Independent Auditors' Report

To the Trustees of the
Hart Energy Publishing LLC 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Hart Energy Publishing LLC 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements

Management, having determined it is permissible in the circumstances, has elected to have the audits of Hart Energy Publishing LLC 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hart Energy Publishing LLC 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hart Energy Publishing LLC 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hart Energy Publishing LLC 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hart Energy Publishing LLC 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at end of Year), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Hart Energy Publishing LLC 401(k) Plan

Notes to Financial Statements – Modified Cash Basis Years Ended December 31, 2022 and 2021

1. Description of Plan

The following description of the Hart Energy Publishing LLC (the “Company”) 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan was established on April 1, 2004 and is a defined contribution plan covering all full-time employees of the Company and its wholly-owned subsidiary, Hart Energy Mapping and Data Services, LLC and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan was amended and restated on April 21, 2021, to reflect the latest prototype plan and adoption agreement.

The plan was amended on September 9, 2022 to include the provisions of Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”) and any related guidance (“CARES Act Amendment”). The CARES Act Amendment shall be effective beginning January 1, 2020.

Contributions

Each year, participants may elect to contribute up to 60% of their eligible compensation as defined by the Plan document, subject to limitations imposed by the Internal Revenue Code (“IRC”). Participants may defer and contribute up to a maximum of \$20,500 in 2022 of their annual salary. Participants who have attained age 50 before the end of the Plan year are eligible to make annual catch-up contributions of up to \$6,500 for the year ended December 31, 2022. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan requires automatic enrollment and an initial pre-tax deferral contribution of 3% to be made by newly eligible employees 35 days after the date of hire unless they elect not to make contributions. Effective January 1, 2020, participants who do not optout of the automatic enrollment will have that deferral increased annually by 1% as a pre-tax deferral contribution until a deferral rate of 10% is reached.

The Company determines each year a discretionary matching contribution to the Plan. The discretionary match is based on a participant’s prior year contributions to the Plan and eligible compensation. The matching contributions are recorded by the Plan in the year in which they are paid. The matching contribution for the years ended December 31, 2022 and 2021 amounts to \$66,515 and \$0 respectively.

Vesting

Participants are fully vested immediately in their contributions plus actual earnings thereon. Vesting in the Company’s matching contribution portion of their accounts is based on years of continuous service. Participants attain a vested interest in 20% of the Company’s matching contributions plus earnings thereon after one year of service and an additional 20% per year thereafter, until fully vested after completion of five years of service.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and Company matching contributions, as well as allocations of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Hart Energy Publishing LLC 401(k) Plan

Forfeitures

Under the Plan agreement, forfeitures of employer matching contributions shall first be used to pay administrative expenses under the Plan, if so directed by the Company. To the extent that forfeitures are not used to reduce administrative expenses under the Plan, forfeitures may be used to reduce future employer matching contributions. At December 31, 2022 and 2021, forfeited non-vested accounts available to pay future plan expenses or to reduce future employer matching contributions totaled \$8,470 and \$6,276, respectively. There were \$2,194 in new forfeitures and no forfeiture balance was used to reduce administrative expenses for the year ended December 31, 2022.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The terms of the loan cannot exceed five years unless for the purchase of a primary residence which can be up to ten years. Loans are repaid ratably through payroll deductions and monitored by the Plan administrator. Participant loans are valued at amortized cost plus accrued interest as of December 31, 2022 and 2021. A loan is collateralized by the balance in the participant's account and bears interest at rates commensurate with the prevailing rate, as determined by the plan administrator. As of December 31, 2022 and 2021, the interest rate charged was 5.25% per annum.

Payment of Benefits

A participant's vested interest in his or her account balance is distributable in a lump sum amount generally upon termination of service, disability, retirement, or death. Participants may withdraw from their individual accounts pursuant to specific guidelines as set forth in the Plan. Withdrawals from the Plan may also be made upon the circumstances of financial hardship.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements, while certain other expenses are paid from the forfeiture account. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation / (depreciation) of fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Presentation

The Plan reports on the basis of cash receipts and disbursements, except that investments are reported at fair value in the statements of net assets available for benefits – modified cash basis and changes in fair value of investments are reported as appreciation or depreciation in fair value of investments in the statement of changes in net assets available for benefits – modified cash basis. The modified cash basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("GAAP"). Had the financial statements been prepared under GAAP, receivables, payables, revenues and expenses would have been reflected in the period which they were considered earned or incurred.

Benefit Payments

Benefit payments are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in mutual funds are stated at fair value as measured by quoted prices in an active market. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines its valuation policies utilizing information provided by the trustee. See Note 4 on fair value measurements.

Hart Energy Publishing LLC 401(k) Plan

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Concentration of Credit Risk

Financial instruments which potentially subject the Plan to concentrations of credit risk are investments. The participants of the Plan direct their investments into mutual funds. A single investment company manages all 38 mutual funds. The Plan holds no collateral for these financial instruments.

Subsequent Events

Management evaluated subsequent events for the Plan through October 10, 2023, the date these financial statements were available for issuance. All subsequent events requiring recognition or disclosure have been incorporated in these financial statements.

3. Information Certified by the Plan's Trustee

All investment information and the notes receivable from participants disclosed in the accompanying financial statements including investments held at December 31, 2022 and 2021, and dividends and interest income, and net depreciation in fair value of investments for the year ended December 31, 2022, was obtained or derived from information prepared by Fidelity Management Trust Company, the trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained a certification from the trustee that such information is complete and accurate.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at December 31, 2022 and 2021.

- Mutual funds: Valued at the unadjusted daily closing price as reported by the fund, which represents the net asset value of the shares held by the Plan at year-end. The funds held by the Plan are deemed to be actively traded.

The following is the major category of assets measured at fair value on a recurring basis and summarized by the fair value hierarchy as described above.

Hart Energy Publishing LLC 401(k) Plan

Assets at fair value as of December 31, 2022, are as follows:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 10,151,992	\$ -	\$ -	\$ 10,151,992

Assets at fair value as of December 31, 2021, are as follows:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 13,437,529	\$ -	\$ -	\$ 13,437,529

5. Party-in-Interest Transactions

All Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. For the year ended December 31, 2022, fees paid to the trustee by the Plan for administrative services amounted to \$400.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend, alter, or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Tax Status

The Plan uses a prototype plan sponsored by the trustee. The trustee obtained its latest determination letter dated June 30, 2020, in which the Internal Revenue Service ("IRS") stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2019.

8. Risks and Uncertainties

The Plan's investments include mutual funds that invest in marketable equity securities. Such securities are subject to various risks that determine the value of the funds. Due to the level of risk associated with certain securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.
