Board of Directors
Polygon Company 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of Polygon Company 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedule of delinquent participant contributions for the year ended December 31, 2022, and schedule of assets (held at end of year) as of December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Polygon Company 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Polygon Company 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Polygon Company (the Company), who are age 19 or older and have completed 60 days of service, as defined by the Plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and subsequent event: Each year, the participants may elect to contribute a percentage of their wages, as defined in the Plan agreement, limited to the maximum amount allowed by the Internal Revenue Service (IRS). The Plan includes an automatic elective deferral contribution of 3% for all eligible employees who elect to participate. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct their contributions into various investment options offered by the Plan.

The Company's matching contribution is equal to a discretionary percentage of participant contributions that is determined by the plan sponsor's management at the end of each fiscal year. To be eligible for Company matching contributions, participants need at least one year of service, as defined by the Plan agreement, and are required to be employed on the last day of the plan year. For the year ended December 31, 2022, the Company elected to match 50% of participant contributions up to 6% of the participants' eligible wages which totaled approximately \$180,000. Company contributions are invested in a manner similar to participant contributions and are subject to certain limitations.

Subsequent to December 31, 2022, the Company amended the Plan to require the Company to make a safe harbor contribution equal to 100% of the participant's elective deferrals that do not exceed 3% of the participant's compensation plus 50% of the amount of the participant's deferrals that exceed 3% of the participant's compensation but not in excess of 5% of the participant's compensation effective January 1, 2023.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of: (a) any Company contribution, and (b) plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes receivable from participants: The Plan provides that participants can borrow funds against their account balances limited to the lesser of 50% of their vested account balance or \$50,000. A participant is limited to two loans outstanding at any time. The loans are collateralized by the balance in the participant's account and bear interest at the prime interest rate at the time of loan issuance plus two percentage points. Payments are due each pay period, primarily through payroll deduction.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan agreement.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service, as defined by the Plan agreement. A participant is 100% vested after five years of credited service. As defined in the Plan agreement, a participant is entitled to 100% of their total account balance upon retirement, death or disability regardless of years of service.

Polygon Company 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Payment of benefits: Upon termination of service, a participant may elect to receive either a lump-sum or direct rollover amount equal to the vested value of their account, or upon death, disability or retirement, receive periodic installments over a period not to exceed the life expectancy of the participant or joint lives of the participant and spouse. Participants may withdraw portions of their vested account at any time after reaching 59½ years of age. Benefits are recorded when paid.

Forfeitures: Forfeitures of non-vested Company contributions can be used to pay expenses of the Plan or to reduce future employer matching contributions. For the year ended December 31, 2022, there were approximately \$1,000 of forfeitures used to pay administrative expenses of the Plan. There were no material amounts of unused forfeiture balances available for future use by the Plan as of December 31, 2022 and 2021.

Administration of plan assets: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses were paid directly by the Company.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Revenue sharing: The Plan trustee may receive revenue sharing payments from mutual funds in which the Plan's assets are invested. The administrative agreement between the Plan and the trustee provides that to the extent revenue sharing payments received by the Plan exceeds administrative fees charged to the Plan by service providers, the excess will be used for administrative expenses or credit to participant accounts.

For the year ended December 31, 2022, approximately \$43,000 was earned by the Plan under this agreement and used for administrative expenses and is included as a reduction of administrative expenses on the accompanying statement of changes in net assets for benefits. As of December 31, 2022 and 2021, the unused balance in the expense account that holds these revenue sharing payments was \$25,331 and \$10,203, respectively.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 9, 2023, the date the financial statements were available to be issued.

Note 3. Information Certified by John Hancock Life Insurance Company (Hancock)

The following is a summary of the plan's asset information as of December 31, 2022 and 2021, and for the year ended December 31, 2022, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified by Hancock, the trustee of the Plan. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and ERISA-required supplemental schedules related to the following assets.

	2022	2021
Investments, at fair value:		
Registered investment companies	\$ 8,078,976	\$ 10,453,901
Common/collective investment fund	640,178	783,966
	<u>\$ 8,719,154</u>	<u>\$ 11,237,867</u>

Hancock also certified to the completeness and accuracy of notes receivable from participants of \$246,344 and \$261,414 as of December 31, 2022 and 2021, respectively, and \$14,718 of interest income on notes receivable from participants for the year ended December 31, 2022.

Hancock certified as to the completeness and accuracy of \$2,014,497 of net depreciation in the fair value of investments and \$139,523 of interest and dividends related to the aforementioned investments for the period ended December 31, 2022.

Note 4. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability

Note 4. Fair Value Measurements (Continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Shares of registered investment companies: Valued at the closing price reported on the active market on which the individual securities are traded.

Shares of common/collective investment fund: Valued based on the net asset value (NAV) of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021.

	Assets at Fair Value as of 2022			
	Level 1	Level 2	Level 3	Total
Investments measured at fair value	\$ 8,078,976	\$ -	\$ -	\$ 8,078,976
Investments measured at NAV				640,178
				<u>\$ 8,719,154</u>

	Assets at Fair Value as of 2021			
	Level 1	Level 2	Level 3	Total
Investments measured at fair value	\$ 10,453,901	\$ -	\$ -	\$ 10,453,901

				<u>\$ 11,237,867</u>

Note 4. Fair Value Measurements (Continued)

For investments in certain entities that calculate the NAV per share as the investment's fair value measurement, the following table provides an overview, by major classification, of the nature and risks associated with such investments as well as whether it is probable those investments being sold at amounts different from their reported NAV per share based on redemption restrictions, if any, as of December 31, 2022 and 2021.

Investment	Fair Value		Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Period Notice
	2022	2021			
Common/collective investment fund	\$ 640,178	\$ 783,966	\$ -	Daily	1 Day

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2022, there were no transfers in or out of Level 3.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 6. Related-Party Transactions

Certain plan investments are managed by Hancock. Hancock provides services for the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to the trustees amounted to approximately \$75,000, of which approximately \$44,000 was paid utilizing plan assets from forfeitures and the revenue sharing account for the year ended December 31, 2022.

Note 7. Income Tax Status and Uncertain Tax Position

The Plan has adopted a non-standardized form of a prototype plan. The prototype plan has received an opinion letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan has since been amended. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2019.

Note 8. Delinquent Contributions

During 2022, the Plan sponsor inadvertently failed to deposit \$100,892 of participant contributions within the required timeframe as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. The Plan sponsor intends to reimburse the Plan for lost earnings. Additionally, the Plan sponsor intend to complete the Form 5330 and pay the applicable excise tax, which will be paid from Plan sponsor assets and not assets of the Plan.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of differences between these financial statements and the financial information presented on Form 5500 as of December 31, 2022 and 2021, and for the year ended December 31, 2022:
