Independent Auditor's Report

To the Participants and Benefits Committee
Scientific Protein Laboratories LLC 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Scientific Protein Laboratories LLC 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The ERISA-Required supplemental schedule of Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the ERISA-Required supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the ERISA-Required supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the ERISA-Required supplemental schedule, we evaluated whether the ERISA-Required supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the ERISA-Required supplemental schedule, other than the information in the ERISA-Required supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the ERISA-Required supplemental schedule agrees to, or are derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

1. Description of the Plan

The following brief description of the Scientific Protein Laboratories LLC (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). An eligible employee is defined as any employee of the Company or of the sister Company Mobren Transport, Inc. who is not a resident of Puerto Rico, covered by a collective bargaining agreement, a leased employee, a nonresident alien with no income from United States source, and an employee classified by the Company as a service worker or independent contractor. An employee becomes eligible to participate in the Plan immediately upon completing the eligibility requirements. The Plan's Benefits Committee is responsible for the oversight of the Plan. The Benefits Committee determines the appropriateness of the Plan's investment offerings and monitors performance. Fidelity Management Trust Company is the trustee of the Plan. On October 20, 2021, the Plan was amended and restated to remove the Trust Agreement to become a separate independent trust agreement without altering the substance thereof. There were no changes to the Plan's provisions as a result of this amendment and restatement.

Contributions

Each year, a participant may contribute up to 60% of pretax and after-tax compensation and up to 100% of after-tax compensation, as defined by the Plan, and up to the Internal Revenue Service (IRS) maximum and provided these contributions will be refunded to the participants. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contributions plans. The Company contributes matching contributions equal to a percentage of the participant's elective deferrals. The matching contribution was 50% of the first 6% of eligible compensation. In addition, the Company may make a discretionary profit sharing contribution at the approval of the Board of Managers. A participant must complete at least 1,000 hours of service during the Plan year and be employed on the last day of the Plan year to be eligible for the discretionary profit sharing contribution. The discretionary profit sharing contribution for the year ended December 31, 2022 were allocated to participants based on 2.0% of an eligible participant's compensation. Contributions are subject to certain limitations.

Participants Accounts

Each participant's account is credited with the participants contribution and allocations of (a) the Company's contributions; and (b) Plan earnings, which includes gains or losses of investments charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Scientific Protein Laboratories LLC 401(k) Plan

Notes to Financial Statements

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions portion of their accounts is based on years of continuous service. A participant vests 25% after two years of service, 50% after three years of service, 75% after four years of service, and 100% after five years of service.

Investment Options

Upon enrollment in the Plan, a participant may direct their accounts into a variety of investment choices as more fully described in the Plan agreement. Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan Administrator. Interest rates range from 4.25% to 7.25% for loans outstanding at December 31, 2022. Participants may request notes for any reason. Notes receivable are treated as a transfer between the investment fund and the participant's loan account. The length of the note will not exceed five years unless the note is used to acquire a personal residence, in which case such period shall not exceed ten years. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or termination, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, installments over a period of not more than the assumed life expectancy, or a partial withdrawal. A participant who has attained age 59½, but who has not terminated employment is entitled to have the balance of their participant contributions account paid to him or her subject to certain restrictions. A participant who has not terminated employment and has not attained age 59½ shall be permitted to make cash withdrawals to meet certain financial hardships.

Forfeited Accounts

At December 31, 2022 and 2021, the non-vested forfeitures account balance was \$4 and \$109, respectively. Forfeited non-vested accounts are used to reduce future Company contributions. During 2022, there were \$20,107 of forfeitures used to reduce Company matching contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Scientific Protein Laboratories LLC 401(k) Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of net assets, liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's realized gains and losses on investments bought and sold as well as unrealized gains and losses for investments held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivables from participants are reclassified as distributions based on the terms of the Plan agreement.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Administrative Expenses

The Plan absorbs various expenses including third-party administration fees. Fees are allocated proportionately to participants based on their respective account balances. Audit fees are paid by the Company. Management fees and operating expenses charged to Plan participants for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected in the financial statements. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments. Fees related to the administration of notes receivable from participants and benefit payments are charged directly to the participant's account are presented as administrative expenses on the statement of changes in net assets available for benefits.

3. Certified Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, a qualified institution and the trustee, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2022 and 2021.
- Investment income (loss) and interest income from notes receivable from participants as shown in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2022.
- Investment information included in the Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2022, as shown in the ERISA-Required supplemental schedule.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

4. Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value utilizing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liabilities has a specified (contractual) terms, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Scientific Protein Laboratories LLC 401(k) Plan

Notes to Financial Statements

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Registered Investment Companies

Shares of registered investment companies (RICs) are stated at fair value. Shares of RICs are valued at the daily closing price as reported by the fund. RICs held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. RICs held by the plan are deemed to be actively traded.

Common/collective Trust Fund

Common/collective trust funds are stated at fair value. These investments are reported at the NAV of units of the common and collective trust funds. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation which may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at NAV (1)				<u>2,560,155</u>
Total Investments at Fair Value				\$ 42,381,600

(1) *The investment in the Common/collective trust fund is measured at fair value using the net asset value per share (or its equivalent) as a practical expedient and has not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefit.*

Investments in certain entities calculate the net asset value per share as the investment's contract value measurement. The following tables provide an overview, by major category, of the nature and risks associated with such investments, as well as whether it's probable those investments will be sold at amounts different from their reported net asset value per share based on redemption restrictions, if any:

5. Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of registered investment companies and a collective investment trust managed by an affiliate of the trustee; therefore, these transactions qualify as party-in-interest transactions. Fees paid to the trustee relating to participant loans and distributions amounted to approximately \$1,650 and \$2,263 for the years ended December 31, 2022 and 2021, respectively.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Notes receivable from participants also qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants' accounts will become fully vested and non-forfeitable.

7. Tax Status

The Company adopted the Volume Submitter Profit Sharing Plan of Fidelity Management & Research Company (Volume Submitter Plan). The Volume Submitter Plan has received an opinion letter from the IRS as to the Volume Submitter Plan's qualified status. The Volume Submitter Plan opinion letter has been relied upon by this Plan. The Plan has been amended and restated from the version of the Volume Submitter Plan receiving the opinion letter. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely-than-not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect amounts reported in the Statement of Net Assets Available for Benefits.

Included in investments at December 31, 2022, are investments in the Fidelity 500 Index Fund, and Management Income Portfolio Fund 1, which individually and in the aggregate, represented 10% or more of total investments at December 31, 2022. Included in investments at December 31, 2021, are investments in the Fidelity Blue Chip Growth Fund and the Fidelity 500 Index Fund, which individually and in the aggregate, represented 10% or more of total investments at December 31, 2021.
