021 and for the year ended December 31, 2022.

4. Master Trust

The Master Trust was established effective January 1, 2018 to serve as the funding mechanism for plans sponsored by Ahold Delhaize USA, Inc. The Trustee was appointed by the Company to hold, administer and invest the assets of the Master Trust. The Master Trust is the funding mechanism for the Plan. Each of the plans in the Master Trust maintains a segregated customized asset portfolio within the Master Trust. Investment income, realized gains (losses) on sales of investments, unrealized appreciation (depreciation) of investments, other receipts, other disbursements and administrative expenses are allocated proportionately to the customized asset portfolio within the Master Trust. Employee and employer contributions, benefit payments and plan-specific expenses are allocated directly to each plan in the Master Trust.

Because the Plan's portfolio is segregated from the other plans that participate in the Master Trust, the Plan does not have an undivided interest in each investment in the Master Trust. Rather, the Plan has a specific percentage interest in each investment that differs from the overall percentage interest in the Master Trust.

4. Master Trust (Continued)

A summary of the assets of the Master Trust and the Plan's interest in these assets as of December 31, 2022 is as follows:

4. Master Trust (Continued)

The Plan's interest in Master Trust investment earnings consists of the following in 2022:

Net depreciation in the fair value of investments in the Master Trust	$(169,579,432)
Interest and dividend income	15,346,137
	$(154,233,295)

There were no significant other assets or liabilities held by the Master Trust as of December 31, 2022 and 2021.

5. Stable Value Fund

Objectives of the Stable Value Fund

The Stable Value Fund (the Fund) is a fund designed exclusively for the Plan. The Fund's key objectives are to provide preservation of principal, maintain a stable interest rate and provide daily liquidity at contract value for participant withdrawals and transfers in accordance with the provisions of the Plan.

Nature of Investments

To accomplish the objectives outlined above, the Fund invests in common/collective trusts, which in turn invest primarily in short to intermediate term fixed income securities and wrapper contracts. Plan participants make deposits into the Fund which then purchases investments that are held in the Fund. The Fund is contractually obligated to pay a specified rate of interest guaranteed to the participants.

The Fund has been determined to be fully benefit-responsive. Because the Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Events That Limit the Ability of the Fund to Transact at Contract Value

In certain circumstances, the amount withdrawn from the contract would be payable at fair value rather than at contract value. These events include termination of the Plan, a material adverse change to the provisions of the Plan, if the employer elects to withdraw from a contract in order to switch to a different investment provider or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the contract issuer's underwriting criteria for issuance of a clone contract.

Issuer-Initiated Contract Termination

Examples of events that would permit a contract issuer to terminate a contract upon short notice include the Plan's loss of its qualified status, un-cured material breaches of responsibilities or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the contract issuer could terminate the contract at the market value of the underlying investments.

6. Related Party and Party-in-Interest Transactions

All administrative expenses are paid to Fidelity Management Trust Company, the trustee of the Plan. These fees, totaling $1,218,130, include recordkeeping fees, investment fund management fees and other transaction fees (such as origination fees). These transactions qualify as party-in-interest transactions. Notes receivable from participants' transactions, the Plan's interest in the Master Trust and transactions with the Master Trust also qualify as party-in-interest transactions. Transactions within the Master Trust relating to Ahold Delhaize company stock, Fidelity-sponsored mutual funds, BrokerageLink accounts and participant loans are also party-in-interest transactions.

Additionally, certain fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

8. Federal Income Tax Status

The Plan is based upon the Hunton Andrews Kurth Nonstandardized Preapproved Defined Contribution Plan, for which the Internal Revenue Service (IRS) issued an opinion letter dated August 31, 2022, that determined the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code. The Company and the Plan Administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification Topic 820, *Fair Value Measurements* (ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The methods used may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The three levels of fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2022 or 2021.

9. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

The Plan's investments in common trust funds, whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2022 and 2021, are all redeemable daily with no other restrictions or unfunded commitments.

10. Reconciliation of Financial Statements to Form 5500

Notes receivable from participants are reflected as a receivable on the financial statements which is different from the Form 5500 presentation. On Form 5500, notes receivable are classified as investments under the caption participant loans.

11. Plan Transfers

Ahold Delhaize USA, Inc. also sponsors several other 401(k) plans. If participants transfer to another affiliated sponsor during the year, their account balances are transferred into the corresponding plans. Participants are notified of the transfer prior to their account balance transferring and have the option to opt out of the transfer. For the year ended December 31, 2022, transfers into the Plan were $704,952 and transfers out of the Plan were $3,196,429.
