Independent Auditor's Report

To the Retirement Committee
Century Aluminum Sebree Hourly Pension Plan

Opinion

We have audited the financial statements of Century Aluminum Sebree Hourly Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2022 and 2021 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021 and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As explained in Note 4, the financial statements include investments valued at approximately \$62,800,000 (100 percent of net assets) at December 31, 2022 and approximately \$95,300,000 (100 percent of net assets) at December 31, 2021 whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by the fund managers. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

To the Retirement Committee
Century Aluminum Sebree Hourly Pension Plan

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Note 1 - Plan Description

The following description of Century Aluminum Sebree Hourly Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

General

The Plan is a noncontributory defined benefit pension plan covering all hourly employees of Century Aluminum Sebree, LLC (the "Company") who are governed by a collective bargaining agreement containing provisions that allow for participation in the Plan. Full-time hourly employees are eligible to participate in the Plan upon their date of hire. Part-time hourly employees who complete at least 1,000 hours of service in a 12-consecutive-month period are also eligible to participate in the Plan.

Effective July 20, 2021, the Plan entered into a master trust agreement with the Bank of New York Mellon Corporation (BNY Mellon) and formed the Century Aluminum Company DB Master Trust (the "Master Trust"). All investments were transferred to the Master Trust during August 2021.

Contributions

Contributions are made by the Company in order to provide the Plan with assets sufficient to meet the projected benefits to be paid to plan participants. No participant contributions are permitted.

Funding

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. There were no required annual funding requirements in 2022 and 2021 based on ERISA funding standards.

Pension Benefits

Participants are entitled to a pension benefit after completing five years of eligible service. Participants are entitled to normal monthly retirement benefits at the normal retirement age of 65. The normal retirement benefits are calculated based on a participant's years of continuous service multiplied by a monthly benefit level provided in the Plan. Effective January 1, 2019, the monthly benefit level increased to \$45 for retirement dates during 2019 and increased incrementally by \$1 every year until reaching a fixed amount of \$47 in 2021. The monthly benefit level was \$47 for retirement dates during 2022 and 2021. Part-time employees shall receive a percentage of the normal monthly benefit based upon hours worked, as described in the Plan's provisions.

The Plan permits early retirement at age 60 provided the participant has completed at least 10 years of service. The early retirement benefit will equal the normal retirement benefit if (a) the retiree elects to defer benefits until normal retirement age or (b) the retiree retires on or after November 1, 2004 and has reached age 60 with 30 years of service. Otherwise, early retirement benefits will be reduced by 0.25 percent (0.50 percent for retirements prior to January 1, 2000) for each month the commencement of benefits precedes the normal retirement date. Effective January 1, 2015, benefits were frozen for salaried employees who were under 50 years of age, and participation was frozen for all subsequent new and rehired employees.

The Plan also provides for disability retirement and preretirement spouse benefits for participants meeting certain age and length of service requirements.

Payment of Benefits

Pension benefits are paid in the form of various life annuities, as described by the Plan. For participants with a lump-sum actuarial equivalent of their pension benefits of \$1,000 or less, their pension benefits will be automatically payable in the form of a lump sum.

December 31, 2022 and 2021

Note 1 - Plan Description (Continued)

Party-in-interest Transactions

Master Trust assets are in investment funds managed by Bank of New York Mellon Corporation or its affiliates. BNY Mellon is the custodian of the Master Trust; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of the plan interest in the Master Trust is based on the value at the beginning of the period, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

See Note 4 for further discussion of fair value measurements.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The actuarial valuation was completed using the beginning of the year method. Therefore, the accumulated plan benefits as of December 31, 2021 are presented from information provided by the actuary as of January 1, 2022. There has been no significant change in the Plan's provisions or coverage from December 31, 2021 to January 1, 2022.

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2021 are summarized as follows:

Actuarial cost method	Unit credit actuarial cost method
Assumed rate of return	7.25 percent per annum
Mortality basis	Pri-2012 Mortality Table, with a blue collar adjustment, projected on a fully generational basis using the Social Security Administration (SSA) Improvement Scale for 2021
Incident of retirement	Rates increasing from 5 to 100 percent between ages 60 and 67 for active participants

December 31, 2022 and 2021

Note 2 - Summary of Significant Accounting Policies (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Plan, including custodial, retirement services, and Pension Benefit Guaranty Corporation (PBGC) fees and expenses. All other administrative costs are paid by the Company.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 3, 2023, which is the date the financial statements were available to be issued.

Note 3 - Certified Information

For a portion of 2021, SEI Private Trust Company (the "former Custodian") held the Plan's investments and executed all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements during this period in 2021 were based solely on information certified by the former Custodian.

Note 4 - Investments and Interest in Master Trust

During August 2021, all plan investments were transferred to the Master Trust. The Master Trust was established for the investment of assets of the Plan and the Century Aluminum Consolidated Retirement Plan. Each participating benefit plan has an undivided interest in the Master Trust. Prior to the formation of the Master Trust, the Plan held all investments directly. The assets of the Master Trust are held by BNY Mellon (as custodian). Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan. As of December 31, 2022 and 2021, the Plan's approximate ownership interest in the Master Trust is 29 percent.

December 31, 2022 and 2021

Note 4 - Investments and Interest in Master Trust (Continued)

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Master Trust's investments:

Common/Collective Trust Funds

The common/collective trust funds are valued at net asset value (NAV) per share or its equivalent of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

Private Equity Funds

Investments in private equity funds are valued at NAV per share or its equivalent of the funds based on the audited financial statements of the funds, where available. There are no unfunded commitments on these investments.

The following table presents information about the net assets of the master trust and the Plan's interest in master trust balances at December 31, 2022:

- (1) This class represents funds that invest in other investment vehicles that primarily invest in below-investment-grade rated bonds and loans, securitized credit, and emerging market debt. This class also includes funds that invest in other investment vehicles that primarily invest in public and private debt and equity investments in a range of real asset strategies, including, but not limited to, real estate, infrastructure, timberland, and agriculture/farmland. Redemption frequency for these funds is monthly and quarterly, with redemption notice periods of 30 business days and 180 calendar days, respectively.

The investment income for the Master Trust for the years ended December 31, 2022 and 2021 is as follows:

	2022	2021
Net realized and unrealized (loss) gain on investments	\$ (92,275,684)	\$ 7,257,423
Other investment income - Interest	59,488	725

Net investment (loss) income of the Master Trust	<u>\$ (93,126,443)</u>	<u>\$ 6,882,973</u>

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries from PricewaterhouseCoopers, LLP. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of and for the year ended December 31, 2021, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving benefit payments	\$ 48,787,632
Participants entitled to deferred benefits	1,926,176
Other vested participants	10,930,994
Total vested benefits	61,644,802
Nonvested benefits	1,082,785
Total actuarial present value of accumulated plan benefits	<u>\$ 62,727,587</u>

December 31, 2022 and 2021

Note 5 - Accumulated Plan Benefits (Continued)

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2021 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 63,611,307
(Decrease) increase during the year attributable to:	
Net benefits accumulated, including actuarial gains and losses	(295,301)
Interest due to the decrease in the discount period	4,432,979
Benefits paid	<u>(5,021,398)</u>
Net decrease	<u>(883,720)</u>
Actuarial present value of accumulated plan benefits - End of year	<u><u>\$ 62,727,587</u></u>

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding Purposes

1. Actuarial Cost Method

The actuarial cost method is the Unit Credit Actuarial Cost Method.

Under this cost method, the target liability is defined as the present value of the accrued benefits on the valuation date. The funding shortfall is the excess, if any, of the amount by which the target liability exceeds the actuarial value of Plan Assets.

The target normal cost, determined on the valuation date, is the amount required to fund the benefit expected to be earned in the current year plus expected expenses.

2. Asset Valuation Method

Smoothed Method:

Smoothed value method. Under this method the Plan Assets is equal to the average of the fair market value on the valuation date and the adjusted fair market value on each of the preceding two valuation dates, but not less than 90% nor more than 110% of the Fair Value of Assets. The adjusted fair market value as of any preceding valuation date is equal to the fair market value as of such date increased for contributions reflected in the fair market value of assets on the current valuation that were not reflected in the fair market value of assets as of such preceding valuation date, decreased for benefits payments and expenses reflected in the fair market value of assets on the current valuation that were not reflected in the fair market value of assets as of such preceding valuation date, and adjusted for expected earnings (not in excess of the third segment rate, with no phase-in, applicable to the corresponding valuation date).

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Assumptions Rationale

Valuation Interest rate	The interest rate assumption used is prescribed by IRC section 430(h), reflecting a 4 month look back period as elected by the plan sponsor.
Mortality	The mortality assumption used is prescribed by IRC section 430(h).
Disability Rates	The disability rate assumption was selected by management based on historical experience and future expectations for disablements.
Retirement Rates	The retirement rate assumption was selected by management based on historical experience and future expectations for retirements.
Withdrawal Rates	The turnover assumption was selected by management based on historical experience and future expectations for terminations.
Expected Return on Plan Assets	The Expected Return on Assets was selected by Century based on the Plan's asset mix and information from the Plan's asset advisors. We did not assess the reasonableness of this assumption as such an evaluation was not in scope.

Actuarial gains and losses resulting from plan experience differing from the assumptions above are monitored each year.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Effective Date	December 31, 1973
Eligibility	All employees who are employed by a participating company who are collectively bargained and whose agreement includes participation in the plan.
Normal Retirement Eligibility	Age 65
Total Benefit	A monthly benefit equal to \$47.00 per year of credited service for retirement eligible participants. \$46.00 per year of credited service for terminated vested participants through 12/31/20

The following table lists all benefit level changes in the past six years:

<u>Effective Date</u>	<u>Benefit Level¹</u>
11/1/2006	\$37.00
11/1/2007	\$39.00
11/1/2008	\$41.00
1/1/2013	\$42.00
7/17/2014	\$44.00
1/1/2019	\$45.00
1/1/2020	\$46.00
1/1/2021	\$47.00

Early Retirement Eligibility	Age 60 and 10 years of continuous service as defined by the plan document.
Total Benefit	The accrued normal retirement benefit reduced by 1/4 of 1% for each month by which the benefit commencement date precedes age 65. Such reduction shall not apply if the participant retires after age 60 with at least 30 years of service.
Late Retirement Eligibility	Age 65
Total Benefit	The retirement benefit accrued at the date of late retirement.

Summary of Plan Provisions (continued)

Disability Retirement

Eligibility

Total and permanent disability after completing 10 or more years of continuous service as defined by the plan.

Total Benefit

The accrued benefit based on service through the date of disability commencing after 6 months of permanent and total disability. The monthly benefit shall not be less than \$150, until age 65.

Vested Termination

Eligibility

5 years of vesting service

Total Benefit

The normal retirement benefit accrued to date of termination commencing at age 65. The participant may elect for benefits to start at any time after age 60 with 10 years of vesting service. The benefits are reduced according to the following table:

Age	Factor
65	1.000
64	0.916
63	0.832
62	0.748
61	0.688
60	0.628

Preretirement Death

Eligibility

Any vested participant (active or terminated)

Total Benefit

For an active participant who has been married for 1 year, the benefit is an immediate annuity to the surviving spouse equal to 50% of the accrued normal retirement benefit. The benefit is not reduced for payment form or commencement before the participant's normal retirement date.

For terminated vested participants, or participants that have been married for less than 1 year, the benefit is a deferred annuity to the surviving spouse equal to 50% of the monthly benefit the participant would have been entitled to had he terminated employment on the date of his death, survived to early retirement age, elected the 50% J&S option, and then died the following day.
