Independent Auditor's Report

Trustees
Garney Holding Company
Employee Stock Ownership Plan and Trust
North Kansas City, Missouri

Opinion

We have audited the accompanying financial statements of the Garney Holding Company Employee Stock Ownership Plan and Trust (the "Plan"), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA) which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Garney Holding Company Employee Stock Ownership Plan and Trust

Notes to Financial Statements

December 31, 2022 and 2021

Note 1: Description of the Plan

General

The following description of the Garney Holding Company (the Sponsor) Employee Stock Ownership Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

The Sponsor established the Plan as of January 1, 1986. As of January 1, 2015, the Plan was amended and operates, in relevant part, as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the IRC), and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

The Plan is administered by the Sponsor. The Sponsor has designated oversight of the Plan to the Trustees. The ESOP Committee has overall responsibility for the operation and administration of the Plan. The Trustees determine the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Sponsor.

The Plan has periodically purchased Sponsor common shares, usually using the proceeds of a note payable to Sponsor, and held the stock in a trust established under the Plan. The notes payable were repaid by fully-deductible Sponsor contributions to the trust fund. As the Plan made each payment of principal, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The Plan has no notes payable to Sponsor and no unallocated shares of Sponsor common stock at December 31, 2022 and 2021.

Eligibility

Employees of the Sponsor are generally eligible to make elective deferral contributions and participate in Sponsor safe harbor matching contributions on the first payroll date of the month coinciding with or immediately following the completion of six months of service. Employees are eligible to participate in Sponsor nonmatching contributions as of their first date of employment. The Plan allows for contributions to be made to the Plan in accordance with the *Davis-Bacon Act* (the DBA). Employees covered under the DBA must complete six months of service to be eligible to make elective deferrals to participate in Sponsor safe harbor matching contributions and are immediately eligible for Sponsor nonmatching contributions.

Contributions

Employer contributions to the Plan are made as directed by the Board of Directors of Sponsor. The annual contribution by Sponsor for each plan year is limited to 25 percent of each participant's compensation, subject to certain limitations imposed by the IRC. Under certain circumstances described in the Plan, the dollar limitation may be increased. The Plan permits participant contributions of rollover distributions from other qualified plans.

Contributions (continued)

The Plan has a 401(k) feature that provides for participant direction of contributions resulting from reduction of participants' wages. Unless otherwise elected, participants are automatically enrolled in the 401(k) feature at a default contribution rate specified in the Plan. Participants may elect to contribute from 1 percent up to 25 percent of compensation, in 1 percent increments. The Sponsor matches the employee's contribution in shares of Sponsor stock. The safe harbor matching percentage is 100 percent of the first 1 percent of compensation and 50 percent of the next 5 percent of compensation for a maximum matching percentage of 3.50 percent. Total safe harbor matching contributions were \$4,265,706 and \$4,009,274 for the years ended December 31, 2022 and 2021, respectively. In addition to the safe harbor matching contribution, the Sponsor may make discretionary matching contributions and nonmatching contributions. To receive discretionary matching, participants must be an eligible employee on the last day of the plan year and have completed at least 1,000 hours of service in the plan year. Participants are not subject to the same conditions for discretionary nonmatching contributions. Total discretionary nonmatching contributions were \$24,175,978 and \$20,130,065 for the years ended December 31, 2022 and 2021, respectively. The Sponsor is also authorized to make prevailing wage contributions for participants that earn compensation under prevailing wage contracts. For the years ended December 31, 2022 and 2021, the Sponsor elected to make prevailing wage contributions in the amount of \$182,735 and \$176,731, respectively. Contributions are subject to certain limitations under the IRC.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Sponsor's contributions and (b) plan earnings. Allocations are based on participant earnings or account balances, as defined. Administrative expenses for loan and distribution processing are allocated to the participant's account when processed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Earnings on Sponsor common stock are allocated to each participant's account based on the ratio of the participant's end of year Sponsor common stock balance to all participants' end of year Sponsor common stock balances.

Vesting

Participant's contributions plus actual earnings are 100 percent vested immediately. Participants vest in Sponsor contributions immediately upon death, disability, or normal retirement age.

Participants vest in Sponsor safe harbor matching contributions in accordance with the following schedule, based on continuous years of service.

<u>Years of Service</u>	<u>Vested Percent</u>
Fewer than 2	0%
2	100%

Vesting (continued)

Participants vest in Sponsor discretionary matching and nonmatching contributions in accordance with the following schedule, based on continuous years of service.

<u>Years of Service</u>	<u>Vested Percent</u>
Fewer than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures on nonvested amounts in participants' accounts occur when the vested portion is paid to the participant or the participant works 500 hours or less in five consecutive plan years. Amounts in accounts of participants who are 0 percent vested are forfeited as of the end of the plan year in which termination occurs.

Notes Receivable from Participants

Participants may borrow from their fund accounts invested in participant-directed investment funds a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits

Termination of service due to death, disability or normal retirement age results in automatic vesting in all account balances. Distributions are in the form of cash lump sum or in equal installments over five years. Under plan provisions, a participant may receive a hardship withdrawal to alleviate a "financial hardship" as defined in the Plan Document. A participant may also receive an in-service distribution at 5, 10, 20 and 30 years of vesting service up to 10 percent of the value of Sponsor shares vested in the participant's account.

Notes to Financial Statements

December 31, 2022 and 2021

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Sponsor buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Sponsor repurchases employee's shares upon termination of employment. The put option is accelerated immediately once the employee attains normal retirement age or in the event of death or disability.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Sponsor stock into investments that are more diversified. Participants who are at least age 55 with at least five years of service as defined in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 10-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. To satisfy the diversification election, the Plan may (a) distribute to the participant the elected amount or (b) offer at least three investment options and invest the money according to the participant's directions.

Voting Rights

In certain circumstances as defined in the Plan, each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which a participant has not given instructions. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Forfeited Accounts

At December 31, 2022 and 2021, forfeited nonvested accounts totaled \$23,383 and \$60,748, respectively. These accounts will be used to 1) reinstate previously forfeited amounts of participants who terminated and return to work as required by law, 2) pay plan expenses and 3) any remainder reallocated to eligible participants in the same manner as discretionary contributions. Total forfeitures used in 2022 and 2021 were \$73,268 and \$2,141, respectively.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Cash

At December 31, 2022 and 2021, cash consisted of interest-bearing money market accounts with a bank. At December 31, 2022, the cash account exceeded federally insured limits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Quoted market prices, if available, are used to value investments. U.S. government securities are valued at the closing price reported on the active market on which the individual securities are traded. The common shares of the Sponsor are valued at estimated fair value as determined by annual independent appraisals. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

The Plan's interest in the collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end.

The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment trustees and custodians. See *Note 6* for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Employee Stock Ownership Plan and Trust
Notes to Financial Statements
December 31, 2022 and 2021

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Sponsor or the Plan, at the Sponsor's discretion. Certain expenses of the Plan are paid by the Sponsor and are not included in the statements of changes in net assets available for benefits.

Note 3: Administration of Plan Assets

The Plan's assets consist principally of Sponsor Class A common stock held by the Plan Trust and non-employer stock investment funds held by outside investment firms. Sponsor contributions are held in trust and are managed by the Trustee, who invests cash received and makes distributions to participants.

Certain administrative functions are performed by officers or employees of Sponsor. No such officer or employee receives compensation from the Plan.

Note 4: Dividends

To the extent dividends are not used by the Plan for debt service, the administrator has the discretion to allocate to the participant accounts, or distribute to the participants.

The Sponsor paid a dividend to the ESOP of \$39.91 per share or \$78,854,686 during the year ended December 31, 2022. During 2021, the dividend was \$52.38 per share or \$103,504,041.

Note 6: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Garney Holding Company Employee Stock Ownership Plan and Trust

Notes to Financial Statements

December 31, 2022 and 2021

- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2022 and 2021:

Recurring Measurements (continued)

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2022 and 2021. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 securities.

Unobservable (Level 3) Inputs

The following table presents quantitative information about unobservable inputs used in recurring Level 3 fair value measurements.

	Company Common Stock

Garney Holding Company Employee Stock Ownership Plan and Trust

Notes to Financial Statements

December 31, 2022 and 2021

Unobservable (Level 3) Inputs (continued)

Valuation Technique: discounted cash flow, capitalized cash flow and guideline company

Unobservable Inputs: EBITDA, net income, weighted average cost of capital, long-term revenue growth rate, discount rate, discount for lack of marketability

The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Sponsor. The appraiser prepares a preliminary report which plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7: Related Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association or relatives of such persons.

Certain plan investments are units of collective trust funds, shares of mutual funds and a money market account managed by Vanguard and cash accounts managed by Commerce Bank. Vanguard and Commerce Bank are custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services were \$40,187 and \$10,015 for the years ended December 31, 2022 and 2021, respectively. The Sponsor also provides certain administrative services at no cost to the Plan.

Plan investments include shares of Sponsor common stock. This investment and transactions in this investment qualify as party-in-interest transactions.

Garney Holding Company Employee Stock Ownership Plan and Trust

Notes to Financial Statements

December 31, 2022 and 2021

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions. Upon such termination of the Plan, the interest of each participant will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and related regulations.

Note 9: Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Sponsor by a letter dated March 1, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) and therefore not subject to tax. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities including the Sponsor’s common stock. Investment securities are exposed to various risks such as interest rate, market and credit risk as well as valuation assumptions based on earnings, cash flows and other techniques. Market risks include global events which could impact the value of the investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities and the Sponsor’s common stock, and to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in the values of investment securities and the Sponsor’s common stock will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

Note 11: Subsequent Events

Subsequent events have been evaluated through October 10, 2023, which is the date the financial statements were available to be issued.
