Part I Asset and Liability Statement			
1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

KTH Parts Industries, Inc. Associate Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of KTH Parts Industries, Inc. Associate Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matters—Supplemental Schedules Required by ERISA

The supplemental Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2022 and Schedule H, line 4(j)—schedule of reportable transactions for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

KTH Parts Industries, Inc. Associate Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following brief description of the KTH Parts Industries, Inc. (the Employer and Plan Sponsor) Associate Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General: The Plan is a noncontributory defined benefit pension plan covering substantially all full-time associates (other than Japanese national associates) of the Employer. Eligible associates must have completed one full year of employment and attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Effective July 1, 2016, no eligible associates hired or rehired on or after July 1, 2016 shall commence participation in the Plan.

Pension benefits: Associates with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to 1.5% of their base compensation for each year of service. The Plan permits early retirement at age 58. Early retirement benefits are equal to the normal retirement benefits reduced by 5% per year between early retirement and normal retirement date.

The Plan provides for the payment of vested benefits less than \$1,000 as a lump sum payment as soon as administratively practical after the participant's termination of employment.

Participants may elect to receive their pension benefit in the form of a life annuity, joint and survivor annuity, certain period payment, or a single lump sum (if less than \$10,000). If participants terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Employer's contributions.

Death and disability benefits: If an active participant dies, a death benefit equal to the value of the participant's accumulated pension benefit is paid to the participant's beneficiary at the later of (1) the participant's death, or (2) the date the participant would have reached the earliest permissible retirement age. Active participants who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled, when they reach normal retirement age.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividend income is recognized on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend and interest income.

KTH Parts Industries, Inc. Associate Retirement Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments including lump sum distributions that are attributable under the Plan's provisions to the service associates have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died and (c) present participants or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from CBIZ Benefits & Insurance Services of Ohio, Inc. and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation were (a) life expectancy of participants based on the RP-2014 mortality with blue collar adjustments; scale MP-2021 fully generational; (b) interest rate of 7.00%; (c) average rate of future salary increases of 2%; and (d) assumed retirement rates as follows:

Age	Retirement Rate
58	5%
59	3%
60	5%
61	10%
62	20%
63	10%
64	20%
65	100%

The foregoing actuarial assumptions are based on the presumption that the Plan, although frozen as of July 1, 2016, will continue for participants who were hired as of June 30, 2016 and became eligible. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The Plan has elected to present actuarial benefit information as of the beginning of the year.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2022. Had the valuation been performed as of December 31, 2021 there would be no material differences.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

The following table summarizes the actuarial present value of accumulated plan benefits as of December 31, 2021 and the changes in accumulated plan benefits for the year then ended:

Vested benefits:	
Participants currently receiving payments	\$ 23,766,878
Other participants	38,112,173
Nonvested benefits	979,535
Total	<u>\$ 62,858,586</u>
Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 59,030,374</u>
Increase (decrease) attributable to:	
Change in assumptions	146,746
Other gains/losses and benefits accumulated	1,975,815
Decrease in discount period	4,050,071
Benefits paid	<u>(2,344,420)</u>
Net increase	<u>3,828,212</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 62,858,586</u>

Contributions: Contributions are recognized annually upon completion of the actuarial valuation for the Plan year.

Pension benefits: Benefit payments to participants or beneficiaries are recorded upon distribution.

Trustee and administrative expenses: Trustee and investment advisory fees are paid by the Plan. All other administrative expenses are paid by the Employer.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent events: The Plan administrator has evaluated subsequent events through September 5, 2023, the date the financial statements were available to be issued. RSM notes the plan was amended on December 13, 2022, offering a one-time, limited Voluntary Lump Sum window for eligible participants from the period of January 1 – March 1, 2023. During this window, participants were allowed to elect to receive his or her benefit in an immediate lump sum cash out or through a qualified joint and survivor annuity commencing immediately. Distributions of \$13,536,861 occurred during this window.

Notes to Financial Statements

Note 3. Information Certified by the Plan's Trustee

The investment information included throughout the Plan's financial statements and supplemental schedules as of and for the years ended December 31, 2022 and 2021 was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to these Plan assets is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 6 and the supplemental schedules related to the Plan's assets.

Bank of America, N.A. also certified to the completeness and accuracy of \$3,339,902 of net depreciation and \$10,414,705 of net appreciation in fair value of investments and \$2,381,912 and \$2,093,604 of interest and dividends for the years ended December 31, 2022 and 2021, respectively.

Note 4. Funding Policy

The Employer's policy is to fund normal pension costs on a current basis and to fund prior service costs over a 10-year period. The minimum funding requirements as set forth in ERISA have been met for both 2022 and 2021.

Note 5. Plan Termination

In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pension. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits, would the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

While the Employer has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions set forth in ERISA. Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date.

Notes to Financial Statements

Note 6. Fair Value Information

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under this standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Common stocks, cash equivalents, mutual funds, and real estate: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds, municipal bonds, U.S. Government securities and mortgage-backed securities: Valued using quoted prices for identical or similar assets in both active and inactive markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Fair Value Information (Continued)

The following table summarizes assets measured at fair value on a recurring basis as of December 31, 2022 and 2021 segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

Note 7. Income Tax Status

The Internal Revenue Service has determined and informed the Plan Sponsor and employer by letter dated June 24, 2014, that the Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

The Plan Administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2019.

KTH Parts Industries, Inc. Associate Retirement Plan

Notes to Financial Statements

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Note 9. Related-Party Transactions

Fees paid for trustee and investment management services rendered by Bank of America, N.A. qualify as exempt party-in-interest transactions; such fees totaled \$687,725 and \$646,018 during 2022 and 2021, respectively.

Segment 3:	3.36%	5.92%

The "Limited to 25 Year Corridor" rates are adjusted by the applicable maximum and applicable minimum percentages of the 25-year average segment rates, as set forth in the Highway and Transportation Funding Act of 2014 ('HATFA-14') for use in Minimum Required Contribution calculations. The IRS Maximum Deductible Limit Calculations use the rates from the "Non-Stabilized" column above.

The interest rates used to value the Target Liability for determining the minimum and maximum contributions are prescribed by law and based on elections made by the Plan Sponsor.

Effective Interest Rate The Effective Interest Rate (EIR) for the current Plan Year is 5.53%. For the prior Plan Year, the EIR was 5.71%.

The EIR is the single rate of interest which, if used to determine the Funding Target, would result in the same Funding Target determined using the Plan Sponsor's above-elected discount rates. The EIR is used to discount contributions for minimum funding requirements and to accumulate excess contributions to the end of the year.

Funding Expected Return on Assets

The Expected Return on Assets (EROA) used in the calculation of the Actuarial Value of Assets is the lesser of (a) or (b), below:

(a) The expected long-term rate of return on assets based on policy trust allocations; or

(b) The third segment rate in the IRS-prescribed three-segment rate assumption, based on the elections made by the Plan Sponsor for minimum funding purposes.

The results are as follows:

Plan Year	Assumption (a)	Seg. III (b)	EROA (smaller of (a) or (b))
2022	7.00%	5.92%	5.92%
2021	7.50%	6.11%	6.11%

The Expected Return on Assets assumption for the calculation of Actuarial Value of Assets is based on input by the Plan's investment advisors and reflects their view of the long-term rate of return on assets, based on current and target asset allocations at each valuation date.

Funding Administrative Expenses

Administrative Expenses are not assumed to be paid from the trust.

Salary Scale

2.00% per year, compounded annually.

An experience analysis with respect to salary scale was not performed. As a result, the current assumption has been selected based on observations of recent compensation, the actuary's experience with plans of a similar size, plan design, workforce composition, and discussions with the Plan Sponsor.

Inflation

None.

Funding Mortality

§430(h) Static Separate Annuitant/Non-Annuitant Mortality Tables for the Current Plan Year.

Disability Mortality is assumed to be the same as that used for Healthy Retirees.

The mortality assumptions used to value the Target Liability for determining the minimum and maximum contributions are prescribed by law and based on elections made by the Plan Sponsor.

Withdrawal Rates

T-4 of the Actuary's Pension Handbook. Sample rates varying by age are as follows:

Age	Rate
25	5.29%
30	5.07%
35	4.70%
40	4.19%
45	3.54%
50	2.48%
55	0.94%
60	0.09%
63 and over	0.00%

An experience analysis with respect to termination was not performed. As a result, the current assumption has been selected based on observations of recent terminations, the actuary's experience with plans of a similar size, plan design, workforce composition, and discussions with the Plan Sponsor.

Disability Incidence

Participants are assumed to become disabled in accordance with the following, with annual rates varying by age:

Age	Rate
30	0.110%
35	0.130%
40	0.170%
45	0.230%
50	0.340%
60	1.080%

An experience analysis with respect to disability was not performed. As a result, the current assumption has been selected based on observations of recent disablements, the actuary's experience with plans of a similar size, plan design, workforce composition, and discussions with the Plan Sponsor.

Retirement Rates

Participants are assumed to retire in accordance with the following, with annual rates varying by age:

Age	Rate
58	5%
59	3%
60	5%
61	10%
62	20%
63	10%
64	20%
65	100%

An experience analysis with respect to retirement was not performed. As a result, the current assumption has been selected based on observations of recent retirements, the actuary's experience with plans of a similar size, plan design, workforce composition, and discussions with the Plan Sponsor.

Spousal Assumptions

100% of males and 100% of females are assumed to be married.

Females are assumed to be 3 years younger than males.

An experience analysis with respect to spousal information was not performed. As a result, the current assumption has been selected based on observations of recent spousal information, the actuary's experience with plans of a similar size, plan design, workforce composition, and discussions with the Plan Sponsor.

Form of Payment

All benefits are assumed to be paid in the Normal Form defined under the terms of the Plan.

An experience analysis with respect to form of payment was not performed. As a result, the current assumption has been selected based on observations of recent form of payment elections, the actuary's experience with plans of a similar size, plan design, workforce composition, and discussions with the Plan Sponsor.

Changes in funding assumptions since the prior valuation

In accordance with federal law, the discount rates for funding were updated from the discounts rates disclosed in the 2022 Actuarial Valuation Report to the discount rates shown herein.

The mortality table was updated from the 430(h) Static Table for the prior Plan Years to the 430(h) Static Table for the current Plan Year.

SUMMARY OF METHODS

Actuarial Cost Method

The Pension Protection Act (PPA) requires the calculation of the Target Liability and Target Normal Cost. The Target Liability represents the present value of benefits accumulated as of the valuation date. The present value is calculated by projecting future payments of the accrued benefit, adjusting for probability of receipt according to demographic assumptions, and discounting the payments back to the valuation date using the segment interest rates. Payments expected within five years of the valuation date are discounted using the first segment rate, payments expected at least five but within 20 years of the valuation date are discounted using the second segment rate, and payments expected at least 20 years from the valuation date are discounted using the third segment rate. The calculation of the Target Normal Cost is identical, except that the future payment stream is based on the benefit expected to accrue during the plan year.

Asset Method

We used financial data submitted by the trustee as of the valuation date without further audit. We have reviewed the information for internal consistency, and we have no reason to doubt its substantial accuracy.

Funding Actuarial Value of Assets Method

For funding purposes, Actuarial Value of Assets is a smoothed market value assets adjusted by the applicable percentage of gain or loss calculated in each year during the smoothing period. The gain or loss is the difference between the current year's market value, and prior year's market value brought forward with contributions, benefit payments, and administrative expenses, all adjusted at the expected interest rate to the valuation date. The expected interest rate for each year is the lesser of the expected rate of return and the third segment rate. The applicable percentage is 66-2/3% for the year preceding the valuation date, and 33-1/3% for the second year preceding the valuation date. The Actuarial Value of Assets will be adjusted to be no greater than 110% and no less than 90% of the market value of assets as of the current year valuation date.

Accrued contributions are discounted back to the valuation date at the prior year's effective interest rate.

Changes in methods since the prior valuation

None.
