Report of Independent Auditors

To the Administrator of
Henry Crown and Company Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Henry Crown and Company Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2021 and the related statement of changes in accumulated plan benefits for the year then ended, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021 and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects,

the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial

likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022 and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2022 ("supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the

underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

December 31, 2022 and 2021

1. Description of the Plan

The following description provides general information on the provisions of the Henry Crown and Company Pension Plan (the “Plan”), a multiple-employer plan, sponsored by Henry Crown and Company S LLC, (the “Company”). Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan was adopted effective January 1, 1985, and was last amended and restated effective January 1, 2012, to comply with law changes.

The Plan is a noncontributory, defined benefit plan currently covering salaried employees of the Company and Longview Asset Management, LLC (each as “Employer”).

The Plan also provides benefits to participants of the Company’s discontinued or sold operations:

- Petroleum and marine operations
- CHF Industries, Inc. and its Aberdeen, Cameo and Joanna Divisions
- American Envelope Company and its various divisions
- Woodard, LLC

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

The Northern Trust Company is the trustee of the Plan.

Participation

Generally, employees are eligible to participate after attaining age 21 and completing 12 consecutive months of service.

Funding Policy

The Employers make annual contributions based on the funding recommendations of the Plan’s actuary to meet the minimum funding requirements under ERISA. The Plan is in compliance with applicable ERISA funding requirements for 2022 and 2021.

Principal Benefit Provisions

Salaried Employees

The monthly retirement benefit payable on a participant’s normal retirement date for all eligible participants of businesses currently participating in the Plan is one-twelfth (1/12) of the sum of the following amounts determined for each year of credited service:

Henry Crown and Company Pension Plan

- Percentage of the participant's compensation (as defined) that is in excess of the Social Security taxable wage base for the year
- Percentage of the participant's compensation (as defined) for the year

Hourly Employees

The monthly retirement benefit payable on a participant's normal retirement date is one-twelfth (1/12) of the benefit level times the years of credited service earned in the following periods:

Period	Benefit Level
1987-1999	\$ 120
2000	144
2001	168
After 2001	180

Vesting

Participants become fully vested upon the completion of five years of service.

Retirement Benefit Options

The Plan provides for normal retirement benefits to begin on the first day of the month on or after the participant's 65th birthday, with various options for early retirement or late retirement, death or long-term disability. The Plan's normal form of benefit for a single participant is a Straight Life Annuity, and for a married participant a 50% Joint and Survivor Annuity, which provides a lifetime benefit payable to the participant and, upon death, 50% of such benefit payable to the participant's surviving spouse.

Participants may also elect one of the following options:

Straight Life Annuity - Under this option, benefits are paid only during the life of the participant.

Five- or Ten-Year Certain Life Annuity - Under this option, benefits are paid in the form of a lifetime benefit; however, if the participant dies before 60 or 120 monthly payments have been made, depending on the term elected, payments will continue to a beneficiary until a total of 60 or 120 payments have been made.

Henry Crown and Company Pension Plan

Notes to Financial Statements

December 31, 2022 and 2021

Description of the Plan - Continued

Contingent Annuity - This option is similar to the Joint and Survivor Annuity described above. However, the individual named as the contingent annuitant can be an individual other than the participant's spouse. The benefits payable to the contingent annuitant can be 100%, 75% or 50% of the benefits earned by the participant, depending upon the election made by the participant.

Lump Sum - Participants who were employed by the discontinued CHF Industries, Inc. - Aberdeen Division may elect a lump-sum distribution of their accrued benefits earned prior to January 1, 1985.

Selection of one of these options by a married participant is contingent upon spousal consent.

If a participant terminates their employment with the Company before completing the required years of vesting service, they do not receive Plan benefits. Participants who terminate with vested accumulated Plan benefits that are less than \$5,000 receive their accumulated benefits as a lump-sum distribution.

Administrative Expenses and Investment Management Fees

Expenses of administration such as legal, accounting, actuary, investment management fees, recordkeeping and trustee fees, are paid from the assets of the Plan.

Plan Termination

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time, subject to the provisions of ERISA. In the event the Plan terminates, the assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits for all participants or beneficiaries whose retirement benefits have been or could have been payable three years prior to termination of the Plan.
- b. Benefits guaranteed by and up to the insurance limitations of the Pension Benefit Guaranty Corporation ("PBGC").
- c. Benefits that are vested but not guaranteed by the termination insurance provisions of ERISA.

If the Plan terminates, a portion of the benefits under the Plan is insured by the PBGC (a U.S. Government agency). Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, and may also depend on the level of benefits guaranteed by the PBGC.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Henry Crown and Company Pension Plan

Notes to Financial Statements

December 31, 2022 and 2021

Summary of Significant Accounting Policies – Continued

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Subsequent Events

Events or transactions occurring after the period end through October 9, 2023, the date that the financial statements were available to be issued, have been evaluated in the preparation of the financial statements.

Valuation of Investments and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation (Depreciation) in Fair Value of Investments

Net realized and unrealized appreciation (depreciation), which includes gains and losses on investments bought and sold, as well as held during the year, is recorded in the accompanying Statements of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (i.e., retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary, Mercer, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Henry Crown and Company Pension Plan

Notes to Financial Statements

December 31, 2022 and 2021

Actuarial Present Value of Accumulated Plan Benefits – Continued

Significant actuarial assumptions used in the valuations as of December 31, are as follows:

	2021	2020
Discount rate per ASC 960	7.25% per annum	7.50% per annum
Mortality	Private Sector 2012 generational sex-distinct, separate employee/retiree tables and Mercer Modified MMP 2021 projection scale.	Private Sector 2012 generational sex-distinct, separate employee/retiree tables and Mercer Modified MMP 2020 projection scale.
Retirement age	All participants are assumed to retire between the ages of 55 and 68, with varying rates of retirement to reflect current practices.	All participants are assumed to retire between the ages of 55 and 68, with varying rates of retirement to reflect current practices.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2022. Had the valuations been performed as of December 31, 2021 there would be no material difference. The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

4. Investments

The Plan's investments are managed by the Company's investment managers together with The Northern Trust Company, in its role as trustee of the Plan.

The following table presents investments in common and collective trusts for which fair value is measured using the net asset value ("NAV") per share practical expedient.

December 31, 2022		Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period

5. Fair Value

The Plan follows guidance defined in Accounting Standards Codification, *Fair Value Measurement (Topic 820)*, which provides a framework for measuring fair value under GAAP. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Quoted market prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments are valued at fair value using the following methodologies:

- **Common stocks** valued at the closing price of individual shares at year-end as traded in an active market.
- **Common and collective trusts:** valued at the year-end NAV of the underlying investments comprising the common and collective trusts. The Plan holds investments in the Northern Trust STIF and Silchester. The Northern Trust STIF investment reflects high-grade money market instruments with short maturities. The Silchester investment reflects equity securities traded on international exchanges in developed markets.
- **Corporate bonds:** valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available, the bond is valued using matrix pricing or models from reputable pricing vendors.
- **Limited partnerships:** The limited partnership is publicly traded and the value is based on quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(a) Assets measured at NAV as a practical expedient are excluded from the fair value hierarchy.

6. Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Northern Trust Company has certified that the following data included in the financial statements, notes to the financial statements and ERISA-required supplemental schedules is complete and accurate:

- Investments, at fair value, due from broker for securities sold, and investment income receivable as shown in the Statements of Net Assets Available for Benefits as of December 31, 2022 and 2021.
- Interest income, investment income, dividend income, net appreciation/(depreciation) in fair value of investments and investment management fees as shown in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2022 and 2021.

Information Certified by the Trustee – Continued

- Schedule I: Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2022.
- Schedule II: Schedule H, Line 4j - Schedule of Reportable Transactions, for the year ended December 31, 2022.

7. Income Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Company in a letter dated February 12, 2014, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. There are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements as of December 31, 2022 and 2021. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2019.

8. Risks and Uncertainties

The determination of contributions to the Plan and the actuarial present value of accumulated plan benefits are based on certain assumptions pertaining to interest rates, inflation rates and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan also invests in securities that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

9. Party-in-Interest Transactions

Certain Plan investments are managed by The Northern Trust Company. The Northern Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions.

• Flat-dollar benefit increases	N/A	
• Social Security wage base	N/A	
• Inflation	2.20% per year	
• Expenses	\$497,000 added to current year normal cost	

Rationale for Economic Assumptions

- Discount rate – The discount rate is prescribed by the plan sponsor through an election from allowable alternatives under IRS regulations.
- Salary increases – The salary scale assumption is based on an experience study covering the period from January 1, 2013 to January 1, 2018, adjusted to reflect management's expectations for wage changes in the future.
- Expenses – Assumed plan-paid expenses for the upcoming year are based on prior year experience, adjusted (if material for the purpose) for expected changes in the upcoming year, rounded to the nearest \$1,000.

Demographic assumptions		
• Withdrawal	See table of sample rates.	
• Retirement age	Attained age	Percentage
	55-64	8%
	65	35%
	66-69	20%

Unpredictable contingent event assumptions	Not applicable	
Valuation Pay	Valuation pay for 2022 is equal to [(a) + (b) + (c)] multiplied by the salary scale: (a) 2021 base compensation; (b) actual merit and holiday bonuses paid during 2021; and (c) an assumed incentive bonus equal to an individual's target incentive percentage multiplied by their base compensation for 2021.	

Table of sample rates

Attained age	Percentage	
	withdrawal	
	less than or equal to 3 years of service (select)	greater than 3 years of service (ultimate)
20	17.00%	9.90%
25	17.00%	9.90%
30	17.00%	8.20%
35	17.00%	6.40%
40	17.00%	5.00%
45	17.00%	3.90%
50	17.00%	3.00%
55	17.00%	2.30%
60	17.00%	2.30%

Rationale for demographic assumptions

- Mortality – Prescribed assumption and based on plan sponsor's PPA election.
- Withdrawal – The withdrawal rates are based on an experience study covering the period from January 1, 2013 to January 1, 2018.
- Retirement age – The retirement rates are based on an experience study covering the period from January 1, 2013 to January 1, 2018.
- Benefit commencement age – The benefit commencement age is based on an experience study undertaken in 2010. An experience study in 2018 found that the benefit commencement age experience was in line with expectations so the commencement age was not changed.
- The percent married, spouse age difference, and form payment assumptions were also reviewed during the experience study in 2018 and it was found that experience was in line with expectations so the assumptions were not changed.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods for funding

Asset methods

The asset valuation method is the fair market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

The plan's valuation date is the beginning of the plan year.

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions****A. Salaried employees – see section B for plan provisions for hourly employees**

Effective date and plan year	Original plan: January 1, 1985 Plan year: The calendar year												
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.												
Significant events that occurred during the year	None.												
Definitions													
• Covered employees	The plan covers the salaried employees of the participating Employing Units.												
• Participation	Employees begin participation on the January 1 or July 1 following the completion of one year of service and the attainment of age 21. Employees who satisfied these requirements on January 1, 1985 participated as of that date. Employees eligible to participate on January 1, 1985 who had at least 25 years of service as of that date could irrevocably elect not to participate by filing such an election with the Plan Administrator on or before March 1, 1985. Aurora Venture became an Employing Unit of the plan during 1988, and employees satisfying the eligibility requirements on January 1, 1986 receive benefit accruals starting on that date. The Salisbury North Carolina plant of Woodard became an Employing Unit of the plan during 1997.												
• Year of participation with an employing unit	A year of participation with an Employing Unit is a plan year during which the employee has at least 1,000 hours of service (870 hours of service for the Joanna division). Appropriate adjustments are made if a Company becomes an Employing Unit during the plan year. The current Employing Units and the date they became Employing Units for benefit accrual purposes, are as follows: <table> <tr> <th>Employing units</th><th>Effective date</th></tr> <tr> <td>CC Industries, Inc.</td><td>1/1/85</td></tr> <tr> <td>Henry Crown and Company</td><td>1/1/85</td></tr> <tr> <td>Woodard</td><td>1/1/85</td></tr> <tr> <td>Aurora Venture</td><td>1/1/85</td></tr> <tr> <td>Woodard Salisbury</td><td>1/1/99</td></tr> </table>	Employing units	Effective date	CC Industries, Inc.	1/1/85	Henry Crown and Company	1/1/85	Woodard	1/1/85	Aurora Venture	1/1/85	Woodard Salisbury	1/1/99

Henry Crown and Company	1/1/85												
Woodard	1/1/85												
Aurora Venture	1/1/85												
Woodard Salisbury	1/1/99												
• Pensionable earnings	Earnings for actual hours worked while an active participant (including bonuses) plus elective, pre tax contributions to a 401(k) plan and short term disability payments.												
• Hours of service	An employee who renders 500 or fewer hours of service with a member of the Affiliated Group in a calendar year will have a "break in service." If he renders more than 500 but less than 1,000 hours of service in a year, he will not have a break in service, but the year will not count for eligibility or vesting purposes. If he renders 1,000 or more hours of service in a year, such year will be credited for eligibility and vesting purposes. Service while receiving long term disability payments will be considered as service for vesting purposes.												
• Employee contributions	None.												

Schedule SB, Part V — Summary of Plan Provisions**Normal retirement**

- Eligibility The first day of the month coincident with or next following the employee's 65th birthday.

- Benefit **Amount of monthly life only pension**

For service prior to January 1, 1989

For each year of participation with an Employing Unit an employee is credited with one twelfth of the sum of (i) 1.50% of earnings not in excess of the taxable wage base for such year and (ii) 2.50% of any excess of such earnings over the taxable wage base for such year.

For service after December 31, 1988

For each year of participation with an Employing Unit an employee will be credited with one twelfth of 1.50% of his earnings during such year.

Early retirement

- Eligibility Completion of 5 years of service and attainment of age 55.

- Benefit An employee who retires early may elect either 1. or 2.

1. A deferred retirement income to begin at Normal Retirement Date equal to the total benefits accrued to actual retirement date, or

2. An immediate retirement income to begin at Early Retirement Date equal to total accrued benefits, reduced by 1/2% for each month that payment commencement date precedes Normal Retirement Date.

Late retirement

- Eligibility First of month coinciding with or next following separation from service after the Normal Retirement date.

- Benefit Benefits continue to accrue until the date of actual retirement.

Deferred vested

- Eligibility Completion of 5 years of service or attainment of age 65.

- Benefit Pension commencing on the Normal Retirement Date: An amount computed in the same manner as for early retirement.

Early commencement: A participant with a right to a deferred vested pension commencing on his Normal Retirement Date may elect early commencement of a pension on the first day of any month following attainment of age 55. The pension will be equal to his vested benefit, reduced by 1/2% for each month that his payment commencement date precedes his Normal Retirement Date.

Disability

- Eligibility Termination of active employment on or after January 1, 2003 by a Salaried Employee who is eligible for benefits under a long term disability program established by the employer.

- Benefit The period of time that an eligible disabled participant is receiving long term disability benefits is included in determining vesting service and for a participant who becomes disabled after January 1, 2003, in credited service.

Schedule SB, Part V — Summary of Plan Provisions

Death

- Pre-retirement surviving spouse's benefit

Eligibility

Vested and married on the date of death. This provision is applicable to vested active, transferred, and terminated participants.

Amount

The benefit payable to the spouse at the death of the participant is a lifetime annuity commencing at the time the participant would have attained age 55 had he survived (or immediately, if he is at least age 55 at the time of his death). The monthly amount so payable is equal to 50% of the monthly retirement income which the participant would have received had he separated from service on the date of his death, survived to age 55 (if then under age 55), and commenced receiving benefits under the 50% Contingent Annuity Option. The spouse may elect immediate commencement of the benefit, if deferred, or elect deferral of its commencement, if the benefit is payable immediately and has a lump sum value of \$5,000 or more. In such event the benefit payable will be the actuarial equivalent of the benefit otherwise payable.

If the spouse of a participant receiving or entitled to a benefit under this provision dies, and there are children of the participant under the age of 18, the benefit shall continue (or commence, if the spouse was not receiving a benefit on the date of her death) to each such child for a period of 5 years or, if the child was under the age of 16 on the spouse's date of death, until the attainment of age 21. Each child shall receive an equal share of the actuarial value of the benefit the spouse was receiving or entitled to receive. The benefit payable to each child shall be the actuarial equivalent of his share.

- Death benefits for unmarried participants with dependents

Eligibility

Vested, unmarried at the date of death, and having children under age 18 or other dependents so designated by the participant to receive this benefit on a form provided by the Plan Administrator.

Amount

Each dependent shall receive an equal share, or share designated by the participant, of the actuarial value of the benefit that would have been payable to the spouse, if there was such a spouse. For the purposes of determining the actuarial value of this benefit the spouse's age is assumed to be the same as the participant's. The benefit shall be payable to each child for a period of 5 years or, if the dependent was under the age of 16 on the participant's date of death, until the attainment of age 21. The benefit payable shall be the actuarial equivalent of each dependent's share.

The monthly amount so payable is equal to 50% of the monthly retirement income which the participant would have received had he separated from service on the date of his death, survived to age 55 (if then under age 55), and commenced receiving benefits under the 50% Contingent Annuity Option. The spouse may elect immediate commencement of the benefit, if deferred, or elect deferral of its commencement, if the benefit is payable immediately and has a lump sum value of \$5,000 or more. In such event the benefit payable will be the actuarial equivalent of the benefit otherwise payable.
Form of benefits	
• Automatic form for unmarried participants	Life Only Annuity.

Schedule SB, Part V — Summary of Plan Provisions

• Automatic form for married participants	50% Contingent Annuity, actuarially equivalent to the Life Only annuity which would have been payable and the participant been unmarried.
• Optional forms	100%, 75% or 50% Contingent Annuity. Life Only annuity (optional for married participants). 5 or 10 years Certain and Life Annuity.
• Optional form conversion factors	Lump-Sum Payouts for Small Benefits Lump-sum payouts for small benefits consist of lump-sum payout amounts under \$5,000.

Interest

Applicable interest rate as published by the IRS for the fourth calendar month preceding the plan year.

Mortality

Applicable mortality table as published by the IRS for the plan year.

The lump-sum payout amount is determined assuming the commencement of the benefit at age 65, or, if older, upon immediate commencement.

Mortality

RP 2000 (unisex) projected to 2015 with white collar adjustment Mortality Table with no age adjustment for employees and a three year age reduction for spouses.

Miscellaneous

• Sale of Division	CHF Industries was sold February 25, 1995. All CHF employees were vested in their accrued benefits at that time. Service after the sale date does not count as plan participation for benefit accrual purposes.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2022, the limit is \$245,000.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated effective January 1, 2022, are included in this valuation:

- **Most recent plan amendments included:** None.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* Current active participants over normal retirement age are valued using their accrued benefit at the valuation date. The plan sponsor issues suspension of benefit notices to participants who work beyond normal retirement date, so actuarial increases do not apply.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including a late retirement actuarial increase using the plan's definition of actuarial

Schedule SB, Part V — Summary of Plan Provisions

equivalence. The age 75 late retirement actuarial increase factor is applied to deferred vested participants who are over age 75 as of the valuation date.

- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **Shutdown benefits:** We are not aware of any corporate actions that would create shutdown benefits; therefore, they are excluded.

Plan provisions specific to funding**Additional Benefits Included or Excluded****IRC Section 436 benefit restrictions:**

- **Plan amendments:** See above.
- **Prohibited payments:** Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- **Benefit accruals:** The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

- Plan document was restated effective January 1, 2022.
- Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2021 to 2022.
