INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Larson-Juhl Retirement Investment Plan
Suwanee, Georgia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Larson-Juhl Retirement Investment Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets Held at End of Year as of 2022 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

LARSON-JUHL RETIREMENT INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of Larson-Juhl Retirement Investment Plan (the plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

General:

The plan is a defined contribution plan covering all employees who have attained age 18. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The 401(k) committee is responsible for oversight of the plan, determines the appropriateness of the plan's investments offerings, and monitors investment performance.

Contributions:

Participants may contribute up to 75% of pre-tax annual compensation, as defined in the plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the plan. The plan includes an auto-enrollment provision, whereby all newly eligible employees are automatically enrolled in the plan at 5% unless they affirmatively elect not to participate. Active enrolled participants that are auto enrolled and have a deferral rate greater than zero but less than 5% have their deferral rate set at 5% on anniversary date of participation. Through the plan's Smart Goal feature, participants' deferral rates for automatically enrolled participants will systematically increase each year in increments of 1% up to 12%, unless the participant affirmatively elects a different percentage. The Company matches fifty cents for every dollar that an employee contributes up to 4% of compensation for a maximum annual match of 2% of compensation. Additional profit sharing amounts may be contributed at the option of the Company. No profit sharing contributions were made to the plan for the year ended December 31, 2022. Contributions are subject to certain Internal Revenue Service limitations.

Participant accounts:

Each participant's account is credited with the participant's contributions and company matching contributions, as well as allocations of the company's profit sharing contribution and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the plan. Allocations are based on participant earnings or account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

LARSON-JUHL RETIREMENT INVESTMENT PLAN**NOTES TO FINANCIAL STATEMENTS**

Note 1. Description of Plan (continued)

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts is based on years of continuous service. If terminated prior to June 1, 2017, a participant is 100% vested after six years of credited service. If terminated after June 1, 2017, a participant is 100% vested after three years of credited service.

Forfeited accounts:

At December 31, 2022 and 2021, forfeited nonvested accounts totaled \$15,598 and \$56,865, respectively. These amounts are used to reduce future employer contributions and pay administrative expenses of the plan. Forfeitures used during 2022 totaled \$83,784.

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loans bear interest at rates ranging from 4.25% to 10.50%. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Hardship distributions:

Participants may be distributed up to 100% of their elective deferrals in the event of immediate and heavy financial need. In order to receive a hardship distribution, certain requirements and conditions must be satisfied.

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

LARSON-JUHL RETIREMENT INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2. Significant Accounting Policies

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Administrative expenses:

Certain expenses of maintaining the plan are paid directly by the company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits:

Benefit distributions, determined in accordance with provisions of the Plan, are recorded when paid.

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Note 3. Plan Amendment/Restatement

Effective August 2, 2021, the Plan was amended and restated to remove the Trust Agreement formerly within Basic Plan Document No.17 and create a separate, independent Trust Agreement without altering the substance thereof.

LARSON-JUHL RETIREMENT INVESTMENT PLAN**NOTES TO FINANCIAL STATEMENTS****Note 4. Related Party Activity**

Certain Plan investments are mutual funds held and managed by Fidelity Management Trust Company. As Fidelity Management Trust Company is the trustee of the Plan, these transactions qualify as party-in-interest transactions. Additionally, the Plan paid audit fees of \$15,750 out of forfeitures to a party-in-interest. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA. During 2022, fees paid by the plan totaled \$118,506.

Note 5. Information Prepared and Certified by Trustee

The following information was compiled from data certified by Fidelity Management Trust Company, the trustee of the Plan, as being complete and accurate:

- A. Investments included in the Statements of Net Assets Available for Benefits - December 31, 2022 and 2021.
- B. Investment income included in the Statement of Changes in Net Assets Available for Benefits - Year Ended December 31, 2022.
- C. Investment information included in Schedule of Assets Held at End of Year.

Note 6. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

LARSON-JUHL RETIREMENT INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 8. Income Tax Status

The plan is a prototype non-standardized profit sharing plan with cash or deferred arrangement (CODA). The Internal Revenue Service had determined and informed Fidelity Management & Research Company by a letter dated June 30, 2020, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Any employer adopting this form of the plan will be considered to have a plan qualified under the applicable section of the IRC. Therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes is included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Fair Value Measurements

The Plan's investments are valued at fair value based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

LARSON-JUHL RETIREMENT INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 9. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

Interests in common collective trust funds: The fair value of participation units held in the collective trust funds are based on their net asset values (NAV), as reported by the managers of the collective trust funds and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The Putnam Stable Value Fund invests primarily in guaranteed and security-backed investment contracts with life insurance companies, banks, and other financial institutions. The collective trust funds provide for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement. The NAV, as provided by the plan trustee, is used as a practical expedient to estimate fair value.

In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021:

Description	December 31, 2022			
	Level 1	Level 2	Level 3	Total

(a) The collective trust fund is measured using NAV as a practical expedient. In accordance with the guidance in ASU 2015-07 which has been adopted by the Plan, this investment has not been classified in the fair value hierarchy table. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

October 10, 2023

To the Plan Administrator
Larson-Juhl Retirement Investment Plan

We have audited the financial statements of the Larson-Juhl Retirement Investment Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit) for the year ended December 31, 2022, and have issued our report thereon dated October 6, 2023. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Fidelity Management Trust Company, the trustee, which is a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or deferral agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520. 103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedule, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP. Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 8, 2023. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

You are responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2022. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements and are based on your knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

Your estimate of the investments is based on the fair value. We evaluated the key factors and assumptions used to develop the value of investments in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was:

The fair value measurements in Note 9 to the financial statements were based on market valuations provided by and certified by the trustee.

The financial statement disclosures are neutral, consistent, and clear.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

Difficulties Encountered in Performing the Audit

We encountered no difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. You have corrected all such misstatements.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audits.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

- The forfeiture account had a balance of \$15,598 as of December 31, 2022. Per DOL regulations, forfeitures must be used for the payment of Plan expenses or to reduce employer matching contributions by the end of the following plan year in which the forfeitures arose. We recommend you use the forfeiture balance during 2023.
- During our testing of participant data, we noted one employee's social security number per the census did not agree to the employee's I-9. Through discussion with management, it was determined the employee wrote the incorrect social security number on the I-9. We recommend having the employee complete a new I-9 to correct the social security number.
- During our testing of participant deferrals, we noted no deferrals or employer matching contributions were calculated for the September 23, 2022 and December 2, 2022 holiday pay manual check runs. These wages are plan compensation and should have deferrals withheld along with respective matching contributions. While no QNEC's are due for employee deferrals on this holiday pay, 100% of employer matching contributions on these wages should be remitted to the Plan for these participants, including earnings. We have attached an excel spreadsheet with employer matching contributions due to these participants. Through discussion with management, we were informed the prior outsourced human resources firm used by the Company was responsible for making sure appropriate deductions were applied. It is ultimately Plan management's responsibility to ensure the Plan is being operated in accordance with the Plan document. We recommend reviewing manual check runs to ensure all appropriate deductions are applied, including employee deferrals.
- During our testing of participant deferrals, we noted the following:
 - Chris Gaudet – for checks dated October 21st, November 4th, and November 18th, the employee elected 3% per Fidelity but 0% was withheld. For checks dated December 2nd, December 16th, and December 30th, the employee elected 3% per Fidelity but 4% was withheld. Although no employee QNEC correction is required since the error did not exceed three months, 100% of the missed matching contribution of \$143.23 should be remitted to the Plan to his participant account. We recommend reviewing employee deferral elections from Fidelity to ensure the payroll system accurately reflects employees' deferral elections.
 - Debra Wright – no deferrals were withheld on regular wages from the October 13th check. While this was an isolated incident for regular wages, these wages are Plan compensation and should have deferrals withheld. We recommend reviewing deductions for all paychecks to ensure employees that have deferral elections on file have the appropriate deferrals withheld on all Plan compensation.
 - Andres Hernandez – per Fidelity, employee elected 8% but 6% was withheld on checks from February 25th through August 26th. A 25% qualified non-elective contribution (QNEC) of \$154 plus lost earnings is required to correct this error, but no employer matching contribution is due because the employee received the maximum employer matching contribution for 2022. The funds should be deposited to the employee's account as soon as administratively feasible. We recommend reviewing deferral change reports from Fidelity every payroll cycle to ensure participant deferral changes are timely made in the payroll system.

- Jamal Ayoub – per Fidelity, employee elected 0% for checks dated November 18th, December 2nd, and December 30th, but 3% was withheld. While no correction is required, the participant should be given the option of having these deferrals refunded to him, and if he elects to have them refunded, the the excess match of \$164 should be forfeited out of his participant account. We recommend reviewing deferral change reports from Fidelity every payroll cycle to ensure participant deferral changes are timely made in the payroll system.
- Mardo Morales – no deferrals were withheld on regular wages from the employee's last check. Unused leave was also paid out with this check, and deferrals were properly not calculated on unused leave as this is not Plan compensation. We recommend reviewing the setup of deductions in the payroll system to ensure deferrals are withheld on all Plan compensation. No correction is required.
- Andy Littig – employee maxed out his salary deferrals on the October 7th check, therefore, not all wages from this paycheck were eligible for employer match, but the employee received matching contributions on all wages from this check. Matching contributions should have been calculated only on wages that were used for deferrals. The excess match of \$82.81 should be forfeited and removed from the participant's account. We recommend reviewing the calculation of employer matching contributions when employees reach the maximum deferral.
- During our testing of employee deferrals, we noted that per the Plan adoption agreement, participants can elect a different deferral percentage (or no deferrals) on bonus checks. Bonuses are considered compensation and should have regular elected salary deferrals unless the participant elects to have a different amount withheld. We also recommend that all deferral election changes be done through the website or maintained in personnel files for substantiation purposes.

Other Matters

Our responsibility for the ERISA-required supplemental schedule accompanying the financial statements is to perform adequate procedures to evaluate whether the form and content of the ERISA-required supplemental schedule, other than that agreed to or derived from the certified investment information, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and whether the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

This information is intended solely for the use of the Administrator and management of the Plan and is not intended to be and should not be used by anyone other than these specified parties.
