Metric Engineering Savings and Retirement Plan

Miami, Florida

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Metric Engineering Savings and Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Metric Engineering Savings and Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

- the information in the financial statements referred to above, related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of **Metric Engineering Savings and Retirement Plan** and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about **Metric Engineering Retirement and Savings Plan** ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if

Metric Engineering Savings and Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

there is a substantial likelihood that individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of **Metric Engineering Retirement and Savings Plan** internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about **Metric Engineering Retirement and Savings Plan** ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule H, line 4i-schedule of assets held at end of year as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain

additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Metric Engineering Savings and Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

Note A. Description of the Plan

The following description of the Metric Engineering (“Company”) Savings and Retirement Plan (“Plan”) provides only general information regarding the Plan. Participants should refer to the Plan document for a more complete description of the Plan provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company. This is a 401(k) deferred compensation plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Upon death, the accrued benefits of the participants will be paid to the beneficiaries as designated by the participants.

Empower Trust Company, LLC, formerly known as “Great-West Trust Company, LLC”, (“Empower” or the “Trustee”) is the trustee and custodian of the Plan. Empower Annuity Insurance Company of America is the record keeper of the Plan. Management of the Company controls and manages the operation and administration of the Plan.

Contributions

For the years 2022 and 2021, employees eligible to participate were permitted to make elected deferrals in any amount from 2% up to 75% of their pretax annual compensation, as defined in the Plan, not to exceed the maximum allowable contribution under the Internal Revenue Code (“The Code”). The maximum allowable contribution totaled \$20,500 and \$19,500 for years ended December 31, 2022 and 2021, respectively, subject to certain discrimination tests prescribed by the Internal Revenue Code. Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or contribution plans. In addition, participants who have attained age 50 before the end of the Plan year are eligible to make “catch-up” contributions up to \$6,500 for the years ended December 31, 2022 and 2021. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-five (25) mutual funds, one (1) guaranteed interest contract, and ten (10) collective trust funds as investment options for participants. The Company contributes 50% of the first 6% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company’s board of directors. Participants and employer contributions are held and managed (as directed by the participants), by the insurance company, which invests the cash received, interest and dividend income and makes distributions to participants.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and allocations of (a) the Company’s contributions, (b) administrative expenses, and (c) investment earnings or losses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

Metric Engineering Savings and Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

Note A. Description of the Plan – continued

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service at the rate of 20% after two years, 40% after three years, 60% after four years, and 100% after five years of credited service.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative fees and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021.

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, provided the loan is adequately secured and bears a reasonable rate of interest commensurate with local prevailing rates. Repayment should take place within a specified period of time within a range of 5 years or up to 10 years for the purchase of a primary residence. Principal and interest are paid biweekly through payroll deductions. The insurance company administers the notes receivable from participants.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a specified period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

In-Service Distributions

The Plan allows in-service distributions if the participant has a hardship, attained the normal retirement age or attained the early retirement age. In-service distributions are permitted if the participant is 100% vested in the amount being withdrawn.

Forfeited Accounts

If a participant terminates employment prior to becoming fully vested, the non-vested portion of the participant's account, as defined by the Plan, is forfeited. Participant forfeitures for the year ended December 31, 2022 and 2021 amounted to \$32,884 and \$59,965, respectively. The forfeitures may be used to pay administrative expenses, and to reduce future employer contributions, or reallocated to participant accounts on a pro rata basis.

Metric Engineering Savings and Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

Note A. Description of the Plan – continued

Forfeited Accounts – continued

At December 31, 2022 and 2021, forfeited non-vested accounts totaled \$190,097 and \$158,390, respectively. During 2022 and 2021, there were no forfeited amounts used to pay Plan recordkeeping expenses. Forfeitures used to reduce Company matching contributions during the year ended 2022 and 2021 were \$1,500 and \$47,781.

Note B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

All investments in mutual funds are recorded at fair value in these financial statements, as prescribed by Accounting Standards Codification No. 820, Fair Value Measurements, ("ASC 820"). ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additionally, ASC 820 establishes a framework for measuring fair value and expands disclosures about assets and liabilities measured at fair value. For information related to the Plan's valuation methodologies under ASC 820, see Note D of these financial statements.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits net appreciation (depreciation) in the fair value of its investments, which consist of realized gains or losses, represented as an excess (shortfall) over market values at the beginning of the year, and unrealized appreciation (depreciation) on investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Metric Engineering Savings and Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

Note B. Summary of Significant Accounting Policies – continued

Excess Contributions Payable

During 2022 and 2021, there were excess employee contributions of \$62,211 and \$42,087, respectively. The Plan distributed the 2022 and 2021 excess contributions to the applicable participants prior to March 15th of the following year.

Payments of Benefits

Benefits payments to participants are recorded when paid.

Note C. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Empower Trust Company, LLC, the Trustee for the Plan, has certified as to the completeness and accuracy of all the investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021, the supplemental Schedule H, Part IV, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2022, and the related investment activity reflected in the Statement of Changes in Net Assets Available for Benefits for the years ended December 31, 2022 and 2021.

The Plan has investments that are held in a guaranteed investment contract directed by each participant. The annuity contract has a guaranteed interest minimum. The aggregate value of the minimum guarantee is \$2,106,758 and \$2,303,245 at December 31, 2022 and 2021, respectively.

During 2022 and 2021, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$(4,378,108) and \$1,912,392, respectively.

Note D. Fair Value Measurements

The FASB has established a framework for measuring fair value in ASC 820, Fair Value Measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level I

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Metric Engineering Savings and Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

Note D. Fair Value Measurements – continued

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies for assets measured at fair value. There have been no changes in methodologies used at December 31, 2022.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end. The mutual funds held by the Plan are deemed to be actively traded and have a readily determinable fair value.

Collective trusts: Valued as determined by the custodian based on net asset values and recent transaction prices. Net asset values per share are generally obtained directly from the fund house or other investment provider.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Metric Engineering Savings and Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

Note D. Fair Value Measurements – continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

	As of December 31, 2022			Total
	Level 1	Level 2	Level 3	
Registered investment companies (Mutual Funds)	\$ 11,546,645	\$ -	\$ -	\$ 11,546,645

Collective trusts	-	-	-	9,168,382
Total investments at fair value	\$ 13,611,521	\$ -	\$ -	\$ 22,779,903

(a) In accordance with GAAP, certain investments that were measured at net asset value (or its equivalent as a practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items in the statement of net assets available for benefits.

Note E. Plan Amendment or Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. The employer has the right to amend the Plan at any time.

Note G. Tax Status

The underlying non-standardized prototype plan has received an opinion letter dated November 14, 2022 (previously March 31, 2008), stating that the written form of the underlying prototype document is qualified under Section 401 of the Code. Therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements

December 31, 2022 and 2021

Note H. Guaranteed Investment Contract

The Plan has entered into a group annuity contract with Empower Trust Company, LLC, an insurance company totaling \$2,106,758 and \$2,303,245 for 2022 and 2021, respectively. The account is credited with participant contributions to the account and earnings on the underlying investments, and charged for participant withdrawals and administrative expenses. The crediting rate is compounded daily to the effective annual interest rate. The interest rate to be credited will be determined by Empower Trust Company, LLC prior to the last day of the previous calendar. The effective annual interest rate will never be less than 0%. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Empower Trust Company, LLC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) bankruptcy of the Plan's sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan, (3) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exemption under ERISA or (4) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contracts issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without the consent of the issuer.

Note I. Related Party and Party-in-Interest Transactions

The Plan invests in shares of mutual funds and a guaranteed investment contract managed by Empower Trust Company, LLC, as included in the supplemental information in Schedule H, Part IV, Line 4(i) – Schedule of Assets (held at end of year). Empower Trust Company, LLC is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

As of December 31, 2022 and 2021, notes receivable from participants amounting to \$338,664 and \$366,375, respectively, also qualify as party-in-interest transactions.

Notes to Financial Statements

December 31, 2022 and 2021

Note I. Related Party and Party-in-Interest Transactions – continued

During the years ended December 31, 2022 and 2021, the Plan paid \$82,576 and \$71,053, respectively, in administrative expenses, of which \$8,278 and \$12,172 were for recordkeeping services to Empower in 2022 and 2021, respectively.

Note J. Contingencies

There were no unusual or infrequent events or transactions occurring subsequent to the balance sheet date that might significantly affect the usefulness of the financial statements in assessing the Plan's present and future ability to pay benefits.

Note K. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note L. Subsequent Events

For the year ended December 31, 2022, Plan management evaluated subsequent events for potential recognition and disclosure through October 4, 2023, which is the date the financial statements were available to be issued. There were no events or transactions discovered during this evaluation that require recognition or disclosure in the financial statements.
