Independent Auditor's Report

To the Occidental Petroleum Corporation Pension and
Retirement Plan Administrative Committee of
Occidental Petroleum Corporation Savings Plan
Houston, Texas

Opinion

We have audited the financial statements of Occidental Petroleum Corporation Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years ended December 31, 2022 and 2021, in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued (or when applicable, one year after the date that the financial statements are available to be issued).

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

The Occidental Petroleum Corporation Pension and
Retirement Plan Administrative Committee of
Occidental Petroleum Corporation Savings Plan

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplementary Information Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the table of contents as of and for the year ended December 31, 2022 is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

OCCIDENTAL PETROLEUM CORPORATION
SAVINGS PLAN
Notes to Financial Statements
December 31, 2022 and 2021

(1) Description of the Plan

The following description of the Occidental Petroleum Corporation Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan generally available to certain employees of Occidental Petroleum Corporation (Oxy, or the employer), a Delaware corporation, and participating subsidiaries (collectively, the Company).

The Plan is intended to be a tax-qualified plan containing a qualified cash or deferred arrangement and employee stock ownership plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

(b) Plan Administration

The Plan is administered by the Pension and Retirement Trust and Investment Committee as to investment decisions and by the Pension and Retirement Plan Administrative Committee as to all matters except investment decisions (these two committees are herein referred to collectively as the Committees). The Plan document provides that a fiduciary appointment officer has sole authority to appoint, remove, and monitor members of the Committees. The Committees have been given all powers necessary to carry out their respective duties, including, but not limited to, the power to administer and interpret the Plan and to answer all questions affecting eligibility of participants. Bank of New York Mellon Trust Company N. A. (the Trustee) is the trustee and custodian of the trust fund, which holds all of the assets of the Plan.

(c) Contributions

Participant Contributions – Each year, participants may contribute up to the maximum contribution percentage of compensation to the Plan on a before- or after-tax basis, or in any combination thereof, subject to certain Internal Revenue Code (IRC) limitations. For 2022 and 2021, the employee contribution percentage limits were 30% for non-Highly Compensated Employees and 15% for Highly Compensated Employees. Participants age 50 or older by the end of the Plan year were permitted to contribute additional before-tax catch-up contributions to the Plan up to $6,500 for 2022 and 2021. The Plan permits Roth contributions and in-plan Roth rollover contributions.

Newly eligible participants who do not affirmatively elect to opt out of making contributions are automatically enrolled in the Plan with a before-tax contribution amount of 5% of base pay.

Employer Matching Contributions – The employer matching contributions for non-collectively bargained employees is an amount equal to 200% of a participant's contribution up to the first 2% of eligible compensation, and 100% of the next 3% of eligible compensation. Certain collectively bargained employees also fall under this matching formula, as negotiated by their respective unions. Other collectively bargained employees received employer matching contributions between 85% and 100%, as negotiated by their respective unions, up to the first 6% of eligible compensation that a participant contributes to the Plan. All employer contributions are invested in the Oxy Stock Fund. All vested participants may elect to transfer their employer matching contributions to other investment funds.

The Plan allows active employees who are eligible to participate in the Plan to roll over into the Plan all or part of the taxable money received in an eligible rollover distribution from another employer's tax-qualified retirement plan.

(d) Participant Accounts

All participant contributions and the earnings thereon are allocated to each participant's accounts and are invested in accordance with the participant's investment elections in accordance with Section 404(c) of ERISA. Participants who do not make an investment election are automatically enrolled in the Plan's qualified default investment alternative.

Each participant's account is credited with the participant's elected contribution, the employer's respective matching contribution, and allocations of the respective fund's investment income and losses, and investment manager fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants are vested immediately in their contributions and employer matching contributions, plus actual earnings thereon. Participants are also fully vested in dividends paid on the portion of their employer matching contributions invested in the Oxy Stock Fund.

(f) Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of (i) $50,000 reduced by the highest outstanding principal loan balance during the preceding 12 months, if any; (ii) 50% of their vested account balance; or (iii) an amount that would require monthly payroll deductions for repayment not greater than 25% of the participant's monthly base compensation. Loan terms may range from one to five years for general purpose loans and six to ten years for primary residence loans. The maturity dates on currently outstanding notes receivable from participants range from January 2023 to December 2032. The loans are secured by the balance in the participant's account at the time the loan is approved. Loan interest rates are fixed on first day of the month prior to the calendar month in which the loan is funded and rates are reasonable compared to similar loans issued by other lenders, in accordance with the Plan. Interest rates ranged from 3% to 9% on loans outstanding as of December 31, 2022 and from 3% to 7% on loans outstanding as of December 31, 2021. Principal and interest are paid ratably through payroll deductions.

(g) Distributions

Generally, on termination of service, participants may elect to receive the vested portion of their account balance under one of the distribution options allowed by the Plan. Participants may elect to receive distributions from their vested account balance in the Oxy Stock Fund in cash or in shares of Oxy common stock.

Pursuant to the CARES Act, effective April 21, 2020 the Plan adopted the provisions of the CARES Act that allowed for qualified individuals to make a Coronavirus-Related Distribution (CRD) of up to $100,000 beginning on or after January 1, 2020 and before December 31, 2020. Participants have up to three years to repay the CRD. The portion of a CRD that is not repaid by a participant will be taxable income to the participant, but the 10% early withdrawal penalty is waived.

(h) Forfeited Accounts

Forfeited nonvested accounts are used to pay reasonable costs of administering the Plan and reduce employer contributions. At December 31, 2022 and 2021, the balance of forfeited nonvested accounts was not material. Increases to the forfeiture account balance are primarily related to nonvested account balances of previously terminated participants and the forfeiture of unclaimed benefits, in accordance with the Plan document. These amounts are expected to be used to reduce future contributions, or reinstate account balances if such participants are located.

During 2022 and 2021, no forfeitures were used to reduce employer contributions.

(i) Expenses

Certain administrative fees are paid by participants through their Plan accounts. Other expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

(b) Use of Estimates

The process of preparing financial statements in conformity with United States generally accepted accounting principles (U.S. GAAP) requires management to make informed estimates and judgments regarding certain types of financial statement balances and disclosures. Changes in facts and circumstances or discovery of new information relating to such transactions and events may result in revised estimates and judgments and actual results may differ from estimates upon settlement but generally not by material amounts. Management believes that these estimates and judgments provide a reasonable basis for the fair presentation of the Plan's financial statements.

(c) Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, with the exception of fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements. See Note 4 for a discussion of contract value investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest and classified as a note receivable in the accompanying statements of net assets available for benefits. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan.

(f) Reclassifications

Certain amounts in prior years have been reclassified to conform to the current year's presentation.

(3) Fair Value Measurements

Plan assets are measured at fair value, based on the priorities of the inputs to valuation techniques used to measure fair value, in a three-level fair value hierarchy: Level 1 – using quoted prices in the active markets for identical assets or liabilities; Level 2 – using observable inputs other than quoted prices for identical assets or liabilities; and Level 3 – using unobservable inputs. Transfers between levels, if any, are recognized at year end.

The following is a description of the valuation methodologies used for the Plan assets that are measured at fair value:

(a) Common Stocks and Preferred Stocks

Common stocks and preferred stocks are valued at the closing price reported on the active market on which the individual securities are traded.

(b) Mutual Funds

Generally, mutual funds are valued at the net asset value (NAV) of the shares held by the Plan. If publicly registered, the value of the mutual fund can be obtained through quoted market prices in active markets.

(c) Short-Term Investment Fund

The short-term investment fund is valued at the NAV of the shares held by the Plan.

(d) Common/Collective Trusts

The common/collective trusts are valued at the NAV of the units provided by the fund issuer. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less liabilities. At December 31, 2022 and 2021, there were no redemption restrictions on these investments.

(e) Corporate Bonds

Corporate bonds are valued using quoted market price when available. If quoted market prices are not observable, corporate bonds are valued using pricing models with market observable inputs from both active and non-active markets.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021 (amounts in thousands). The tables do not include the Plan's interest in master trust accounts presented in separate individual tables (see Note 6).

(4) Guaranteed Investment Contracts Master Trust Account

The Plan invests in a Guaranteed Investment Contracts (GIC) Master Trust Investment Account, managed by Invesco (GIC MTIA). The account's key objectives are to provide daily liquidity at contract value for participant withdrawals and transfers in accordance with the provisions of the Plan. To accomplish these objectives, the GIC MTIA invests primarily in wrapper contracts also known as synthetic GICs.

Because the synthetic GICs are fully benefit-responsive, contract value is the relevant measure for the GIC MTIA. Contract value, as reported to the Plan by Invesco, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value for the synthetic GICs is determined based on the fair value of the underlying assets, which consist of various fixed income common/collective trusts.

Crediting interest rate resets are applied to specific investment contracts, as determined at the time of purchase. The reset values for security-backed investment interest rates are a function of contract value, market value, yield, and duration. General account investment rates are based on a predetermined index rate of return plus a fixed-basis point spread. The relationship of future crediting interest rates and the adjustment to contract value reported on the statement of net assets available for benefits is provided through the mechanism of the crediting interest rate formula. The difference between the contract value

and the fair market value of the investments of each contract is periodically amortized into each contract's crediting interest rate. The key factors that influence future crediting interest rates for the synthetic GIC and the wrapper contracts include, but are not limited to, the level of market interest rates, the Plan cash flow, the investment returns generated by the fixed income investments that back the contract or the duration of the underlying investments backing the contract.

The following represents the disaggregation of contract value between types of investment contracts held by the Plan (amounts in thousands):

	As of December 31,	
	2022	2021
Short-term investment fund	$ 17,170	$ 8,936
Synthetic guaranteed investment contracts:		
Common/collective trusts	454,367	419,311
Total synthetic guaranteed investment contracts	454,367	419,311
Total investments	$ 471,537	$ 428,247

The Plan's ability to receive amounts due is dependent on the contract issuer's ability to meet its financial obligations. The contract issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

There are certain events not initiated by participants that limit the ability of the GIC MTIA to transact with the contract issuer at contract value. These events include, but are not limited to: (i) termination of the Plan, (ii) company election to withdraw from a contract in order to change investment provider, and (iii) termination of a contract upon short notice due to the loss of the Plan's qualified status or material and adverse changes to the Plan's provision. The Committees are not aware of any such event being contemplated at this time.

In addition, certain events allow the contract issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include, but are not limited to: (i) a breach of material obligation under the contract, (ii) a material misrepresentation, and (iii) a material amendment to the agreement without the consent of the contract issuer.

(5) Oxy Stock Fund

The Oxy Stock Fund is a unitized stock fund which includes shares of Oxy's common stock, valued at quoted market price, and may also include interest earning cash.

Information regarding the net assets and the significant components of the changes in net assets relating to the Oxy Stock Fund, which includes both participant-directed and non-participant-directed investments, is as follows (amounts in thousands):

	As of December 31,	
	2022	2021

(6) Plan Interest in Master Trust Accounts

The Plan participates in the Occidental Petroleum Corporation Defined Contribution Plan Master Trust (DCP Master Trust), which invests in various funds that are available to participants including Target Date Funds, Index Funds, and Active Funds. The Plan and the Oxy Retirement Plan each own an undivided interest in the DCP Master Trust.

During 2022 and 2021, the Plan also invested in the following Master Trust Investment Accounts (MTIA): a synthetic GIC fund managed by Invesco (GIC MTIA), a small cap equity fund managed by Alliance Bernstein Institutional Investment Management (Bernstein MTIA), and a separate international growth fund managed by Baillie Gifford (Baillie Gifford MTIA). The Plan and the Oxy Retirement Plan each own an undivided interest in the GIC MTIA. The Plan and the Oxy Master Retirement Trust each own an undivided interest in the Bernstein MTIA. The Plan, the Oxy Retirement Plan, and the Oxy Master Retirement Trust each own an undivided interest in the Baillie Gifford MTIA.

The following table presents the Plan interest in each master trust account (amounts in thousands):

The Baillie Gifford MTIA participates in the Trustee's Securities Lending Program (the Securities Lending Program) for its U.S. securities held in custody at the Trustee. Under the Securities Lending Program, these securities are loaned by the Trustee to third-party broker-dealers in exchange for collateral (primarily cash), in compliance with the Department of Labor's collateral requirements. The collateral is at least 102% of the fair value of the borrowed securities. The cash received as collateral is invested in the Trustee's Institutional Cash Reserves Fund, which is a short-term investment fund, or the Trustee's Overnight Government Fund, which is an overnight government reverse repurchase investment fund.

The fair value of the Baillie Gifford MTIA securities loaned was approximately $6,699,000 and $3,249,000 at December 31, 2022 and 2021, respectively. Cash collateral of approximately $7,053,000 and $3,431,000 was held at December 31, 2022 and 2021 respectively, with an offsetting liability. Income earned during 2022 and 2021 was approximately $5,000 and $49,000, respectively, net of bank fees of approximately $3,000 and $27,000 respectively. This income is included as interest income for the Baillie Gifford MTIA.

The Baillie Gifford MTIA uses foreign currency derivatives to reduce foreign currency risk. The Baillie Gifford MTIA did not designate these swaps as hedging instruments. Approximately $27,000 and $7,000 net loss from these derivatives were recognized in net depreciation for the year ended December 31, 2022 and 2021, respectively.

There were no foreign currency swap contracts outstanding as of December 31, 2022. The following table shows the notional amount and fixed weighted average contract rate of foreign currency swap contracts outstanding as of December 31, 2021 (dollar amounts in thousands).

The Baillie Gifford MTIA's foreign currency swaps outstanding at December 31, 2021 settled in January 2022. The Baillie Gifford MTIA's derivative instruments did not require collateral by either party. All of the Baillie Gifford MTIA's derivative transactions were in the OTC market and as a result, were subject to counterparty credit risk to the extent the counterparty was unable to meet its settlement commitments. The Baillie Gifford MTIA's sole counterparty is the Bank of New York Mellon, a related party.

The Bernstein MTIA also participated in the Securities Lending Program for its U.S. securities held in custody at the Trustee to provide incremental income during the years ended December 31, 2022 and 2021. Details of the Securities Lending Program are discussed above.

The fair value of securities loaned was approximately $5,256,000 and $8,787,000 at December 31, 2022 and 2021, respectively. Cash collateral of approximately $5,403,000 and $9,305,000 was held at December 31, 2022 and 2021, respectively, with an offsetting liability. Income earned during 2022 and 2021 was approximately $7,000 and $5,000, respectively, net of bank fees of approximately $4,000 and $3,000, respectively. This income is included as interest income for the Bernstein MTIA.

(7) Related-Party Transactions

The Trustee and Oxy are parties in interest as defined by ERISA. The Trustee invests certain Plan assets in its Collective Short-Term Investment Fund and the Oxy Stock Fund. Such transactions qualify as party-in-interest transactions permitted by the Department of Labor regulations. Oxy paid approximately $663,000 and $750,000 on behalf of the Plan to various vendors for the Plan's administrative expenses during 2022 and 2021, respectively.

(8) Plan Termination

Although it has not expressed any intent to do so, Oxy has the right under the Plan's provisions to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(9) Tax Status

The Internal Revenue Service (IRS) has determined and informed Oxy, by a letter dated September 25, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Committees, using their judgment and the advice of their advisors, believe that the Plan is currently designed and operating in a manner that preserves its tax-qualified status, with the exceptions of certain immaterial operational errors that have been, or are being, remedied in compliance with applicable programs of the IRS or the Department of Labor.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

(10) Risks and Uncertainties

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. Risks associated with the Oxy Stock Fund include those disclosed by Oxy in its annual report on Form 10-K filed with the U.S. Securities and Exchange Commission and its other public filings and disclosures.

Additionally, some mutual funds invest in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than similar types of securities of comparable U.S. companies.

Certain derivative financial instruments are used by the Plan's equity and fixed-income investment managers to remain fully invested in the asset class and to hedge currency risk.

As of December 31, 2022 and 2021, approximately 26% and 14%, respectively, of total Plan investments were invested in shares of Oxy common stock.

The Plan Sponsor's operations, financial condition, cash flows and levels of expenditures are highly dependent on oil prices and, to a lesser extent, NGL and natural gas prices, the Midland-to-Gulf-Coast oil spreads, chemical product prices and inflationary pressures in the macro-economic environment. The average WTI price per barrel for the three months ended March 31, 2023 was $76.13, compared to $82.65 for the three months ended December 31, 2022. Oil prices decreased in the first quarter of 2023 as inflation and economic concerns signaled a potential decrease in energy demand, despite the ongoing global impact of the Russia-Ukraine war. It is expected that the price of oil will be volatile for the foreseeable future given the current geopolitical risks, evolving macro-economic environment that impacts energy demand, future actions by OPEC and non-OPEC

oil producing countries and the Biden Administration's management of the U.S. Strategic Petroleum Reserve. Occidental works to manage inflation impacts by capitalizing on operational efficiencies, locking in pricing on longer-term contracts and working closely with vendors to secure the supply of critical materials. As of March 31, 2023, substantially all of Occidental's outstanding debt is fixed rate.

(11) Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 to be filed by October 16, 2023 (amounts in thousands):
