Independent Auditors' Report

Leonardo DRS, Inc. Retirement Benefit Plans Committee
DRS Consolidated Retirement Plan
Florham Park, New Jersey

Scope And Nature Of The ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of DRS Consolidated Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, respectively, stating that the certified investment information, as described in Notes 3 and 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities For The Audit Of The Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis For Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities For The Audit Of The Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities Of Management For The Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities For The Audit Of The Financial Statements

Except as described in the Scope And Nature Of The ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

DRS CONSOLIDATED RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2022 And 2021

1. Description Of Plan

The following description of the DRS Consolidated Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Documents for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is sponsored by Leonardo DRS, Inc. (the Company or Plan Administrator).

In prior years, the plan assets of the DRS Network and Imaging Systems, LLC Non-Bargaining Unit Defined Benefit Pension Plan, previously known as the DRS Test and Energy Management, LLC Non-Bargaining Defined Benefit Pension Plan (DRS Network and Imaging Systems Pension Plan), Engineered Air Systems, Inc. Hourly Rated Employees Pension Plan (Engineered Air Systems, Inc. Pension Plan), and Systems & Electronics Inc. Retirement Plan were merged into the Plan. The provisions for each of the predecessor plans remain in effect subsequent to the mergers.

DRS Network And Imaging Systems Pension Plan

Participant Vesting

Effective July 1, 2000, DRS Network and Imaging Systems Pension Plan froze the participants' accrued benefits at the amount that each participant had accrued under the provisions of the DRS Network and Imaging Systems Pension Plan as of that date. No new employees became participants after July 1, 2000 and any participant who had not terminated service on that date became fully vested in his or her accrual benefit.

Pension Benefits

Participants are eligible for monthly benefit payments upon reaching the normal retirement age of 62. The Plan also has provisions for early retirement, death, deferred vested, and disability benefits for those participants who were eligible to receive such benefits. Monthly benefits are based on years of continuous service multiplied by the benefit rate, as defined by the Plan Documents. Such benefits may be reduced by early retirement or survivor benefits.

DRS CONSOLIDATED RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

Death And Disability Benefits

Upon reaching retirement age (62), a participant with a vested benefit exceeding \$5,000 will begin receiving payments under a joint and survivor annuity over the life expectancy of the participant. Following the participant's death, the spouse will continue to receive benefits equal to 50% of the rate at which such benefits were payable to the participant. Upon termination, a participant with a vested balance less than \$5,000 will receive a lump sum payment in the amount of the vested benefit.

If a participant terminates prior to retirement age, the participant may receive benefit payments at the later of the participant reaching normal retirement age, the participant's tenth anniversary of the year in which participation began or the participant's termination date. If an active employee becomes totally disabled and has ten years of service, the participant may begin immediately receiving benefit payments. If an active participant dies, the surviving spouse will receive death benefits in the form of a pre-retirement survivor annuity.

During 2018, the Plan was amended to change the definition of total and permanent disability to read as follows: Total and permanent disability means a condition of a participant resulting in a determination by the Social Security Administration that such participant has become totally disabled.

Engineered Air Systems, Inc. Pension Plan

Participant Vesting

Effective April 30, 2003, Engineered Air Systems, Inc. froze the participant's accrued benefits at the amount that the participant had accrued under the provisions of the Engineered Air Systems, Inc. Pension Plan as of that date. This resulted from a manufacturing facility consolidation, which closed the plant at Engineered Air Systems, Inc. At the time of the plant closing, any participant who had not terminated service on that date became fully vested in his or her accrual benefit.

Pension Benefits

Participants are eligible for monthly benefit payments upon reaching the normal retirement age of 65. Monthly benefit payments are determined by multiplying years of pension-credited service by the rate in effect when the employee was terminated.

Participants are able to elect, after attaining age 60 with 10 years of pension-credited service, to begin receiving benefits based on Plan Documents. The Plan Documents also contained provisions for postponed retirement, death, disability and automatic survivor benefits.

DRS CONSOLIDATED RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

Death And Disability Benefits

If a participant died after becoming vested, the participant's surviving spouse was entitled to a survivor life annuity equal to the annuity which would have been payable to the surviving spouse under an Automatic Survivor Benefit, commencing on the date the participant would have become eligible for a retirement benefit had the participant lived.

Active participants who became totally disabled after completion of 15 years of pension-credited service received monthly disability benefits. Disability benefits were paid until the participant ceased to be disabled, as defined by the Plan Documents, died, or reached age 65, whichever occurred first.

Systems & Electronics, Inc. Retirement Plan

Participant Vesting

Effective September 20, 2007, Systems & Electronics, Inc. froze the participants' accrued benefits at the amount that each participant had accrued under the provisions of the Systems & Electronics Inc. Retirement Plan. As of that date, no further compensation or pension credited service was recognized. Employees hired on or after January 1, 2005 were not eligible to participate. Employees who were hired and first performed an hour of service prior to January 1, 2005 continued to be eligible to participate. Eligible participants became fully vested in benefits, after accumulating five years of pension-credited service.

Pension Benefits

Participants are eligible for monthly benefit payments upon reaching the normal retirement age of 65. Monthly benefit payments are determined by application of a benefit rate, as set forth by the Plan Documents, multiplied by the number of years of pension-credited service.

Participants may have elected, after attaining age 55 with 10 years of pension-credited service, to begin receiving early retirement benefits provided under the terms of the Plan Documents. The Plan Documents also contained provisions for postponed retirement, death, disability and automatic survivor benefits.

Death And Disability Benefits

If a participant died after becoming vested, the participant's surviving spouse or other designated beneficiary shall be paid a survivor annuity for the life of the designated beneficiary equal to 50% of the participant's retirement benefit commencing on the date the participant would have become eligible for a retirement benefit had the participant continued living.

DRS CONSOLIDATED RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

Active employees who became disabled after completing 15 years of pension-credited service receive a monthly disability benefit of \$100 per month. Disability benefits are paid until the participant ceased to be disabled, as defined by the Plan Documents, died or reached normal retirement age, whichever came first. A disabled participant's retirement benefit was computed as though the participant had been employed from the date of disability through normal retirement age using the same annual compensation rate the participant had been earning at the date of disability.

Funding Policy

The Company funds the entire cost of the Plan by contributing actuarially determined amounts to a trust fund, from which benefits are paid. No employee contributions are required or permitted. The Plan was in compliance with applicable ERISA minimum funding requirements for the Plan years ended December 31, 2022 and 2021.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein for the reported period. Actual results could differ from those estimates.

Valuation Of Investments And Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of financial instruments measured at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Net change in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

DRS CONSOLIDATED RETIREMENT PLAN

Notes To Financial Statements *(Continued)*

Payment Of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan Documents. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits.

Actuarial Present Value Of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants with vested rights or their beneficiaries, (b) beneficiaries of vested participants who have died and (c) present employees or their beneficiaries based on service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by the Plan's consulting actuaries. The amount is the result of applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2022 are as follows:

Interest Rate	7%
Mortality	Base table: Amounts-weighted aggregate rates from the Pri-2012 mortality study with blue collar adjustment (SEI Retirement - white collar adjustment) Projection: Mortality rates are projected generationally from 2012 using Scale MP-2021
Retirement	Age 65 (DRS Network and Imaging Systems Pension Plan) Age 63 for Engineered Air Systems, Inc. and Systems & Electronics, Inc.

DRS CONSOLIDATED RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

As of January 1, 2022, the mortality table changed from the RP-2006 Employee Healthy Annuitant Table projected using Scale MP2016 with blue-collar adjustment (SEI Retirement white-collar adjustment) used in the January 1, 2021 valuation.

The foregoing assumptions are based on the presumption that the Plan will continue. Actual results may differ from assumptions used. Furthermore, were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

A summary of the actuarial present value of accumulated plan benefits as of January 1, 2022 is as follows:

Actuarial Present Value Of Accumulated Plan Benefits	
Vested Benefits	
Participants currently receiving payments	\$ 39,567,695
Other participants	<u>17,760,399</u>
	57,328,094
Nonvested Benefits	<u>180,007</u>
Total Actuarial Present Value Of Accumulated Plan Benefits	<u><u>\$ 57,508,101</u></u>

The changes in the actuarial present value of accumulated plan benefits during the valuation year ended January 1, 2022 are as follows:

Actuarial Present Value Of Accumulated Plan Benefits - Beginning Of Year	<u>\$ 60,052,673</u>
Increases (Decreases) During The Year:	
Benefit payments	(4,192,058)
Assumption changes	(1,224,430)
Interest	4,059,447
Actuarial changes	<u>(1,187,531)</u>
Net Decrease	<u>(2,544,572)</u>
Actuarial Present Value Of Accumulated Plan Benefits - End Of Year	<u><u>\$ 57,508,101</u></u>

Subsequent Events

Management has evaluated subsequent events through the date, which the financial statements were available for issue, which is the date of the Independent Auditors' Report.

3. Certified Investment Information

The Plan's investment information as of December 31, 2022 and 2021, and for the years then ended, included throughout the financial statements, that was prepared by or derived from information certified by The Bank of New York Mellon (Bank of New York), and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Bank of New York that the information provided to the Plan Administrator related to the following information is complete and accurate.

Accordingly, as permitted by CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets as of December 31:

	<u>2022</u>	<u>2021</u>
Plan interest in Leonardo DRS, Inc. Retirement Plans Master Trust	\$ 51,013,722	\$ 67,585,722

Bank of New York also certified to the completeness and accuracy related to the following investment income (loss) for the years ended December 31:

	<u>2022</u>	<u>2021</u>
Plan interest in Leonardo DRS, Inc. Retirement Plans Master Trust investment income (loss)	\$ (12,668,171)	\$ 6,693,624

4. Investment In Master Trust

The Plan's investments are held in the Leonardo DRS, Inc. Retirement Plans Master Trust (Master Trust) that was established for the investment of assets of the Plan and other Company-sponsored retirement plans. Each plan has a sub-account under the Master Trust. The Plan may invest in any or all of the investments in the Master Trust. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the Master Trust.

Financial information relating to the investments in the Master Trust is included in the financial statements and is based on the information certified by Bank of New York. This information, which has not been audited by the Plan's independent auditors, has been certified by Bank of New York as complete and accurate.

DRS CONSOLIDATED RETIREMENT PLAN

Notes To Financial Statements (Continued)

Accordingly, as permitted by CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements related to the following Master Trust assets as follows as of December 31:

Net Assets Available For Benefits - End Of Year	\$ 124,365,181	\$ 165,125,330

5. Fair Value Measurements

The Master Trust utilizes an accounting standard for certain financial assets and liabilities. This standard defines fair value, establishes a framework for measuring fair value in accordance with U.S. generally accepted accounting principles and expands disclosures about fair value measurements. The standard also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The standard requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets; |

DRS CONSOLIDATED RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value:

Collective Trust Funds And Cash Equivalent

Valued at the net asset value per share/unit (NAV), as provided by the trustee. NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The method described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan and the Master Trust believe the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments in collective trust funds and cash equivalent are measured at fair value using the net asset value per share (or its equivalent) practical expedient, and therefore, have not been classified in the fair value hierarchy.

Fair Value Of Investments In Entities That Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2022 and 2021:

Investment Type	Fair Value		Unfunded Commitments	Redemption Frequency	Redemption Notice Period
	2022	2021			
Collective trust funds	\$ 121,693,870	\$ 161,504,109	None	Daily	None
Cash equivalent (1)	2,662,941	3,621,189	None	Daily	None
	<u>\$ 124,356,811</u>	<u>\$ 165,125,298</u>			

- (1) The investment objective is to seek as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

There have been no changes in the valuation methodology used at December 31, 2022 or 2021.

6. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits, if applicable, in the order indicated:

- (a) The minimum benefits payable under the Plan to participants who began receiving benefits at least three years before the Plan termination, based on Plan provisions in effect at any time during the five years prior to termination.
- (b) The minimum benefits payable under the Plan which would have been received by participants or their beneficiaries at least three years before the Plan termination if the participant had retired more than three years before the Plan termination and if benefits had commenced (normal retirement benefits under the Plan) at that time, based on Plan provisions in effect at any time during the five years prior to termination.
- (c) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, up to the applicable limitations (discussed below).
- (d) All other nonforfeitable benefits.
- (e) All other benefits.

DRS CONSOLIDATED RETIREMENT PLAN

Notes To Financial Statements (*Continued*)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the terms of the collective bargaining agreements and the provisions set forth in ERISA.

7. Risks And Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Transactions With Parties In Interest

As of December 31, 2022 and 2021, the Master Trust invests in collective trust funds managed by Aon Hewitt Investment Company, the Plan's record-keeper.

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. The Plan also reimbursed the Company, pursuant to a mutual understanding and agreement, for direct expenses associated with the payment of PBGC insurance premiums for the Plan.

DRS CONSOLIDATED RETIREMENT PLAN

Notes To Financial Statements *(Continued)*

These transactions are permissible party in interest transactions under ERISA.

9. Tax Status

The Plan obtained its latest determination letter on March 18, 2016, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Benefit

The accrued benefit at the time of termination is payable at age 65. If, at termination, the participant has at least 10 years of Pension Credited Service but not the age requirement for early retirement, the participant may elect to receive the benefit at age 55 and such benefit shall be subjected to the same reduction as Early Retirement Benefit.

Preretirement Spouse's Benefit
Eligibility

Spouses or designated beneficiaries of active participants who die after becoming vested and spouses or designated beneficiaries of vested terminated participants who die before benefits commence. Qualified election of nonspouse beneficiary is required if participant is married.

Benefit

The participant's spouse is provided with a lifetime monthly benefit payable at the participants Normal Retirement Date if the participant had 5 years of Vesting Service at the time of death.

- (1) If the participant dies before his earliest retirement date, the Pre-retirement Death Benefit will be determined as if he had elected a Qualified Joint and Survivor Annuity, terminated employment on the date of his death, survived to his earliest retirement date, retired and died the following day. Benefits may begin as early as the first day of the month in which the participant would have been eligible to retire. If the participant dies before age 40 and has 10 years of Pension Credited Service, the surviving spouse may elect, in lieu of the benefit determined above, a monthly benefit payable immediately equal to 40% of the participant's Normal Retirement benefit, determined as of the date of death, until the earliest of 10 years, remarriage or death.

- (2) If the participant dies after meeting the eligibility requirements for retirement, but before benefits begin, the benefit will be determined as if he had retired on the day before his death and elected the Qualified Joint and Survivor Annuity form of payment. Benefits begin on the first day of the month following the month of participant's death.

Vesting Service

One year for each calendar year during which the participant completes at least 1,000 hours.

Credited Service

One year for each calendar year during which the participant completes at least 1,000 hours.

Normal Form of Benefit

Life annuity with a 5 year certain, if single; 50% joint and survivor annuity, if married

Optional Forms of Benefits Payments

50%, 66⅔%, 75% or 100% Joint and Survivor Annuity.

Small Pensions Benefits with an actuarial present value of less than \$1,000 are paid by the Plan committee in the form of a lump sum without the participant's consent.

EASI (cont'd)

Benefit

The participant may elect a monthly survivor benefit payable to his spouse upon his death after attaining eligibility for a vested benefit. The benefit payable is 50% of the participant's reduced 50% joint and survivor pension based upon Credited Service to date of death and beginning at the time when the participant would have reached his early retirement date. The participant's pension is reduced by $\frac{1}{2}$ of 1% for each year during which the option is in effect.

A lump sum death benefit equal to \$3,000 is payable if the retired participant dies within the calendar month after the month during which his group term life insurance coverage terminates. If death occurs after this period, the benefit is reduced 2% each month to a minimum death benefit of \$1,000. If death occurs while the Company's group term life insurance is still in effect, there is no plan benefit.

SSI Retirement (cont'd)

Benefit

The accrued benefit at the time of termination is payable at age 65. If, at termination, the participant has at least 10 years of Pension Credited Service but not the age requirement for early retirement, the participant may elect to receive the benefit at age 55 and such benefit shall be subjected to the same reduction as Early Retirement Benefit.

Preretirement Spouse's Benefit
Eligibility

Spouses or designated beneficiaries of active participants who die after becoming vested and spouses or designated beneficiaries of vested terminated participants who die before benefits commence. Qualified election of nonspouse beneficiary is required if participant is married.

Benefit

The participant's spouse is provided with a lifetime monthly benefit payable at the participants Normal Retirement Date if the participant had 5 years of Vesting Service at the time of death.

- (1) If the participant dies before his earliest retirement date, the Pre-retirement Death Benefit will be determined as if he had elected a Qualified Joint and Survivor Annuity, terminated employment on the date of his death, survived to his earliest retirement date, retired and died the following day. Benefits may begin as early as the first day of the month in which the participant would have been eligible to retire. If the participant dies before age 40 and has 10 years of Pension Credited Service, the surviving spouse may elect, in lieu of the benefit determined above, a monthly benefit payable immediately equal to 40% of the participant's Normal Retirement benefit, determined as of the date of death, until the earliest of 10 years, remarriage or death.

Benefit

The participant may elect a monthly survivor benefit payable to his spouse upon his death after attaining eligibility for a vested benefit. The benefit payable is 50% of the participant's reduced 50% joint and survivor pension based upon Credited Service to date of death and beginning at the time when the participant would have reached his early retirement date. The participant's pension is reduced by $\frac{1}{2}$ of 1% for each year during which the option is in effect.

A lump sum death benefit equal to \$3,000 is payable if the retired participant dies within the calendar month after the month during which his group term life insurance coverage terminates. If death occurs after this period, the benefit is reduced 2% each month to a minimum death benefit of \$1,000. If death occurs while the Company's group term life insurance is still in effect, there is no plan benefit.
