INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Participants of
Hamilton Cardiology Associates, P.A. 401(k) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Hamilton Cardiology Associates, P.A. 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022, and 2021, and the related statement of changes in net assets available for benefits for the year then ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Hamilton Cardiology Associates, P.A. 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2022, and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hamilton Cardiology Associates, P.A. 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Hamilton Cardiology Associates, P.A. 401(k) Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hamilton Cardiology Associates, P.A. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hamilton Cardiology Associates, P.A. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. PLAN DESCRIPTION

The following description of the Hamilton Cardiology Associates, P.A. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan qualifying under Section 401(k) of the Internal Revenue Code (“IRC”) and subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) which covers all eligible employees of Hamilton Cardiology Associates, P.A. (the “Company”) who elect to participate.

Plan Contributions

Employee contributions are made in the form of pre-tax or after-tax salary reductions. In general, employees can elect to contribute up to 100% of eligible compensation, up to the statutory maximum as determined by the Internal Revenue Service. The Company contributes a safe harbor employer non-elective contribution of 100% of the first 3% of eligible compensation. For the year ended December 31, 2022, the safe harbor employer non-elective contribution amounted to \$266,494. The Company also may make a discretionary contribution or profit sharing contribution to the Plan. For the year ended December 31, 2022, the discretionary and profit-sharing contributions amounted to \$0. It is the policy of the Company to fully fund its contribution subsequent to the end of the Plan year.

Eligibility Requirements

Any eligible employee who has reached the age of 21 and completed 12 months of service in a 12-month period following employment, and has completed at least 1,000 hours of service, is eligible to participate on the first day of the quarter subsequent to becoming eligible. Employees become eligible for the Company safe harbor employer non-elective contribution, discretionary contribution and profit-sharing components of the Plan after reaching the age of 21 and one year of service.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution and, (b) Plan earnings, after an allocation of investment expenses. Allocations are based on participant earnings or account balances, as defined. The participant’s account is reduced by withdrawals, Plan expenses, losses on investments and any forfeiture. The benefit to which a participant is entitled to is the benefit that can be provided from the participant’s vested account.

Vesting

Participating employees are 100% vested in the value of their own deferrals and safe harbor non-elective contributions and the earnings on those deferrals. Company discretionary contributions and profit-sharing contributions, plus any allocated interest, dividends, and net capital gains or losses thereon, vest in accordance with a 6-year graded vesting schedule at 20% per year commencing with two years of service.

Notes Receivable From Participants

Participants may borrow from their fund accounts equal to the lesser of \$50,000 or 50% of their vested account balance. Note terms generally range from one to five years. The loans are secured by the balance in the participant’s account and bear interest at rates that range from 4.25% to 8.00%, which is commensurate with local prevailing rates at the time of issuance. Principal and interest are paid ratably through payroll deductions. There is no allowance for losses on notes receivable from participants provided for in 2022 and 2021.

Hamilton Cardiology Associates, P.A. 401(k) Plan
Notes to Financial Statements
December 31, 2022 and 2021

Forfeitures

Forfeitures are used to reduce future Company contributions and to pay Plan expenses. In 2022, employer contributions were not reduced as a result of forfeited non-vested accounts. At December 31, 2022 and 2021, the balance in forfeited non-vested accounts totaled \$67,863 and \$67,637, respectively.

Investment Options

The Plan offers a variety of investment options through its investment arrangement with Alliance Bernstein. Participants direct their deferrals to one of these funds or in any combination of funds in one-percent increments. Investment elections may be changed at any time.

Payment of Benefits

A participant's ability to withdraw funds from the Plan is restricted. In general, distributions may be made before age 59½ only in the case of retirement, death, disability, termination of employment or Plan termination. Distributions from the Plan can be in the form of equal cash installments over a specified period or a lump-sum payment.

Hardship Withdrawals

The Plan allows for "hardship withdrawals" of employee benefits based upon any of the following criteria: (1) to pay all or a portion of the cost of purchase or improvement of a home (2) to pay all or a portion of the cost of education of the employee or any dependent (3) to pay all or a portion of expenses incurred by the employee because of illness, accident or disability of the employee or any dependent (4) to prevent eviction or foreclosure of the employee's principal residence (5) to pay for burial or funeral expenses of an employee's deceased parent, spouse or dependent or (6) to pay for the repair of damage to the employee's principal residence.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Plan in the preparation of the financial statements.

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis. Under this method of accounting, contributions and investment income are recorded when earned.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Shares of registered investment companies are valued at quoted market prices of shares held by the Plan at year-end. The common collective trust fund invests in investment contracts issued by insurance companies and other financial institutions and in fixed income funds.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Hamilton Cardiology Associates, P.A. 401(k) Plan
Notes to Financial Statements
December 31, 2022 and 2021

Investment transactions are recorded on a trade date basis. Gains and losses on sale of investments are based on the average cost method. The net appreciation (depreciation) in fair value of investments in the accompanying statement of changes in net assets available for benefits includes the total change in unrealized gains (losses) of investments held at year end plus realized gains (losses) on investments sold during the year. Dividends and interest are recorded when earned.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The expenses necessary to administer the Plan including, but not limited to, retaining necessary professional assistance may be paid from the assets of the Plan. Alternatively, the Employer may, in its discretion, pay any or all of such expenses. Transaction fees incurred by the Trustee and registered investment companies are absorbed in investment income and are not readily determinable.

Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are valued at cost plus accrued interest which approximates fair value. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

3. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-5(c) of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Empower Annuity Insurance Company of America has certified the completeness and accuracy of all investments and notes receivable from participants as of December 31, 2022 and 2021 in the accompanying statements of net assets available for benefits and the related investment income and notes receivable from participants activity for the year ended December 31, 2022 in the accompanying statement of changes in net assets available for benefits, as well as the supplemental schedule of assets (held at end of year) as of December 31, 2022. No auditing procedures were performed by the independent auditors as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA with respect to information certified as complete and accurate by the Trustee, except for comparing such information with the related information included in the financial statements and supplemental schedule.

Based on information provided and certified by the Trustee, there are no fixed income obligations, leases or debt instruments in default or deemed uncollectible, as defined by ERISA, for the years ended December 31, 2022 and 2021.

Hamilton Cardiology Associates, P.A. 401(k) Plan
Notes to Financial Statements

4. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's assets measured at fair value. There have been no changes in the methodologies used for periods presented in these financial statements.

Registered Investment Companies: Shares of registered investment companies are valued at quoted market prices that are available on an active market which represent the net asset value ("NAV") of shares held by the Plan at year-end.

Common Collective Trust: Common collective trust funds are valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held in its fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will see the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan were to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Pooled Separate Accounts: Units held in pooled separate accounts are valued based at the NAV of the shares held by the Plan at year end, which is based on the unit prices quoted by the fund, representing the fair value of the underlying investments.

There were no significant unfunded commitments or restrictions on redemptions related to pooled separate accounts as of December 31, 2022 and 2021. Pooled separate accounts can be redeemed daily.

Hamilton Cardiology Associates, P.A. 401(k) Plan
Notes to Financial Statements
December 31, 2022 and 2021

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table represents the Plan's fair value hierarchy for its financial assets measured at fair value on a recurring basis as of December 31:

	2022			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 4,171,900	\$ -	\$ -	\$ 4,171,900
Pooled separate accounts, at NAV*				11,436,717
Investments at fair value				<u>\$ 15,608,617</u>

	2021			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 9,765,058	\$ -	\$ -	\$ 9,765,058
Common collective trust, at NAV*				9,269,829
Investments at fair value				<u>\$ 19,034,887</u>

* In accordance with subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to present reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan has a fully benefit-responsive investment contract in the form of a group annuity contract with Great-West Life & Annuity Insurance Company that invests contributions in the Key Guaranteed Portfolio Fund. The Key Guaranteed Portfolio Fund is a general account product. The group annuity contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The insurance company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the insurance company, but may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the product will be established based on the earnings of the underlying assets in the entire medium-long term portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions.

At December 31, 2022 and 2021, the contract guaranteed interest was .93% and 0.90%, respectively.

Hamilton Cardiology Associates, P.A. 401(k) Plan
Notes to Financial Statements
December 31, 2022 and 2021

The Plan's ability to receive amounts due in accordance with the group annuity contract is dependent on the insurance company's ability to meet its financial obligations. The insurance company's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the Plan's ability to transact at contract value. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The insurance company may not terminate the contract at any amount less than contract value.

6. INCOME TAX STATUS

The Plan uses a volume submitter Plan document sponsored by Great-West Trust Company, LLC. Great-West Trust Company, LLC received an advisory letter from the Internal Revenue Service ("IRS") dated June 9, 2021, which states that the volume submitter document satisfied the applicable provisions of the IRC. The Plan has been amended since receiving the opinion letter. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022 and 2021 there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. In addition, there have been no tax related interest or penalties for periods presented in these financial statements.

7. PARTY-IN-INTEREST TRANSACTIONS

Empower Retirement is the third-party administrator of the Plan. Empower Annuity Insurance Company of America is the Trustee of the Plan for 2022. Therefore, these transactions qualify as party-in-interest transactions. Administrative fees paid to Empower Annuity Insurance Company of America for the year ended December 31, 2022 were \$43,872. In addition, certain investment related fees have been offset with net investment income and are not readily determinable. Furthermore, notes receivable from participants qualifies as exempt party-in-interest transactions.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
