INDEPENDENT AUDITOR'S REPORT

To the Trustees and Participants of
Fisk Alloy Inc. 401(k) Savings Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Fisk Alloy, Inc. 401(k) Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Fisk Alloy, Inc. 401(k) Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Fisk Alloy, Inc. 401(k) Savings Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Fisk Alloy, Inc. 401(k) Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Fisk Alloy, Inc. 401(k) Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Part IV, Line 4(i) - Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF PLAN

The following description of the Fisk Alloy Inc. 401(k) Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s terms and provisions. The Plan is sponsored and administered by Fisk Holdings Inc. (the “Company”).

On December 31, 2020, Empower Retirement (“Empower”) acquired the retirement business of Massachusetts Mutual Life Insurance Company (“Mass Mutual”). Empower Annuity Insurance Company of America (“EAIC”), an affiliate of Empower, served as the custodian (“Custodian”) of the Plan as of and for the year ended December 31, 2022. Great-West Life & Annuity Insurance Company, also an affiliate of Empower, served as the custodian of the Plan as of December 31, 2021.

General

The Plan is a defined contribution plan established effective January 1, 1994. All non-union employees are eligible to participate in the Plan if they are an active employee that completes two months of service and have attained the age of 21. Non-resident aliens and leased employees are not eligible to participate in the Plan. After completion of the minimum service time, participation may only begin on the first day of the month following the date eligibility is satisfied, as defined in the Plan document.

Investments

The Plan’s participant-directed investment options are in pooled separate accounts or a guaranteed interest contract. Participants have the option of investing their contributions in one fund or dividing their investment into more than one fund.

Participant Accounts

Individual accounts are established for each participant. Each participant’s account is credited with the participant’s pre-tax contributions, the employer contributions, if any, and the proportionate share of dividends, interest and investment gains since the preceding valuation date. The participant’s account is reduced by withdrawals, losses on investments and any administrative expenses.

The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance. In the event of a termination, unvested account balances are forfeited by the participant and remain in the Plan to pay Plan administrative expenses or reduce future employer contributions. At December 31, 2022 and 2021, there was \$9,666 and \$9,334, respectively, of forfeitures available to pay Plan administrative expenses or reduce future employer contributions. The Plan used \$1,400 of forfeitures to pay for certain administrative expenses during the year ended December 31, 2022.

Contributions

Participants can elect to contribute up to 100%, less mandatory payroll deductions, of total compensation paid during the year, limited to the Internal Revenue Service (“IRS”) maximum allowance. The IRS maximum allowance was \$20,500 for 2022. Certain eligible participants (age 50 and older) can contribute an additional \$6,500 as a catch-up contribution, which results in total maximum pre-tax contributions of \$27,000 for 2022.

The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation until changed by the participant.

Fisk Alloy Inc. 401(k) Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

On an annual basis, the Company may choose to fund an additional non-elective matching and profit-sharing contributions to the participants. Total non-elective matching contributions for the years ended December 31, 2022 and 2021 were \$158,093 and \$136,529, respectively. There were no profit-sharing contributions for 2022 and 2021.

During 2021, certain highly compensated employees made contributions in excess of what was determined as allowable under non-discrimination rules. As a result, these participants were refunded a portion of their contributions in the subsequent year. Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The refunded amounts are reflected in the statements of net assets available for benefits as accrued excess contributions and totaled \$8,028 at December 31, 2021. The Plan distributed the 2021 plan year's excess contributions to the applicable participants prior to March 15, 2022. There were no accrued excess contributions at December 31, 2022.

Vesting

Each participant is fully vested in their contributions and investment gains (losses) thereon at all times. Profit-sharing contributions vest ratably over a three-year period. Non-elective employer matching contributions vest as follows over a four-year period: 20% upon two years, 40% upon three years and 100% upon four years.

Distributions

After participants reach age 59-1/2, they may withdraw all or a portion of their participant-directed account balance at any time and for any reason. Prior to age 59-1/2, in-service withdrawals from the Plan are allowed for financial hardships. Termination withdrawals result from disability, termination of employment, retirement, or death.

Distributions are paid directly to an eligible retirement plan specified by the participant (or designated beneficiary) in a direct rollover or to an Individual Retirement Account. Distributions can also be paid directly to the participant, if so elected. In addition, terminated employees with vested account balances in excess of \$1,000 may elect to leave their account balance in the Plan.

Notes Receivable from Participants

Effective April 1, 2018, the Plan was amended to eliminate the granting of participant loans. Loans established prior to this date continued to be administered by the Plan in accordance with the terms and provisions of the Plan document preceding the amendment until 2022 when the final outstanding loan was repaid.

Prior to April 1, 2018, participants were able to borrow from their participant-directed account balance, with a minimum loan amount of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Participants could only have one loan outstanding at any point in time and the term of the loan could not exceed five years. However, if the loan was for a principal residence, the loan may be repaid over a longer period of time. All loans were to be evidenced by a promissory note, and interest accrues at a reasonable fixed rate from the time the loan was originated. At December 31, 2021, there was one loan outstanding with an interest rate of 5.00%, with a maturity date in 2022. Principal plus interest on participant loans is repaid in equal installments through payroll deductions each pay period.

Administrative Expenses

The Company pays substantially all the expenses attributable to establishing, administering, and maintaining the Plan. Personnel and facilities of the Company have been used by the Plan for its accounting and other activities at no cost to the Plan. In addition, certain investment related fees have been reflected in conjunction with net appreciation (depreciation) in fair value of investments and are not readily determinable.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investment in pooled separated accounts is stated at fair value. Shares of pooled separate accounts are valued at the net asset value ("NAV") of shares held by the Plan and are based on the fair value of the underlying investments, as determined by the Custodian. The NAV is used as a practical expedient to estimate fair value.

The Plan's investment in the guaranteed interest contract is stated at contract value. The guaranteed interest contract is issued by the Custodian and is backed by the Custodian's General Account. No portion of the general account is attributable to the Plan nor does the Plan have an undivided ownership interest in the general account assets.

Investment income (loss), unrealized appreciation (depreciation) and realized gains (losses) for each participant directed investment fund are allocated to each participant in the same ratio that the participant's account balance in the fund bears to the total account balances for all participants in that fund. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. All expenses relating directly to the investments of the Plan are paid from the assets of the Plan and are included in net investment activity. Participant loan application and servicing fees are charged against the participants' accounts.

Notes Receivable from Participants

Notes receivable from participants are valued at their outstanding balances plus accrued interest.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan and the Company to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and additions and deductions to net assets available for benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Distributions

Distributions are recorded in the period in which they are paid to participants.

Fisk Alloy Inc. 401(k) Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the current world economy, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could significantly affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

3. FAIR VALUE MEASUREMENTS

The Plan's investments are recorded at fair value in accordance with the accounting guidance on fair value measurements. This guidance established a framework for measuring fair value and clarifies that fair value is an estimate of the exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (i.e., the exit price at the measurement date). The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The valuation techniques used by the Plan maximized the use of observable inputs and minimized the use of unobservable inputs. Investments that use NAV as a practical expedient to estimate fair value are excluded from the fair value hierarchy described above.

Following is a description of the valuation methodology used for assets measured at fair value.

Pooled Separate Accounts: Unit values are calculated on a daily basis by the Custodian for each separate account investment based on its underlying assets (individual mutual funds). The unit values reflect the NAVs of the shares held in the underlying investments. The NAV of the pooled separate account is used as a practical expedient to estimate fair value.

Fisk Alloy Inc. 401(k) Savings Plan
Notes to Financial Statements
December 31, 2022 and 2021

Each separate account is 100% invested in registered mutual funds with observable market inputs as published on recognized market exchanges. There were no significant unfunded commitments or restrictions on redemptions related to the pooled separate accounts as of December 31, 2022 and 2021.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments at fair value consist of pooled separate accounts, which are measured using NAV as a practical expedient for fair value, and total \$6,696,573 and \$7,623,601 at December 31, 2022 and 2021, respectively.

4. TAX STATUS

The Plan adopted a non-standardized pre-approved plan, designed and administered by the Custodian on behalf of the Company. The Custodian obtained an opinion letter from the IRS, dated June 30, 2020, stating that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the advisory letter, Plan management believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

The Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. In addition, there are no tax related interest or penalties reflected in these financial statements.

5. PARTIES-IN-INTEREST

Certain Plan investments are shares of pooled separate accounts and a guaranteed interest contract managed by the Custodian. In addition, certain investment fees paid to the Custodian and financial advisory fees paid to Merrill Lynch have been included within net appreciation (depreciation) in fair value of investments. Accordingly, these transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Custodian of the Plan has certified the completeness and accuracy of all investments and related investment activity and notes receivable from participants and the related interest income on the notes receivable from participants, in the accompanying statements of net assets available for benefits as of December 31, 2022, the statement of changes in net assets available for benefits for the year ended December 31, 2022 and the accompanying supplementary schedule of assets (held at end of year) as of December 31, 2022. Great-West Life & Annuity Insurance Company, an affiliate of Empower, has certified the completeness and accuracy of all investments and related investment activity and notes receivable from participants and the related interest income on the notes receivable from participants, in the accompanying statements of net assets available for benefits as of December 31, 2021.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule of assets (held at end of year).

7. INVESTMENT CONTRACT

The Plan offers a guaranteed interest contract provided and administered by the Custodian. Participant directed investments in this contract are directly invested in the general account of the Custodian. Under the terms of the group variable funding agreement, a minimum guaranteed interest rate of not less than 3% is established at the beginning of each quarter for which the invested participant accounts are credited. The investment option is considered to be fully benefit responsive. Participants may direct permitted withdrawal or transfer transactions of all or a portion of their account balance at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

As of December 31, 2022 and 2021, the contract value of the guaranteed interest contract was \$1,574,981 and \$1,845,667, respectively.

Certain events limit the Plan's ability to transact at contract value with the Custodian. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Company or other Company events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The Company does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

8. TERMINATION OF THE PLAN

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, the participants' accounts become fully vested. Any unallocated assets of the Plan shall be allocated to participants' accounts and distributed in accordance with Plan provisions.
