INDEPENDENT AUDITORS' REPORT

To the Pension Committee and the Participants of the Continental NA Automotive Union Pension Plan (Huntsville):

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the financial statements of the Continental NA Auto Union Pension Plan (Huntsville) (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2022 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section:

- The amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with generally accepted accounting principles in the United States of America ("GAAP").
- The information in the accompanying 2022 financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with generally accepted auditing standards in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2022 Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of and for the year ended December 31, 2022 (the "ERISA-required supplemental schedules") are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the ERISA-required supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the ERISA-required supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the ERISA-required supplemental schedules, we evaluated whether the ERISA-required supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the ERISA-required supplemental schedules, other than the information in the ERISA-required supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the ERISA-required supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2021 Financial Statements

We have audited the 2021 financial statements, and in our report dated October 10, 2022, we expressed an unmodified opinion on those 2021 financial statements.

Emphasis of Matter - 2021 Financial Statements Restated

As discussed in Note 10 to the financial statements, the 2021 financial statements have been restated to correct a misstatement. Our opinion is not modified with respect to this matter.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Assumptions for January 1, 2022 Funding Valuation****Discount rate sponsor elections**

• Segment rates or full yield curve	Segment		
• Look-back months	4		
	<u>Stabilized</u>	<u>Nonstabilized</u>	
• First 5 years	4.75%	1.07%	
• Next 15 years	5.18%	2.68%	
• Over 20 years	5.92%	3.36%	

Mortality sponsor elections

• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2006 mortality tables with IRS developed adjustments and projected with mortality improvement scale MP-2020.
• Pre-1995 disabilities	Revenue Ruling 96-7 table for participants who became disabled before 1995
• Post-1994 disabilities	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits

Other economic assumptions

• Expected investment return	4.00% per year for calendar year 2020, 2.75% per year for calendar year 2021 and 2022
• Expenses	\$151,000 added to current year normal cost

Rationale for Significant Economic Assumptions

- Expected investment return – The expected rate of return on plan assets is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 8 bps for investment expenses assumed to be paid from plan assets.
- Expenses – Equal to prior year's actual administrative expense rounded to nearest \$1,000, adjusted for increase in anticipated PBGC premiums.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Demographic assumptions**

• Benefit commencement age for		
– Current vested deferred	65	
• Spouse assumptions	<u>Male participants</u>	<u>Female participants</u>
– Percentage married	75%	50%
– Spouse age difference	3 years younger	3 years older
Form of payment	<u>Single life</u>	
• Current vested deferred	100%	
Unpredictable contingent event assumptions	Not applicable	

Rationale for Significant Demographic Assumptions

- The form of payment assumption is based on the experience study *Continental Automotive, Inc. Pension Plans Actuarial Assumptions Review* report dated December 21, 2015 using data from 2012 through 2014 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- The benefit commencement age assumption is based on the plan's lack of early retirement subsidy that suggests terminated participants will defer commencement until age 65.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods for Funding****Asset Methods**

The asset valuation method is an average of the adjusted market value for each month during the last 6 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all participants as of the valuation date.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

The following assumption changes have occurred since the January 1, 2021 valuation:

- The expense component of normal cost decreased from \$175,000 to \$151,000 to reflect our expectations for the current plan year.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2015 including the First Amendment, are included in this valuation:

- **Most recent plan amendments included:** First Amendment effective September 1, 2017
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* Not applicable
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Additional Benefits Included or Excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits: This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.*
 - *Plan amendments: See above*
 - *Prohibited payments: Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.*
 - *Benefit accruals: The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.*
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

INDEPENDENT AUDITORS' REPORT

To the Pension Committee and the Participants of the Continental NA Automotive Union Pension Plan (Huntsville):

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the financial statements of the Continental NA Auto Union Pension Plan (Huntsville) (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2022 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section:

- The amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with generally accepted accounting principles in the United States of America ("GAAP").
- The information in the accompanying 2022 financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with generally accepted auditing standards in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2022 Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of and for the year ended December 31, 2022 (the "ERISA-required supplemental schedules") are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the ERISA-required supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the ERISA-required supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the ERISA-required supplemental schedules, we evaluated whether the ERISA-required supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the ERISA-required supplemental schedules, other than the information in the ERISA-required supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the ERISA-required supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2021 Financial Statements

We have audited the 2021 financial statements, and in our report dated October 10, 2022, we expressed an unmodified opinion on those 2021 financial statements.

Emphasis of Matter - 2021 Financial Statements Restated

As discussed in Note 10 to the financial statements, the 2021 financial statements have been restated to correct a misstatement. Our opinion is not modified with respect to this matter.

CONTINENTAL NA AUTOMOTIVE UNION PENSION PLAN (HUNTSVILLE)

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

1. DESCRIPTION OF PLAN

The following description of the Continental NA Automotive Union Pension Plan (Huntsville) (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a noncontributory defined benefit plan sponsored by Continental Automotive, Inc. (the "Employer") that covers certain employees of the Huntsville facility, as defined in the plan document. Effective February 26, 2011, the Huntsville plant was closed. As a result of the plant closing all benefits in the Plan were frozen effective the closing date. Future benefit obligations will be paid according to the plan document as of the closing date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Master Trust - The assets of the Plan are maintained, for investment purposes only, on a commingled basis with the assets of the Pension Plan for Hourly-Paid Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Pension Plan for Salaried Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Continental NA Pension Plan, and the ContiTech USA, Inc. Defined Benefit Plan (collectively, the "Participating Plans") in the Continental Automotive, Inc. Master Trust (the "Master Trust"). These plans own specific assets of the Master Trust. Investment earnings for each plan is allocated based on the ownership interest of the specific assets of each plan in the Master Trust.

Funding Policy - The Plan's funding policy is for the Employer to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. For the years ended December 31, 2022 and 2021, no contributions were necessary in order for the Plan to meet the annual ERISA minimum funding requirement.

Pension Benefits - Participants with one or more years of credited service are entitled to monthly pension benefits beginning at the normal retirement age of 65. Participants who lose seniority under the labor agreement prior to age 65 and have 5 or more years of credited service (and are not eligible for early retirement or other plan benefits) or lose seniority after the later of age 65 or the fifth anniversary of their participation in the Plan are vested in a deferred pension service which was earned prior to April 1, 2004 and counted for vesting purposes. The monthly normal retirement benefit, payable for life, is based on a dollar amount that is assigned to the participant's benefit class code (as defined in the plan document) multiplied by the participant's number of years of credited service. Only service credited after March 31, 2004 is counted in calculating the monthly pension amount.

For a deferred pension benefit, the former employee can elect to start his or her benefit at the earlier of age 65 (computed using the normal retirement formula described above using the number of years of credited service as of the date he or she lost seniority), age 60 (computed using the benefit formula described above with a reduction equal to 5/9 of 1% multiplied by the number of months by which the participant is less the age of 65 at the date his/her pension commences), or at the attainment of ages 55 through 60 if the combined age and years of credited service add up to 85 or more (computed using the benefit formula described above multiplied by a percentage specified in the plan document which is based on the participant's age when his or her pension commences, and ranges from between 42.5% at age 55 to 66.7% at age 60).

The Plan provides an early retirement benefit to participants who are: (a) age 60 to 64 with 10 years or more years of credited service, (b) age 55 to 59 with a combined age and years of credited service adding up to 85 or more, or (c) less than age 55 with at least 30 years of credited service. Service accrued prior to April 1, 2004 is counted in determining eligibility for early retirement. Only service credited after March 31, 2004 is counted in computing the monthly pension amount. The early retirement benefit amount is the sum of the basic pension amount computed as the normal retirement benefit using credited service up to the participant's early retirement date multiplied by an early retirement percentage specified in the plan document (this percentage, which is based on the participant's age when his or her pension commences, ranges from between 21% at age 42 to 100% at age 62 or older). If the participant retires early with 30 or more years of credited service or 85 or more points, the early retirement benefit amount is the sum of: (i) the basic pension amount is recalculated after the participant attains age 62 and one month, with no reduction for commencing benefits prior to age 62 and one month), (ii) an early retirement supplement (which is paid to participants with 30 or more years of credited service prior to the attainment of age 62 and one month), and (iii) an interim supplement (which is paid to participants with less than 30 years of credited service and prior to the attainment of age 62 and one month). The early retirement supplement is calculated as the difference between the total monthly benefit amount specified in the plan document, which is based on the benefit commencement date and the basic pension amount computed in (i) above. The interim supplement amount is calculated by multiplying the number of months of credited service times the appropriate interim supplemental rate (specified in the plan document) divided by 12. The early retirement supplement or interim supplement amounts are reduced or eliminated if the participant is entitled to receive Social Security benefits, becomes reemployed by the Employer, or if the total monthly pension payments paid by the Plan would exceed 70% of the participant's final base pay.

Death and Disability Benefits - If a participant with five or more years of service dies at age 55 or older, an immediate benefit is payable to the participant's surviving spouse in the form of a 50% joint and survivor annuity. If the participant's death occurs prior to age 55, spousal benefits commence on the first day of the month following the 55th anniversary of the participant's birth date unless the lump sum present value of such benefits is less than \$5,000, in which case the spouse is entitled to an immediate lump sum payment in lieu of future monthly payments.

If an active participant with 10 or more years of service becomes permanently and totally disabled, at any age, unreduced retirement benefits are payable for life or until permanent and total disability ceases. Disability recipients may elect to receive benefits under one of several actuarially equivalent forms of payment.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Concentration of Credit Risk - The Master Trust and the Plan place their temporary cash and cash equivalents with high credit quality financial institutions. At times, such cash may be in excess of the Federal Depository Insurance Corporation insurance limit. Management believes these financial institutions have strong credit ratings and that credit risk related to these deposits is minimal.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 4 for disclosure of fair value measurements.

Investments, and the income and losses therein, are allocated to the Participating Plans based on each plan's actual ownership amounts in the investment options within the Master Trust. Accordingly, the Plan's investment loss includes its allocable share of the Master Trust's (loss) income and net (depreciation) appreciation in fair value of investments.

The Plan's interest-bearing cash held outside of the Master Trust records purchases and sales of securities on a trade-date basis. Interest income is recorded on the accrual basis.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - The Plan's expenses are paid either by the Plan or by the Employer, as provided in the plan document. Expenses that are paid directly by the Employer are excluded from the accompanying financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Investment related expenses are included in the Plan's interest in the Master Trust's (loss) income in the accompanying statements of changes in net assets available for benefits.

Subsequent Events - Management has evaluated subsequent events through October 6, 2023, which is the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY TRUSTEES

The following is a summary of the Plan's asset information as of December 31, 2022, and for the year then ended, included in the financial statements and supplemental schedules, that was prepared by, or derived from, information prepared by State Street Bank & Trust Company ("State Street") and KeyBank National Association ("KeyBank"), the Trustees of the Plan, and furnished to the management. The management has obtained certifications from the Trustees that such information is complete and accurate as of and for the year ended December 31, 2022.

Assets:	
Plan interest in the Master Trust	\$ 21,234,888
Interest-bearing cash	\$ 138,233
Income (loss):	
Plan interest in the Master Trust's loss	\$ (5,148,720)
Interest income	\$ 383

4. FAIR VALUE MEASUREMENTS

GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust and the Plan have the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used by the Master Trust and the Plan for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trust are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

Government and corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issues with similar credit ratings.

Collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by State Street, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Interest-bearing cash and cash equivalents: Valued as of the ending cash balance plus any accrued interest held by the Master Trust and the Plan as of year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes the Master Trust's and the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022. The following table does not include the Plan's interest in the Master Trust because that information is presented in a separate table (Note 5).

5. INTEREST IN MASTER TRUST

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and investment earnings less actual distributions and administrative expenses. Investment earnings and administrative expenses for each plan are allocated based on the ownership interest of the specific assets of each plan in the Master Trust.

The following is a summary of the net assets of the Master Trust as of December 31, 2022 and 2021, and for the years then ended, that was prepared by, or derived from, information prepared by State Street and furnished to management.

6. RISKS AND UNCERTAINTIES

The Master Trust and the Plan's investments include funds which invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated October 27, 2016, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, management and the Plan's tax counsel, believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax period in progress.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Employer has the right under the Plan, pending approval of applicable requirements under the collective bargaining agreements, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the Plan's termination.
- Other vested benefits insured by the Pension Benefits Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.

- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Any funds remaining after the satisfaction of all liabilities under the Plan with respect to participants, transferred retirees or their beneficiaries shall be returned to the Employer. In the event of a partial termination of the Plan, the interests in the Plan of all participants affected by such partial termination shall be fully vested and non-forfeitable to the extent funded as of the date of such partial termination.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Employer and the level of benefits guaranteed by the PBGC.

9. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain investments of the Master Trust and the Plan are managed by State Street and KeyBank. State Street and KeyBank are the Trustees of the Master Trust and the Plan, as defined by the master trust agreement and plan document, and therefore, these transactions qualify as exempt party in interest transactions. The Trustees receive investment and administrative fees as a result of these activities. Certain other third-party administrative expenses were paid by the Employer on behalf of the Plan. These transactions qualify as exempt party in interest transactions.

10. PRIOR PERIOD ADJUSTMENT

During the year ended December 31, 2022, it was determined by management that, as of December 31, 2021, the Plan had not properly accounted for changes in the Master Trusts' valuation of its investments on that date resulting in the Plan's interest in the Master Trust being understated in the 2021 financial statements. As a result, the accompanying 2021 financial statements have been restated to reflect proper accounting for the changes in the Master Trusts' valuation of its investments. The restatement resulted in an increase of \$406,699 in the Plan's interest in the Master Trust and the Plan's interest in the Master Trust's income previously reported for the year ended December 31, 2021. The prior period adjustment had no effect on the net assets available for benefits as of December 31, 2020.

11. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2022. Had the valuation been performed as of December 31, 2021, there would be no material differences.

The significant actuarial assumptions used in the valuations as of December 31, 2021 were:

Discount rate	2.80%
Mortality basis after normal retirement age	Pri-2012 sex distinct, separate employee and retiree tables with contingent survivor adjustments for existing survivors and no collar adjustments applied with future improvement using the MP-2021 projection scale
Expected long-term return on assets	2.80%, net of expenses in the amount of \$117,000

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The total actuarial present value of accumulated plan benefits as of December 31, 2021, was as follows:

Vested benefits:	
Inactive participants with deferred benefits	\$ 3,144,692
Inactive participants receiving benefits	<u>20,885,355</u>
Total vested benefits	24,030,047
Nonvested benefits	<u>-</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 24,030,047</u>

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2021, was as follows:

Actuarial present value of accumulated plan benefits as of beginning of year:	<u>\$ 26,171,739</u>
Increase (decrease) during the year attributable to:	
Increase for interest due to decrease in discount period	607,052
Change in actuarial assumptions	(1,074,837)
Benefits paid	(1,620,723)
Benefits accumulated and gains	<u>(53,184)</u>
Net change	<u>(2,141,692)</u>
Actuarial present value of accumulated plan benefits as of end of year:	<u>\$ 24,030,047</u>

Mortality sponsor elections

• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2006 mortality tables with IRS developed adjustments and projected with mortality improvement scale MP-2020.
• Pre-1995 disabilities	Revenue Ruling 96-7 table for participants who became disabled before 1995
• Post-1994 disabilities	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits

Other economic assumptions

• Expected investment return	4.00% per year for calendar year 2020, 2.75% per year for calendar year 2021 and 2022
• Expenses	\$151,000 added to current year normal cost

Rationale for Significant Economic Assumptions

- Expected investment return – The expected rate of return on plan assets is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 8 bps for investment expenses assumed to be paid from plan assets.
- Expenses – Equal to prior year's actual administrative expense rounded to nearest \$1,000, adjusted for increase in anticipated PBGC premiums.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Demographic assumptions**

• Benefit commencement age for		
– Current vested deferred	65	
• Spouse assumptions	<u>Male participants</u>	<u>Female participants</u>
– Percentage married	75%	50%
– Spouse age difference	3 years younger	3 years older
Form of payment	<u>Single life</u>	
• Current vested deferred	100%	
Unpredictable contingent event assumptions	Not applicable	

Rationale for Significant Demographic Assumptions

- The form of payment assumption is based on the experience study *Continental Automotive, Inc. Pension Plans Actuarial Assumptions Review* report dated December 21, 2015 using data from 2012 through 2014 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- The benefit commencement age assumption is based on the plan's lack of early retirement subsidy that suggests terminated participants will defer commencement until age 65.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods for Funding****Asset Methods**

The asset valuation method is an average of the adjusted market value for each month during the last 6 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all participants as of the valuation date.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.
