The Field Museum of Natural History 403(b) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the financial statements of The Field Museum of Natural History 403(b) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021 and the related statement of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021 and for the years then ended stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

To the Plan Administrator and Participants
The Field Museum of Natural History 403(b) Plan

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audits* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

To the Plan Administrator and Participants
The Field Museum of Natural History 403(b) Plan

Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at end of year as of December 31, 2022 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Plan Description

The following description of The Field Museum of Natural History 403(b) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that provides benefits to all eligible employees of The Field Museum of Natural History (the "Company"), as determined according to the provisions of the plan agreement. The Plan is intended to be a qualified retirement plan under Section 403(b)(7) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Administration

The Plan is administered by the Company. Certain plan expenses are paid by the Company, with maintenance and processing fees paid by the participants, as provided in the plan document. The Company has appointed the following custodians of the Plan (collectively, the "Custodians"):

- Teachers Insurance Annuity Association of America (TIAA), an insurance company, and College Retirement Equities Fund (CREF), an investment company (collectively, TIAA-CREF)
- The Variable Annuity Life Insurance Company (VALIC)
- Commonwealth Annuity and Life Insurance Company (as administrator for Zurich American Life Insurance Company) (Zurich)
- Fidelity Management Trust Company (Fidelity)
- AIG Federal Savings Bank (AIG)

The Company stopped offering Fidelity, Zurich, and TIAA-CREF investment options to new participants for plan years beginning on or after January 1, 1998; January 1, 2006; and January 1, 2013, respectively. However, participants who were contributing funds to these providers were able to do so during their employment until December 31, 2012. The Company revised its plan offering for new contributions beginning on January 1, 2013. As of January 1, 2013, VALIC and AIG are the only custodians offered for new contributions.

Eligibility

All employees of the Company are eligible to participate in the Plan on their first day of employment. Entry dates into the Plan are the first of every month following employment.

Contributions

Participants may make pretax contributions to the Plan subject to certain Internal Revenue Service (IRS) limitations. Participants who have attained age 50 may make catch-up contributions in addition to their regular deferral contributions. Participants may also contribute, with the consent of the plan administrator, amounts representing distributions from other qualified retirement plans. Participant contributions are not subject to federal income tax until withdrawn. Contribution rates may be changed by the participant up to four times annually.

December 31, 2022 and 2021

Note 1 - Plan Description (Continued)

Employer contributions include three components: matching, discretionary, and transition contributions. A matching contribution is made on behalf of eligible employees in an amount equal to 50 percent of the first 4 percent of compensation a participant contributes for each pay period. A discretionary contribution may be made to eligible employees, who have reached age 21 and have completed one year of service, based on an amount approved by the board annually. This contribution is administered in the first quarter following the end of the plan year. For the 2022 plan year, a 3.5 percent discretionary credit for eligible employees was approved. There was a 4 percent discretionary contribution approved for the 2021 plan year. A transition contribution is provided to eligible employees who are former pension plan participants. Participants receive a 1 percent transition credit if the sum of their age and years of service as of December 31, 2014 is less than 60 or a 2 percent transition credit if the sum of their age and years of service as of December 31, 2014 is 60 or greater. Transition contributions are administered in the first quarter following the end of the plan year.

Vesting

Participants are fully and immediately vested in their voluntary contributions plus actual earnings thereon. Participants are also fully and immediately vested in the employer contributions plus actual earnings thereon.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer's contributions, and allocations of plan earnings and charged with an allocation of administrative expenses. Determination of the allocation methodology of these amounts is outlined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Plan Loans

Plan loans are available to participants through TIAA-CREF and VALIC subject to certain limitations. Plan loans issued by TIAA-CREF and VALIC are directly issued from the funds owned by the Custodians, and the loan proceeds are not removed from a participant's account balance. However, a portion of the participant's account is reserved, or held as collateral, to cover 110 percent of the outstanding loan amount for the period of time the loan is outstanding. As such, loans issued by TIAA-CREF and VALIC are not considered assets of the Plan.

As of December 31, 2022 and 2021, participants had outstanding plan loan balances due to TIAA-CREF of \$1,860 and \$3,955, respectively, and plan loan balances due to VALIC were \$67,745 and \$61,684, respectively.

Payment of Benefits

Except as permitted in the Plan, as related to excess elective deferrals, withdrawals of amounts rolled over into the Plan, or termination of the Plan, the amount distributed from a participant's account upon a participant's retirement, termination of employment, death, or disability may be in the form of a lump sum, partial payments, installment payments, or an annuity amount. Participants may also withdraw their deferral contributions in the event of financial hardship, as described in the Plan, or upon their attainment of age 59½. Certain amounts invested in the TIAA Traditional Annuity group contracts may not be distributed in a lump sum (see redemption restrictions below).

Hardship withdrawals shall be permitted under the Plan to the extent permitted by the individual agreements and in accordance with the provisions of §1.401(k)-1(d)(3)(iii)(B) and 1.401(k)-1(d)(3)(iv)(E) of the income tax regulations.

December 31, 2022 and 2021

Note 1 - Plan Description (Continued)

Redemption Restrictions

Certain contracts under the TIAA Traditional Annuity investment have limits on the ability of the participant to transfer or withdraw from the fund. Transfers from the Retirement Annuity (RA) and Transfer Payout Annuity (TPA) contracts must be paid out in 10 annual installments. Withdrawals from the RA contract must be paid out in 10 annual installments. The remaining contracts under the TIAA Traditional Annuity investment do not have restrictions related to transfers and withdrawals.

Transfers out of the VALIC Fixed Account Plus at contract value are limited to 20 percent of the account balance on an annual basis.

Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all accounts will be valued as of the termination date, and account balances will be distributed as a single lump-sum payment to each participant in accordance with plan provisions.

Party-in-interest Transactions

Plan investments include guaranteed investment contracts, mutual funds, variable annuities, and pooled separate accounts and are managed by the Custodians or their affiliates. Therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value except as noted below. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

The fully benefit-responsive portions of the guaranteed investment contracts with TIAA and VALIC are valued at contract value. Contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. See Notes 5 and 6 for further discussion.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Allocated Insurance Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. These contracts remain intact, and no additional contracts have been purchased. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Benefit Payments to Participants

Benefits are recorded when paid. There were benefit payments requested but not paid (due to redemption restrictions) totaling \$578, and \$1,129 for the years ended December 31, 2022 and 2021, respectively.

December 31, 2022 and 2021

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 26, 2023, which is the date the financial statements were available to be issued.

Note 3 - Certified Information

TIAA-CREF, Zurich, VALIC, AIG, and Fidelity hold the Plan's investments and execute all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Custodians.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

December 31, 2022 and 2021

Note 4 - Fair Value Measurements (Continued)

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

Variable Annuities

The variable annuities are valued at net asset value per share or its equivalent of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

Pooled Separate Accounts

The pooled separate accounts with Zurich are valued at net asset value per share (NAV) or its equivalent of the funds, which is based on the fair value of the funds' net underlying assets. The pooled separate account with TIAA is valued at net asset value per share or its equivalent of the fund, which is based on the fair value of the fund's underlying assets, which primarily consist of rental property subject to long-term leases, and has been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with risks involved. There are no redemption restrictions or unfunded commitments on these investments.

Guaranteed Investment Contracts

The guaranteed investment contracts with Zurich and a portion of the contracts with TIAA are not considered benefit responsive and are presented at fair value. The unallocated contracts invest in the general assets of the issuers; however, since there are no specific securities in the issuers' general accounts related to these contracts and due to the contract terms, including the frequency of the interest rate reset intervals, contract value approximates fair value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2022 and 2021:

- (2) This class represents investments in actively managed variable annuities that invest in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options and futures.
- (3) This class represents investments in variable annuities and pooled separate accounts that primarily invest in money market funds that seek high current income consistent with maintaining liquidity and preserving capital.
- (4) This class represents investments in actively managed pooled separate accounts with investments in real estate. The investments may include real estate property or real estate investment trusts.

Note 5 - TIAA Traditional Annuity Contracts

Based on the terms of the contracts, a portion of the TIAA Traditional Annuity is considered benefit responsive. The total balance in the TIAA Traditional Annuity was \$3,968,828 and \$4,010,905 at December 31, 2022 and 2021, respectively. The benefit-responsive portion of the TIAA Traditional Annuity totaled \$3,759,821 and \$3,782,900 at December 31, 2022 and 2021, respectively. The contract issuers maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a vintages approach. Under this methodology, TIAA groups the dollars it receives over defined time periods into vintages and determines a crediting rate for the applicable vintage. Interest crediting rates are determined during the accumulation phase of the applicable declaration year. When establishing interest crediting rates for this product, TIAA considers many factors, including the net investment earnings rate of the TIAA assets supporting that vintage, administrative expenses during the time period, and required contingency reserves. The minimum crediting rate for the benefit-responsive contracts is generally 3.00 percent; however, in some recent contracts, it has been between 1.00 and 3.00 percent.

December 31, 2022 and 2021

Note 5 - TIAA Traditional Annuity Contracts (Continued)

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract or that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

Note 6 - VALIC Group Annuity Fixed Accounts

The Plan has a benefit-responsive investment contract with VALIC. VALIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Interest is credited on contract balances using a single portfolio rate approach. Under this methodology, a single interest rate is applied to all contributions made to the product, regardless of the timing of those contributions. Interest crediting rates are reviewed on a semiannual basis for resetting. When establishing interest crediting rates for this product, VALIC considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account. The minimum crediting rate varies by participant and depends on the date the participant established his or her account. Participant accounts set up prior to December 1, 2003 have a minimum guaranteed rate of 3.00 percent, and accounts set up subsequent to that date are guaranteed 2.00 percent. Effective January 1, 2011, contracts issued to new participants have an indexed guaranteed minimum interest rate, which was 2.75 and 1.20 percent as of December 31, 2022 and 2021, respectively.

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

Note 7 - Tax Status

The Internal Revenue Service is not currently accepting applications for individual 403(b) plan determination letters. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of Internal Revenue Code Section 403(b). Therefore, no provision for income taxes has been included in the Plan's financial statements.
