INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
Gulf Coast Ford Nissan Toyota 401(k) Plan
Angleton, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Gulf Coast Ford Nissan Toyota 401(k) Plan (an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA)) as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022 and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Gulf Coast Ford Nissan Toyota 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Gulf Coast Ford Nissan Toyota 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Gulf Coast Ford Nissan Toyota 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Gulf Coast Ford Nissan Toyota 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Gulf Coast Ford Nissan Toyota 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at plan year end is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

GULF COAST FORD NISSAN TOYOTA 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2022 AND 2021

1. Plan description, eligibility and funding policies:

General

The following description of the Gulf Coast Ford Nissan Toyota 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a self-directed, defined contribution plan, covering all full-time employees of the of Gulf Coast Ford, Ltd. d/b/a Gulf Coast Ford, BDB Interest LC, d/b/a Gulf Coast Nissan, BCB Interest, LLC d/b/a Gulf Coast Toyota and Gulf Coast Auto Park, LLC d/b/a Gulf Coast Chevrolet Buick GMC (the "Company") who meet the eligibility requirements detailed below. It is subject to the provisions of the Employee Retirement Income Act of 1974 (ERISA).

Eligibility

Any employee of the Company is eligible to participate in the Plan provided that they are at least age 18 years of age and have completed three months of service.

For purposes of this section, an eligible employee will be deemed to have completed three months of service if they are under the employment of the Company at any time three months after employment commencement date. Employment commencement date shall be the first day that they are entitled to be credited with an hour of service for the performance of duty.

An eligible employee shall become a participant effective as of the first day of the next month following the date on which such employee met the eligibility requirements. Participants may commence salary deferrals on the effective date of participation and on the first day of each Plan month.

Contributions

Participant contributions consist of pre-tax and after-tax (Roth) elective deferrals. Participants may contribute pre-tax and after-tax (Roth) elective deferrals up to the dollar limitation contained in section 402(g) of the Internal Revenue Code in effect at the beginning of the year. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Rollover contributions are allowed subject to conditions set forth in the Plan agreement.

Employer contributions include discretionary matching contributions and discretionary contributions. The Company did not make a discretionary non-elective contribution in 2022.

1. Plan description, eligibility and funding policies: (cont'd.)

Participant accounts and vesting

Each participant's account is credited with the participant's contributions, the employer's contributions, an allocation of the Plan's earnings and charged with an allocation of investment management fees. The Plan's earnings and investment management fees are allocated according to participants' relative account balances in the investment options. Certain participant and loan fees, if applicable, are also charged to participant accounts.

Participants are immediately vested in their contributions plus actual earnings thereon. The portion of the participant's account attributable to any employer matching contributions and employer discretionary contributions is fully vested after completion of six years of service. Participants' accounts become fully vested upon attainment of the normal retirement age of 65, early retirement as defined in the Plan agreement or in the event of death or total disability.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in a lump sum payment or elected to defer receipt of their benefits to a later date. These participants share in the earnings of the investments.

Participants are at all times vested in their deferral and rollover contributions and the appreciation or depreciation thereon. Vesting in the Company's contributions portion of their account plus earnings thereon is based on years of continuous service. Participants are 20% vested after two years of service and vest an additional 20% each year, becoming 100% vested after the completion of six years of service.

Allocation of forfeitures

Forfeitures of employer contributions will be allocated at the earlier of the end of the Plan year in which a distribution to a participant occurs or at the end of the Plan year after five (5) consecutive one-year breaks in service to reduce employer's matching contributions.

Distributions to participants

Participants' accounts become fully vested upon attainment of the normal retirement age of 65, early retirement as defined in the Plan agreement, or in the event of death or total and permanent disability. After a participant reaches age 59 1/2, they may request an in-service distribution from accounts the participant is fully vested. There is no minimum in-service distribution amount. In certain hardship situations, as described in the Plan agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited accounts the participant is fully vested. There is a $500 minimum hardship distribution. Benefits payments upon termination of employment are distributed as a lump sum. Distributions may be deferred until the participant reaches the age of 72 if the value of the distribution is not less than $5,000. However, the Plan agreement stipulates that minimum distributions must commence no later than April 1 of the year following the later of the year in which the participant reaches the age of 72 or the year in which the participant retires.

1. Plan description, eligibility and funding policies: (cont'd.)

   Loans to participants

   Participants may borrow the lesser of one-half of their vested account balance or $50,000. The minimum loan available is $1,000. Participant notes are carried at face value and are generally repaid through payroll deductions with after-tax dollars over a period of up to 5 years. At termination of employment, the loan will become due.

   Plan termination

   Although they have not expressed any interest to do so, should the Plan sponsor discontinue their operations, the Plan would also be terminated, and each participant would receive their individual plan account balance as adjusted by vesting of the sponsor's contributions.

2. Summary of significant accounting policies:

   Date of Management's review

   Subsequent events were evaluated through September 30, 2023, which is the date the financial statements were available to be issued.

   Accounting basis

   The financial statements of the Plan have been prepared on an accrual method basis of accounting.

   Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants normally would receive if they were to initiate permitted transactions under the term of the plan.

   Use of estimates

   The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

2. Summary of significant accounting policies: (cont'd.)

Investment valuation and income recognition

The Plan's investments are stated at fair market value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Participant notes receivable are valued at cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits are recorded when paid.

Risks and uncertainties

The Plan provides for investments in various investment securities. In general, investment securities are exposed to various risks, such as interest rate, credit, and overall volatility risks. Market risks include global events, which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risks associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Investment and administrative expenses

Investment expenses and plan servicing fees are charged to participants based on their investment elections. The investment expenses vary between the various investment options and funds selected. Fees are charged to individual participant's accounts based upon services provided. Certain administrative fees including a base rate per plan, a charge per participant, service fees, and audit fees are paid by the Company.

Federal income taxes

The Plan has adopted a non-standardized profit-sharing plan, which obtained its latest opinion letter on June 30, 2020, in which the Internal Revenue Service ("IRS") stated that the prototype document satisfied the applicable provisions of the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, contributions to the Plan and earnings from its assets are not currently taxable to the Plan or its participants.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken. The federal income tax returns of the Plan are subject to examination by the IRS, generally for three years after they were filed.

3. Parties-in-interest:

The Plan invests in various pooled separate accounts and guaranteed interest accounts offered by John Hancock Life Insurance Company ("John Hancock"). These investments qualify as party-in-interest transactions because John Hancock serves as asset custodian of the Plan. Notes receivable from participants also qualify as party-in-interest transactions. These transactions are covered by an exemption from the prohibited transaction provisions of ERISA and the IRC.

4. Commitments and contingencies:

The administrative committee has represented to us that there are no legal or un-asserted claims against the Plan, no unfulfilled commitments, the Plan has been properly administered and all documents have been properly updated to reflect all current requirements and regulations to keep the Plan qualified. There are no irregularities, errors or illegal acts involving management or employees that could have a material adverse effect on the Plan. There are no unusual or extraordinary transactions with related parties nor are there any items pending that would represent a contingent loss.

5. Information not covered by auditor's report:

Pursuant to the terms of the Plan, Gulf Coast Ford Nissan Toyota 401(k) Plan has entered into a trust agreement with John Hancock, whereby, the trustee holds the Plan's investment assets and executes transactions therein, including the receipt of income and payment of withdrawals. For financial reporting and disclosure purposes under the Employee Retirement Income Security Act of 1974, the administrative committee has elected the method for compliance permitted by of the Department of Labor Rules and Regulations 29 CFR 2520.103-8 which permits the Plan's administrative committee to rely on financial statement information certified by the Plan trustee and provides that the independent public accountant need not perform auditing procedures with respect to information certified to by the trustee of the Plan, John Hancock, whereby the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021, in the Schedule H, Part IV, Line 4i - schedule of assets (held at end of year) as of December 31, 2022, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2022.

Fair value measurements

ASC 820, *Fair Value Measurements and Disclosures,* clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable. A summary of the fair value hierarchy under ASC 820 is described below.

Fair value measurements

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Pooled separate accounts: Valued at fair value by the custodian of the funds based upon the net asset value of underlying investments. The underlying investments reflect prices based on quoted market prices utilizing public information.

Level 3 Inputs to the valuation methodology are unobservable inputs (i.e., projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. There are no plan assets requiring the use of Level 3 inputs for the periods presented.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Fair value measurements

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

	December 31, 2022		
	Level 1	Level 2	Total
Pooled separate accounts	$ -	$ 1,198,578	$ 1,198,578
Total investments at fair value:	$ -	$ 1,198,578	$ 1,198,578

	December 31, 2021		
	Level 1	Level 2	Total
Pooled separate accounts	$ -	$ 1,292,376	$ 1,292,376
Total investments at fair value:	$ -	$ 1,292,376	$ 1,292,376

Investments at contract value

As described in the Financial Accounting Standards Board ASC 962-325, Plan Accounting-Defined Contribution Pension Plans investment contracts held by a defined-contribution plans are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to a fully benefit-responsive investment contract. Contract value is the amount participants would receive if they were to initiate permitted transactions under the term of the plan. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plans assets are invested in a Guaranteed Interest Account which are held in John Hancock's general account to be allocated among investment options which include the Guaranteed Interest Account.

John Hancock does not segregate underlying assets of the Guaranteed Interest Account in a separate account for each account holder. Specific securities within the general account are not carved out and attributed to any specific account holder.

Interest rates are not based directly on the actual performance of the underlying securities in the account, but upon the claims paying ability of the issuing company, John Hancock.

Investments at contract value

Interest rates are established on the first day of each month an apply to all contributions made to the account in that month. At the end of the year, a "composite rate" of interest is determined, and the deposits made in that year will continue to earn that year's composite rate until the end of the guaranteed period.

The assets held in the Guaranteed Interest Account may be subject to market value adjustment upon withdrawal as prior to the end of the guarantee period.

The underlying risks of the Guaranteed Interest Account are assumed by John Hancock who is obligated to support the interest guarantees. The only risks passed on are John Hancock's discretion to set the guaranteed rate of return, enforcement market value charges that may be triggered if the funds are withdrawn. The contract allows for transfer between the Guaranteed Interest Account and other investment options under the Company's plan without penalty.

The average interest rates for the Guaranteed Interest Account for the years ending December 31, 2022 and 2021 are .07% and .05%, respectively.

7. Nondiscriminatory refunds payable:

At December 31, 2022 and 2021, the Plan owed $17,797 and $37,181, respectively, to certain participants for salary deferral contributions in excess of amounts allowed by law. These amounts were paid in March of the following year and are shown as nondiscriminatory refunds payable in the statements of net assets available for benefits.

8. Reconciliation of financial statements to Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2022 and 2021:
