Independent Auditors' Report

To the Plan Administrator of the
Bentley University Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of Bentley University Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for plan benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 11 to the financial statements, is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 10 to the financial statements, the Plan has excluded from investments in the accompanying statement of net assets available for plan benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for plan benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditors' report. However, because of the matter described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

1. Description of the Plan:

The following description of Bentley University Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more complete information regarding the terms of the Plan.

General: The Plan is a defined contribution plan covering all eligible employees of Bentley University (the Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for oversight of the Plan. The Plan Administrator determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility: All employees of the Plan Sponsor, except for nonresident aliens and student employees, become eligible for participation in the Plan on the date of hire. All employees of the Plan Sponsor, except for nonresident aliens, student employees, adjunct faculty and temporary employees, become eligible for the Plan Sponsor nonelective contribution after two uninterrupted years of service on the first day of the month after the date of hire, as defined, and upon attaining age 21. Employees who normally work less than 20 hours a week may participate in the Plan but are excluded from receiving Plan Sponsor nonelective contributions. Eligible employees enrolled in the Plan are referred to as "Participants" in the Plan.

Contributions: The Plan provides for Participant pretax contributions. Participants may contribute up to 100% of their pretax compensation, as defined by the Plan, subject to the Internal Revenue Code (IRC) limitations. Rollover contributions from other qualified plans are allowed, with the approval of the Plan Administrator. The Plan has an automatic enrollment feature, whereby active Participants who do not revoke their elective contributions will contribute a minimum of 1% of eligible compensation. The automatic enrollment provision is subject to an automatic annual increase of 1% of eligible compensation up to a maximum of 5%, which is effective on January 1 of each Plan year. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan provides that Participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make a catch-up contribution subject to IRC limitations.

The Plan Sponsor may, at its discretion, make discretionary nonelective contributions to the Plan in any Plan year in an amount determined by the Board of Directors of the Plan Sponsor. Participants are eligible for Plan Sponsor discretionary nonelective contributions after two years of service after the date of hire, as defined. During the year ended December 31, 2022, the Plan Sponsor made discretionary nonelective contributions equal to 10% of Participant's eligible compensation. For the year ended December 31, 2022, discretionary nonelective contributions amounted to \$8,255,054.

Participant Accounts: Each Participant's account is credited with the Participant's contributions and allocations of (a) the Plan Sponsor's contributions, (b) Plan earnings or losses, and (c) charged with an allocation of administrative expenses, if any. Allocations are based on Participant earnings or account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

Vesting: Participants are immediately vested 100% in their contributions and Plan Sponsor nonelective contributions, plus actual earnings thereon.

Notes Receivable from Participants: Participants may borrow from their Plan accounts in amounts attributable to the Participant's vested balance for a maximum term of five years. If the loan is for the purchase of a principal residence, the term of the loan may be extended. A Participant may borrow the lesser of 50% of their eligible balance up to \$50,000. The minimum loan amount is \$1,000 and only three loans can be outstanding at any time. The loan balance is secured by the Participant's account and bears fixed interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan Administrator, which range from 4.25% to 9.25% as of December 31, 2022. Principal and interest is paid ratably through direct debit deductions.

1. Description of the Plan (Continued):

Plan Loans (Collateralized Loans): Prior to January 2019, plan loans were available to Participants through Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF), collectively TIAA CREF, subject to certain limitations. Effective in January 2019, plan loans were no longer allowed by the Plan. Plan loans were issued directly from the funds owned by TIAA CREF and loan proceeds are not removed from a participant's account balance and, as such, are not assets of the Plan. Adequate security is required and a portion of the participant's account is reserved, or held as collateral, to cover 110% of the outstanding loan in case of default. The collateral is held in the TIAA Traditional Annuity. For all plan loans, principal and interest is paid directly by the Participant to TIAA CREF. Investments underlying defaulted loan balances are reflected in the statements of net assets available for benefits until a distribution event (e.g., defaulted collateral) occurs.

As of December 31, 2022 and 2021, Participants had outstanding Plan loan balances due to TIAA CREF of \$30,579 and \$45,367, respectively, with interest rates ranging from 4.00% to 5.89% as of December 31, 2022.

Benefits and Withdrawals: The vested benefits are paid to the Participants or their beneficiaries upon the Participants' retirement, death, disability or termination of employment with the Plan Sponsor. In the event of the above, the Participants or their beneficiaries may elect to receive a lump sum or annuity payments distribution.

Hardship withdrawals are permitted by the Plan as defined in the IRC. Participants may also withdraw their vested account balance upon attaining age 59 ½.

Recapture Account: The Plan holds assets in an unallocated account which receives revenue sharing payments related to certain investments held by the Plan as a result of a revenue sharing agreement with Fidelity Management Trust Company. During the year ended December 31, 2022, payments to the account totaled \$437,209, which are included as a reduction of net administrative expenses in the statement of changes in net assets available for plan benefits. Funds in the account are used to pay qualified plan expenses including investment management fees. During the year ended December 31, 2022, \$99,722 was used to pay Plan expenses and \$330,564 was reallocated to participant accounts. As of December 31, 2022 and 2021, unallocated assets amounted to \$58,910 and \$50,196, respectively, and are included in TIAA Traditional Benefit Responsive 2.

2. Significant Accounting Policies:

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from Participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. If a Participant ceases to make loan repayments and the Plan Administrator deems the Participant loan to be in default, the note receivable balance is reduced and a benefit payment is recorded.

2. Significant Accounting Policies (Continued):

Payment of Benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from Participants are charged directly to the Participant's account and are included in administrative expenses. Investment-related expenses are included in net depreciation in fair value of investments.

Use of Estimates: The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events: The Plan Administrator has evaluated subsequent events through October 4, 2023, the date the financial statements were available to be issued.

Recent Pronouncements: The Secure 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management is evaluating the impact of the adoption and implementation of this legislation on the Plan.

3. Investments:

The Plan offers a variety of investment options including mutual funds and annuities. Under the annuity arrangements, Participants enter into contracts directly with either TIAA or CREF.

- **Mutual Funds** – Exchange-traded investments with registered investment companies for which Fidelity or TIAA CREF serves as the directed custodian. In certain instances, Fidelity, TIAA or CREF is also the issuer of the mutual fund.
- **CREF Variable Annuity Accounts** – Available through variable annuity contracts issued by CREF, which is a registered investment company. Unlike the TIAA Traditional Annuity contracts, the variable annuities do not provide guaranteed returns. Participant returns depend entirely on the investment performance of each annuity. The annuities invest principally in equity securities, fixed income instruments, and short-term investments in accordance with each portfolio's investment objectives. Account investments are primarily valued using market quotations or prices obtained from independent pricing sources who may employ various pricing methods to value the investments, including matrix pricing.
- **TIAA Pooled Separate Account - Real Estate** – Available through variable annuity contracts issued by TIAA, a registered insurance company. This investment is a separate account of TIAA (a pooled separate account), which invests mainly in real estate and real estate-related investments. Each premium allocated to the account buys a number of accumulation units. The accumulation is not guaranteed and may increase or decrease depending on investment results of the underlying investments. Transfers out of the TIAA Real Estate account to a TIAA or CREF account, or into another investment option, can be executed at any time, but are limited to once per calendar quarter.
- **TIAA Traditional Annuity Accounts** – Available through fixed rate annuity contracts issued by TIAA using traditional investment contracts. In a traditional investment contract, the issuer of the contract (TIAA) takes the contributions and purchases the investments that are held in TIAA's general account. The Plan is a creditor of TIAA and therefore has credit risk, although TIAA has a high credit-quality rating of AA+ from Standard and Poor's. TIAA is contractually obligated to repay the principal and specified interest guaranteed to the holder of the contract. TIAA bears the risks that the underlying investments may not meet the value to cover withdrawals from the Plan.

3. Investments (Continued):

These fixed rate annuity contracts are guaranteed annuity contracts as they are fully and unconditionally guaranteed and backed by the claims-paying ability by TIAA. During the accumulation phase, the TIAA Traditional Annuity Accounts provides a guarantee of principal, a guaranteed rate of interest of 3.00% and the potential for additional interest, if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year," which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the 3.00% guaranteed minimum and additional amounts make up the crediting interest rate. When the contract value accumulation (plan asset) of TIAA Traditional is converted to an annuity (plan withdrawal) based on life expectancy, the present value of the stream of payments is equal to the accumulation. The guaranteed annuity contracts do not permit the insurance company to terminate the agreements prior to the scheduled maturity dates nor permit the insurance company to settle at amounts that differ from contract value. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a benefit paid in the statements of changes in net assets available for benefits.

The Traditional Annuity is offered through a variety of contract types, including Retirement Annuities (RA), Group Retirement Annuities (GRA), Retirement Choice (RC), Supplemental Retirement Annuities (SRA), Group Supplemental Retirement Annuities (GSRA), and Retirement Choice Plus (RCP). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

The GRA contract allows lump-sum cash withdrawals, and transfers must be spread over a period of 10 annual installments (or five annual installments for withdrawals after termination of employment), except that a lump-sum distribution is available, in the 120-day period following termination of employment, subject to a 2.50% surrender charge. The GRA contract has liquidity restrictions and is non benefit-responsive. As a non benefit responsive contract, the value is reported at fair value. The contract values of these contracts are deemed to be fair value because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Therefore, as of December 31, 2022 and 2021, there was no adjustment from contract value (the value certified by TIAA CREF) to fair value.

The RA contract does not allow lump-sum cash withdrawals, and transfers must be spread over a period of 10 annual installments (or five annual installments for withdrawals after termination of employment). The RA contract has liquidity restrictions and is non benefit-responsive. As a non benefit responsive contract, the value is reported at fair value. The contract values of these contracts are deemed to be fair value because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Therefore, as of December 31, 2022 and 2021, there was no adjustment from contract value (the value certified by TIAA CREF) to fair value.

The RC contract allows for Participant withdrawals and transfers that must be taken in 84 monthly installments, except that a lump-sum distribution is available, in the 120-day period following termination of employment, subject to a 2.50% surrender charge. The RC contract has liquidity restrictions and is non benefit-responsive. As a non benefit responsive contract, the value is reported at fair value. The contract values of these contracts are deemed to be fair value because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Therefore, as of December 31, 2022 and 2021, there was no adjustment from contract value (the value certified by TIAA CREF) to fair value.

The Plan's ability to receive amounts due in accordance with RC investment contracts is dependent on TIAA's ability to meet its contractual obligations. TIAA's ability to meet its contractual obligations may be affected by future economic and regulatory developments. The contracts permit TIAA to limit the total premiums paid and to stop accepting premiums under the contracts at any time.

For accumulating RA, GRA and RC contracts, the crediting interest rate ranged from 6.60% to 6.85%, and 3.70% to 3.95% for the years December 31, 2022 and 2021, respectively. These contracts are non-benefit responsive and are valued at fair value. See Note 4 for further discussion.

3. Investments (Continued):

The SRA, GSRA and RCP contracts provide for full participant-directed liquidity. These contracts meet the fully benefit-responsive investment contract criteria and are certified by TIAA CREF at contract value. For SRA, GSRA and RCP contracts, the crediting interest rate ranged from 5.85% to 6.10%, and 3.00% to 3.20% for the years December 31, 2022 and 2021, respectively. See Note 5 for further discussion.

4. Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the years ended December 31, 2022 and 2021.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

CREF Variable Annuity Accounts: Valued based upon the unit values of such pooled accounts held by the Plan at year end. Unit values are based on the fair value of the underlying assets of the fund derived from inputs principally from or corroborated by observable market data or other means, although are not based upon quoted market prices in an active market. The CREF variable annuities reflect a structure similar to mutual funds and have a readily determinable fair value as reported by TIAA each day that current transactions are recorded.

TIAA Pooled Separate Account - Real Estate: Valued using readily determinable fair values based on the fair value of the underlying assets of each investment as determined by TIAA through the use of market quotations obtained from independent pricing market. The TIAA Real Estate account reflects a structure similar to mutual funds and has a readily determinable fair value as reported by TIAA each day that current transactions are recorded.

4. Fair Value Measurements (Continued):

TIAA Traditional Annuity Accounts – NonBenefit Responsive: Valued based upon contract value as determined by TIAA, which approximates fair value because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value equals the accumulated cash contributions, interest credited to the Plan's contracts and transfers, if any, less any withdrawals and transfers, if any.

Fidelity Self-Directed Brokerage Accounts: Consists of interest bearing cash and mutual funds. Interest bearing cash is valued at its stated value which approximates fair value. Mutual funds are valued on the basis of readily determinable market prices.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2022 and 2021:

		Assets at Fair Value as of December 31, 2022

Distributions	(2,488,956)
Balance as of December 31, 2022	\$ 60,073,968

The following table represents the Plan's Level 3 financial assets, the valuation techniques used to measure the fair value of those financial assets and the significant unobservable inputs and the ranges of values for those inputs.

Financial Asset	Fair Value at December 31, 2022	Principal Valuation Technique	Unobservable Inputs	Significant Input Values
TIAA Traditional Annuity - Non-Benefit Responsive	\$ 60,073,968	Discounted cash flow	Risk-adjusted discount rates	RA: 3.70% - 6.25% GRA: 3.70% - 6.25% RC: 3.95% - 6.50%

Financial Asset	Fair Value at December 31, 2021	Principal Valuation Technique	Unobservable Inputs	Significant Input Values
TIAA Traditional Annuity - Non-Benefit Responsive	\$ 59,854,113	Discounted cash flow	Risk-adjusted discount rates	RA: 3.00% - 3.80% GRA: 3.00% - 3.80% RC: 2.75% - 3.90%

Valuation policies and procedures are managed by the Plan Sponsor's finance group, which regularly monitors fair value measurements. Fair value measurements, including those categorized within Level 3, are prepared and reviewed on their issuance date and then on an annual basis and any third-party valuations are reviewed for reasonableness and compliance with the *Fair Value Measurement* topic of the FASB's Accounting Standards Codification.

5. Fully Benefit-Responsive Investment Contracts:

The Plan holds a portfolio of traditional investment contracts with TIAA, which includes the SRA, GSRA and RCP contracts within the TIAA Traditional Annuity Accounts. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

With traditional investment contracts, the Plan owns only the contract itself. The traditional investment contracts held by the Plan are guaranteed investment contracts. Traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3.0%. The crediting rate is reviewed on a quarterly basis for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
- Premature termination of the contracts
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. These events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer.

6. Party-in-Interest Transactions:

Certain Plan investments are managed by Fidelity Management Trust Company and TIAA CREF, custodians of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of investments, as they are paid through revenue sharing, rather than direct payment, in the accompanying statement of changes in net assets available for plan benefits for the year ended December 31, 2022. During the year ended December 31, 2022, the Plan made direct payments to Fidelity Management Trust Company and TIAA CREF, the recordkeeper, in the amount of \$260,329, which were not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

7. Tax Status:

The Plan has been designed to qualify under Section 403(b) of the IRC. The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service in Revenue Procedure 2007-71 for the draft Listing of Required Modifications issued April 4, 2009. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for Plan Participants under Section 403(b). The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and as such is exempt from Federal income taxes.

GAAP requires plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan Sponsor has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator believes it has no uncertain tax positions as of December 31, 2022 and 2021 and for the year ended December 31, 2022.

8. Plan Termination:

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

9. Risks and Uncertainties:

The Participants invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect Participants' account balances and the amounts reported in the accompanying statements of net assets available for plan benefits.

As of December 31, 2022 and 2021, the Plan had investments of \$157,132,135 and \$114,692,541, respectively, that were concentrated in three and two funds, respectively.

10. Excluded Contracts:

For ERISA reporting requirements, the Plan Administrator has elected to exclude from investments certain annuity contracts and custodial accounts which may have been issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. These annuity contracts and custodial accounts, and the related income and distributions have also been excluded from the accompanying financial statements. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The effects of this departure from generally accepted accounting principles on these financial statements are not reasonably determinable.

11. Information Certified by the Custodians:

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule of assets (held at end of year) as of December 31, 2022, including investments and notes receivable from participants held at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends, and interest income on notes receivable from Participants for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company and TIAA CREF, custodians of the Plan. All of the investments were certified at fair value, with the exception of the fully-benefit responsive investment contract, which was certified at contract value.

12. Subsequent Events:

Plan Amendments: Effective January 1, 2023, the Plan was amended to increase the automatic enrollment to 3% of eligible compensation up to a maximum of 10%.
