INDEPENDENT AUDITOR'S REPORT

To the Audit Committee and Those Charged with Governance
Central States Manufacturing, Inc. Employee Stock
Ownership Plan

Opinion

We have audited the financial statements of Central States Manufacturing, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter – Investments

As discussed in Note 8, the financial statements include an investment representing 98% of total assets as of December 31, 2022 and 2021, whose fair value has been estimated by an independent appraisal, in the absence of readily ascertainable fair values, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated value may differ significantly from the value that would have been used had a market for the investment existed, and the difference could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Information Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information, schedule of assets (held at end of year) and schedule of reportable transactions as of or for the year ended December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

EMPLOYEE STOCK OWNERSHIP PLAN**

NOTES TO FINANCIAL STATEMENTS

December 31, 2022 and 2021

Note 1 – Description of the Plan

Central States Manufacturing, Inc. (the Company or Employer) sponsors the Central States Manufacturing, Inc. Employee Stock Ownership Plan (ESOP) (the Plan). The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Company established the Plan effective January 1, 1991. The Plan operates as a leveraged employee stock ownership plan and a stock bonus plan established for the benefit of the employees of the Company and Metal Central LLC, a subsidiary of the Company. Employees excluded from participation in the Plan include those covered by a collective bargaining agreement, those who are not reported on the payroll records of the Company as common law employees, nonresident aliens, and leased employees. The Plan is designed to comply with Section 4975(e)(7) and 401(a) and the regulations thereunder of the Internal Revenue Code of 1986 (the Code), as amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the ESOP Administrative Committee, which is appointed by the Company's board of directors. The Plan's investment in Company common stock is held by Alerus, N.A. (the Trustee), and Principal Financial Group maintains the records of the participant data.

The primary purpose of the Plan is to enable eligible employees to share in the growth and prosperity of the Company and to provide eligible employees with an opportunity to accumulate capital for their retirement needs. Plan investments are nonparticipant directed.

The Plan purchased shares of Company common stock using the proceeds of notes payable to the Company (see Note 4) and holds Company common stock in a trust established under the Plan. The notes are collateralized by the unallocated shares of Company common stock. The Company has no rights against shares of Company common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2022 and 2021, and for the year ended December 31, 2022, present separately the assets and liabilities and changes therein pertaining to:

- a) the accounts of participants with rights in allocated common stock (allocated), and
- b) common stock not yet allocated to participants (unallocated).

On December 30, 2022, the Company and Storage Structures, Inc. (SSI) entered into an Agreement and Plan of Merger transaction, resulting in the Company acquiring SSI, and SSI merging with and into Storage Structures LLC (SLLC). As a result of the transaction, as of December 30, 2022, Storage Structures, Inc. Employee Stock Ownership Plan (SSI ESOP) held 16,250 shares of Company common stock. Effective January 1, 2023, SLLC became a participating employer in the Plan. Effective January 31, 2023, SSI ESOP merged into the Plan, and all SSI ESOP assets were transferred into the Plan.

Eligibility

Nonexcluded employees who have reached 18 years of age are eligible to participate in the Plan. Participants are automatically enrolled in the Plan on their employment date.

Contributions

Contributions to the Plan are discretionary and are determined each year by the Company's board of directors; however, the Company is obligated to contribute an amount in cash not less than the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its notes payable. The Company made discretionary contributions of Company common stock at a value of \$7,208,381 for the year ended December 31, 2022. Total cash contributions to fund debt payments equaled \$2,805,486.

Contributions are subject to certain limitations of the Code. Participant contributions are not permitted.

Participant accounts

Each participant's account is credited as of the last day of the Plan year with an allocation of shares of Company common stock released from the unallocated account, Employer contributions, Plan earnings, and forfeitures of terminated participants' nonvested accounts. Unless termination is due to retirement, death, or disability, participants must be employed on the last day of the Plan year to receive an allocation. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances. Other allocations are based on the participant's eligible compensation relative to the total of all participants' eligible compensation, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants vest in their account balances based upon years of continuous service as follows:

<u>Years of service</u>	<u>Vesting percentage</u>
Less than two years	0%
Two, but less than three	20%
Three, but less than four	40%
Four, but less than five	60%
Five, but less than six	80%
Six years or more	100%

Participants automatically become 100% vested upon normal retirement (attainment of age 62), disability, or death. Participants who terminate for any other reason are entitled to the vested amount of their accounts.

Payment of benefits

Upon retirement, termination, disability, or death, a participant, or his or her beneficiary in the event of death, may elect to receive a lump-sum amount or annual, up to five-year, installments equal to the value of the participant's vested interest in his or her account. The five-year installment period may be extended by one year or up to five additional years, subject to certain limits pursuant to the Code.

Additionally, a participant who has completed two or more years of service and who is actively employed at the time of the election shall be eligible once each Plan year to elect an in-service withdrawal of a portion of their account. Upon termination, automatic distributions are required for balances of less than \$5,000. Automatic distributions above \$1,000 made without the participant's consent are rolled into an individual retirement account designated by the Trustee. The Plan also allows hardship withdrawals, subject to account balance limits and applicable laws.

Distributions are generally in the form of Company common stock, and all distributed Company common stock is immediately sold back to the Company, at a price equal to the fair market value of Company common stock as of the Plan year-end coinciding with or immediately preceding the date of distribution.

Under provisions of the Plan, the Company has the option to repurchase shares which have been distributed under the terms of the Plan. During the year ended December 31, 2022, the Company repurchased 660,201 shares from participants at a price of \$30.38 per share.

Voting rights

Each participant is entitled to exercise voting rights for certain transactions, as described in the Plan document, for those shares allocated to each participant's account and is notified by the Trustee prior to the time that such rights are to be exercised. If participants do not timely exercise their right to vote, the Trustee will vote such Company common stock. The Trustee is required to vote any unallocated shares on behalf of the collective best interest of Plan participants and their beneficiaries.

Put option

Under federal income tax regulations, Company common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its common stock distributed to participants for which there is no market. The put price is representative of the fair market value of the common stock. The Company may pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to the participant's account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company common stock in the participant's account at year-end. There were 77,313 shares distributed pursuant to diversification in the amount of \$2,348,774, which is included in benefits paid to participants in the statement of changes in net asset available for benefits for the year ended December 31, 2022.

Forfeitures

Forfeitures are allocated annually among participants based upon the relation of the participant's compensation to the total of all participants' eligible compensation for the Plan year. For the year ended December 31, 2022, forfeitures in the amount of \$1,255,955 and \$68,640 were reallocated to participants and reinstated to participants, respectively. The Plan had no unallocated forfeitures as of December 31, 2022 or 2021.

Administrative expenses

The Plan allows certain administrative expenses to be paid from Plan assets.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates

The preparation of the financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to allocated and unallocated, including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The ESOP Administrative Committee determines the Plan's valuation policies utilizing information provided by the appraiser. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Realized gains and losses from security transactions are reported on the average cost method.

Payment of benefits

Benefit payments are recorded when paid. There were no benefits requested before year-end that were not paid.

Subsequent events

The Plan administrator has evaluated subsequent events through October 11, 2023, the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

Accounting guidance provides a framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest

priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Unadjusted quoted prices for identical, unrestricted assets or liabilities in active markets that a plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means for substantially the full term of the assets or liabilities.
Level 3	Significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There has been no change in the methodology used as of December 31, 2022 and 2021. During the year ended December 31, 2022, there were no transfers of financial instruments into or out of Level 3. Following is a description of the valuation methodology used for assets measured at fair value:

Company common stock – The fair value of Company common stock held by the Plan is determined based upon an independent appraisal. This appraisal is based upon a combination of the market and income valuation techniques. The appraiser takes into account historical and projected cash flows and net income, earnings before interest, tax depreciation, and amortization, and anticipated capital expenditures to estimate a total present value of free cash flows and residual free cash flows, while also considering similar growth and profitability measures for public companies in the industry and a discount for lack of marketability to estimate an overall implied enterprise value.

The valuation process involves the Trustee's selection of an independent appraiser. Plan and Company management accumulates the data for the appraiser from the audited financial statements of the Company as well as completing interviews with the appraisal team. The appraiser prepares a preliminary report which Plan management reviews in detail and the Trustee approves.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of a different methodology or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31:

	Fair value measurements as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Company common stock and total investments at fair value	\$ -	\$ -	\$ 329,517,846	\$ 329,517,846

	Fair value measurements as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Company common stock and total investments at fair value	\$ -	\$ -	\$ 308,303,498	\$ 308,303,498

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2022:

	Company common stock
Balance, beginning of year	\$ 308,303,498
Unrealized gains relating to instruments still held at the reporting date	34,823,935
Employer contribution (212,223 shares)	6,447,335
Shares distributed to participants (582,888 shares)	(17,708,148)
Shares distributed pursuant to diversification (77,313 shares)	(2,348,774)
Balance, end of year	<u>\$ 329,517,846</u>
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	<u>\$ 34,823,935</u>

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of Company common stock in the statement of changes in net assets available for benefits.

As of December 31, 2022 and 2021, Plan investments are presented in the following table:

Investment	2022		2021	
	Allocated	Unallocated	Allocated	Unallocated
Company common stock:				
Number of shares	6,511,814	3,188,446	6,820,125	3,328,114
Cost	\$ 57,388,357	\$ 53,596,836	\$ 57,388,357	\$ 55,887,616
Fair value	\$ 221,206,339	\$ 108,311,507	\$ 207,195,387	\$ 101,108,111

Note 4 – Notes Payable

On December 2, 2019, the Plan entered into a \$19,200,000 term loan agreement with the Company for the purchase of 1,315,068 shares of Company common stock. The loan agreement provides for the note payable to be repaid over 20 years in annual payments of \$1,184,432 beginning December 31, 2020, including interest at a rate of 2.09%, and maturing December 31, 2039.

On December 2, 2020, the Plan entered into a similar term loan agreement with the Company for the purchase of 2,222,222 shares of Company common stock at \$18.00 per share, for a total purchase price of \$40,000,000. The loan agreement provides for the note payable to be repaid over 30 years in annual payments of \$1,621,054 beginning December 31, 2021, including interest at a rate of 1.31%, and maturing December 31, 2050.

Unallocated shares are collateral for the notes. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of the respective year's payments, plus all future years' principal and interest payments. For the year ended December 31, 2022, 139,668 shares were released and allocated among participants.

The scheduled amortization of the notes payable as of December 31, 2022, is as follows:

<u>Year</u>	<u>Amount</u>
2023	\$ 1,959,274
2024	1,991,440
2025	2,024,164
2026	2,057,454
2027	2,091,323
Thereafter	<u>44,468,964</u>
	<u>\$ 54,592,619</u>

Note 5 – Related Party and Party-in-Interest Transactions

The Plan invests solely in shares of Company common stock, and the Plan has indebtedness to the Company.

Certain administrative expenses, totaling approximately \$201,500, were paid by the Company on behalf of the Plan for the year ended December 31, 2022. The Company does not expect reimbursement from the Plan for these expenses. Certain administrative functions are performed by officers and employees of the Company. No officer or employee receives compensation from the Plan for these services.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Employer contribution portion of their accounts. Upon termination of the Plan, the Plan administrator shall direct the Trustee to pay all liabilities and expenses of the trust and sell unallocated shares of Company common stock to the extent it determines such sale is necessary to repay the notes payable to the Company. Subsequently, the interest of each participant in the trust will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code.

Note 7 – Tax Status

The Internal Revenue Service has determined and informed the Company by a favorable determination letter dated November 20, 2015, that the Plan is designed in accordance with applicable sections of the Code. The Plan's determination letter is being relied on by the Plan. Although the Plan has been amended since receiving the determination letter, Plan management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Note 8 – Risks and Uncertainties

The Plan invests primarily in Company common stock. The primary liquidity of the Plan for Company common stock comes from the Company's repurchase of the stock. The fair value of Company common stock has been estimated by an independent appraiser, in the absence of readily ascertainable market values. Because of the inherent uncertainty of the valuation, it is at least reasonably possible that changes in the value of Company common stock will occur in the near term and that such changes could materially affect the amounts reported on the statements of net assets available for benefits.
