RSM US LLP

Plan Administrator and Plan Management
Cramer and Associates, Inc. Employee Stock Ownership Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Cramer and Associates, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate to the best of their knowledge.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter—Investment in Common Stock

As discussed in Note 2, the financial statements include an investment representing 55% and 57% of total assets as of December 31, 2022 and 2021, respectively, whose fair value has been estimated by an independent appraisal, in the absence of readily ascertainable fair values, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated value may differ significantly from the value that would have been used had a market for the investment existed, and the difference could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules of, Schedule H, Part IV, line 4i—schedule of assets (held at end of year) as of December 31, 2022, and Schedule H, Part IV, line 4j—schedule of reportable transactions for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Cramer and Associates, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Cramer and Associates, Inc. Employee Stock Ownership Plan (the Plan), provides general information only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and eligibility: Cramer and Associates, Inc. (the Company) established the Plan effective April 1, 1978. The Plan is a defined contribution plan covering all full-time employees of the Company, other than employees represented by a collective bargaining unit, who are age 18 or older and have completed one year of service in which 1,000 hours of service have been completed. Employees are entered into the Plan effective January 1 in the year eligibility requirements are met. The Board of Directors is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Plan amendment: The Plan was amended effective January 1, 2022, to change certain provisions of the Plan, including reducing initial eligibility requirements from two years to one year of service in which 1,000 hours of service have been completed, increasing the required minimum distribution age from 70.5 to 72 years old, and increasing the mandatory withdrawal limit upon termination from \$1,000 to \$5,000. Certain other Plan provisions were changed in accordance with the amended Plan document.

Employer contributions: The Company contributions are discretionary and are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the plan year. Eligible compensation is defined in the Plan document.

Participants' accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Accounts are nonparticipant directed. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances. Annually, at the end of the plan year, the Company will direct transfers between the participant's employer securities and the general investment accounts so that the percentage of each participant account invested in the employer securities is the same for active employees. Until the Plan Administrator determines that sufficient liquid assets are not available, the Plan will convert a terminated participant's account into cash as soon as feasible following the end of the Plan Year in which the participant terminated from service.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. During the year ended December 31, 2022, \$3,656 of distributions were related to participants electing to diversify.

Vesting: Participants are immediately vested in the Company's contribution.

Payment of benefits: Upon termination of service, a participant with an account balance of less than \$5,000 will be paid in a lump sum following the close of the plan year. Participants with account balances greater than \$5,000 may be paid out in annual installments over a period not exceeding five years as defined in the Plan document, subject to a minimum annual installment of \$75,000. All distributions will be made in the form of cash. At December 31, 2022, participants that had terminated employment had account balances totaling approximately \$1,167,000.

Cramer and Associates, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Put option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participants have the ability to ultimately obtain cash.

Voting rights: Each participant (under certain circumstances that are mandated by the Internal Revenue Code) (or a Beneficiary), has the right to direct the Trustee regarding the voting of such Employer Securities allocated to his/her Employer Securities Account with respect to any corporate matter which involves the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of trade or business or such similar transaction. The Trustee votes all shares of employer securities held by it in employer securities accounts for which it has received instructions from participants and beneficiaries in accordance with those instructions. The Trustee votes all shares of employer securities held by it for which it does not have instructions or directions from participants and beneficiaries, and all shares of employer securities on all matters with respect to which participants and beneficiaries are not entitled to vote, in accordance with the Plan.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Accounting estimates and assumptions: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The financial statements include Cramer and Associates, Inc. common stock valued at \$13,864,750 and \$14,308,422 at December 31, 2022 and 2021, respectively, whose value has been determined by an independent appraisal in the absence of readily ascertainable market values.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the trustee. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well held during the year. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: Management has evaluated subsequent events for potential recognition and disclosure through October 4, 2023, which is the date the financial statements were available to be issued.

Note 3. Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction on investment returns for such investments.

Note 4. Information Certified and Provided by GreatBanc Trust Company, the Trustee

The following is a summary of the Plan's asset information as of December 31, 2022 and 2021, and for the year ending December 31, 2022, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified by GreatBanc Trust Company, the trustee of the Plan. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and ERISA-required supplemental schedules related to the following assets:

	December 31	
	2022	2021
Investments at fair value:		
Common stock of Cramer and Associates, Inc.	\$ 13,864,750	\$ 14,308,422
Mutual funds	8,777,468	8,603,073

The trustee also certified to the best of their knowledge to the completeness and accuracy of \$272,116 of interest and dividends on mutual funds, \$2,058,849 of dividends on common stock, and (\$1,630,746) of net depreciation in the fair value of investments for the year ended December 31, 2022.

All assets of the Plan are nonparticipant-directed and all changes in Plan assets are detailed on the statement of changes in net assets available for benefits.

Note 5. Investment in Common Stock

Note 6. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, the Topic establishes a fair value hierarchy for valuation inputs that give the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. The level to which an asset or liability is classified is based upon the lowest level of input that is significant to the fair value measurements. There have been no changes to methodologies at December 31, 2022 compared to December 31, 2021.

Mutual funds: Mutual funds are reported at fair value based upon the quoted market price of the fund and are classified within Level 1 of the valuation hierarchy.

Common stock of Cramer and Associates, Inc.: The fair value of the common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. See description of the valuation method disclosed later in Note 6. These assets are classified within Level 3 of the valuation hierarchy.

Note 6. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

Fair Value Measurements at December 31, 2022 Using				
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Assets:				
Mutual funds	\$ 8,777,468	\$ -	\$ -	\$ 8,777,468
Common stock of Cramer and Associates, Inc.	-	-	13,864,750	13,864,750
Total	\$ 8,777,468	\$ -	\$ 13,864,750	\$ 22,642,218

Fair Value Measurements at December 31, 2021 Using				
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Assets:				
Mutual funds	\$ 8,603,073	\$ -	\$ -	\$ 8,603,073
Common stock of Cramer and Associates, Inc.	-	-	14,308,422	14,308,422
Total	\$ 8,603,073	\$ -	\$ 14,308,422	\$ 22,911,495

During the year ended December 31, 2022, the Plan collected its 2021 employer contribution receivable of \$630,000 through receipt of cash. There were no other purchases, issuances, or transfers of Level 3 assets or liabilities during the year ended December 31, 2022.

The following table represents the Plan's Level 3 financial instrument at December 31, 2022 and 2021, the weighting of valuation techniques used to measure the fair value of that financial instrument, and the significant unobservable inputs:

Description	Fair Value		Principal Valuation Technique			
	2022	2021	Methodology	Approach Weighting		Unobservable Inputs
				2022	2021	
Common stock of Cramer and Associates, Inc.	\$ 13,864,750	\$ 14,308,422	Independent appraisal: Asset approach: Net tangible asset value, adjusted	40%	40%	Fair value of Cramer and Associates, Inc.'s net worth
			Market based approach: Private market transactions	40%	40%	Long-term growth rate
			Income approach: Capitalized net income	20%	20%	Weighted average cost of capital
						Discount for lack of control
						Discount for lack of marketability

Note 6. Fair Value Measurements (Continued)

The fair value of the common stock of Cramer and Associates, Inc. held by the Plan is valued based upon an independent appraisal. In the appraisal, as of December 31, 2022 and 2021, the valuation is determined utilizing a weighted average between an asset-based approach (the net tangible asset value method), an income-based approach and a market-based approach. Using these methods, the fair value of the common stock on a controlling, marketable basis as of December 31, 2022 and 2021, is determined. From the controlling, marketable basis a discount for lack of control is applied. After the discount for lack of control is applied, a discount for lack of marketability is applied. After applying both discounts, the fair value of the common stock, on a non-marketable noncontrolling basis is determined.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8. Tax Status

Effective January 1, 2022, the Plan adopted a non-standardized form of a prototype plan sponsored by Nyemaster Goode, P.C. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter dated June 30, 2020, has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan follows the accounting guidance on accounting for uncertainty in income taxes. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 9. Related-Party Transactions

The Plan invests in Company common stock that qualifies as related party and party-in-interest transactions. GreatBanc Trust Company is the trustee of the Plan, therefore, transactions with the trustee qualify as party-in-interest transactions. Fees paid by the Plan to the Trustee totaled \$90,482 for the year ended December 31, 2022. The Company also paid certain administrative expenses of the Plan that are excluded from these financial statements.

Note 10. Risks and Uncertainties

Investment securities are exposed to various risks such as interest rate, market and credit risks. The Company's investment in the Company's common stock is subject to these risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
