Independent Auditor's Report

To the Plan Administrator
St. Paul's School Defined Contribution Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform an audit of the financial statements of St. Paul's School Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 9 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America (U.S. GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Emphasis of Matter—Investments

As discussed in Note 3, the financial statements include an investment representing 16% and 14% of total assets as of December 31, 2022 and 2021, respectively, whose fair value has been estimated using unobservable inputs in the absence of readily ascertainable fair values. Our disclaimer of opinion is not modified with respect to this matter.

Responsibilities of Management

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to, and we do not express an opinion on the supplemental schedule referred to above.

St. Paul's School Defined Contribution Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of St. Paul's School Defined Contribution Retirement Plan (the Plan) is provided for general information purposes only. Further information about the Plan Document and benefit provisions is available from the Plan Administrator.

General: The Plan is a defined contribution plan qualifying under section 403(b) of the Internal Revenue Code (IRC). The purpose of the Plan is to enable eligible employees to save for retirement as well as to provide certain benefits in the event of death, disability, or other termination of employment. The Plan is for the exclusive benefit of eligible employees and their beneficiaries and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was implemented July 1, 1968.

Eligibility: The Plan covers all employees of St. Paul's School (the Plan Sponsor) who have attained age 21 and who are not otherwise covered by a collective bargaining agreement, excluding non-resident aliens, student employees, employees who are eligible to participate in another plan of the employer, leased employees, the Vice Rector for Faculty and the Dean of Chapel. Employees are also eligible to receive discretionary employer contributions after having completed one year of service at a qualified educational institution during which they worked a minimum of 1,000 hours. Effective July 1, 2021, employees are eligible to receive discretionary employer contributions immediately upon hire.

Contributions: The Plan allows participants the option to make pre-tax contributions (deferrals) to their employee accounts. The Plan does not permit deferrals in excess of the limits imposed by the IRC and other limitations specified in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified defined benefit or contribution plans. All newly eligible employees will be automatically enrolled with elective deferrals withheld in the amount of 3% unless indicated otherwise through a signed enrollment form. Employees eligible to participate in the Plan receive a discretionary employer contribution proportionate to a percentage applied to eligible wages, as defined by the Plan document, paid by the Plan Sponsor.

Participant accounts: Each participant's account is credited with the participant's deferral and allocation of: (a) the Plan Sponsor's discretionary contribution if any, and (b) Plan earnings, and charged with an allocation of any administrative expenses. Allocations are based on participant earnings or account balances as defined. The benefit, to which a participant is entitled, is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their deferrals plus actual earnings thereon. Effective July 1, 2021, a participant's account balance derived from employer contributions plus actual earnings thereon is subject to the following vesting schedule:

Years of Service	Vested Percentage
Less than 1	0%
1 or more	100%

Investment options: Upon enrollment in the Plan, participants may direct contributions into the registered investment companies, pooled separate accounts and fixed annuity contract offered through the Unified Trust Company. Participants with funds in TIAA-CREF may keep their funds in TIAA-CREF but may not make additional contributions through the Plan Sponsor to these accounts. Each participant has the ability to change his or her investment allocations at any time.

St. Paul's School Defined Contribution Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms can range from one to five years or up to 20 years for the purchase of a primary residence. The loans are secured by the vested balance in the participants accounts and bear interest at various rates which represent fixed rates determined by the plan administrator based upon the prevailing interest rates charged by persons in the business of lending money for loans. On December 31, 2022, the interest rates on loans outstanding ranged from 5.25% - 8.25%. Principal and interest is paid ratably through payroll deductions. In the case of termination of employment, the entire outstanding loan balance is immediately due and payable. Only one outstanding loan is permitted at a time for each participant.

Payment of benefits: The Plan provides for participants to withdraw funds upon attaining normal retirement age, or in the event of termination, death, or disability. Upon termination of service, participants may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, an annuity, or installments. Participants may also withdraw funds from participant contributions upon certain hardship situations, as defined by the Plan, or from all vested funds upon attaining age 59 1/2. Individual agreements governing certain investment options in the Plan may further restrict distribution of benefits.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements have been prepared in accordance with accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets generally accepted accounting principles in the United States (U.S. GAAP) to ensure net assets available for benefits and changes in net assets available for benefits are consistently reported. References to U.S. GAAP issued by the FASB in these footnotes are to the FASB Accounting Standards Codification (FASB ASC). The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: The Plan includes investments in registered investment companies, pooled separate accounts and fixed annuities with TIAA-CREF and Unified Trust Company (UTC), which are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. In the statement of changes in net assets available for plan benefits, the Plan presents the net depreciation in the fair value of investments, which consists of gains and losses on investments bought and sold as well as held during the year.

Use of estimates: Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Accordingly, actual results may differ from these expectations.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: For the year ended December 31, 2022, all reasonable expenses related to the plan administration were paid from Plan assets. Plan expenses include, but are not limited to, all reasonable costs, charges and expenses incurred in connection with the administration of the Plan. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

St. Paul's School Defined Contribution Retirement Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Income taxes: U.S. GAAP requires plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by federal, state or local tax authorities for fiscal years before 2019.

Note 3. Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of observable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies: The fair value of the registered investment companies offered by TIAA-CREF are determined based on the daily unit value published on NASDAQ. These funds are not traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the fund. The other registered investment companies are valued based on quoted market prices of the funds, when available. Investments in money market funds are valued at amortized cost on a daily basis, which approximates fair market value.

Pooled separate accounts: Valued daily using quoted prices which are based on the market value of the underlying real estate holdings. Real estate holdings are valued using external appraisals conducted by independent professionals.

Non-benefit responsive insurance annuity contract: Non-benefit responsive insurance annuity contracts are reported at contract value which approximates fair value (Note 4). This determination is based on TIAA-CREF's credit rating and yield during 2022 being comparable to similar alternative investments and the interest rate, which re-sets quarterly, being comparable to a ten-year treasury bond.

St. Paul's School Defined Contribution Retirement Plan

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

Fixed annuity contract: Valued at Net Asset Value (NAV) using market prices of underlying assets and audited financial statements rather than quoted prices in an active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021:

December 31, 2022	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 60,897,678	\$ -	\$ -	\$ 60,897,678
Pooled separate accounts	1,576,979	-	-	1,576,979
Non-benefit responsive insurance annuity contract	-	-	14,283,187	14,283,187
Fixed annuity contract (measured at NAV)*				12,139,929
Total investments at fair value	<u>\$ 62,474,657</u>	<u>\$ -</u>	<u>\$ 14,283,187</u>	<u>\$ 88,897,773</u>

December 31, 2021	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 73,969,181	\$ -	\$ -	\$ 73,969,181
Pooled separate accounts	1,566,714	-	-	1,566,714
Non-benefit responsive insurance annuity contract	-	-	14,719,833	14,719,833
Fixed annuity contract (measured at NAV)*				13,305,340
Total investments at fair value	<u>\$ 75,535,895</u>	<u>\$ -</u>	<u>\$ 14,719,833</u>	<u>\$ 103,561,068</u>

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available of benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2022 and 2021.

December 31, 2022	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Fixed annuity (UTC)	\$ 12,139,929	N/A	Daily	30 Days

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

The following table represents the Plan's Level 3 assets, the valuation techniques used to measure the fair value of those assets and the significant unobservable inputs and the ranges of values for those inputs.

Investment	December 31, 2022 Fair Value	Principal Valuation Technique	Unobservable Input	Range of Significant Input Values
TIAA Traditional Annuity Non-Benefit Responsive	\$ 14,283,187	Discounted cash flow Theoretical transfer (exit value)	Risk adjusted discount rate	3.70% - 6.25%
Investment	December 31, 2021 Fair Value	Principal Valuation Technique	Unobservable Input	Range of Significant Input Values
TIAA Traditional Annuity Non-Benefit Responsive	\$ 14,719,833	Discounted cash flow Theoretical transfer (exit value)	Risk adjusted discount rate	3.00% - 3.80%

Note 4. Non-Benefit Responsive Insurance Annuity Contract

The Plan has invested in an annuity insurance contract with TIAA-CREF, the TIAA Traditional Annuity Account (Non-Benefit Responsive). TIAA-CREF maintains the contributions in a general account for each contract. Investment contracts that are not fully benefit-responsive are included in the financial statements at contract value as reported by TIAA-CREF but are required by U.S. GAAP to be reported at fair value. TIAA-CREF has reported to the Plan that contract value approximates fair value for the investments as of December 31, 2022 and 2021.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, benefits will be provided as if all participants were then eligible for retirement.

Note 6. Transactions with Parties in Interest

The Plan Sponsor provides to the Plan certain accounting and administrative services for which no fees are charged. The employees that provide these services also are participants in the Plan. These transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered party-in interest transactions. However, under the provisions of ERISA these transactions meet the criteria for exemption, are not considered prohibited transactions, and do not need to be reported in the supplementary schedules of Form 5500.

The Plan invests in investments that are managed by TIAA-CREF and UTC. TIAA-CREF and UTC act as custodians (the Custodians) for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

Notes to Financial Statements

Note 7. Risk and Uncertainties

The Plan provides for any combination of a variety of investment options. Investments are exposed to various risks, such as interest rate, credit and market. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amount reported in the statements of net assets available for plan benefits.

Approximately 43% and 40% of the Plan's investments are held in three investment accounts at December 31, 2022 and 2021, respectively. This is considered to be a concentration of credit risk.

U.S. GAAP requires the financial statements and supplemental schedule to present the fair value of investments, except for fully benefit-responsive annuity contracts. The traditional non-benefit responsive annuity contract has been presented at contract value, which approximates fair value, as reported to the Plan by TIAA-CREF. Annuities are valued based on a discounted cash flow model which uses 20 years of data to determine the blended return on TIAA Traditional Annuity contracts for the participant population. This return is compared to the risk-free rate of a ten-year treasury bond. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant, causing the financial statements to become materially misstated.

Note 8. Information Certified by the Plan's Custodians

The following is a summary of the Plan's asset information as of December 31, 2022 and 2021 included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Custodians that information provided to the Plan Administrator by the Custodians related to the following assets is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedules related to the following assets:

December 31,	2022	2021
Investments:		
Registered investment companies	\$ 60,897,678	\$ 73,969,181
Pooled separate accounts	1,576,979	1,566,714
Non-benefit responsive insurance annuity contract	14,283,187	14,719,833
Fixed annuity contract	12,139,929	13,305,340

Notes receivable from participants	<u>\$ 169,141</u>	<u>\$ 175,111</u>

The Custodians also certified to the completeness and accuracy of \$11,364,350 of net depreciation in fair value of investments, \$106,427 of interest and dividends related to the aforementioned investments, and \$9,762 of interest related to notes receivable from participants for the year ended December 31, 2022.

Notes to Financial Statements

Note 9. Excluded Contracts

The Plan Administrator may have excluded from investments certain annuity and custodial accounts that may have been issued to current and former employees without the Plan Administrator's knowledge prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the statement of changes in net assets available for benefits. U.S. GAAP requires that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan Administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related income and distributions because records relating to these are not available or do not exist.

Note 10. Subsequent Events

The Plan has evaluated subsequent events through October 11, 2023, the date the financial statements were available to be issued.

Independent Auditor's Report

To the Plan Administrator
St. Paul's School Defined Contribution Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform an audit of the financial statements of St. Paul's School Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 9 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America (U.S. GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Emphasis of Matter—Investments

As discussed in Note 3, the financial statements include an investment representing 16% and 14% of total assets as of December 31, 2022 and 2021, respectively, whose fair value has been estimated using unobservable inputs in the absence of readily ascertainable fair values. Our disclaimer of opinion is not modified with respect to this matter.

Responsibilities of Management

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to, and we do not express an opinion on the supplemental schedule referred to above.

St. Paul's School Defined Contribution Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of St. Paul's School Defined Contribution Retirement Plan (the Plan) is provided for general information purposes only. Further information about the Plan Document and benefit provisions is available from the Plan Administrator.

General: The Plan is a defined contribution plan qualifying under section 403(b) of the Internal Revenue Code (IRC). The purpose of the Plan is to enable eligible employees to save for retirement as well as to provide certain benefits in the event of death, disability, or other termination of employment. The Plan is for the exclusive benefit of eligible employees and their beneficiaries and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was implemented July 1, 1968.

Eligibility: The Plan covers all employees of St. Paul's School (the Plan Sponsor) who have attained age 21 and who are not otherwise covered by a collective bargaining agreement, excluding non-resident aliens, student employees, employees who are eligible to participate in another plan of the employer, leased employees, the Vice Rector for Faculty and the Dean of Chapel. Employees are also eligible to receive discretionary employer contributions after having completed one year of service at a qualified educational institution during which they worked a minimum of 1,000 hours. Effective July 1, 2021, employees are eligible to receive discretionary employer contributions immediately upon hire.

Contributions: The Plan allows participants the option to make pre-tax contributions (deferrals) to their employee accounts. The Plan does not permit deferrals in excess of the limits imposed by the IRC and other limitations specified in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified defined benefit or contribution plans. All newly eligible employees will be automatically enrolled with elective deferrals withheld in the amount of 3% unless indicated otherwise through a signed enrollment form. Employees eligible to participate in the Plan receive a discretionary employer contribution proportionate to a percentage applied to eligible wages, as defined by the Plan document, paid by the Plan Sponsor.

Participant accounts: Each participant's account is credited with the participant's deferral and allocation of: (a) the Plan Sponsor's discretionary contribution if any, and (b) Plan earnings, and charged with an allocation of any administrative expenses. Allocations are based on participant earnings or account balances as defined. The benefit, to which a participant is entitled, is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their deferrals plus actual earnings thereon. Effective July 1, 2021, a participant's account balance derived from employer contributions plus actual earnings thereon is subject to the following vesting schedule:

Years of Service	Vested Percentage
Less than 1	0%
1 or more	100%

Investment options: Upon enrollment in the Plan, participants may direct contributions into the registered investment companies, pooled separate accounts and fixed annuity contract offered through the Unified Trust Company. Participants with funds in TIAA-CREF may keep their funds in TIAA-CREF but may not make additional contributions through the Plan Sponsor to these accounts. Each participant has the ability to change his or her investment allocations at any time.

St. Paul's School Defined Contribution Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms can range from one to five years or up to 20 years for the purchase of a primary residence. The loans are secured by the vested balance in the participants accounts and bear interest at various rates which represent fixed rates determined by the plan administrator based upon the prevailing interest rates charged by persons in the business of lending money for loans. On December 31, 2022, the interest rates on loans outstanding ranged from 5.25% - 8.25%. Principal and interest is paid ratably through payroll deductions. In the case of termination of employment, the entire outstanding loan balance is immediately due and payable. Only one outstanding loan is permitted at a time for each participant.

Payment of benefits: The Plan provides for participants to withdraw funds upon attaining normal retirement age, or in the event of termination, death, or disability. Upon termination of service, participants may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, an annuity, or installments. Participants may also withdraw funds from participant contributions upon certain hardship situations, as defined by the Plan, or from all vested funds upon attaining age 59 1/2. Individual agreements governing certain investment options in the Plan may further restrict distribution of benefits.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements have been prepared in accordance with accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets generally accepted accounting principles in the United States (U.S. GAAP) to ensure net assets available for benefits and changes in net assets available for benefits are consistently reported. References to U.S. GAAP issued by the FASB in these footnotes are to the FASB Accounting Standards Codification (FASB ASC). The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: The Plan includes investments in registered investment companies, pooled separate accounts and fixed annuities with TIAA-CREF and Unified Trust Company (UTC), which are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. In the statement of changes in net assets available for plan benefits, the Plan presents the net depreciation in the fair value of investments, which consists of gains and losses on investments bought and sold as well as held during the year.

Use of estimates: Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Accordingly, actual results may differ from these expectations.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: For the year ended December 31, 2022, all reasonable expenses related to the plan administration were paid from Plan assets. Plan expenses include, but are not limited to, all reasonable costs, charges and expenses incurred in connection with the administration of the Plan. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

St. Paul's School Defined Contribution Retirement Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Income taxes: U.S. GAAP requires plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan has maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by federal, state or local tax authorities for fiscal years before 2019.

Note 3. Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of observable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies: The fair value of the registered investment companies offered by TIAA-CREF are determined based on the daily unit value published on NASDAQ. These funds are not traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the fund. The other registered investment companies are valued based on quoted market prices of the funds, when available. Investments in money market funds are valued at amortized cost on a daily basis, which approximates fair market value.

Pooled separate accounts: Valued daily using quoted prices which are based on the market value of the underlying real estate holdings. Real estate holdings are valued using external appraisals conducted by independent professionals.

Non-benefit responsive insurance annuity contract: Non-benefit responsive insurance annuity contracts are reported at contract value which approximates fair value (Note 4). This determination is based on TIAA-CREF's credit rating and yield during 2022 being comparable to similar alternative investments and the interest rate, which re-sets quarterly, being comparable to a ten-year treasury bond.

Note 3. Fair Value Measurements (Continued)

Fixed annuity contract: Valued at Net Asset Value (NAV) using market prices of underlying assets and audited financial statements rather than quoted prices in an active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021:

December 31, 2022	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 60,897,678	\$ -	\$ -	\$ 60,897,678
Pooled separate accounts	1,576,979	-	-	1,576,979

Total investments at fair value	<u>\$ 75,535,895</u>	<u>\$ -</u>	<u>\$ 14,719,833</u>	<u>\$ 103,561,068</u>

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available of benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2022 and 2021.

December 31, 2022	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period

Note 3. Fair Value Measurements (Continued)

The following table represents the Plan's Level 3 assets, the valuation techniques used to measure the fair value of those assets and the significant unobservable inputs and the ranges of values for those inputs.

Investment	December 31, 2022 Fair Value	Principal Valuation Technique	Unobservable Input	Range of Significant Input Values
TIAA Traditional Annuity Non-Benefit Responsive	\$ 14,283,187	Discounted cash flow Theoretical transfer (exit value)	Risk adjusted discount rate	3.70% - 6.25%
Investment	December 31, 2021 Fair Value	Principal Valuation Technique	Unobservable Input	Range of Significant Input Values
TIAA Traditional Annuity Non-Benefit Responsive	\$ 14,719,833	Discounted cash flow Theoretical transfer (exit value)	Risk adjusted discount rate	3.00% - 3.80%

Note 4. Non-Benefit Responsive Insurance Annuity Contract

The Plan has invested in an annuity insurance contract with TIAA-CREF, the TIAA Traditional Annuity Account (Non-Benefit Responsive). TIAA-CREF maintains the contributions in a general account for each contract. Investment contracts that are not fully benefit-responsive are included in the financial statements at contract value as reported by TIAA-CREF but are required by U.S. GAAP to be reported at fair value. TIAA-CREF has reported to the Plan that contract value approximates fair value for the investments as of December 31, 2022 and 2021.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, benefits will be provided as if all participants were then eligible for retirement.

Note 6. Transactions with Parties in Interest

The Plan Sponsor provides to the Plan certain accounting and administrative services for which no fees are charged. The employees that provide these services also are participants in the Plan. These transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered party-in interest transactions. However, under the provisions of ERISA these transactions meet the criteria for exemption, are not considered prohibited transactions, and do not need to be reported in the supplementary schedules of Form 5500.

The Plan invests in investments that are managed by TIAA-CREF and UTC. TIAA-CREF and UTC act as custodians (the Custodians) for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

Note 7. Risk and Uncertainties

The Plan provides for any combination of a variety of investment options. Investments are exposed to various risks, such as interest rate, credit and market. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amount reported in the statements of net assets available for plan benefits.

Approximately 43% and 40% of the Plan's investments are held in three investment accounts at December 31, 2022 and 2021, respectively. This is considered to be a concentration of credit risk.

U.S. GAAP requires the financial statements and supplemental schedule to present the fair value of investments, except for fully benefit-responsive annuity contracts. The traditional non-benefit responsive annuity contract has been presented at contract value, which approximates fair value, as reported to the Plan by TIAA-CREF. Annuities are valued based on a discounted cash flow model which uses 20 years of data to determine the blended return on TIAA Traditional Annuity contracts for the participant population. This return is compared to the risk-free rate of a ten-year treasury bond. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant, causing the financial statements to become materially misstated.

Note 8. Information Certified by the Plan's Custodians

The following is a summary of the Plan's asset information as of December 31, 2022 and 2021 included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Custodians that information provided to the Plan Administrator by the Custodians related to the following assets is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedules related to the following assets:

December 31,	2022	2021
Investments:		
Registered investment companies	\$ 60,897,678	\$ 73,969,181
Pooled separate accounts	1,576,979	1,566,714

Notes receivable from participants	<u>\$ 169,141</u>	<u>\$ 175,111</u>

The Custodians also certified to the completeness and accuracy of \$11,364,350 of net depreciation in fair value of investments, \$106,427 of interest and dividends related to the aforementioned investments, and \$9,762 of interest related to notes receivable from participants for the year ended December 31, 2022.

Note 9. Excluded Contracts

The Plan Administrator may have excluded from investments certain annuity and custodial accounts that may have been issued to current and former employees without the Plan Administrator's knowledge prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the statement of changes in net assets available for benefits. U.S. GAAP requires that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan Administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related income and distributions because records relating to these are not available or do not exist.

Note 10. Subsequent Events

The Plan has evaluated subsequent events through October 11, 2023, the date the financial statements were available to be issued.

Notes to Financial Statements

Note 7. Risk and Uncertainties

The Plan provides for any combination of a variety of investment options. Investments are exposed to various risks, such as interest rate, credit and market. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amount reported in the statements of net assets available for plan benefits.

Approximately 43% and 40% of the Plan's investments are held in three investment accounts at December 31, 2022 and 2021, respectively. This is considered to be a concentration of credit risk.

U.S. GAAP requires the financial statements and supplemental schedule to present the fair value of investments, except for fully benefit-responsive annuity contracts. The traditional non-benefit responsive annuity contract has been presented at contract value, which approximates fair value, as reported to the Plan by TIAA-CREF. Annuities are valued based on a discounted cash flow model which uses 20 years of data to determine the blended return on TIAA Traditional Annuity contracts for the participant population. This return is compared to the risk-free rate of a ten-year treasury bond. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant, causing the financial statements to become materially misstated.
