Independent Auditors' Report

Plan Administrator
The Ohio Art Company Employees' Retirement Income Plan
Bryan, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Ohio Art Company Employees' Retirement Income Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 30, 2022 and 2021, and the related statements of changes in net assets available for benefits and of changes in actuarial present value of accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 30, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Ohio Art Company Employees' Retirement Income Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Ohio Art Company Employees' Retirement Income Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Ohio Art Company Employees' Retirement Income Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Ohio Art Company Employees' Retirement Income Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 30, 2022, and the supplemental schedule of reportable transactions for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

THE OHIO ART COMPANY EMPLOYEES' RETIREMENT INCOME PLAN

***Notes to Financial Statements
December 30, 2022 and 2021***

Note 1. Description of Plan

The following brief description of The Ohio Art Company Employees' Retirement Income Plan (the "Plan") (formerly known as The Ohio Art Company Employees' Retirement Plan ("ERP")) is intended to give a general summary of its principal provisions. Participants should refer to the Plan Agreement for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a defined benefit pension plan covering all eligible employees of The Ohio Art Company (the "Company") and former employees of Strydel, Incorporated. Effective December 30, 2021, the Plan merged with The Ohio Art Company Retirement Income Plan ("RIP") with no changes to each Plan's provisions.

Effective December 31, 2007, RIP was amended to freeze participation and benefit accruals for non-union employees. Effective June 30, 2011, RIP was amended to freeze participation and benefit accruals for union employees. Effective December 31, 2007, ERP was amended to freeze participation and benefit accruals for all participants.

Pension Benefits

RIP Provisions - Employees with five or more years of credited service are entitled to pension benefits beginning at the normal retirement age of 65. Monthly pension benefits are determined based on a participant's number of years and completed months of benefit service immediately preceding retirement, not to exceed 30 years, multiplied by amounts varying from \$9.75 to \$20 for years and months of service for various periods as specified in the Plan Agreement. The Plan permits early retirement at age 55 with 10 years of credited service. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. If employees are terminated before rendering five years of service, they forfeit the right to receive any portion of their accumulated plan benefits. Employees whose employment is terminated for a reason other than normal retirement or death, but who have five years of credited service, will be entitled to receive a monthly deferred benefit for life commencing at their normal retirement date.

ERP Provisions - Employees with five or more years of credited service are entitled to pension benefits beginning at the normal retirement age of 65. Monthly pension benefits are determined based on a participant's number of years of service immediately preceding retirement, not to exceed 30 years, multiplied by the average of earnings during the highest five consecutive Plan years over the participant's last 10 years of service, multiplied by 1.2% as specified in the Plan Agreement. The Plan permits early retirement at age 60 with 10 years of credited service. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. If employees are terminated before rendering five years of service, they forfeit the right to receive any portion of their accumulated plan benefits. Employees whose employment is terminated for a reason other than normal retirement or death, but who have five years of credited service, will be entitled to receive a monthly deferred benefit for life commencing at their normal retirement date.

Note 1. Description of Plan (Continued)

Disability Benefits

RIP Provisions - Subject to conditions and limitations of the Plan, participants with at least 10 years of credited service are eligible for disability benefits only if the participant is eligible for disability benefits under the Social Security Act and became disabled while employed at The Ohio Art Company. The monthly disability benefit is determined based on the participant's accrued benefit plus \$9.75 multiplied by assumed additional years of service to a total of 25 years. If the participant attains age 65 and has not recovered from the disability, then the disability payment amount will continue to be paid in retirement.

ERP Provisions - Subject to conditions and limitations of the Plan, participants with at least 15 years of credited service are eligible for disability benefits only if the participant is eligible for disability benefits under the Social Security Act and became disabled while employed at The Ohio Art Company. The monthly disability benefit is determined based on the participant's accrued benefit. If the participant starts benefits before age 65, the benefit is reduced by 1/180 for each of the first 60 months and 1/360 for each of the next 60 months preceding age 65.

Note 2. Significant Accounting Policies

Basis of Financial Statements

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amount of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Accordingly, actual results may differ from those estimates.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. See Note 4 for more information.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the Custodian and Trustee. See Note 7 for discussion of fair value measurements.

THE OHIO ART COMPANY EMPLOYEES' RETIREMENT INCOME PLAN

Notes to Financial Statements (Continued)
December 30, 2022 and 2021

Note 2. Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Interest income is accrued as earned. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded as of the trade date. All investments of the Plan are selected by the Custodian as directed by the Plan Sponsor.

The Plan presents in the statements of changes in net assets available for benefits the net appreciation (depreciation) of the fair market value of its investments, which consists of the unrealized appreciation or depreciation of investments held during the period and the realized gain or loss on investments sold during the period.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in the net appreciation (depreciation) in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Subsequent Events

The Plan Administrator has evaluated events and transactions for possible recognition or disclosure through October 10, 2023, the date the financial statements were available to be issued. See Note 11 for a description of a subsequent event.

Note 3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

THE OHIO ART COMPANY EMPLOYEES' RETIREMENT INCOME PLAN

Notes to Financial Statements (Continued) December 30, 2022 and 2021

Note 3. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated plan benefits is determined by an actuary from USI and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The principal methods and assumptions used by the Plan's actuary are summarized below:

	<u>December 30, 2022</u>	<u>December 30, 2021</u>
Interest rates:		
Discount rate	6.00%	6.00%
Investment return	6.00%	6.00%
Mortality	RP-2006 Static Tables Projected by Scale MP-2017	RP-2006 Static Tables Projected by Scale MP-2017
Normal retirement age	65	65
Normal form of benefit:		
Single (RIP)	Life only annuity	Life only annuity
Married (RIP)	Joint and survivor annuity	Joint and survivor annuity
Single (ERP)	Life annuity - 60 month guaranteed	Life annuity - 60 month guaranteed
Married (ERP)	Joint and survivor annuity	Joint and survivor annuity
Asset valuation	Market value	Market value
Rate of return on plan assets	6.00%	6.00%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of December 31, 2022 and 2021. Had the valuations been performed as of December 30, 2022 and 2021, there would be no material differences.

Note 4. Funding Policy

Prior to the Plan amendments to freeze participation in the Plan, RIP participant contributions were withheld from earnings at a rate of four cents per hour worked up to 40 hours a week. Participants' accumulated contributions and interest at December 30, 2022 and 2021, approximated \$88,000 and \$107,000, respectively, including interest credited at an interest rate of 1.52% and 0.25%, respectively. There were no accumulated employee contributions payable due to terminated participants at December 30, 2022 and 2021.

THE OHIO ART COMPANY EMPLOYEES' RETIREMENT INCOME PLAN

Notes to Financial Statements (Continued)
December 30, 2022 and 2021

Note 4. Funding Policy (Continued)

The Company makes annual contributions to the Plan in an amount equal to or greater than the minimum amount required to meet the minimum funding standards of ERISA. Contributions from the Company are determined prospectively through actuarial valuations as of the beginning of the Plan year. As of December 30, 2022 and 2021, the Plan has met the minimum funding requirements of ERISA.

Note 5. Plan Termination

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it may do so at any time, subject to the provisions set forth in ERISA. Should the new Employees' Retirement Income Plan be terminated at some future time, all participants would become fully vested in benefits earned as of the termination date.

Pursuant to ERISA requirements, if a termination is the result of the bankruptcy or near-bankruptcy of the Plan's sponsor and the Plan's assets are not adequate to pay all benefits vested prior to the termination, the Pension Benefit Guaranty Corporation (PBGC) will take over the Plan and will pay those benefits which it guarantees. In this case, some participants may receive a smaller benefit than if the Plan had continued. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits (as described in the Plan) and the level of benefits guaranteed by the PBGC at that time.

If the Plan is terminated for any reason other than the bankruptcy or near-bankruptcy of the Plan's sponsor and the Plan has insufficient assets, the sponsor will be required to pay to the Plan an amount which together with plan assets will satisfy all benefits accumulated to the date of the plan termination.

Note 6. Information Certified by the Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the Trustee, Matrix Trust Company, and was not subjected to any auditing procedures performed by the independent accountants:

- a. Investment information shown in the accompanying statements of net assets available for benefits.
- b. Investment income, as shown in the accompanying statements of changes in net assets available for benefits, including interest and dividends, and net realized and unrealized appreciation or depreciation in fair value of investments.
- c. Schedule of assets (held at end of year) and schedule of reportable transactions.

THE OHIO ART COMPANY EMPLOYEES' RETIREMENT INCOME PLAN

Notes to Financial Statements (Continued)
December 30, 2022 and 2021

Note 7. Fair Value Measurements

Fair value measurements are based upon the exit price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants, and are determined by either the principal market or the most advantageous market.

Inputs used in the valuation techniques to derive fair values are classified based on a three-level hierarchy to prioritize the inputs used in the valuation techniques to derive fair values. The basis for fair value measurements for each level within the hierarchy is described below with Level 1 measurements having the highest priority and Level 3 measurements having the lowest priority.

- Level 1: Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.
- Level 2: Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3: Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable.

The asset's or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value. There have been no changes in the methodologies used at December 30, 2022 and 2021.

Exchange traded funds, money market funds, and mutual funds: Valued at quoted market prices, which represent the net asset values (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

THE OHIO ART COMPANY EMPLOYEES' RETIREMENT INCOME PLAN

Notes to Financial Statements (Continued) December 30, 2022 and 2021

Note 7. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 30, 2022 and 2021.

	Assets at Fair Value as of December 30, 2022			
	Level 1	Level 2	Level 3	Total

Total investments at fair value	<u>\$ 10,415,332</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 10,415,332</u>

Note 8. Income Tax Status

The Plan has received a favorable determination letter from the Internal Revenue Service, dated September 19, 2011, relating to the amendments adopted by the Plan effective January 30, 2011, and prior to the date thereof. The Plan has subsequently been amended. In the opinion of the Plan Administrator, the Plan and its underlying trust have operated within the terms of the Plan and should remain qualified under the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 30, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2019.

THE OHIO ART COMPANY EMPLOYEES' RETIREMENT INCOME PLAN

Notes to Financial Statements (Continued)
December 30, 2022 and 2021

Note 9. Transactions with Parties in Interest

The Plan invests in participation units of money market funds which are managed by J.P. Morgan Securities, the Custodian of the Plan. Transactions in such investments are considered to be with a party-in-interest.

The Company provides certain accounting, recordkeeping, and administrative services for the Plan for which it receives no compensation. Administrative expenses for legal, accounting, and other services are rendered by parties in interest and are paid by the Company.

Note 10. Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, the effect of such changes could be material to the financial statements.

The Plan provides for investment in various securities that are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 11. Subsequent Event

In July 2023, the Plan paid approximately \$2.3 million to United of Omaha Life Insurance Company to assume the annuities and benefit obligation for 123 participants. The statement of changes in actuarial present value of accumulated plan benefits for the year ended December 30, 2023 will reflect the decrease in the accumulated plan benefits.

Assumptions Made In Valuing Spouse's Benefit

Eighty percent of all employees included in the valuation are assumed to be married. This percentage is used as the probability that survivor benefits will be payable due to preretirement deaths. The wife is assumed to be three years younger than the husband.

Optional Form Selection

Former RIP:

5% of employees are assumed to elect the life annuity benefit. 95% of employees are assumed to elect the return of employee contributions with interest in the form of a lump sum, while receiving the remainder of their benefit as a life annuity.

Statement of Actuarial Assumptions and Methods (Continued)

Optional Form Selection (continued)

Former ERP

90% of benefits are assumed to be lump sums, with the remaining 10% being the normal annuity form.

Rationale: as selected by Plan Sponsor to meet historical experience.

Provision for Expenses

The expected non-investment related expenses expected to be paid from plan assets for the upcoming year were included in the Target Normal Cost for Minimum Required Contribution purposes.

Standing Elections

The client has not signed an election that provides for the automatic use of the Carryover and/or Prefunding Balance if necessary at the end of the plan year to meet the minimum funding requirement. The client also has not signed an election to automatically add the maximum amount possible to the Prefunding Balance.

Asset Method

Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.

Funding Method

Pure Unit Credit

The actuarial liabilities shown in this report are determined using software purchased from an outside vendor which was developed for this purpose. Certain information is entered into this model in order to generate the liabilities. These inputs include economic and non-economic assumptions, plan provisions, and census information. We rely on the coding within the software to value the liabilities using the actuarial methods and assumptions selected. Both the input to and the output from the model are checked for accuracy and reviewed for reasonableness.

Employees Valued

Only participants as of the valuation date were valued.

Statement of Actuarial Assumptions and Methods (Continued)

Changes in Assumptions and Methods since the Last Actuarial Valuation

The interest rates used for the former ERP at 12/31/2020 to determine the funding target were 4.75%, 5.50% and 6.27%. The interest rates used for the former RIP at 9/1/2021 to determine the funding target were 4.75%, 5.36% and 6.11%. These rates were updated to the rates required for the current plan year.

Justification for Changes in Actuarial Assumptions

The only assumption changes were to prescribed actuarial assumptions or as a result of At-Risk status. Therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any “Change in Actuarial Assumptions.”

Accrued Benefit (Continued)

If a participant has more than 30 years of service, the most recent 30 years will be taken into account when computing the benefit. Benefits were frozen as of December 31, 2007 for non-union employees, and July 1, 2011 for union employees.

Normal Retirement Benefit

Eligibility:

Age 65

Monthly Benefit:

The Accrued Benefit

Early Retirement Benefit

Eligibility:

Age 55 and 10 Years of Service.

Monthly Benefit:

The Accrued Benefit, starting at age 65, or starting immediately but reduced by 1/180 for each of the first 60 months and 1/360 for each of the next 60 months preceding age 65.

Disability Benefit

Eligibility:

10 Years of Service and eligible for Social Security disability benefits.

Monthly Benefit:

The Accrued Benefit, starting immediately, calculated as if the participant had at least 25 Years of Service. Actual benefit service earned will be credited with the appropriate benefit units, however any assumed benefit service that is given in order to total 25 years will be credited at the \$9.75 rate.

Former Retirement Income Plan

Summary of Principal Plan Provisions (Continued)

Termination Benefit

Eligibility:

Upon termination of employment prior to retirement after completion of at least five Years of Service.

Monthly Benefit:

The benefit commences in full at age 65 or, in a reduced amount, as early as age 55, in accordance with the early retirement provisions.

Death Benefit

If a vested active or former employee dies and has been married for at least one year on the date of death, his surviving spouse shall receive a monthly benefit for life commencing at the time the employee would have been eligible for retirement. The benefit is equal to 50% of the benefit vested on the date of death, adjusted as appropriate for early commencement and the 50% Joint and Survivor annuity form of payment. In no event will the value of benefits received be less than the employee contributions with interest. If a nonvested active employee dies, the beneficiary receives the value of the employee contributions plus interest.

Employee Contributions

Mandatory contributions equal to four cents for each hour worked, limited to 40 hours per week. Contributions are not required (1) while not participating in the plan, (2) for longer than 30 years, or (3) after reaching Normal Retirement Date. No contributions will be made after December 31, 2007 for non-union employees and July 1, 2011 for union employees.

Employee contributions will be credited with interest each year at 120% of the federal mid-term rate determined each September 1. For calculation purposes, when projecting from a determination date to Normal Retirement Date, the rate used will be the Applicable Interest Rate for July of the prior year.

A participant is always 100% vested in their employee contributions.

Normal Form of Benefit

Life Annuity for a single participant and an actuarially equivalent 50% Joint and Survivor for a married participant.

Former Retirement Income Plan

Summary of Principal Plan Provisions (Continued)

Optional Forms of Payments

Single Life Annuity – this form provides monthly payments during the participant's lifetime.

Joint & Survivor 50%, 67%, 75%, and 100% Annuity – This form provides reduced monthly payments during the participant's lifetime with monthly payments to the surviving spouse, or other beneficiary (67% and 100% only), after the participant's death equal to 50%, 67%, 75%, and 100%, respectively, of the amount paid during the participant's lifetime. The payments are the Actuarial Equivalent Value of the Life Annuity Form of Benefit.

Life Annuity with 60, 120, or 180 payments guaranteed – This form provides reduced monthly payment during the participant's lifetime with 60, 120, or 180 payments guaranteed to the participant's beneficiary. The payments are the Actuarial Equivalent Value of the Life Annuity Form of Benefit.

The conversion factors are based on GAR 1994 Mortality Table and an interest rate of 6% per annum.

Benefits Available as Lump Sums

The participant's employee contributions with interest are always available as a lump sum. The accrued benefit will be offset accordingly if this lump sum is elected.

The conversion factors are based on the Applicable Mortality Table and Applicable Interest Rate from the July preceding each valuation date as required under IRC Section 417(e)(3).

Funding of the Plan

Employer pays all cost.
